1936

TO HIS HONOUR,

The Lieutenant-Governor of the Province of Ontario.

MAY IT PLEASE YOUR HONOUR:

The undersigned has the honour to present to your Honour, Report on the Operations of the Department of Lands and Forests for the fiscal period, April 1st, 1935, to March 31st, 1936.

PETER HEENAN,

Minister.

HONOURABLE PETER HEENAN,
Minister of Lands and Forests.

We have the honour to submit herewith a Report on the Operations of the Department of Lands and Forests for the fiscal period, April 1st, 1935, to March 31st, 1936.

W. C. CAIN,
Deputy Minister, Lands and Forests.

C. H. FULLERTON,
Surveyor-General.

MINISTER'S ANNUAL REPORT

TO END OF FISCAL YEAR, MARCH 31, 1936

STAFF CHANGES

Since the close of the last fiscal year a number of changes have been made by virtue of inter-departmental transfers, superannuations and resignations.

Among these will be noted the transfer of C. H. Fullerton, formerly Deputy Minister of Northern Development, to the post of Surveyor-General, vacated by L. V. Rorke after twenty-six years of valuable service to the Department. John Houser, formerly Chief Clerk in the Woods and Forests Branch, was superannuated on July 17th, 1935, after thirty years faithful service. Mr. Houser's demise since that date is regretfully noted.

Every effort has been made by the staff to meet the exceptional conditions of these trying times on our economic structure.

LAND TRANSACTIONS

The matter of policy with respect to administration of Crown Lands was mentioned in last year's report, and the advisability of rental propositions was mentioned in preference to permanent alienation. No clear cut line can be consistently laid down, but the circumstances surrounding each and every case must be the ruling factor within the law and regulations thereunder. As time goes on it becomes more and more obvious that every possible safeguard must be applied for the protection of the public interest in preventing speculation or other prejudice to the rights of the public in Crown Lands and privileges thereon. For these and similar reasons it is necessary to carefully scrutinize all angles of the applications received in order that the Department may realize the true values from the land entrusted to its care.

The bulk of the land transactions takes place in Northern Ontario because of the fact that in the older parts of the Province the lands have been mostly taken and passed from the Crown during the past one hundred years. There are still Crown Lands for the most part suitable only for reforestation or summer resort activities. The development of the North is proceeding, however, and new discoveries of precious metal are steadily increasing the Northern population and market for agricultural products and manufactured goods.

As compared with the fiscal year preceding the last five month fiscal period, the total acreage sold and leased as shown in Appendix 3 is considerably reduced, but at the same time it will be noted that collections increased principally through Crown Leases.

Appendix No. 12 indicates that the total area of Free Grant lands located increased, but cancellations of locations exceed the increase by over 16,000 acres.

Disposal of Sale lands, which are covered by Appendix No. 13, has fallen off about 25%, but cancellations remain about the same as they were for the fiscal year ended October 31, 1934.

The comparative figures in land transactions recently, whether Sale or Free, are as follows:

<i>Year</i>	<i>Sales</i>	<i>Free Grants</i>
1932-33.....	917	602
1933-34.....	956	416
1935-36.....	683	478

Transactions in Summer Resort sites and Townsite lots have been normal.

Classified totals covering land transactions of different natures appear in Appendices No. 12 and No. 13, together with details and component figures.

Sales and Free Grants in comparison with previous fiscal years appear as follows:

SALES

	1932-33	1933-34	1935-36
Algoma.....	11	10	10
Cochrane.....	595	591	443
Kenora.....	14	16	8
Nipissing.....	11	15	13
Sudbury.....	72	76	78
Temiskaming.....	113	113	85
Thunder Bay.....	39	39	15
Sundry.....	62	100	31
	—	—	—
Totals.....	917	956	683

FREE GRANTS

	1932-33	1933-34	1935-36
Algoma.....	2	2	3
Kenora.....	56	62	102
Nipissing.....	47	36	57
Sudbury.....	134	60	38
Parry Sound.....	34	24	35
Thunder Bay.....	136	77	74
Muskoka.....	46	10	20
Rainy River.....	110	110	106
Sundry.....	37	35	98
	—	—	—
Totals.....	602	416	533

The total for 1935-36 includes 55 locations to Returned Soldiers of Sale lands.

These figures reflect what might be regarded as an alarming decrease in sales and locations for the fiscal period, but it must be remembered that economic conditions have been unfavourable. No Relief Land Settlers were placed in 1935-36, and the rigid enforcement of the regulations covering exploitation of pulpwood on settlers lots has been responsible for elimination of applicants who were not bona fide.

It has furthermore been found necessary to give very close and careful scrutiny to assignments of settlers' lots to defeat the sinister purposes of those who were more interested in the pulpwood than in agricultural production. This particular thought also applies to cases where applications have been declined for lots too far from existing roads. It is readily admitted that the settler needs and is entitled to some reasonable revenue from such timber or wood as is on his lot, but the regulations are so designed as to prohibit and prevent stripping of the wood without the necessary improvements as provided by the Public Lands Act.

A list of Crown Lands Agents and Homestead Inspectors appears in Appendix No. 2.

RELIEF LAND SETTLEMENT

Early in 1932 the Federal Government passed "The Relief Act, 1932" under and subsequent to which Relief Land Settlement was provided for. Participation was made available to all Provinces in the Dominion. In Ontario, as a result, an Agreement was executed between the Federal and Provincial Governments, which expired in March 31, 1934. This Agreement was followed by another, which expired March 31, 1936. Under these Agreements, which were provided for in the Relief Act, 1932, and supported by Provincial Legislation in Geo. V., Chap. 55, 1933, and Geo. V., Chap. 63, 1935, provision was made for the work with a view to providing suitable qualified families with an opportunity to become self-sustaining on the land. By virtue of the same, the Dominion, Provincial, and Municipal Governments involved were required to provide one-third each of a fund of \$600.00 per accepted family, the Province bearing the cost of administration. In exceptional cases, provision was made whereby an additional \$100.00 would be available for such families as qualified for the same on the same basis. In Ontario, however, no advantage was taken of this provision.

As a result of the first Agreement, the Relief Land Settlement Committee was formed, in accordance with the same. This Committee was responsible for the selection of properly qualified families from Municipalities participating. The families so selected were placed in Thunder Bay District, in the vicinity of Kapuskasing, Cochrane, Matheson, and elsewhere, as shown herein. As the Agreements prohibited the use of any part of any family's fund for the purchase or rental of land, Crown lands were used for the most part and an average application of this fund was approximately as follows:

Transportation, personnel and effects.....	\$ 80.00
Housing (many of the cabins of logs).....	100.00
On account of Maintenance first year.....	120.00
On account of Maintenance second year.....	100.00
Livestock and Equipment.....	200.00

Total expenditure provided..... \$600.00

In some cases privately owned land was used and title obtained by agreement for sale with payments thereunder suspended for two years. This method, however, while in certain respects apparently desirable is subject to disadvantages.

As a result of the prosecution of the work, which was dealt with in the Departmental Reports for 1932, 1933, and 1934, there were Relief Land Settlers on the land with their families, as follows:

	<i>Families</i>	<i>Souls</i>
At the end of 1932.....	184	1062
1933.....	329	1763
1934.....	499	2480
1935.....	472	2342
March, 1936.....	465	2325

Those placed as Relief Land Settlers and remaining on the land at the close of the fiscal year as above were distributed in districts and under supervision as follows:

<i>Supervisor</i>	<i>District</i>	<i>Number</i>
Fryer.....	Monetville.....	10
Greenwood.....	North Bay.....	4
Hough.....	Matheson.....	97
Hutcheon.....	Holland Marsh and elsewhere..	20
Jewell.....	New Liskeard.....	61
Masse.....	Kapuskasing.....	51
Russell.....	Port Arthur.....	139
Sprague.....	Cochrane.....	77
Sundry.....	Dryden; Sudbury; Markstay; South River.....	6

Total remaining on the land..... 465

By comparison with the 1934 Departmental Report and the March 31, 1936, Departmental Report, the number of settlers abandoning the plan in 1935 and the first three months of 1936 is readily established.

The reasons given for abandonment have varied. In odd cases it has been due to re-employment. The remainder were due to illness of one of the parents, laziness, shiftlessness, loss of home and effects by fire, inability to agree with neighbours, improvidence, domestic difficulties, and similar reasons.

The livestock holdings, crop, and other production and areas held, cleared, and cultivated by the Relief Land Settlers dealt with herein are covered by

<i>Stock</i>	New Lisk.	Math.	Coch.	Kap.	Thunder Bay	Misc.	Total
Horses.....	64	88	46	34	79	14	325
Cows.....	77	93	71	45	138	25	449
Calves.....	65	72	51	19	84	18	309
Pigs.....	52	22	20	15	86	27	222
Oxen.....	5	25	3	6	39
Sheep.....	39	1	1	41
Goats.....	17	5	3	2	27
Poultry.....	1,319	1,252	1,156	1,056	4,465	448	9,696
<i>Feed</i>							
Green Feed—tons..	712	186	627	238½	859½	168½	2,791½
Root Feed—bags...	2,057½	564	851	350	1,418	28	5,268½
<i>Vegetables and Grain</i>							
Potatoes—bags....	2,396¼	2,135	2,732½	2,107	5,041	452½	14,864¼
Other Veg.—bags...	547	466	546½	325	1,543½	80	3,508
Grain—bushels....	5,255	1,824	2,361	525	1,638	534	12,137
<i>Produce</i>							
Milk—Gals.....	37,050	46,465	22,788	5,995	48,265	11,339½	171,902½
Butter—Lbs.....	10,657	5,189	4,119	1,602	14,552	2,762	38,881
Eggs—Doz.....	6,967	3,364	4,010	3,451	23,633	1,301	42,726
<i>Wood Sold—Cords.</i>	960.65	1,787	961.39	3,962.35	10,902.15	3,955.37	22,528.91
<i>Total Area Held by Settlers—Acres...</i>	5,403.12	7,970.35	6,034.75	4,162.50	9,542.35	3,065.66	36,178.73
<i>Area Cleared—Acres</i>	708.50	749.	848.	367.	1,292.	294.	4,258.50
<i>Area Cultivated— Acres.....</i>	549.	559.	648.	223.	1,206.	250.	3,435.

Comparison of this with figures which appeared in last year's report will indicate substantial increases in the number of head of livestock and poultry. Nearly one thousand acres of new land have been cleaned up and there is a corresponding increase in the area under cultivation by these people which, it will be noted from the foregoing, aggregates 3435 acres, a matter of between five and six square miles.

In all, 600 Relief Land Settlers received transportation from the inception of the work until its suspension. Of these, 42 returned without any attempt to settle. The remaining 93 returned from time to time for reasons already given.

Insofar as returnees are concerned, the following table is of interest:

	1932	1933	1934
Returned without locating.....	10.6%	4.0%	1.4%
Returned after locating.....	26.5	10.8	10.9
Remained on land.....	62.9	85.2	87.7

In 1932, 10.6% of those who received transportation made no attempt whatever to become established and within a few days of departure returned

to their Municipalities. This class was much reduced in 1933 by careful selection of suitable families and practically eliminated in 1934.

A number of Relief Land Settlers were placed on privately owned land under approved agreements for sale. Many were placed in organized townships. The following gives the figures with respect to those remaining:

Placed on private land.....	136	
Placed on Crown land.....	329	465
<hr/>		
Placed in organized townships.....	191	
Placed in unorganized townships.....	274	465
<hr/>		

As intimated in last year's report, it is too early to predict or venture an opinion as to the success of the movement. Until the Relief Land Settler has faced the conditions of pioneer life successfully and strictly on his own resources, it would be unjust to all concerned. That he has been given the opportunity and how he has commenced the battle for economic independence, is partly portrayed by the figures herein.

The effect that returning prosperous conditions will have on the Relief Land Settler remains to be seen. Officials have reported that the sense of ownership, even though it be only potential, is prized by these people. They certainly reflect better health than they did under former conditions in urban communities. They have no fuel or rent problems. They have ready tasks at hand for all members of the family. They have an abundance of fresh air and plenty of room. Their immediate future depends on personal qualities of fortitude and determination applied to local conditions.

PROVINCIAL LAND TAX ACT

Under Section 18, Chap. 30, R.S.O. 1927, provision appears for forfeiture of privately owned lands in unorganized Districts for non-payment of the modest levies imposed under the Provincial Land Tax Act. Many properties in more or less remote locations in unorganized territory are subject to this tax, and for the most part the obligations in connection with the same have been promptly met. A number of such properties, however, have lain dormant, and the tax has not been paid in spite of every reasonable effort made to collect. The Collector, consequently, has been and is engaged with the prescribed procedure to the end that such properties as are in default may be taken over by the Crown and be dealt with as the situation may warrant. A considerable number of forfeitures have already been effected.

SUMMER RESORT LANDS

The steadily increasing number of inquiries, particularly from residents of the United States seeking summer home sites, seems to be an indication of gradually returning good times and reflects increasing knowledge of the exceptional possibilities in Ontario.

Details of transactions during the past year appear in Appendix No. 13.

PROVINCIAL PARKS AND TEMAGAMI ISLANDS

Excellent progress was made during the year in the various services offered to the holiday seeker and the tourist. Increased traffic to and through the three Parks as well as Temagami Lake, reflect an ever growing interest not only to the residents of Ontario, the people of Canada, but American citizens in growing numbers who are visiting these vast reserves each year.

The distinctive feature in connection with Algonquin Park was the completion of the Highway from Dwight to Park Headquarters, a distance of approximately 22 miles which tapped a number of very attractive lakes, connecting with one or two popular canoe routes and made the Park accessible by Highway, thereby increasing the popularity of its advantages to the motor travelling public. This roadway is being extended in an easterly direction from Park Headquarters connecting with an old logging road from Lake Opeongo and eventually coming out at Whitney where it will connect with other Provincial Highways. The work of landscaping the grounds at Headquarters has done much to enhance the natural setting on the shore of Cache Lake. A distinctive feature during the year was the commencement of a biological research on fish under the direction of Professor W. J. K. Harkness of Toronto University and Professor J. R. Dymond of the Royal Ontario Museum. During the year 10½ miles of new trails were cut and cleared, 100 miles of old roads cleaned out and several long stretches of Park boundaries blazed and opened. With the co-operation of the Department of Game and Fisheries, five lakes were re-stocked and a distinctive added feature was the releasing in the Park of ten Elk taken from the Petewawa Game Preserves.

As a delightful, centrally situated well equipped picnic, recreation and amusement Park spot in Kent County, Rondeau affords an ever increasing attraction. Its beautiful shaded Park Highways, and its many miles of sand beaches are some of the attractions to an increasing number of Summer cottagers many from Detroit and adjacent American cities.

The excess number of wild deer which were becoming a menace to the natural reforestation in the Park made it necessary to reduce them by about one-third during the Hunting season and similar procedure may follow annually in order to maintain the young tree growth—one of the original purposes of the establishment of the Park.

In Quetico Park with its million acres of virgin area, an increase of tourist traffic is manifest, particularly from the neighboring State Park. Its scenic canoe trips with very few and unusually short portages are attractions to canoe parties and fishing groups, and as a rendezvous for inveterate fishermen it has few equals. A few tourists are securing leases for Summer Homes and a generally increasing interest in the Park is being shown.

Among the Temagami Islands there has been an increasing tourist traffic. Commercial Camps show an increase in business and fishing generally is reported good. Summer residents continue to lease areas on the Islands and several beautiful cottages are being erected.

In addition to promotion of tourist traffic and the pleasure afforded our Canadian citizens, the Provincial Parks afford facilities for various forms of recreation and sport.

TIMBER ADMINISTRATION

In the last previous Departmental report bush operations, reduction in dues, industrial disturbances affecting bush operations, licenses and the Woodmen's Employment Act were dealt with at length and the reasons for changes made were stated.

During the twelve month period, which ended October 31, 1934, the area recorded under timber license was 10,407 square miles. For the twelve month period ending March 31, 1936, the area covered by timber license was 13,300 square miles. During the former year but nineteen sales under public competition were made as shown in Appendix 11. In the latter year sales were consummated to the number of eighty. The total of accruals for timber and wood cut in 1933-34 was \$1,637,710.25. For 1935-36 it was \$2,342,105.38. This increase of 43% reflects the increased cutting of all species and classifications shown in Appendix 8. Appendix 9 shows other relative items which increase the total timber revenue to \$2,475,078.69 for the year.

The increase in Revenue from forest resources is gratifying. Apart from Departmental revenue it indicates pay rolls and relative effect in economic conditions. Related to actual mill yard stocks it indicates a healthier market. The indications are that prices will improve and the index of retail sales will increase. There has been an uptrend since the beginning of 1936, and there is no reason to assume that this will not continue.

The value of the Departmental contacts under the Woodmen's Employment Act is evident in the smooth working of bush operations throughout the Province. Active and Sympathetic Co-operation between the Department of Labour and that of Lands and Forests is proving effective.

Exports of pulpwood are approximately the same as in the last previous twelve month fiscal period. The total for 1933-34 was 287,069 cords and that for 1935-36 was 283,679 cords.

The number of camps, operators and directly employed in the camps during recent years is as follows:

	<i>Operators</i>	<i>Camps</i>	<i>Employees</i>
1932-33.....	110	214	4,852
1933-34.....	149	282	11,184
1934-35.....	174	406	14,550
1935-36.....	178	410	17,543

BUSH OPERATIONS

The stumpage reductions in log timber made in the fall of 1934 to stimulate trade and induce employment were to show their effect during the operating season of 1934-35, but the changing of the fiscal year at the end of October 31st, 1934, provided for only a five months' record in the last report issued. Such period in no way afforded any reasonable chance of drawing comparisons on a yearly basis because the timber records were not then returnable. The slight quantities covered in that 5 months' period could quite justifiably be

considered as part of the operations for which the present report shows the figures. That there may not be any misunderstanding, it may be remarked that the quantities shown in the last report comprised approximately 3,410,000 feet Board Measure of log timber for lumber, 6,000 ties and 15,000 cords of pulpwood. For the twelve months period ending March 1st, 1936, which includes the lumber cut in the winter of 1934-35 and the summer of 1935, exclusive of the small quantities mentioned, there was cut 170,000,000 feet of log timber, or 85% greater than the records disclosed in the report for the fiscal year ending October 31st, 1934. Ties increased from 436,000 to 753,000, while pulpwood accounted for 604,587 cords, or 100,000 cords in excess of the year previous.

These active operations played an important part in re-establishing thousands of men in gainful employment, reducing the relief lists and restoring a declining morale amongst the returning workers and their dependents.

The figures cited above of workmen engaged give an idea of the renewed activities in the Ontario Forests and justify a more buoyant hope for the future success of that robust type of worker upon whom the lumbering interests must so largely depend.

In recognition of the substantial response of the operators to the encouragement granted by the stumpage reductions, the Government has temporarily continued the concessions, and the expectations are that the activities during the coming season of 1936-37 will proceed unabated. There is a noticeable tendency towards a growing demand for building material, and as the storage or carrying yards of numerous dealers were largely depleted and unbalanced for some years they are now being gradually replenished. The prospects for a continuing, if not enlarged foreign market are brighter and with a general upward movement of the trade pendulum, both domestic and foreign, the lumber business has just grounds for counting on a fair recovery.

With legislative authority for the re-allocation of pulpwood concessions it is hoped to retrieve extensive areas of spruce, balsam and other types of pulpwood and provide for bringing them into productive operation.

To provide additional opportunities of cutting pulpwood and of prompting bonafide operators to locate export markets and to assist home manufacturers, the Crown dues on spruce were reduced by forty cents a cord and the right to export the wood was granted under certain well defined conditions. The inquiries already made and the interest manifested in the possibility of acquiring cutting rights on areas likely to be resumed by the Crown are evidences that no difficulty will be experienced in bringing into productive life rich areas that have lain dormant so long and that should now be harvested. Under amicable arrangements effected with different concessionaires cutting is proceeding on areas which hitherto have been entirely idle, and with the stabilizing process in connection with the newsprint industry reaching an accomplished fact the operations for pulpwood on a large scale and the development of incidental industries will have a beneficial effect in a variety of ways upon the Province as a whole.

Copies of Orders-in-Council dated March 23rd, 1935, and July 24th, 1935, dealing with the suspension of the manufacturing conditions as provided by Crown Timber Act follow.

Copy of an Order-in-Council approved by the Lieutenant-Governor, dated the 23rd day of March, A.D. 1935.

The Committee of Council have had under consideration the Report of the Honourable M. F. Hepburn, Acting Minister of Lands and Forests, wherein he states that:

The general policy of the Government in its desire to protect and foster home industry is such that the exporting of pulpwood has to a great extent been prohibited. The Crown Timber Act provides that all sales of pulpwood shall be made subject to "The Manufacturing Conditions" which in effect prohibit exportation of raw and unfinished pulpwood. Section 9 of the said Crown Timber Act, however, provides that the Lieutenant-Governor in Council may suspend the operation of "The Manufacturing Conditions" for such period as he may deem proper and as to any district or districts which he may define so as to permit the exportation of pulpwood during such period and from such district or districts.

In consequence of the continued unemployment situation obtaining in the pulpwood and lumber industry due to the restricted industrial activities in the pulp and paper business and the paucity of local consumption of pulpwood for newsprint, the Acting Minister is of the opinion that some move should be taken in the direction of creating labor opportunities that will assist in the employment of men now out of work and on Government relief.

The Acting Minister recommends that the Minister of the Department of Lands and Forests be authorized to suspend the manufacturing conditions so as to permit the exportation from any district in the province of Ontario of the pulpwood cut or to be cut by any duly authorized pulpwood operator during the operating season of 1935-36 provided such pulpwood operator has submitted for the approval of the Minister and the latter has approved of a contract for the purchase of the said pulpwood and has approved of the prices and the terms and conditions relative to the said purchase. The suspension of the manufacturing conditions is to be made subject to the imposition of such terms and conditions as the Minister may deem proper.

In addition to the charges payable under the license or right to cut, the operator will be charged an export charge of 25 cents a cord on the quantities exported.

All pulpwood to be exported under and by virtue of the authority recommended to be granted hereunder shall be subject to the production of evidence satisfactory to the Minister, to be furnished before shipment clearance is granted, that the pulpwood will not be used in the production or manufacture of newsprint nor will it be used in the production or manufacture of pulp to be used for the production or manufacture of newsprint.

Local labour must be used in connection with the work of cutting or preparing the pulpwood for export and the wages paid must be fair and reasonable and satisfactory to the Minister.

The Committee of Council concur in the recommendation of the Honourable M. F. Hepburn, Acting Minister of Lands & Forests, and advise that the same be acted on.

Certified,

C. F. BULMER,
Clerk, Executive Council.

ONTARIO
EXECUTIVE COUNCIL OFFICE

Copy of an Order-in-Council, approved by The Right Honourable the Administrator of the Government of the Province of Ontario, dated the 24th day of July, A.D. 1935.

The Committee of Council have had under consideration the report of the Honourable the Minister of Lands & Forests, wherein he states that,

By Order-in-council dated the 23rd day of March, 1935, the Minister of Lands & Forests was authorized to suspend the manufacturing conditions so as to permit the exportation of pulpwood under certain conditions particularly set forth in said Order-in-Council. As a result of representations made by certain of the larger pulpwood operators in the Province before the Honourable the Prime Minister and certain members of the Cabinet, the Minister recommends that the said Order-in-Council of the 23rd day of March, 1935, be varied and supplemented as follows:—

(a) That he be authorized to treat with the Provincial Paper Company Limited and any other pulpwood concessionaire in the Province of Ontario for the purpose of enabling those pulpwood operators who are in possession of contracts for the sale of export pulpwood to operate on the concession of the said Provincial Paper Company Limited or upon the concession of any other pulpwood concessionaire upon such terms as may be mutually agreed upon between such concessionaire and such operator, subject to the approval and direction of and the issuance of permits by the Minister of the Department of Lands and Forests.

(b) That for all spruce pulpwood cut, whether for export or otherwise during the operating season 1935-36, the Crown Dues be reduced from \$1.40 to \$1.00 and that a permit to export any pulpwood of any kind whatsoever cut during the said season may be granted without the imposition of the export of 25c per cord.

(c) That the operators be charged a ground rent and fire tax levy for the season's operations of \$11.40 per square mile and that the Minister be authorized to rebate to the concessionaire such fire charge as the concessionaire may have paid or may pay upon the areas upon which the said operators may be required to pay the said ground rent and fire tax charges.

(d) That the Minister be authorized to demand such security as he may deem advisable from the operators to assure payment of the dues and charges.

The Committee of Council concur in the recommendation of the Honourable the Minister of Lands and Forests and advise that the same be acted upon.

Certified,

“C. F. BULMER,”

Clerk, Executive Council.

SURVEYS

As indicated in Part II, Appendix 16, the Crown completed and closed nineteen surveys, and in five other cases surveys in progress had not been completed.

FOREST FIRE PROTECTION

This is dealt with at length in Part III of this Report, and the details appear in Appendix 20.

REFORESTATION

The Department's activity in this branch of the work continued, and the salient features of the same appear in Part III of this Report, Appendix No. 21.

RADIO COMMUNICATIONS AND AIR SERVICE

These undertakings are adequately treated in Appendices Nos. 22 and 23 of Part III of this Report

COLLECTIONS

Our total Collections throughout the year for all services including Land Sales, Rentals, Timber Charges, etc., amount to \$3,228,351.16, as detailed in Appendix No. 4. Of this amount the sum of \$446,701.63, considered as reductions of expenditures in certain branches of operations, has been deducted, leaving in such circumstances a net collection of \$2,881,649.53, this in effect being better by over one million dollars than the last full twelve months ending October 31st, 1934.

EXPENDITURES

Expenditures for the year are shown in Appendix No. 7, these aggregating \$1,593,468.90, the necessary reductions as referred to under Collections caption having been applied against the total outlay. Forest Ranging services, which include Forest Fire Protection, Scaling costs, Forest Survey estimates and other incidental operations, accounted for nearly \$800,000.00, or approximately fifty per cent of the total Expenditures. Only a normal season with regard to fire hazards was experienced, Providence having been generous in weather dispensations.

Air Service accounted for an outlay of some \$188,869.26, while Reforestation cost \$176,942.80, this being a capital outlay.

The cost of services is being kept within reasonable bounds without in any way affecting the efficiency of any organization. With the evident improvement in the newsprint outlook and, in certain phases of the lumbering business, with the possibility of an increased export business, there will naturally be a greater demand for forest products. This will increase bush operations and require a corresponding increase in the scaling staff. This contingency, in addition to any abnormal fire hazard conditions, must be always considered a real factor in unforeseen and unprovided expenditures.

APPENDICES

PART I

Appendix No. 1

Return of Officers and Clerks of the Department of Lands and Forests for the Fiscal Year April 1st, 1935 to March 31st, 1936.

PART II

SURVEYS BRANCH

Appendix No. 16

REPORT OF SURVEYOR-GENERAL

The following survey work was carried on under instructions from this Branch, during the year ending March 31st, 1936:—

Survey of certain roads in the County of Hastings and District of Nipissing, by C. F. Aylesworth, O.L.S. of Madoc.

Survey of part of the Severn Falls Road, in the township of Matchedash, by G. S. Abrey, O.L.S. of Toronto.

Survey of part of the Trans-Canada Highway, in the Districts of Thunder Bay and Kenora, by C. E. Bush, O.L.S. of Toronto.

Survey of certain roads in the Districts of Muskoka and Nipissing and County of Haliburton by E. L. Burgess, O.L.S. of Bracebridge.

Resurvey of certain lines in the townships of Kennebec and Clarendon, also traverse of part of the shore of Gull Lake, by M. E. Crouch, O.L.S. of Kingston.

Survey of part of the Kirkland Lake-Chemins Road, District of Timiskaming, by T. G. Code, O.L.S. of Cobalt.

Retrace certain survey lines in the townships of Awrey, Cleland and Dryden in the District of Sudbury, by J. S. Dobie, O.L.S. of Thessalon.

Survey of certain roads in the District of Cochrane, also certain township outlines in the District of Thunder Bay and retracement of certain boundaries in the District of Cochrane, by C. V. Gallagher, O.L.S. of South Porcupine.

Survey of certain township outlines in the District of Thunder Bay, by F. H. Kitto, O.L.S. of Brampton.

Survey of certain township outlines in the District of Thunder Bay, by J. M. Kilkenny, O.L.S. of Jellicoe.

Survey of certain part of the Trans-Canada Highway, in the District of Kenora, by R. S. Kirkup, O.L.S. of Fort William.

Retracement of a part of the North Boundary of Algonquin Provincial Park, also traverse of Capreol Lake, in Capreol Township, District of Sudbury, by E. L. Moore, O.L.S. of North Bay.

Survey of certain township outlines in the District of Thunder Bay, by E. M. McQuarrie, O.L.S. of Sault Ste. Marie.

Subdivision of an addition to Hudson Townplot, by A. McMeekin, O.L.S. of Kenora.

Survey of certain township outlines in the District of Thunder Bay, also part of the Trans-Canada Highway in the District of Thunder Bay, by Messrs. Phillips & Benner, O.L.S. of Port Arthur.

Control survey in conjunction with the Department of the Interior of Canada, to make ties to township corners in the Counties of Peterborough, Haliburton and Hastings, by J. W. Pierce, O.L.S. of Peterborough.

Survey of certain township outlines in the District of Thunder Bay, by G. F. Summers, O.L.S. of Toronto.

Survey for the Department of Mines, of part of the south boundary of a water lot in the City of Toronto, granted to the Corporation of the City of Toronto on May 18th, 1880, by Messrs. Speight and vanNostrand, O.L.S. of Toronto.

MUNICIPAL SURVEYS

No.	Date of Instructions	Description	Date of Confirmation
792	Feb. 27th, 1935	Survey easterly limit of lot 2, Con. 10, East of Bury Road, Twp. of Albermarle. by R. McDowell, O.L.S. of Owen Sound.	Jan. 6th, 1936

TOWNSITE SUBDIVISIONS

The following townsites were laid out on lands patented subsequent to March, 1910 and were submitted and approval given as required under The Townsites Act.

Dillabough Townsite, near Beardmore Station, District of Thunder Bay.

Mining Claim L-2100, Township of Teck, District of Timiskaming.

Mining Claims L-1439, 2728, 1534 and 1535, (parts) Township of Teck, District of Timiskaming.

Mining Claim L-27215, Township of Guibord, District of Cochrane.

Spring Lake Townsite, Township of Leduc, District of Thunder Bay.

Mining Claims M.R. 6451—M.R. 6321, Addition to Matachewan, District of Timiskaming.

MAPS

During the year a new map (No. 24A) of Kenora and Rainy River Districts was prepared and published.

Extracts from reports of several surveyors employed under instructions from this Department will be found in Appendices 18 and 19.

Appendix No. 17
Statement of Crown Surveys completed and closed during twelve months ending March 31st, 1936

No.	Date of Instructions	Name of Surveyor	Description of Surveys	Amount Paid
1	Aug. 2, 1935	C. F. Aylesworth.	Survey of certain roads in the County of Hastings and District of Nipissing	\$1,356.75
2	July 5, 1935	C. E. Bush.	Survey of part of Trans-Canada Highway, Districts of Thunder Bay and Kenora.	4,599.95
3	July 22, 1935	E. L. Burgess.	Certain roads in Districts of Muskoka and Nipissing and County of Haliburton.	2,224.35
4	Apr. 21, 1934	E. D. Bolton.	Survey of beach lands in front of the County of Bruce.	4,605.10
5	Apr. 21, 1934	R. W. Code.	Survey of beach lands in front of the County of Lambton.	3,678.47
6	Apr. 30, 1934	E. L. Cavana.	Establish the position of original monuments in the Township of Matchedash.	981.85
7	Aug. 7, 1935	J. S. Dobie.	Retrace certain lines in the Townships of Awrey and Dryden.	3,408.15
8	July 15, 1935	C. V. Gallagher.	Survey of township outlines in the District of Thunder Bay.	3,780.54
9	Aug. 12, 1935	F. H. Kitto.	Survey of township outlines in the District of Thunder Bay.	2,158.42
10	July 20, 1935	J. M. Kilkenny.	Survey of township outlines in the District of Thunder Bay.	2,242.80
11	Aug. 5, 1935	Roy S. Kirkup.	Survey of certain part of the Trans-Canada Highway in the District of Kenora.	4,378.65
12	July 29, 1935	E. L. Moore.	Survey North Boundary of Algonquin Provincial Park and traverse Capreol Lake in Capreol Township.	3,653.45
13	July 18, 1935	E. M. McQuarrie.	Survey of township outlines in the District of Thunder Bay.	2,727.00
14	May 16, 1935	A. McMeekin.	Subdivision of an addition to Hudson Township.	500.00
15	Oct. 11, 1935	Phillips & Benner.	Survey of township outlines in the District of Thunder Bay.	1,935.18
16	July 5, 1935	Phillips & Benner.	Survey part of the Trans-Canada Highway, District of Thunder Bay.	2,983.80
17	July 25, 1935	J. W. Pierce.	Ties to control survey, township corners, Counties Peterborough, Haliburton and Hastings.	1,532.00
18	July 5, 1935	G. F. Summers.	Survey of township outlines in the District of Sudbury.	7,902.00
19	Apr. 18, 1934	Speight & vanNostrand.	Survey of beach lands in front of the County of Huron.	2,377.85
				\$57,026.31
Statement of Crown Surveys in progress during twelve months ending March 31st, 1936				
1	June 15, 1935	M. E. Crouch.	Survey of certain lines in the townships of Kennebec and Clarendon.	1,580.15
2	July 15, 1935	C. V. Gallagher.	Resurvey certain township boundaries in the District of Cochrane.	1,440.00
3	July 15, 1935	C. V. Gallagher.	Survey of certain roads in the District of Cochrane.	1,260.00
4	Sept. 30, 1932	N. A. Burwash.	Survey a portion of boundary between Ontario and Quebec, in Lake St. Francis.	678.24
5	Sept. 26, 1935	T. G. Code.	Survey of part Kirkland Lake—Cheminis Road, District of Timiskaming.	1,493.96
				6,452.35
Less amount refunded by Department of Northern Development for road surveys performed for that Department.				\$63,478.66
Less amount refunded by A. McMeekin, O.L.S.				14,906.55
				49.58
				\$14,956.13

The total amount of monies paid out in connection with these surveys was \$63,478.66. The Department was re-imbursed by the Department of Northern Development to the amount of \$14,906.55 on account of certain road surveys, an agreement having been made that the latter Department would pay the costs of such surveys and this Department would appoint the surveyors and issue instructions to them.

Appendix No. 18

Extracts from the Field Notes of the survey of part of the North Boundary of Algonquin Provincial Park, District of Nipissing.

By E. L. MOORE, O.L.S., 1935.

The object of this survey was to re-establish the line between the Townships of Pentland and Lauder, the north part of the line between Pentland and Boyd to the line between concessions X and XI of Boyd, the line between the Townships of Boyd and Cameron to the southwest angle of Cameron and the line between the Townships of Cameron and Deacon, to renew all original posts that could be found, to re-establish all obliterated corners and finally to ascertain the correct distances and bearings along the lines.

Unfortunately, owing to the lateness of the season, the very rough nature of the country and the extreme difficulty of finding satisfactory evidence of the old lines which had been run between fifty and fifty-five years ago and in some cases, I am almost convinced were only supposed to have been run, I was not able to complete all the work specified, I did, however, retrace the line and complete the survey from the southwest angle of the Township of Lauder to the side road allowance between lots 20 and 21 of the township of Boyd and continued thence on a trial line without finding any evidence of the original survey to the boundary line between the Townships of Boyd and Cameron which I located without much difficulty and retraced for about sixty chains southerly when at this point in the work I received instructions to discontinue operations for the season.

Appendix No. 19

Extracts from Diary and Field Notes of survey of certain townships in the District of Thunder Bay, surveyed by—

G. F. SUMMERS,
Ontario Land Surveyor, 1935

Commencing at the Southeast angle of the Township of Errington, I surveyed the different boundaries in the following order:

1. The South limit of Errington Twp. from the East to the West.
2. The South limit of Lindsley Twp. from the East to the West.
3. The South limit of Ashmore Twp. from the West to the East.
4. The East limit of the Township of Ashmore and the West limit of the Township of Croll, from the South, northerly to the 4 mile 30 chain post.
5. The South limit of Croll Twp. from the West to the East.
6. The East limit of Croll Twp. from the South to the North.
7. The South limit of Oakes Twp. from the West to the East.
8. The balance of the East limit of Ashmore Twp. and the West limit of Croll Twp. from the 4 mile 30 chain post northerly.
9. The East limit of McQueston Twp. and the West limit of Houck Twp. from the South to the North.
10. The North limit of Houck Twp. from the West to the East.

11. The North limit of McQueston Twp. from the East to the West.
12. The West limit of McQueston Twp. and the East limit of Fulford Twp. from the North to the South to the 2 mile and 30 chain point.
13. The North limit of Fulford Twp. from the East to the West.
14. The North limit of Kirby Twp. from the East to the West.
15. The West limit of Fulford Twp. and the East limit of Kirby Twp. from the North to the South.
16. The balance of the West limit of McQueston and the East limit of Fulford Twp. from the 2 mile 30 chain point South.
17. The East limit of Oakes Township from the North to the South.

In running the East limit of Oakes Township, I was unable to get an observation before starting this line due to bad weather conditions. However, I took special care in picking up the South and West limits of Bain Township and the North limit of Oakes Township and feel that the line as laid down is on the correct astronomic bearing.

Wooden posts were planted at each mile and where the mile posts came within the beds of streams or lakes, Witness Posts were planted on the shores thereof. Standard Iron Posts were planted at the three mile point and Township corners.

TOPOGRAPHY

The general topography of the country is low lying level land with very little rock outcrop, and generally swampy.

TIMBER

For the most part the country is covered with spruce except where there is *brulé*. I have indicated on timber plans certain portions of timber as being commercial. This means that it is suitable for pulpwood and paper manufacture, there being very little timber which could be manufactured into lumber.

GEOLOGY

The geology of rocks on the South limits of Lindsley, Errington, Ashmore and Croll have been dealt with in the Report of the Department of Mines by Dr. Bruce, 1935. The geology of rocks along the North limits of Houck, McQueston, Fulford and Kirby are granite.

TRANSPORTATION

Little Long Lake and Alfred Lake afford splendid water transportation, the latter lake being connected with Little Long Lake by some small lakes, a creek, and a two mile portage. The above portage also connects up with a creek and chain of lakes joining Alfred and Hutchison Lakes. From Hutchison Lake there is a possible canoe route extending northerly through a creek and some small lakes to and beyond the northeast corner of Fulford Township. There is also a canoe route extending Westerly from Hutchison Lake through a series of small lakes to Twin Lakes in the Southwest part of of Fulford Township and also to Wild Goose Lake.

GAME

Very little game was noticed, the exception being moose. Partridge was scarce and fish not very plentiful in the lakes where fishing was tried.

PART III

FORESTRY BRANCH

Appendix No. 20

I—FOREST FIRE PROTECTION

(1) *Legislation*

There were no changes in the Forest Fires Prevention Act nor the regulations thereunder during the year.

(2) *Organization and Personnel*

The re-organization of the Department which took place on the thirtieth of November in 1934 resulted in some changes in the seasonal fire ranging staff. New chief rangers were appointed for the Port Arthur, A. C. R., Sudbury North, Trent, Abitibi and Timmins Divisions.

The average daily force, including Chief and Deputy Chief Rangers, was as follows: April, 91; May, 557; June, 918; July, 931; August, 938; September, 589; October, 132. The largest number of men on duty at any one time, including Chief and Deputy Chief Rangers was 945.

(4) *Fires*

Providence was again kind in that with the exception of a short period at the end of May there was practically no real hazard during the summer.

The total number of fires for the season was 1,309 with a total area burned of 250,662 acres. Of this total area 83.0 per cent. was burned in the month of May.

(8) Air Operations

Aircraft were again used in the detection and suppression of fires. The details of these operations are contained elsewhere in this report as reported by the Director of the Provincial Air Service.

Machines were located as follows:—

Goose Island.....	1 Moth
Caribou Lake.....	1 Moth
Sioux Lookout.....	1 DH 61, 1 Moth
Kenora.....	1 Hamilton 1 Moth
Ignace.....	1 Moth
Fort Frances.....	1 Fairchild
Port Arthur.....	1 Hamilton 1 Moth
Orient Bay.....	1 Vedette
Twin Lakes.....	1 DH 61 1 Moth

(DH 61 transferred to Sioux Lookout upon crash of similar machine there)

Oba Lake	1 Moth
Remi Lake	1 Moth
Sault Ste. Marie	1 Moth
Biscotasing	2 Moths
Sudbury	1 Moth
Algonquin Park	1 Fairchild KR 34

(9) *Hazard Disposal*

No major projects were undertaken in this connection.

(10) *Travel Permits*

A total of 9,774 permits were issued covering 28,606 persons. The travel permit continues to be a very efficient means of discouraging carelessness with fire.

Appendix No. 21

II.—REFORESTATION

I. NURSERIES

The supply and quality of seed is fundamental in any reforestation programme. Up to the present the Ontario Forests Branch has been fortunate in this respect and has been able to procure from its own seed collecting organization a sufficient supply of all necessary tree species.

Red Pine (*Pinus resinosa*) is by far the most important, both as regards quantity used and irregularity of seed years. The last good seed year for this species was in 1932 when a large supply of cones was collected, the seed from which is still being used in our work. All seed drops in germination as it becomes old, some species faster than others, and the recognized method of storing seed in order to reduce this drop to a minimum is by controlled cold storage. The Forests Branch is badly in need of such a storage plant in order that the germination of thousands of pounds of seed, which it is necessary to keep from year to year, be reduced to a minimum.

SEED BEDS

Seed bed work at the nurseries this year has been kept up to the average of the last two or three years and as most of the seed is now sown in the fall, the table covering this class of work groups all the beds under one heading. The seed sown in the spring, namely, Soft Maple and Elm, is only a small fraction of the total.

TABLE I—SEED BEDS

Nursery	Conifers		Hardwoods	
	Quantity in Pounds	Beds	Quantity in Pounds	Quantity in Bushels
St. Williams.....	1,743	1,217	102	88
Orono.....	1,553	1,077	...	570
Midhurst.....	1,490	843	97	61
Totals.....	4,786	3,137	199	719

IMPROVEMENTS

(a) Buildings

Very little building was done at the nurseries during the year, the additions being two small pheasant houses at Midhurst and a root house at Orono. General maintenance and necessary repairs, such as painting, etc., was carried on.

(b) Roads and Bridges

At Midhurst two miles of new roads were built and some additional work was done in the Park. At the other two nurseries road work consisted of maintenance and upkeep.

(c) Other Improvements

At all three nurseries general maintenance such as repairing fences, trimming hedges, etc., was carried out and in addition some special surveys of plantations and property was made at St. Williams. 600 additional feet of irrigation system was installed at Orono.

PROTECTION

(a) Fire

No fires were reported on the nurseries during the year.

(b) Insects

At St. Williams outbreaks of *Ips pini*, which has occurred in previous years, was not reported this year which would indicate that this insect is now under control. At Midhurst the spruce gall aphid was troublesome and the white pine weevil and the Nantucket pine shoot moth continues to do damage. At Orono a severe outbreak of cut worms had to be controlled as well as the spruce gall aphid and an attack of *albo-capitana* was found on a 13 year old jack pine plantation.

(c) Birds

Little damage was reported from the nurseries from birds during the germinating period, and at St. Williams the method of controlling these by shooting has been replaced by establishing feeding grounds adjacent to the seed bed areas.

(d) Other Animals

Rabbits continue to be a nuisance in all older plantations and squirrels did some damage in digging up nuts and mice have done considerable damage by girdling young trees below the snow line.

(e) Fungous Diseases

Damping off was quite serious at St. Williams but did less damage at the other two nurseries. The eradication of ribes has been continued at St. Williams and Orono but has been slackened somewhat at Midhurst in order to give the plants an additional year's growth. Poplar canker is also a serious problem at Midhurst.

WOODLOT IMPROVEMENT

At both St. Williams and Midhurst, where there are large areas of woodland, improvement of this has been continued steadily. At Midhurst the woodlot area has been improved at least once and at St. Williams the larger areas are being improved for either permanent woodlot areas or for planting.

PUBLICITY

Parks at all three nurseries, which are adjacent to the property, are a source of attraction to many people who in this way visit the nurseries and thereby have an opportunity of observing the work of reforestation from the time the seed beds are set out until the trees reach an age ranging up to 27 years.

At St. Williams particularly, this local influence is felt and, supplemented by the interest of the Norfolk Chamber of Commerce, has done a great deal to encourage people to reforest waste land. Approximately one-third of the trees distributed by St. Williams during the year have gone to residents within the county of Norfolk. One exhibit was set up for the town of Simcoe and

several lectures have been given by the superintendents of all three nurseries, to service clubs, etc., in their own communities.

TABLE 2
Summary of Nursery Stock for Planting 1936

Nursery	Conifers	Hardwoods	Cuttings	Totals
St. Williams	3,701,000	675,000	173,000	4,549,000
Orono	3,820,950	493,000	206,000	4,429,950
Midhurst	4,353,000	209,000	90,000	4,652,900
Totals	11,874,950	1,377,000	469,000	13,631,850

TABLE 3
Permanent Plantations

Nursery	Experimental or General	New or Refills	Quantities
St. Williams	General	New	188,011
St. Williams	Experimental	Refills	67,257
Midhurst	General	Refills	50,000
Orono	None		
Total			305,268

2. COUNTY FORESTS

Planting was continued on all the county forests this year. The total area planted covered 1,034 acres and the number of trees set out amounted to 1,463,450.

Additional land was purchased by the county of Simcoe, 165 acres being added to the Orr Lake forest and 200 to the Hendrie forest.

Insect outbreaks occurred on most of the forests, and though these were not serious yet they were considerably worse than last year. Most of the damage was caused by the jack pine sawfly which feeds on the needles of the red pine, but will also attack jack, white and Scotch pine in the order named. The number of trees sprayed as a control measure in each county forest is shown in Table 3 under Insect Control.

White pine weevil caused damage to plantations in two forests, Northumberland and Hendrie where 3,500 and 1,500 trees respectively were injured. The leaders from these trees were removed and burned as a control measure.

3. MUNICIPAL FORESTS

This name is applied first to any municipally-owned tract of land consisting of 50 acres or more which is under the supervision of the Forestry Branch, for the purpose of improving existing woodland, protection and conservation of water supply and soil erosion, and for recreational purposes, or, second to any municipally-owned tract of land consisting of from 25 to 50 acres under management, one-quarter or more of which is woodland.

Total.....				211,475

4. DEMONSTRATION PLOTS

This name is applied to any publicly-owned piece of waste land in close proximity to a travelled road. This land is owned or purchased expressly for the purpose of showing the public in any municipality what may be done for their community by tree planting. These areas may vary in size from one to twenty-five acres. A sign which can be seen from the road is placed on the property and states that the planted area is a demonstration plot and that it is supervised by the Forestry Branch.

50 plantations were inspected and advice given when needed to the various municipal owners.

Several plantations of red pine were badly infested with sawfly and a good deal of damage was done. Control methods which were applied were hampered by lack of equipment.

Up to date the total number of plots established is 113.

The following list shows the number of trees planted on demonstration plots during the spring of 1935.

ADDITIONS TO PLOTS PREVIOUSLY ESTABLISHED

Boy Scout Plantations.....	102,500
Fonthill Village.....	19,000
Woolwich Township.....	17,400
London.....	12,781

Village of Erin	10,500
Village of Palgrave	1,050
	<hr/>
	29,550
	<hr/>
Grand Total	201,681

5. DEMONSTRATION WOODLOTS

This name is applied to privately-owned areas of woodland adjacent to a travelled road. These areas are used expressly for the purpose of showing the public what may be done by applying forestry methods to the management of the woodlot for continuous production. An officer of the Ontario Forestry Branch advises the owner on improvement cuttings, thinnings and any planting that may be required to bring the woodlot into proper condition.

The number of demonstration woodlots was increased from 108 to 142. A sign which can be seen from the road is placed on the property and states that the woodlot is a demonstration woodlot and that it is supervised by the Forestry Branch. It is planned to have at least one in each township. The following list gives the number and the location by counties.

DEMONSTRATION WOODLOTS ESTABLISHED TO DATE

Bruce	7	Dufferin	2

Northumberland	15	Ontario	10
Peterborough	3	Prince Edward	2
Renfrew	1	Victoria	4
Haliburton	1	Kent	1
Hastings	2	Welland	3

Total—142

6. HIGHWAY PLANTING

During the spring of 1935 highway planting was undertaken on a large scale for the first time by the Ontario Forestry Branch. This was for the purpose of beautifying provincial highways by planting trees at all deviations, intersections and burrow pits where it was thought advisable to do so. A total of 632,057 trees were planted.

Table 5 shows the number of trees by species planted on highways in each residency during the spring of 1935.

7. RANGER PLANTATIONS

The following trees were planted at various ranger headquarters:

Whitney, District of Pembroke	550
Algonquin, District of Pembroke	200
Brent, District of Nipissing.....	200
Bancroft, District of Tweed	600
Tweed, District of Tweed	150
	<hr/>
	1,700

8. UNEMPLOYMENT RELIEF

Camp Borden

Last year's programme of work was continued using men from one of the camps installed by the Department of Militia and Defence for the relief of unemployed single men.

The work consisted of planting and thinning and clearing and grading roads through the forest property.

The number of men supervised each day by the Ontario Forestry Branch varied from 20 to 40.

Petawawa

This project was continued under the relief scheme of the Department of Militia and Defence on the Petawawa Military Reserve.

The Ontario Forestry Branch supplied the trees for planting while the Department of Militia and Defence supplied the labour, board, freight and other expenses.

250,000 trees were planted in all.

Kingston

This project was carried on under the relief scheme of the Department of Defence on Barriefield Common east of Kingston and was handled in the same manner as Petawawa.

18,000 trees were planted in all, and the average number of men employed per day was 14.

9. TREES DISTRIBUTED FOR PRIVATE PLANTING, SCHOOLS AND MISCELLANEOUS PUBLIC AND SEMI-PUBLIC PROPERTIES

In the spring of 1935, 4,909 people secured trees from the Ontario Forestry Branch, totalling in all 7,444,897. 128 schools secured trees totalling in all 44,591, and Miscellaneous Public and Semi-Public Properties secured trees totalling in all 195,213.

The following tables give the species and the number distributed:

10. SEED COLLECTING

(a) Seed conditions throughout the province were very poor for all species. Reports from the five zones into which the province is divided gave the following results:

Massey, North Bay, Douglas and Angus—no crop.

Eagle River:

Red Pine—over entire area.....No crop.

Jack Pine—over entire area..... $\frac{1}{4}$ crop.

White Pine—over entire area.....No crop.

White Spruce—over entire area.....No crop.

(b) Quantity of Seed Collected:

The following table gives the number of bushels of each species gathered throughout the province during 1935 and includes 66 bushels of soft maple and 23 bushels of white elm which were collected in Toronto, but for convenience are listed under Angus.

TABLE 7
Seed Collected

<i>Conifers</i>	Angus. Bushels of Cones	<i>Hardwoods</i>	Angus. Bushels
White Cedar.....	306 $\frac{5}{8}$	Walnut.....	253 $\frac{7}{8}$

		Red Maple.....	5 $\frac{6}{8}$
		Hickory.....	2 $\frac{1}{8}$
		Total.....	715 $\frac{1}{8}$

11. LECTURES

Illustrated lectures on reforestation and farm forestry were given at the one month and three months' courses conducted by the Department of Agriculture.

In addition, other lectures were given to farmers' clubs, service organizations, etc., throughout the province.

12. INCOME

TABLE 8

OPERATIONS

(c) The number of words handled is as follows:

Commercial
202,422

Forestry
290,341

Due to the high rate of charges for the public use of the radio service, a reduction was made in the cost of sending messages as and from December 1st, 1935.

The change in rates is as follows:

Old Rate

50c for 1 to 10 words.

\$1.00 for 11 to 20 words.

10c for each additional word.

New Rate

70c for 1 to 10 words.

5c for each additional word.

This change had the effect of encouraging the public to make greater use of the system, and in spite of this reduction in rates the revenue was somewhat increased.

AIRCRAFT RADIO

A 35-watt radio-phone transmitter was installed in the moth at Sioux Lookout with satisfactory results.

TOWER SERVICE

The use of low power ultra-high frequency radio-telephone was introduced between the Batchawana and King Mountain towers in the Sault Ste. Marie district, and the end-of-season report showed that reliable communication had been maintained throughout the season.

IMPROVEMENTS

Owing to the pressure of work at the Sioux Lookout station and in order to eliminate the necessity of two stations at that point, the outlet for commercial traffic was divided between the Sioux Lookout and Kenora stations. Consequently, instead of maintaining three operators at Sioux Lookout and one at Kenora, there are now two operators at each of these points and a continuous service of sixteen hours daily is provided.

A building to accommodate the radio equipment at Hudson was taken over from the Department of Northern Development, and moved to a lot previously reserved for radio purposes by the Department of Lands and Forests.

NEW EQUIPMENT

The purchase of new equipment, all of which is to be installed during the coming season comprised the following:

- (1) Four 300-watt radio-telephone-telegraph transmitters and receivers, which will be installed during the 1936 season.
- (2) One complete aircraft installation.
- (3) Parts and material for the construction of sixteen ultra-high frequency radio-telephone sets, which will be installed during the 1936 fire-fighting season.
- (4) Parts and material for the construction of one portable radio-phone transmitter to be installed during the 1936 season.

DEVELOPMENTS

As a result of a satisfactory performance of the ultra-high frequency sets in the Sault Ste. Marie district it was decided to carry out tests in the Sudbury and North Bay districts.

This was done with such encouraging results that work was commenced on the development of suitable equipment for inter-tower communication.

A special calling device was designed and it is hoped that the use of these sets will eliminate the necessity for building long and expensive telephone lines in many cases.

REVENUE

The total revenue derived from the public use of the radio service for the above-mentioned fiscal year amounted to some \$11,000.

Appendix 23

IV—PROVINCIAL AIR SERVICE

GENERAL ADMINISTRATION

The past fiscal year is one in which the Provincial Air Service has done less flying than has been the case in any of the preceding six years. This decrease in the number of flying hours has been due to two causes,—firstly, a year of sub-normal fire hazard throughout the entire Province and secondly, a determined attempt to delete any flying that could not be considered to be of a useful nature.

Flight reports have been very carefully scrutinized and, although it is felt that the Service has provided nearly all flying that has been required by any and all Departments of Government, it is also felt that this flying has been carried out at a minimum of expense.

Following a policy which was established during the preceding five-month fiscal period, every effort was made to have as many flights as possible serve a two-fold purpose. In a great many cases, officers of other Departments of Government were carried on flights which were primarily requisitioned by the Forestry Branch and vice versa, and when the expense of these flights was apportioned to the various Departments concerned it meant that nearly all of them have been able to have transportation by air at rates which have been very comparable to other means of transportation when the saving of time thus afforded was taken into consideration. This has been obviously applicable in the Western Division, and particularly so in regions North of the Canadian National Railway, where transportation by other than aircraft is not only very laborious but very slow.

Provincial Air Services have been extensively used by the Department of Provincial Police; Department of Mines; Department of Health, including Sanitation and Medical Supervision; Liquor Control Board; Attorney General's Department; Department of Northern Development; and any others requiring them, the results being to the mutual advantage of all Departments concerned.

Provincial Aircraft has been of particular value to the Department of Northern Development in that it has been able to service and move survey parties in very remote locations. Through this means operators are able to work much more effectively, not to mention the saving in time and labor involved were it necessary to break and keep open lines of communication under winter conditions.

The fire hazard for the past year was below normal. Because of this, less flying was required by the Ground Services and on only two occasions was flying requisitioned that the Air Service could not, or did not, supply. The first was due to the loss of one of the D. H. 61's in Gander Lake on May 23rd, 1935. The second occasion was because of an accident to the Moth which was stationed at Whitefish Lake. Certain repairs were necessary, and the ship was again at its base in a period of ten days.

MERCY FLIGHTS

At least fourteen mercy flights were carried out, and definite assurance is given that in six of these cases the flights undoubtedly resulted in the saving of life. The others were of a serious nature but did not always involve a matter of life and death. The Service has always stood ready and willing to carry out this humanitarian work and will be prepared to do so, when conditions warrant.

RADIO

A number of tests were carried out to determine the utility of two-way, voice to voice, radio communication. Reception in the aircraft was perfect and no difficulty was experienced with the operation of the equipment. The installation of such equipment necessitates bonding of the aircraft and shielding of the engines. The bonding is being done as the aircraft come in for reconditioning and is being incorporated in all new work, so that in due time all our aircraft will be suitably fitted for radio installation.

FUEL SITUATION

A definite attempt has been made to use and redistribute huge surpluses of fuel which were cached at far outlying points, some of which are today beyond our present fire boundaries. In some cases these supplies had been out for as long as five years and, judging from the amounts which were normally drawn from these points, it would have been at least another five years before they would have been exhausted.

It is obvious that aircraft fuels of such age are useless, and that if any return was to be realized for the money spent in their purchase movement to a base at which they would be much more quickly used was imperative. Transport aircraft was instructed to refuel at these points rather than at the home base, but even then it became necessary to move large quantities, by ground and water transport, to other bases where consumption was more rapid. This process has been going on now for over a year but not yet satisfactorily completed. It is anticipated that, with a normal fire hazard in 1936, much will have been accomplished towards this end. Our aircraft, after refuelling, have made a practice of flying out the empty drums and much has been saved as against the method of bringing them out by ground transport.

By following this policy, it is felt that hundreds of gallons of gasoline have been used up which would soon have become useless.

The same has applied to aircraft oils. Again, huge quantities had been cached at points at which the probability of their ever being used was very remote. Advantage was taken of ground and water transport, and these supplies have been transferred to Sioux Lookout.

It was subsequently discovered that, due to the long period of storage, the grade markings on many of the barrels had been obliterated. Samples were taken and submitted to Imperial Oil for analysis, and in many cases, the oil was found to contain water and scale from the inside of the barrels. An oil filter was purchased and installed at Sioux Lookout, by means of which such oil can now be purified. The filter is further suitable to the reclamation of crankcase oil, and all such oil is now being saved with a view to reclamation.

Several hundred gallons of the lighter grades, which are only used in aircraft during the winter months and which were considered to be in excess of our requirements, have been transferred to the ground services for use in fire pumps and motor vehicles. Over one thousand gallons have already been put through the filter with complete satisfaction, and when it is considered that the Service has approximately five thousand gallons in the Western Division, it is not felt that it will be necessary to purchase more than occasional quantities to meet our requirements for the next two or three years. The only shrinkage in this volume will be occasioned through the actual amounts burned in the engines and the small loss in reclamation. It is now felt that the filter is one of the most useful pieces of equipment in the Service and that its purchase has been well justified.

Plans for the future involve the caching of much smaller quantities of fuel and the use of these fuels in such a way that the caches can be depleted and renewed within a period of two years. By following this policy it is felt that much can be saved in losses caused by evaporation and condensation, both of which tend to affect adversely the volatility and octane rating of our fuels.

New and better arrangements, resulting in greater economy and efficiency, have been consummated for the purchase and storage of fuels in connection with Air Service requirements.

Periodic inspections and careful inventories are now being made of all supplies at the various bases and caches. By this method, discrepancies hitherto occurring, it is hoped, will be reduced to a minimum and better opportunities afforded of definitely determining the sources of interference.

PHOTOGRAPHY

The Service has not done a great deal in the way of Aerial Photography due to the fact that most of the requests for such work came during the summer months, at which time our craft were engaged in fire fighting operations.

One operation was, however, carried out by the Vedette in the vicinity of Schreiber during the month of September, and a second operation has now been concluded by the Hamilton and the Fairchild in the area between Kenora, Quibell and Red Lake. It would appear that the winter is the most appropriate time for this Service to carry out such work.

IMPROVEMENTS

The installation of an instrument repair room and equipment quarters provides means of having a closer check on the condition and performance of equipment. A staff member, possessed of qualifications resulting from a course at the National Research Laboratories at Ottawa, being in charge assures capable service.

Gas and oil storage sheds were built at several points and essential repairs were made in the reconstruction of docks, the reinforcing of lodge foundations, and reconditioning buildings used jointly by the Air and Ground forces.

AIRCRAFT BUILDING PROGRAM

This move has been somewhat of a departure from precedent, but it was very apparent over a year ago that the Service was sadly lacking in a type of ship which was best suited to meet its requirements. This matter was discussed with each District Forester and it was agreed, without exception, that the type needed was one having a pay load of from 850 to 1000 pounds, and which would be sufficiently economical in operation to be useful for either detection or suppression, or a combination of both.

After due consideration, it was felt that the Buhl CA-6 came nearer to meeting these requirements than any other that had been offered, and the sole rights to manufacture this ship were acquired. One ship has already been built and three are under construction at the present time, this move being deemed in the interests of economy and service.

Because of the nature of the Service, it is necessary to employ a permanent staff of sufficient size to meet normal or slightly above normal conditions, and since accidents cannot be anticipated, periods occur when a tremendous amount of reconditioning piles up at one time, followed, inevitably by a slack period. This condition occurred during the winter of 1934-5, at which time two-thirds of our fleet came in for major reconditioning. The situation was further aggravated by two accidents on winter operations and it became necessary to work some overtime in order to complete the program by the time the ships were required. This would have been followed by a slack period during the summer of 1935 had the Service not undertaken the building of aircraft.

Due to the heavy program of 1934-5, and relative freedom from mishaps during the past season, very little reconditioning is required this winter and the program in hand has served admirably to take up the slack in labor which would undoubtedly have accrued had this work not been undertaken. It thus affords the opportunity of ironing out peaks in employment, employing the services of our personnel to real advantage, and keeping intact a highly trained and efficient organization to a useful end and for a useful purpose.

The following tables are submitted with this report to facilitate analysis of our operations:

TABLE VI
MERCY FLIGHTS

Date	Aircraft	Pilot	Particulars
Apl. 8th.	CF-OAJ	Waller	Sick Indian man, woman, and child—Flown Bimagi Lake to Sioux Lookout.
May 4th.	CF-OAK	Atkinson	Three men working on timber operations received injuries; one had both legs fractured, and two had received axe wounds. Flown Schewabik Lake to Sault Ste. Marie.
July 17th.	G-CAOZ	Twist	Man suffering with acute abscess—Flown Fort Hope to Armstrong.
July 19th.	G-CAPG	Atkinson	Man met with accident; fell on saw, receiving serious lacerations on the stomach and chest—Flown Cordingly Lake to Port Arthur.
July 28th.	CF-AOH	MacDougall	Girl with leg injury—Flown Lavielle Lake to Canoe Lake.
July 23rd.	G-CAPC	Phillips	Lady with leg injury—Flown Kwagami Lake to Sault Ste. Marie.
Aug. 6th.	CF-AOH	MacDougall	Girl stricken with acute appendicitis—Flown Soura to Toronto.
Aug. 9th.	CF-AOH	MacDougall	Boy stricken with spinal meningitis—Flown Cache Lake to Toronto.
Aug. 17th.	G-CAPC	Phillips	Girl stricken with appendicitis—Flown Wawa to Sault Ste. Marie.
Jan. 3rd.	G-CAPC	Phillips	Man working on timber operations received serious knee injury—Flown Ranger Lake to Sault Ste. Marie.
Jan. 5th.	CF-OAJ	Waller	Demented Indian—Flown Fort Hope to Sioux Lookout.
Jan. 15th.	G-CAPC	Phillips	Sick Girl—Flown Township 196 to Sault Ste. Marie.
Jan. 18th.	G-CAPC	Phillips	Two fishermen stranded on Island in Whitefish Bay account boat frozen in ice. Pilot flew over Island, and dropped provisions to them.
Feb. 12th.	G-CAOY	Phillips	Man stricken with pneumonia—Flown Goulais Bay to Sault Ste. Marie.

LETTER OF TRANSMISSION

TO THE HONOURABLE HERBERT ALEXANDER BRUCE,
Lieutenant-Governor of the Province of Ontario.

MAY IT PLEASE YOUR HONOUR:—

The undersigned has the honour to transmit to you herewith, for presentation to the Legislative Assembly of the Province of Ontario, the Forty-fifth Annual Report, 1935, of the Department over which I have the honour to preside.

Respectfully submitted,

PAUL LEDUC,
Minister of Mines

DEPARTMENT OF MINES,
Toronto, 1936.

INTRODUCTORY LETTER

TO THE HONOURABLE PAUL LEDUC,
Minister of Mines.

SIR,—The undersigned has the honour to submit the Forty-fifth Annual Report of the Department of Mines, issued in seven parts, as follows:—

PART I

Statistical Review of the Mineral Industry of Ontario for 1935, by A. C. Young.
List of Mines, Quarries, and Works, 1935.
Mines of Ontario in 1935, by D. G. Sinclair, E. C. Keeley, D. F. Cooper, E. B. Weir, A. R. Webster.
Mining Accidents in 1935, by D. G. Sinclair, E. C. Keeley, D. F. Cooper, A. R. Webster.
Classes for Prospectors, 1935–36, by E. M. Burwash.

PART II

The Eastern Part of the Sturgeon River Area, with Map No. 45a, by E. L. Bruce.
The Western Part of the Sturgeon River Area, with Map No. 45a, by H. C. Laird.

PART III

Geology of the North Central Part of the Lake of the Woods, with Map No. 45b, by Jas. E. Thomson.
Gold Deposits on Shoal Lake (West), by Jas. E. Thomson.

PART IV

Geology of the Birch-Springpole Lakes Area, with Map No. 45c, by W. D. Harding.

PART V

Natural Gas in 1935, by R. B. Harkness.
Petroleum in 1935, by R. B. Harkness.

PART VI

Geology of the Ramore Area, with Map No. 45d, by E. S. Moore.
Geology of the Afton-Scholes Area, by E. S. Moore.
Geology of the Burntbush Area, with Map No. 45e, by Robert Thomson.

PART VII

Lake Iroquois, with Map No. 45f, by A. P. Coleman.
Geology of the North Shore of Lake Ontario, by A. P. Coleman.
Geology of Pelee and Adjacent Islands, by E. M. Kindle.

Only Part I is bound with the Sessional Papers of the Legislature. All parts, together with accompanying geological maps as indicated above by number and letter, are available on application to the Department.

Respectfully submitted,

T. F. SUTHERLAND,
Deputy Minister of Mines.

DEPARTMENT OF MINES,
Toronto, 1936.

Statistical Review of the Mineral Industry of Ontario for 1935

By A. C. Young

GENERAL SUMMARY

Mineral Production

Mineral production for 1935 reached a new high of \$159,580,955 and exceeded that of 1934, which was \$145,854,173, by \$13,726,782, a gain of 9.39 per cent.

Reference to the tables on pages 2 and 3 shows that each of the main groups, except structural materials, has improved its position. Metals rose from \$129,273,033 to \$142,888,565, an improvement of 10.5 per cent.; the non-metallic group, which has maintained its position between seven and eight millions of dollars during the past five years, showed a slight improvement of \$213,086. Clay products have been very low in value since 1931, but with the gradual recovery of building this group is slowly regaining its former important position. Structural materials, which include cement, lime, stone, and sand and gravel, are dependent on heavy construction work, such as roads, foundations, and abutments. Cement showed rather a heavy drop due to a decline in consumption on highways, and stone also registered a drop. Conditions in this industry, although much below those obtaining during the prosperous years, are gradually recovering. The following excerpt from the *Monthly Review of Business Statistics* for December, 1935, describes the construction industry as follows:—

The records of the construction industry are of great value for barometric purposes. During a time of depression, the existing plant and equipment, generally speaking, is more than sufficient to meet current demands for industrial products. Once the fixed capital equipment is again operated at a high percentage of capacity, corresponding to the state of affairs in the preceding period of maximum prosperity, the construction industry immediately acquires additional momentum. The awards in excess of \$400,000,000 per year from 1926 to 1929 constitutes a fitting commentary upon the correlation of construction operations with economic progress. The decline in construction from 1930 to 1933 coincided with the recurrence of a major depression. While marked percentage gains were shown in the records of new business obtained by the construction industry in 1935, over the preceding year, the level was still low relative to the pre-depression years. The gain in contracts awarded in the 11-month period from \$119,749,000 to \$155,940,000 in 1935 was 30.2 per cent. Engineering projects took the lead in the main groups of construction, the total advancing from \$47,610,000 to \$64,325,000, a gain of no less than 35.1 per cent. The gains in residential and business contracts were 18.0 per cent. and 35.3 per cent., respectively, while the increase in industrial projects was 23.3 per cent.

Employment in the building trades on the first of November, after seasonal adjustment, was only 60 per cent. of the average for the base year of 1926. The gain of about 16 per cent. over the same date of 1934 indicates, however, a betterment in building activity over the stagnant conditions of a short time ago.

The greatest prosperity, as may be seen in the tables, occurred in the metal-mining group, and the increases in the values of some of the items were important; for example, gold was up 5.4 per cent.; nickel, 9.9 per cent.; copper, 30.2 per cent.; and silver 56.5 per cent. A great improvement in employment was also apparent in this group. The number of wage-earners rose from 16,424 in 1934 to 18,869 in 1935, and wages paid from \$24,973,938 to \$29,381,598. More complete details are given in the sections that follow.

SUMMARY OF MINERAL STATISTICS, 1935

Product	Quantity ¹	Value	Employees	Wages

¹Cobalt in oxide, metallic cobalt, and cobalt content of residues marketed.²Nickel in matte, oxide, and metallic nickel.³Includes value of sulphuric acid produced.⁴No deduction made for lime consumed in manufacturing. Note that the figures prior to 1934 refer to sand-lime brick only.

The table below shows the aggregate value of metals from the time production began in Ontario and of other minerals beginning with 1891. Since 1914 the statistics of annual production credit the province only with the value of the pig iron made from Ontario ore. This is but a small part of the total output, since the great bulk of the iron ore charged to the blast furnaces of the province is "lake" ore from the mines of Minnesota and Wisconsin. In the production tables, credit is taken only for the ore exported or shipped to points other than Ontario blast furnaces, since to include the value of the domestic ore converted into pig iron in Ontario would involve a duplication of this item.

TOTAL MINERAL PRODUCTION

Year	Exchange equalization or discount	Metallics	Non-metallics	Structural materials	Clay products	Total
Before 1891 ¹		\$9,520,269				\$9,520,269

Total	\$82,617,751	\$1,609,524,813		\$649,813,306		\$2,349,123,870

¹Prior to 1891, when the Ontario Bureau (now Department) of Mines was established, it is estimated that metals to the value of \$9,520,269 were produced. No estimate has been made of the output of non-metallics up to 1891.

Metal Production

In the total production of metals in Ontario, noted hereunder, gold moved up from third to first place in 1927:—

METAL PRODUCTION TO DECEMBER 31, 1935

Metal or product	To December 31, 1934	1935	To December 31, 1935
Gold.....	\$529,602,720	\$45,898,372	\$575,501,092
Exchange equalization.....	57,447,954	32,161,797	89,617,751
Nickel, including nickel oxides and salts..	391,523,040	35,345,103	426,868,143
Silver.....	260,287,016	4,068,906	264,355,922
Copper ¹	160,018,576	19,295,965	179,344,541
Pig iron from domestic ore.....	84,775,556	84,775,556
Cobalt ²	26,521,766	512,705	27,034,471
Platinum metals.....	30,994,184	5,407,392	36,401,576

Total.....	\$1,556,253,999	\$142,888,565	\$1,699,142,564

¹Includes small quantities of copper sulphate.

²Includes metal, oxide, salts, and cobalt contents of residues exported.

³Value of ore shipped out of the province.

Dividends.—During 1935 dividends were paid by 14 gold, 2 nickel-copper, and 3 silver-cobalt mining companies. Total payments by metal mines of the province are rated hereunder by groups:—

DIVIDENDS PAID BY METAL MINES TO DECEMBER 31, 1935

Industry	To end of 1934	1935	To end of 1935
Nickel-copper.....	\$159,849,642	\$13,865,195	\$173,714,837
Gold.....	179,948,856	25,208,545	205,157,401
Silver-cobalt.....	97,983,781	367,000	98,350,781
Total.....	\$437,782,279	\$39,440,740	\$477,223,019

Diamond-Drilling

During the past three years diamond-drilling in Ontario has been active. Twenty companies were operating in 1935, and the statistics which follow are complete. In 1934 there were 285 drills in use, and employment was given to 518 men, who received \$759,285 in wages. The corresponding figures for 1935 are 171 drills, 608 men, and \$891,644 in wages. Diamond-drilling operations afford an excellent yard-stick in appraising the general trend in mining development and prospecting. As these Ontario firms do considerable drilling in the neighbouring provinces, Quebec and Manitoba, and also much farther afield, statistics covering the work done in these outside areas are also shown. It should, however, be pointed out that the data for outside provinces may be incomplete.

DIAMOND-DRILLING OPERATIONS, 1934 AND 1935

Province	1934		1935	
	Holes	Core footage	Holes	Core footage
Ontario.....	3,891	672,011	5,156	883,840
Quebec.....	1,023	215,153	1,336	261,907
Manitoba.....	418	81,226	549	86,230
Saskatchewan and N.W.T.....	31	5,791	31	10,525
Total.....	5,365	974,181 (184.5 miles)	7,072	1,242,502 (235.3 miles)

On the other hand consumption of diamonds used in drilling refers to footage drilled in all provinces in which work was reported, and is indicative of the trade available for diamond merchants as well as the amount of wear or wastage of these abrasives in our hard pre-Cambrian rocks. The total consumption of borts, ballas, and carbons was 43,680.69 carats, as shown below:—

CONSUMPTION OF DIAMONDS BY REPORTING FIRMS, 1935

Period	Borts	Ballas	Carbons
	carats	carats	carats
Diamonds on hand December 31, 1934.....	13,380.92	76.57	3,695.00
Purchased in 1935.....	47,743.73	79.98	2,878.95
	61,124.65	156.55	6,573.95
Diamonds on hand December 31, 1935..... deduct	19,507.38	71.30	4,695.78
Diamonds consumed (43,680.69) in 1935.....	41,617.27	85.25	1,978.17

Prospecting

An index of activity is afforded by the following table:—

MINING CLAIMS RECORDED, 1907-1935

Year	No.	Year	No.	Year	No.
1907.....	13,996	1917.....	1,936	1927.....	15,554
1908.....	4,634	1918.....	1,534	1928.....	15,046
1909.....	9,746	1919.....	2,918	1929.....	8,207
1910.....	5,792	1920.....	2,160	1930.....	3,886
1911.....	9,001	1921.....	2,459	1931.....	5,779
1912.....	3,104	1922.....	5,686	1932.....	4,945
1913.....	4,320	1923.....	6,092	1933.....	8,077
1914.....	1,913	1924.....	5,222	1934.....	16,888
1915.....	2,519	1925.....	4,751	1935.....	9,460
1916.....	2,470	1926.....	13,496		

It will be noted that 1934 was the most active year for claim-staking in the history of the province. In the Port Arthur mining division alone, 6,842 claims were recorded as a result of prospecting activity in the Little Long Lac and Sturgeon River gold areas, which lie east of Lake Nipigon close to the Canadian National railway.

METALLICS

Gold

General Summary

The production of gold from all sources in Ontario during 1935 totalled 2,220,-336 fine ounces, valued at \$78,068,169 in Canadian funds, as against 2,105,341

fine ounces, worth \$72,808,688, during the corresponding period of the previous year. Of this year's output, 2,151,305 ounces were recovered by the auriferous quartz mines, and the balance, 69,024 ounces, from the refining of nickel-copper mattes.

The record of the gold mines alone, including the value of the silver recovered in the crude gold bullion, was \$75,927,718 in 1935, as against \$70,929,796 in 1934. Reference to the table for gold-mining will show that the Porcupine camp with eleven mines slightly improved its position. On the other hand the Kirkland Lake belt, also with eleven properties, was \$765,394 below the high of 1934. This decline, however, was more than made up by increases in both Matachewan and Northwestern Ontario, where many new producers have appeared.

During 1935 important developments have taken place in all gold fields. Commencing with the eastern areas, the old Larder Lake camp has come to life after many years of inactivity. Omega Gold Mines, Limited, which was formed by Castle-Trethewey Mines, acquired the property of Canadian Reserve Mines, consisting of 22 mining claims formerly owned by the Crown Reserve Consolidated Mines, Canadian Associated Goldfields, and Kitchener Kirkland Gold Mines, and the mill, headframe, and underground layout have been completely overhauled or renewed. This one operation has stimulated interest in an area that was very prominently before the investing public during the past two decades.

The eastern Kirkland area (Gull Lake) has been active. At the Lake Shore a new shaft, now completed to the bed of the lake, will be sunk to depth. At the Wright-Hargreaves, a new internal shaft is under construction; and at the western edge of the camp the Macassa is developing to 3,000 feet in depth. Matachewan is now represented by three properties, Ashley, Young-Davidson, and Matachewan Consolidated. A deep shaft is being sunk on the Young-Davidson.

At Porcupine one of the most important developments has been the work undertaken by Noranda Mines in the eastern section of the area on the Pamour property, formerly owned by the Three Nations Mining Company, where a campaign of deep diamond-drilling carried on during the past summer has had favourable results. During the latter part of the season the Ontario Department of Mines made a special survey of this section of the area, using air service in preparing the map.

The most outstanding relative improvement, however, has taken place in the northwestern part of the province, including the Sudbury area. Twenty-eight mines throughout this area were active during the period, the production ranging from a few hundred dollars to almost a million.

Recently a new find of gold-bearing veins was made on the Sachigo river, located about 40 miles due east of the Manitoba boundary in about the same latitude as Gods lake. This area is roughly about 250 miles north of Superior Junction on the Canadian National railway.

Prospecting and development work have been carried on extensively throughout the province, and a pleasing feature is that interest is being maintained in the old established camps, in all of which extensions of the ore deposits have been found.

Production and Dividends

The following tables show the dividends paid by the various gold-mining companies, the production by areas in 1935, the total gold production from 1866 to 1935, and the annual production by mines in each area.

DIVIDENDS AND BONUSES PAID BY GOLD-MINING COMPANIES TO DECEMBER 31, 1935

Name of company	Date of incorporation	Authorized capital, \$ or shares	Capital stock issued, \$ or shares	Par value per share	Dividends and bonuses paid to end of 1934	Dividends and bonuses paid during 1935	Rate per cent. or per share 1935	Total dividends and bonuses paid to Dec. 31, 1935	Date when last dividend or bonus was paid

¹On April 22, 1922, the capital of Dome Mines Company, Limited, was reduced from \$5,000,000 to \$4,500,000, and \$476,667 (repayment of capital not included in above table) distributed to shareholders in addition to dividends paid to September 30, 1923, when the new company, Dome Mines, Limited, issued 1,000,000 no par value shares at \$7.00 per share. Of these 46,666 shares are transferred to a trustee and held in trust for the company.

²Hollinger Consolidated Gold Mines, Limited, is an amalgamation of the Acme Gold Mines, Limited; Millerton Gold Mines, Limited; and Hollinger Gold Mines, Limited. Dividends include \$160,000 paid in 1915 by Acme, and \$4,170,000 paid by Hollinger to May 25, 1916, the date of consolidation.

³The dividends are paid in United States funds.

⁴The Schumacher mine was sold to the Hollinger in 1922, and a total of \$1,591,000, or 86 per cent. of the assets, distributed to shareholders, the final payment being made July 30, 1923.

⁵The rate of 25 per cent. includes 5 per cent. paid out of 1933 profits. The dividends are paid in United States funds.

⁶Formerly the Tough-Oakes Gold Mines, Limited.

⁷The authorized and issued capital was changed in May, 1927, from 2,750,000 shares of \$1.00 par value to 5,500,000 shares of no par value.

¹Recent production only. Gold output from 1866 to 1909, inclusive, came from Hastings county and Northwestern Ontario. No segregation of statistics can now be made.

²Estimated.

³Maximum yearly output was \$424,568 in 1899.

Gold Mines of Southeastern Ontario (Peterborough, Hastings, and Frontenac Counties).—The earliest recorded discovery of gold in Ontario is referred to on page 27 of the Report of the Royal Commission (1890) on the Mineral Resources of Ontario, as follows:—

In the early part of August, 1866, gold was discovered by a man named Powell and a Dutch miner on the eastern part of lot 18, range 5, in the township of Madoc [Hastings county] belonging to Mr. J. Richardson, who, however, did not recognise it as the precious metal till informed of the fact by the late Mr. H. G. Vennor of the Geological Survey, who was then working in the neighbourhood. Mr. Vennor in his report for that year, addressed to Sir William Logan, described the gold as occurring in "a series of crevices or openings in a gold-bearing bed, formed of chloritic and epidotic gneiss (or schist) holding patches of dolomite and calcspar, the openings being nothing more than such as are so often met with in the dolomites and calc-schists of this region." The gold was found along with particles of black carbonaceous matter in a brown ferruginous earth filling the longitudinal crevices, parallel to the bedding, one of which had been struck at a depth of 4 and another at 15 feet from the surface at the time of Mr. Vennor's visit. Numerous small nuggets were also found enclosed in the adjacent dolomite and calcspar. The strata here dip nearly due north at an angle of 45°, and the gold-bearing bed is "overlaid by a siliceous ferruginous dolomite and underlaid by a band resembling an impure steatite." Its geological position is not far above the iron-bearing belt of that region. The Richardson mine has been worked at different times since the above date, and a good deal of gold extracted from it.

This discovery was followed by many others of the precious metal which have been made at different times in the townships of Marmora, Madoc, Elzevir, Kaladar, Lake and Tudor, and there is now a probability of gold-mining becoming an established industry in this region. One of the most notable of the attempts at gold mining in the district is that at the Gatling (since called the Canada Consolidated) mine in the township of Marmora. The gold here occurs in veins of quartz containing much mispickel and cutting a crushed syenite or a mixture of schist and syenite, close to a large area of the latter rock. Assays of twelve different samples of the ores of this mine gave an average of 1.9107 ounces or \$39.47 to the ton of 2,000 pounds. In spite of this richness, the difficulty of separating the gold from the sulphide of arsenic is so great that only partial success has attended the working of the mine, after the expenditure of a large sum of money in buildings, machinery, working the mine and experimenting.

A considerable quantity of gold has been extracted from the Gladstone and Feigle mine, situated on the continuation of the same set of veins as the Canada Consolidated, at a distance of two or three miles to the northward of it. Another mine called the Dean and Williams on lot 8, range 9 of Marmora, about a mile and a half southward of the Canada Consolidated, was worked for a time with some success. At present it is reported that from six to eight dollars worth of gold per ton are being extracted at the Guinard mine, in Kaladar, from a set of small quartz veins cutting a rock which is described as a conglomerate with quartz pebbles in a matrix of micaceous schist.

Statistical records in the Department of Mines at Ottawa do not predate 1888, but according to Ottawa reports for 1866 an Inspector of Mines, a Mr. Campbell, in that year reported that the recovery from the Richardson property in Hastings county was valued at \$1,500 or \$2,000. Another statement, probably referring to the same year, was that 60 pounds of crude bullion, worth \$15 to \$20 per ounce, was exported to the United States and that the estimated value was \$1,020. Other reports state that the Cook mine, on lot 7, concession IX, Marmora township, also in Hastings county, milled 1,000 tons prior to 1871, from which 500 ounces valued at \$10,000 was recovered. The Feigle mine, lot 8, concession VIII, Marmora township, produced \$4,000 prior to 1870. The property of the Canada Consolidated Gold Mining Company at Deloro, Marmora township, was credited with \$9,926 prior to June 30, 1884, and the amount expended in development work approximated \$350,000. The Gatling and the Thomas and Derry properties were active in 1871 and 1879, respectively.

The following excerpts from the Report of the Royal Commission, also give some indication of the extent of these early mining operations. D. E. K. Stewart stated that he commenced mining in Hastings county in 1878 and, under a lease on the Feigle, recovered about \$20,000; the mill heads ranged from \$3 to \$50 per ton. The Gatling ore treated at Malone ran about \$14 per ton. He also stated that some \$30,000 to \$40,000 worth of gold was recovered by a Mr. Osler, who operated a 20-stamp battery in the same area. Charles Taylor, at that time operating the Canada Consolidated, stated that the average ore ran about \$15 to the ton. With two men he was treating 8 tons per day, and the recovery was from \$100 to \$150 per week. Deroche and Burrows, lot 25, concession VI, Kaladar township, in 1887 shipped 3 tons of rock to the mill at Malone, and the bar of gold recovered was valued at \$65.

Statistics available to this Department do not contain any records of the above reports, and returns by gold producers were not obligatory until after the formation of the Bureau (now Department) of Mines in 1891. Partially complete individual statistics are available in this Department from 1897 on, but it was not until 1910, after the discovery of the rich fields at Porcupine and Kirkland Lake, that greater accuracy in ounces recovered and value was insisted upon. As a result the statistics covering gold-mining operations in this field and elsewhere in Ontario for the nineties and during the first decade of this century are more or less incomplete, and the table which follows does not represent all the gold recovered.

Gold Mines of Algoma District.—The gold-mining region in Algoma district, which includes the Goudreau and Michipicoten areas as well as the areas bordering the northeast shore of Lake Superior, Sault Ste. Marie, and the North channel of Lake Huron, was the scene of some of the earliest mining ventures in Ontario. In 1770 the Jesuit Fathers experimented with native copper near Point Mamainse, and in 1848 copper was discovered near Bruce Mines, where the Montreal Mining Company successfully concentrated the ore and shipped the concentrates, which ran 15 per cent. copper, to England in 1853 and 1854. The property was closed down in 1865.

The first gold discovery in this district was made early in 1898 by an Indian, William Teddy, a member of the Michipicoten band of Indians, whose hunting grounds were in the area between Wawa and Bauldry lakes. The find was sold for \$1,000. A staking rush then ensued, and most of the claims were located between Wawa lake and the Michipicoten river. The first inspector of the Michipicoten Mining Division, D. G. Boyd, opened a recording office in the old Hudson's Bay Post at Michipicoten River on April 29, 1898, which was one of the first recording offices in Ontario outside of Toronto. During this period, or until navigation closed that year, 152 miner's licenses were issued and 228 notices of mining claims registered and filed at Michipicoten River, and the fees totalled \$2,316. The first machinery to be installed in this field was a stamp mill, which was built by Thomas Westcott, of Sault Ste. Marie. The stamps, which weighed 830 pounds each, were cast at Sault Ste. Marie as well as the frames. The vanner and the copper plates were bought from Fraser and Chalmers, of Chicago, and the crusher and ore feeder were supplied by A. K. Williams, Toronto. Power was provided by a second-hand plant purchased from a lumber company near by. The foundations of this plant were laid October 13, 1898, but no trace of it remains to-day.

The gold-producing mines of Algoma district are listed in the table on page 18. In the early years great difficulty was experienced in securing accurate and complete statistics, and the data shown do not by any means cover the entire production. The figures represent all the data available to this Department.

Gold Mines of Thunder Bay District.—An excerpt from the Report of the Royal Commission (1890) on the Mineral Resources of Ontario, page 25, regarding gold in Thunder Bay district runs as follows:—

The first discovery of gold in notable quantity was made in 1871 by Mr. Peter McKellar (following up a clue obtained from an Indian) near Jackfish lake, at what is now called the Huronian mine, situated on location H1 in the township of Moss. It here occurs in a true and persistent vein from 6 to 8 feet wide, of which from 2 to 5 feet are quartz, the rest being incorporated schist. The country-rock consists of interbedded talcoid, chloritic, dioritic and a little dolomitic schist, siliceous magnetite and massive diorite, all dipping north-west at angles of 65° to 80°. The vein runs north-eastward, cutting the strata at a small angle and underlying to the north-west side at an inclination of 15° from the perpendicular. Intrusive syenite appears about a mile to the north-east of the mine, and this may have had something to do with the enrichment of the vein. The gold occurs free and as sylvanite (or telluride of gold) associated with galena, iron and copper pyrites and blende, which, with the white quartz, constitute a beautiful looking ore. A 10-stamp mill was erected in 1883 at great expense, on account of the difficulties of transportation, and in 1884 some mining and milling were done. The gold secured is understood to have been equal to \$21 to the ton, which was, however, far short of the whole amount contained in the ore. Work was resumed for three or four months in 1885, but, from the want of proper means of transportation to the mine, operations are for the present suspended. Openings have been made and similar ore obtained from a continuation of the same vein, called the Highland mine.

This property was later known as the Moss, and more recently as the Ardeen. The mine was reopened in 1932 and produced gold from that year to 1935, inclusive, operating a 200-ton mill.

The data shown in the table for Thunder Bay district on page 19 are all that are available to this Department and while covering the principal mines are known to be incomplete for the earlier years.

Gold Mines of Kenora and Rainy River Districts.—The earliest record of gold in Kenora and Rainy River is described on page 25 of the Report of the Royal Commission (1890) on the Mineral Resources of Ontario, as follows:—

Gold was discovered on Lake-of-the-Woods in 1878, or earlier. In the . . . Geological Survey report for 1881, page 15c, it is stated that "in 1879 I [A. R. C. Selwyn, the writer of the report] was presented by Mr. J. Dewe with a specimen from Hay island, of white quartz containing needle-like crystals of hornblende with a little calcspar, which showed distinct specks of gold. It was assayed by Mr. Hoffmann, chemist to the Survey, and found to contain 37.318 ounces of gold and 1.431 ounces of silver to the ton of 2,000 pounds." During the succeeding four or five years some mining was done at a few places around the northern part of this lake, and in some instances with the prospect of ultimate success, but owing to the impossibility of obtaining titles, on account of the dispute between the Dominion and the Ontario governments as to the ownership of the territory, it was impossible to obtain sufficient capital and no thorough test has yet been made to determine the real productiveness or otherwise of any of the mines. Trials have been made at several promising places, such as Sultana island, the Winnipeg Consolidated and the Pine Portage properties, and now that the matter of title is set at rest there is a probability that work will be prosecuted on a sufficient scale to determine the question whether gold is to be found in this region in paying quantities or not. It occurs both free and in combination with sulphides in veins of quartz more or less split up and interrupted, cutting green schists and not far from masses of syenite. These deposits would appear to lie towards the bottom of the series as developed at the Lake-of-the-Woods. Specimens of free gold in quartz have been shown to the writer as having been obtained not far from Taché, on the Canadian Pacific railway.

Statistics of production by the gold mines of Kenora and Rainy River districts were not collected during the eighties, and are incomplete for the nineties and also for the early years of this century (see tables on pages 22 and 23).

¹Acquired by Darwin Gold Mines Limited, in 1934. Operated by the Algoma Commercial Company in 1902 and 1903, who produced 6,097 tons of ore, from which \$48,708 was recovered; and by the Le Page Gold Mining Company from 1907 to 1910, who produced 4,260 tons, valued at \$23,235.

²Production shown from 1930 to 1933 was from the Minto; in 1934, 11,946 tons came from the Jubilee; and in 1935 the whole production was from the Jubilee. Both mines are now owned by Minto Gold Mines, Limited.

³Acquired by Algoma Mines, Limited, in 1934.

⁴The Havilah (Ophir), Galbraith township, \$8,549 from 2,489 tons in 1893 and \$4,435 from an estimated quantity of 800 tons in 1910 and 1911; the Norwalk (Manxman), \$1,412 from 820 tons in 1904 and 1910; the Golden Reed, \$125 from 3 tons in 1908.

⁵Soo Mining and Prospecting Syndicate.

⁶Van Sickle (S. B. Smith).

¹Purchased by the Hollinger in 1922.

²Acquired by Anglo-Huronian, Limited, in 1933.

³The Porcupine Crown was acquired by Northcrown Porcupine Mines, Limited, on May 15, 1920, and by Vipond Consolidated Mines, Limited (now Anglo-Huronian, Limited) in 1926.

⁴The Rea mine (production of which is shown in the figures for 1913, 1914, and 1915) was operated by Newray Mines, Limited, in 1917 and 1918. In 1924 the Newray was taken over by Conaaurum Mines, Limited.

⁵Renamed Buffalo Ankerite in 1932.

⁶The March was taken over by Marbuan Gold Mines, Limited, in 1933; the Buffalo Ankerite operated the Marbuan mill in 1933, treating 2,800 tons from the dump of the New York Porcupine Gold Mines, Limited.

⁷The Marbuan was taken over by Buffalo Ankerite Gold Mines, Limited, in 1935.

⁸Paymaster Consolidated Mines, Limited, incorporated in 1930, is a merger of West Dome Lake Gold Mines, Limited, and United Mineral Lands Corporation (which owned the Paymaster mine). The production for 1934 and 1935 came from the old Dome Lake and West Dome Lake shafts.

⁹Now owned by Paymaster Consolidated Mines, Limited.

¹⁰From 1915 to 1920, the production shown was from the Dome Lake mine, except 300 tons with a value of \$2,462 from the West Dome Lake mine in 1918. In 1922 the properties were amalgamated as Consolidated West Dome Lake Mines, Limited, and in 1930 acquired by Paymaster Consolidated Mines, Limited.

¹¹Acquired by Porcupine Peninsular Gold Mines, Limited, in 1933.

¹²Optioned to Tellaum Gold Mines, Limited, January, 1936.

¹³Renamed Gillies Lake-Porcupine in 1933.

¹⁴The Hayden mine was acquired by Naybob Gold Mines, Limited, in 1934.

¹⁵See table of "Miscellaneous Production" to the right.

¹⁶In 1927 it was discovered that an erroneous return had been made for the year 1925 and that figure should have been \$235,091 instead of \$287,758, as shown in previous tables. The figure for 1927 was altered to make allowance for this discrepancy of \$52,667. The present table now shows the correction applied to the year 1926.

¹⁷Shipped to Noranda smelter by J. M. McLaren.

¹Originally known as the Huronian; this mine produced in the seventies, but no records are available; acquired by Ardeen Gold Mines, Limited, in 1933.
²Acquired by J. Bruce McMartin in 1934, and by Sarmac Gold Mining Corporation in 1935.

³Acquired from Schreiber Gold Mines, Limited, by North Shores Gold Mines, Limited, in 1933.

⁴Records are incomplete; operations were reported 1905 to 1907, 1911 to 1913, 1917, 1918, 1921, 1929. This property was formerly called Northern Gold Reefs.

⁵W. S. Jackson claims; acquired by Harkness-Hays in 1925.

⁶Empress, 1,100 tons, \$2,378 (no statistics available, data taken from report of J. H. Chewett, April 22, 1897); Mary J. Coveney, \$114.

⁷Caquette claims (Afton).

¹Bought by Argosy Gold Mines, Limited, in 1935.

²This property was operated in 1933 by the Highgrade Syndicate and in 1934 by J. Hendrick, when it was acquired by Sol-D'Or Gold Mines, Limited.

³1911, J. Tingley, 30 tons, \$57; 1923, R. McDonald, \$124; 1924, N. McDonald, \$126.

⁴Bathurst (Woman Lake), \$3,107 (high-grade); Bolyo, \$11,510 (high-grade); P. Edwards, \$14.

⁵Geo. Singleton, \$137; G. A. Rowan, \$368.

⁶W. D. Cooper and P. A. Barry produced gold from the McIntyre Birch Lake property in 1934, statistics not available.

¹In addition to the figures given and duplicating them in part, the following reduction plants carried on operations in Kenora, then called Rat Portage, and reported as follows: (1) Dominion Reduction Company (1895, 1897, 1900), 666 tons, \$5,298; (2) Ottawa Gold Milling and Mining Company (1898-1900), 5,153 tons, \$26,181; (3) Rat Portage Reduction Works (1900) milled 200 tons of Wendigo ore; no data of recovery made are available; (4) Keewatin Reduction Works (1900) milled 100 tons ore from Champion and 1,000 tons from Wendigo; no data of recovery made are available.

²Northern Lights Mines Company.

³Acquired by Duport Mining Company, Limited, in 1929.

⁴Acquired by Kenora Prospectors and Miners, Limited, in 1928. The mine was called Cornucopia prior to 1932.

⁵Reported milled in custom mill, no data.

⁶Operated by Imperial Gold Mines, Limited.

⁷Acquired by Kenora Prospectors and Miners, Limited, in 1928.

⁸Or Black Eagle; now owned by Horseshoe Mines, Limited.

⁹Contact Bay Mines, Limited, was incorporated in 1918 and acquired the Rognon, Redeemer, and Bonanza claims; the name was changed to Wabigoon-Contact Bay Mines, Limited, in 1923; and in 1935 the property was acquired by Northern Mines, Incorporated.

¹⁰Redeemer.

¹¹Rognon.

¹²Redeemer (with exception of 8 tons, valued at \$46, from Rognon).

¹³Bonanza.

¹⁴Milled in custom mill.

Mint Receipts from Ontario Mines

The table below shows the record over a five-year period of receipts of crude gold bullion from Ontario mines at the Royal Canadian Mint.

RECEIPTS OF CRUDE GOLD BULLION FROM ONTARIO MINES AT THE ROYAL CANADIAN MINT, OTTAWA, 1931-1935

Year	Quantity	Precious metals		Total value (standard)	Buying rate in Canada for New York funds ¹
		Gold	Silver		
	crude ounces	fine ounces	fine ounces		cents
1931.....	1,762,481	1,441,602	171,408	\$29,850,774	104.272
1932.....	2,865,271	2,248,106	300,927	46,554,898	113.580
1933.....	2,441,467	1,879,659	270,377	38,945,178	109.472
1934.....	2,668,456	2,031,719	292,445	42,134,234	.990
1935.....	2,798,831	2,195,386	310,104	45,578,512	100.54

¹The average rate of premium on New York funds is based on the day to day record of current quotations. The Federal Department of Finance pays for gold in Canadian funds and reimburses producers by an amount equivalent to the exchange premium on New York funds. Export of gold is prohibited except under license. After April 19, 1933, when the United States forsook the gold standard, Canadian output was marketed in London.

The average monthly value of gold in Canadian funds in 1935 ranged from \$34.948 in January to \$35.493 in October, and dropped to \$35.324 per ounce in December. The average for the twelve months was \$35.19.

Chart of average monthly and yearly prices of gold in Canadian funds from 1931 to 1934, inclusive. No change in 1935.

Exchange Equalization

The figure for exchange equalization published for 1933, namely \$16,486,437, refers to the actual quantity of gold marketed during that period. Owing to the fact that in former years some mines reported only the exchange received during the calendar year and not exchange actually due on the year's gold shipments, some small corrections have been made on the following table for the years 1931 and 1932, as follows: \$81,728.42 received in 1933 should be credited to 1932, and \$113,088.91 should be deducted from 1932 and credited to 1931. In 1930, the exchange did not overlap with 1931.

EXCHANGE EQUALIZATION RECEIVED ON GOLD MARKETED BY ONTARIO PRODUCERS, 1920-1935

Year	Porecupine	Kirkland Lake	Matachewan	N. W. Ontario	Other areas	Total
1920.....	\$1,265,644	\$110,354		\$257		\$1,376,275

¹From the Year Book of the American Bureau of Metal Statistics, 1935.

²The 1935 compilation contains some preliminary data and conjectural figures (*) have been inserted where necessary.

³Production of the Philippine Islands is included with the United States.

⁴Included in "Other Europe."

⁵Included in "Other Oceania."

⁶Included in "Other Africa."

⁷Including Gold Coast.

Maximum Canadian production..... 3,283,121 ounces in 1935

Maximum Russian production..... 5,500,000 ounces in 1935

Maximum U.S. production..... 4,887,604 ounces in 1915

Maximum Transvaal, Cape Colony, and

Natal production..... 11,558,532 ounces in 1932

Maximum World production..... 30,660,357 ounces in 1935

Nickel-Copper and Platinum Metals

The nickel-copper industry during 1935 eclipsed all records. As may be observed in the accompanying table, the tonnage of ore and concentrate treated has topped that of 1934 by more than 24 per cent. in quantity. Refined nickel and blister copper produced have shown corresponding increases in quantity. On the other hand, matte exported was slightly lower than in 1934 but considerably above the figures for 1933. Increases may also be observed in the quantity of gold and silver recovered, which are now important acquisitions to the pro-

duction of those metals. The production of metals of the platinum group has increased to such an extent that the Sudbury nickel-copper mines have become one of the world's most important sources of these precious metals. Since the year 1930, the entire Ontario production has been derived from the Sudbury area; it rose from 68,040 ounces in that year to a total of 200,109 in 1934. The 1935 output was slightly lower.

PRECIOUS METALS RECOVERED, 1931-1935

	1931	1932	1933	1934	1935
	ounces	ounces	ounces	ounces	ounces
Platinum metals:					
Platinum	44,725	27,284	24,746	116,177	105,335.28
Palladium	39,313	37,613	31,009	83,932	81,902.61
Rhodium, ruthenium, osmium, and iridium	7,605				2,869.00
Total	91,643	64,897	55,755	200,109	190,106.89
Value	\$2,812,834	\$1,998,911	\$1,501,233	\$6,187,992	\$5,407,392
Gold	23,381	22,675	36,983	60,370	69,023.96
Silver	822,971	663,795	1,026,370	1,882,293	2,243,746.00

The producing mines at Sudbury were operated at the following rates: the Frood, 10,500 tons of ore hoisted per day; the Creighton, 1,000 tons; and the Falconbridge, 1,000 tons per day.

A new shaft, No. 5, is now being sunk at the Creighton and has reached a depth of 2,100 feet. The final objective is 4,250 feet. At the Falconbridge a new shaft, which is to be 1,450 feet in depth, has been sunk to 1,350 feet.

NICKEL-COPPER MINING AND SMELTING, 1931-1935

Item	1931	1932	1933	1934	1935
	tons	tons	tons	tons	tons
1. Ore and concentrate shipped	1,690,192	790,614	1,533,887	2,903,310	3,698,437
2. Ore and concentrate treated	1,884,959	793,552	1,523,814	2,896,959	3,616,223
3. Blister copper produced in Ontario ..	49,786	29,682	60,398	95,826	119,720
4. Nickel produced in Ontario	15,939	7,063	20,748	35,487	40,191
5. Matte exported ¹	30,294	21,778	43,315	46,755	46,371
6. Nickel content of matte exported ² ...	16,847	8,068	25,811	28,771	28,949
7. Copper content of matte exported ² ..	6,620	8,825	12,323	6,692	6,272

¹All matte was exported prior to 1918, when refining in Canada began at Port Colborne, Ont. The British America Nickel Corporation commenced refining operations at Deschênes, Que., in 1920, and closed down finally in 1924. In 1934 and 1935, a few thousand tons were brought back to Canada for treatment. These have been deducted.

²In 1932, after the reorganization of the metallurgical practice, the Orford process, i.e. the separation of the matte into copper tops and nickel bottoms, was carried out at Copper Cliff.

Dividends

Total dividends paid to the end of 1933 and payments in 1935 are given in the following table. For convenience of comparison Mond figures have been converted to dollars on the basis £1 = \$4.8665. The Falconbridge Nickel Mines paid its first dividend in 1933.

STATISTICAL SYNOPSIS OF THE NICKEL-COPPER INDUSTRY IN ONTARIO, 1933, 1934, AND 1935

Year	No. of producing companies	No. of plants in Ontario	Capital invested ¹	Dividends paid	Salaried employees		Wage-earners		Selling value of products ²

GRAND TOTAL.....		\$159,849,642.10	\$13,865,195.27

¹Successors to the Canadian Copper Company. The International Nickel Company paid dividends on the common stock from 1909 to 1919, inclusive, and again from 1925 to 1928, inclusive. Common stock outstanding was \$41,834,600, and preferred stock \$8,912,600, or a total of \$50,747,200 at the beginning of 1928. On December 19, 1928, the authorized capital stock of \$62,000,000 of the New Jersey company was reduced by changing the par value of the shares from \$25 to \$1 each, and at the same time the name of the company was changed to Nickel Holdings Corporation. On December 31, 1928, the authorized capital was further reduced to \$993,425 fully issued or subscribed-for stock, consisting of \$843,700 preferred stock and \$149,725 common stock, par value in each case.

²Dividends paid by the International Nickel Company of Canada, Limited, on the common stock in 1929 were 90 cents per share, and \$1.00 per share in 1930. Common stock was increased to 15,000,000 shares of no par value on July 25, 1930; as a result shares issued were increased from 13,758,208 to 14,584,025. Seven per cent. preferred stock (cumulative) now stands at \$27,627,825. Dividends on common stock aggregated 45 cents a share in 1931.

³Upon completion of the exchange of stock under the amalgamation of the Mond and International companies, effective December 31, 1928, stock issued or issuable was as follows: \$27,627,825 of 7 per cent. cumulative preferred, and 13,758,208 common shares without par value. Dividends paid on February 16, 1929, by the Mond company cover the 8 months' period ending December 31, 1928.

Demand for Palladium

Platinum and metals of the platinum group have heretofore been recovered mainly from placer workings, as in Russia, but of late years the recoveries in the refining of nickel-copper mattes from Sudbury have placed Ontario in the forefront of world producers. The Russian output has been estimated at 100,000 ounces, reliable statistics not being available. The state of Colombia was formerly a prominent producer of these metals, but production has fallen off. In 1935, according to *Mineral Trade Notes* of the United States Bureau of Mines¹ most of the crude platinum of Colombia was saved on dredges working in the Interdenca of Chaco near Andagoya. Production in 1935 totalled 38,628 ounces, which, with the exception of 24 ounces, was exported. The output was about 16,000 ounces less than in the previous year.

A note from a German publication *Metallwirtschaft* regarding palladium runs as follows:—

In the last three years leaf palladium has been on the market. It is made and used in the same way as leaf silver and gold. Palladium leaf has a platinum-white colour and has no tendency to tarnish or spot. The leaf is made of 99.8 per cent. pure metal. Palladium is easily worked, and alloys with other metals quite freely. It has a melting point of 1554° C., and its specific gravity is 12.16; this is 20 per cent. lighter than 18-carat gold. The tensile strength of the pure metal is very good, and its alloys have high tensile strength values. The chief sources of palladium to-day are the nickel-copper ores of Sudbury, Ont. It occurs in smaller quantities

in South Africa, Russia, and South America. In recent years, leaf palladium has found many uses, and among others, for the gilding of the surface of wooden sculpture. It is also used extensively in the bookbinding industry for book titles and for ornamentation of the book covers. It can be printed not only on leather but on wood.

Palladium is used extensively as a dental metal, and in electro-technique. In dentistry, it often replaces gold, either alone or alloyed. It greatly improves dental alloys to which it is added, especially the alloys with platinum, gold, and silver. For the most part, the alloys are white, and in the jewellery trade it replaces "white gold" because it is much more easily worked. For such purposes it is often alloyed with rhodium, or ruthenium, which produces a very strong alloy. In the electric industry, palladium is used for contacts, especially for telephone relays, because of its cleanliness and good conductivity. The use of palladium in future is likely to increase considerably because of its special properties, including its value as a catalyst.

The two operating nickel companies have both announced important additions to their plants at Sudbury for 1936. The International Nickel Company will add 40 per cent. to its smelting capacity. This enlargement has been necessitated mainly by the increased peace-time uses to which nickel is now being put and will permit the keeping of supplies of the refined metal on hand. It is understood that two reverberatory furnaces and eight converters are to be installed in a new addition to the smelter, which will be served by a new high stack. Employment in the nickel-copper industry during the year was at its highest level. This activity has an important bearing on other industries, such as lumbering and transportation.

Copper-refining was also active in 1935. The plant of the Ontario Refining Company at Copper Cliff, which has an annual capacity of 120,000 tons and is the largest copper refinery in Canada, treated 118,681 tons of blister copper and produced 109,765 tons of refined copper, 58,364 ounces of gold, 2,077,572 ounces of silver, 75,363 pounds of selenium, and 14,275 pounds of tellurium. Copper was produced in the form of wire bars, ingot bars, small ingots, cakes, billets, and cathodes.

A new development of great importance to Canada is the organization of companies to produce stainless steel and a large list of monel metal products.

The International Nickel Company of Canada, Limited, which has formed the Whitehead Metal Products Company of Canada, Limited, with a plant at Port Colborne, will manufacture monel metal products, range boilers, water-heating tanks, and gas heaters. The plant commenced operations in March, 1936.

The Fahlralloy Canada, Limited, backed by Ventures, Limited, and Falconbridge, has taken over a plant at Orillia, which is now undergoing extensive alteration, with equipment being installed to manufacture nickel-steels now so widely in demand.

Silver-Cobalt

The silver-mining industry has brightened considerably in Ontario recently, owing to the improved price of the metal and more stable industrial conditions, with a consequent better market for the metal cobalt, which is associated with the silver. Refining of nickel-copper mattes has supplied important quantities of silver, and with that recovered from an expanding gold industry the production of this metal has improved.

The production was 6,320,670 ounces, valued at \$4,068,906, during 1935, as against 5,523,938 ounces, worth \$2,600,393, in 1934. The increase in quantity was due entirely to heavier shipments of silver concentrates and a much larger recovery in the refining operations of the nickel-copper industry.

During the year twenty-eight properties shipped silver-cobalt and cobalt ore. Eighteen of these are located at Cobalt, namely Cobalt Properties, Temiskaming, Cross Lake (O'Brien), Foster, Crown Reserve, Drummond, Beaver, Right-of-Way, Colonial, Nipissing, Cobalt Comet, Buffalo, Cobnor, Hudson Bay;

Yorkshire Cobalt, Dominion Reduction Company, Silver Queen, and Silver Cliff, and seven in South Lorrain, as follows, Wettlaufer, Bellellen, Canadian Lorrain, Frontier, Keeley, and Nipissing Lorrain; and three at Gowganda, Miller Lake O'Brien, Silverado, and Morrison. In most cases these operations were carried on by lessees and the shipments ranged from one ton, a carload lot, or several carloads to more than 4,000 tons from the Nipissing. The active demand for cobalt and for nickel-bearing ores has been the cause of this revival in operations.

The price of silver on the New York market for 1935 averaged 64.273 cents per fine ounce, as compared with 46.973 in 1934. World silver markets were demoralized early in December with offers flooding the market and no buyers, as the United States Treasury refused to bid for metal in the face of Far Eastern selling orders. The low of 49.75 cents was reached in December, at which point it finished the year.

The following table shows the total silver production for the years 1934 and 1935:—

SILVER PRODUCTION, 1934 AND 1935

Source	1934		1935	
	Fine ounces	Value	Fine ounces	Value
Sales of bullion by the reduction companies, smelters, and mines.....	2,681,104	\$1,244,081	3,181,282	\$2,051,089
Contained in silver-cobalt concentrates and residues exported.....	288,552	141,544	144,229	94,177
Estimated as recovered from concentrates treated outside of Ontario....	299,084	146,094	299,632	181,181
In crude gold bullion.....	432,905	204,028	451,781	288,738
Recovered by nickel-copper refineries..	1,822,293	864,646	2,243,746	1,453,721
Total.....	5,523,938	\$2,600,393	6,320,670	\$4,068,906

The following shipments of silver-cobalt ore in 1935 are taken from data compiled and supplied by A. A. Cole, mining engineer for the T. & N. O. railway: silver ore from Cobalt 1,902.49 tons, from South Lorrain 23.37 tons, and from Gowganda 229.02 tons, a total of 2,154.88 tons; cobalt ore from Cobalt 2,845.48 tons, and from South Lorrain 36.15 tons, a total of 2,881.63 tons. The total shipments by railway, therefore, were 5,036.51 tons, of which silver ores totalling 885.19 tons were shipped to Deloro, Ont., 895.19 tons to Noranda, Que., and 374.50 tons to Tadanaac, B.C. The cobalt ores were largely exported, only 183.18 tons going to Deloro, while 2,386.36 tons were exported to Europe and 312.09 tons to the United States.

Shipments of silver mines by camps during 1934 and 1935 were as follows:—

SILVER SHIPMENTS BY CAMPS, 1934 AND 1935

Camp	1934			1935		
	Silver	Cobalt ¹		Silver	Cobalt ¹	
	fine ounces	lbs.		fine ounces	lbs.

¹Copper and lead are recovered from certain silver ores and concentrates shipped to United States refineries.²Nickel metal and metallic contents of all nickel compounds.³Cobalt metal and metallic contents of all cobalt compounds, and cobalt contained in ores and speiss residues exported.⁴Prior to 1914 an estimate based on assays was made of the nickel, cobalt, and arsenic in the ores. Since that date recoveries have been reported.⁵Includes 460 tons of speiss residues, worth \$153,116.⁶Recoveries of bismuth from base bullion were not reported prior to 1923.

In 1932, it includes 22,258 pounds worth \$10,024 from northwestern Ontario.

²200,000 preferred shares, par \$1.00, redeemed April, 1925, and capital reduced from \$2,200,000 to \$2,000,000.

³Cash assets amounting to \$50,000 paid on April 27, 1917.

⁴Now owned by Cobalt Properties, Limited.

⁵In 1917 the capital stock of the company was reduced from \$1,000,000 to \$750,000; in 1918, from \$750,000 to \$500,000; and on December 21, 1919, from \$500,000 to \$150,000, but returning to shareholders amounts equal to the reduction in capital, leaving 300,000 shares issued of 50 cents each. The mine was sold to the Mining Corporation of Canada and operated by it in 1920 and subsequently; it is now owned by Cobalt Properties, Limited.

⁶Formerly owned and operated by Mining Corporation of Canada, Limited; sold to Cobalt Properties, Limited, in 1935.

⁷Succeeded Right of Way Mining Co., Ltd.; now owned by Cobalt Properties, Ltd.

⁸Name of company changed from Temiskaming and Hudson Bay in 1909.

⁹In addition a return of capital amounting to \$600,000 was made on July 3, 1919, to stockholders of the Kerr Lake Mines, Limited.

¹⁰Includes \$16,288,297.25 paid in dividends by the Nipissing Mines Company (the holding company) to the end of 1916

¹¹Paid out of capital \$40,491.15 on September 10, 1917, and an equal amount on April 24, 1918.

¹²Succeeded by Right of Way Mines, Ltd.

¹³Does not include dividends by private companies such as M. J. O'Brien, Limited.

Since 1904, silver shipments as reported by operators were as follows:—

¹Includes 885 ounces from Silver Islet, Lake Superior.

²Silver Islet, Lake Superior.

³Nickel Hill Syndicate in the Sudbury area shipped silver-cobalt ore.

Iron Ore, Pig Iron, Steel, and Coke

As shown in the following table, foreign ore charges amounted to 931,569 long tons, the average price of which was \$4.65 (American funds, sales tax extra) at lower lake ports. From this ore, 554,977 long tons of pig iron was produced, including 371,344 long tons of basic, 93,921 of foundry, and 89,712 of malleable.

IRON AND STEEL STATISTICS, 1931-1935

Year	Foreign ore smelted	Limestone for flux	Coke	Pig iron produced		Steel made	
				Quantity	Value	Quantity	Value
	long tons	short tons	short tons	long tons		long tons	
1931....	568,886	149,454	320,133	318,645	\$6,363,101	444,107	\$15,099,638
1932....	198,063	56,880	119,064	113,665	2,558,799	244,693	8,319,562
1933....	182,060	46,944	113,102	110,562	2,066,049	258,841	8,800,594
1934....	462,705	118,350	253,532	271,725	6,249,675	476,699	16,207,766
1935....	647,597	172,609	339,551	391,792	9,011,256	584,239	19,864,126

At Montreal No. 1 pig iron (2.25 to 2.75 per cent. silicon) was quoted at \$23.00, and malleable the same. No quotations were available for basic pig iron. Steel billets were quoted at \$34.00 per long or gross ton at Hamilton.

PIG IRON, STEEL, AND FERRO- AND OTHER ALLOY PRODUCERS, 1935

Company	Location
Abrasive Company of Canada, Ltd. ^{1 2}	Hamilton.
Algoma Steel Corporation, Ltd. ^{2 3 4}	Sault Ste. Marie.
Canadian Atlas Steels, Ltd. ⁴	Welland.
Canadian Carborundum Co., Ltd. ^{1 2}	Niagara Falls.
Canadian Electro Castings, Ltd. ⁴	Orillia.
Canadian Furnace Co., Ltd. ^{2 3}	Niagara Falls.
Chromium Mining & Smelting Corporation, Ltd. ²	Hamilton.
Dominion Foundries and Steel, Ltd. ⁴	Hamilton.
Electro-Metallurgical Co. of Canada, Ltd. ²	Welland.
Exolon Company, Ltd. ^{1 2}	Thorold.
Ford Motor Co. ⁴	Ford.
Kennedy, Wm., and Sons, Ltd. ⁴	Owen Sound.
Lionite Abrasives, Ltd. ^{1 2}	Stamford.
Steel Company of Canada, Ltd. ^{3 4}	Hamilton.
Superior Alloys, Ltd. ⁵	Sault Ste. Marie.
Welland Electric Steel Foundry ⁴	Welland.

¹These firms produce ferro-silicon as a by-product in the manufacture of ferro-alumina.

²Ferro-alloys. ³Pig iron. ⁴Steel. ⁵Calcium molybdate.

During 1935 the output of pig iron increased from 271,725 to 554,977 long tons, and although the increase amounts to 104.2 per cent. in quantity this figure remains considerably below the 769,359 tons produced in 1929, the peak year. The Algoma Steel Corporation at Sault Ste. Marie had a 450-ton furnace in operation during the year. The Steel Company of Canada at Hamilton also operated a 550-ton unit throughout the year, and the Canadian Furnace Company at Niagara Falls operated its 350-ton furnace for nine months, reporting no production during March, April, and May.

IRON BLAST FURNACES IN OPERATION, 1935

Company	Stacks operating	Furnaces		Location
		No. of stacks	Daily capacity	
			long tons	
Algoma Steel Corporation, Ltd. . . .	1	4	1,600	Sault Ste. Marie.
Canadian Furnace Company, Ltd. . .	1	1	350	Port Colborne.
Steel Company of Canada, Ltd. . . .	1	2	825	Hamilton.

Ferro-Alloys

Of the fourteen plants listed in the 1931 report only seven reported production, which with an additional plant, the Canadian Carborundum Company, Limited, not listed in 1931, produced a total of 57,424 long tons of various kinds of ferro-alloys in 1935, as against 32,932 tons in the previous year.

STATISTICS OF FERRO-ALLOYS PRODUCTION IN ONTARIO, 1931-1935

Year	No. of producing companies	Quantity produced	Kind of material
		long tons	
1931.....	8	46,440	Ferro-silicon, ferro-manganese,
1932.....	5	15,595	silicon spiegel, spiegeleisen,
1933.....	6	30,569	calcium manganese silicon,
1934.....	7	32,932	zirconium manganese silicon,
1935.....	7	57,424	calcium molybdate.

Coke

The coking industry in Ontario is carried on by the large iron and steel metallurgical works and by chartered companies operating in the cities supplying artificial gas to householders and industries.

The statistics shown in the following table are combined and show raw materials used and products made. These figures were supplied by the Dominion Bureau of Statistics.

COKING INDUSTRY, 1935

	Quantity	Cost at works
MATERIALS USED.		
Coal	tons 1,821,448	\$8,038,691
Coke	tons 38,899	275,477
Oil	Imp. gals. 3,610,628	272,767
Absorbing and wash oil	Imp. gals. 107,114	13,746
Caustic soda	lbs. 472,142	14,805

Chromite

The smelting of chromite has been commenced in Ontario at Sault Ste. Marie, the first unit of Chromium Mining and Smelting Corporation, Limited, having been started on August 23, 1935. The ore comes from the company mine east of Obonga lake. Demand for chromium and its alloys has greatly increased during the past few years. Recent world conditions for this mineral, as outlined in *Metal and Mineral Markets*, November 21, 1935, were as follows:—

The continued improvement in general industrial conditions in 1934 was reflected in increased demand for chromite in the United States. Requirements of the domestic chromite industry are met principally by imports of ore. Imports of ore in 1934, largely from Southern Rhodesia, Cuba, Turkey, and Greece, were 65 per cent. greater than those in 1933 but were 14 per cent. less than the average annual amount imported in the period 1925 to 1929. Domestic chromite production in 1934 was insignificant in relation to the needs of consumers. Chromite statistics, in long tons, follow:—

	1925-29 average	1930	1931	1932	1933	1934
Production.....	262	310	762	200	966	341

World production.....	428,000	551,000	407,000	291,000	384,000	(2)

¹Imports for consumption; general imports not available.

²Data not available.

Preliminary work on the ore of the Obonga Lake deposits has been carried on at Niagara Falls, N.Y., and the operating company announced that the diamond-drilling campaign indicated some 225,000 tons of 17 per cent. chromite ore available. A mill of 100 tons daily capacity is now being completed. The concentrate will be shipped to the furnaces at Sault Ste. Marie, Ont.

In 1935 some 798 tons of crude ore were shipped. For purposes of compilation a value of \$12.00 per ton was placed on this material.

Molybdenite

There was considerable interest observed during the past year in molybdenite, perhaps because the European demand was more pressing than formerly. This foreign market is the only one available to Ontario producers, as the United States tariff of 35 cents per pound on the metallic molybdenum content does not permit competition.

No shipments of concentrate were reported in 1935. The best known ore deposit, that of the Phoenix Molybdenite Corporation, Limited, situated on the west half of lots 27 and 28 in concession IV, Bagot township, Renfrew county, was actively developed from April to December. As many as 23 men were employed on the surface and underground, and 976 tons of ore were raised during the period, none of which was concentrated. Molybdenite occurs widely in Ontario in the southeastern section, Hastings, Lanark, and Renfrew counties, and also north of Sault Ste. Marie. During the war when prices were high many Ontario molybdenite properties were in operation. Molybdenum is used in the production of alloy steel.

Radium and Uranium

Although pitchblende, which is the source of radium and uranium, has not been produced in commercial quantities from Ontario ores, there is now a well-equipped extraction plant in successful operation at Port Hope, Ont., owned by the Eldorado Gold Mines, Limited, for the treatment of pitchblende concentrates from Great Bear lake, some 4,000 miles distant. The refinery, which commenced operating in 1933, was considerably enlarged in 1934, and in January, 1935, the concentrator at Labine Point was placed in commission.

In 1935 a total of 232,114 pounds of pitchblende and silver concentrates was treated chemically at Port Hope, from which radium and uranium products worth \$120,000 were recovered. In addition, 116,902 ounces of silver were produced, having a value of \$68,840. Of this silver, 89,041 ounces were contained in 16,840 pounds of silver-lead bars and 47,861 ounces in 4,746 pounds of silver sulphide.

NON-METALLICS

With the exception of sulphur, mica, mineral waters, quartz, and salt, every item in the non-metallic group showed an improvement in 1935; and in the case of salt, while the selling value was lower, the quantity production showed a considerable increase. This group though relatively small in production value is important and is closely related to the chemical and building industries and supplies much of the raw materials consumed by them. The total value of the non-metallic group in 1935 was \$7,766,657, as against \$7,553,571 in 1934, a slight increase. The details of quantities and values marketed are set out in the table "Summary of Mineral Statistics, 1935" on page 2.

Actinolite and Asbestos

Actinolite and asbestos do not appear in the statistics of Ontario's mineral production in 1935. With the exception of a small sample lot of 100 pounds, worth \$1, no actinolite was sold. Development work was carried on at the asbestos property of Rahn Lake Mines Corporation in Bannockburn township during the year. About 400 tons of mill rock asbestos ore was placed on the stock pile and was expected to average about \$8 to \$10 per ton. No sales were reported however. An average of 5 men was employed throughout the greater part of the year.

Arsenic

Ontario production of white arsenic (As_2O_3) comes from the smelting of the silver-cobalt arsenides of Northern Ontario by the Deloro Smelting and Refining Company. The output in 1935 was 2,558,789 pounds, valued at \$75,326, as against 1,647,513 pounds, worth \$56,412, in 1934.

Barite

A small output of barite was reported in 1933 for the first time since 1923. Several deposits of this mineral are known to exist in the province. Although considerable investigation into markets has been undertaken, and several enquiries have been received from outside sources, no steady development work was under way at any of the Ontario deposits. Canada Night Hawk Mines, which is equipped for milling, did not report any work. The deposits in Yarrow township and at Tionaga were idle, and no shipments were reported.

Diatomite

Several deposits of diatomite have been under development for a number of years in Muskoka, but the production to date has been small. In 1935 some 100 tons, valued at \$4,600, was reported as shipped from Martin's Siding by the Canadian Multi-Cell Company, as against 46 tons, worth \$1,920, in 1934.

Feldspar and Nepheline Syenite

The feldspar industry is gradually gaining in production in Ontario, owing entirely to a slowly increasing domestic consumption. The United States duty, which formerly was \$1.00 per ton, later reduced to 50 cents, is now fixed at 35 cents per ton under the new trade agreement. This reduction, however, is not expected to stimulate exports to any appreciable extent. With a free entry to the United States it is questionable whether Ontario spar could compete in any except the border states. The prevailing price of spar in Ontario is around \$5.00 per short ton f.o.b. mines. In 1935, shipments from the mines of Ontario totalled 8,656 tons of crude material, valued at \$75,003, of which \$29,511 was the increase due to grinding. In 1934 the output was 7,302 tons, worth \$61,665, of which \$21,944 was the added value due to grinding operations.

Canadian Nepheline, Limited, which operates a nepheline deposit in Methuen township, Peterborough county, constructed a grinding plant of 24 tons capacity at Lakefield during 1935. No shipments, however, were reported. Mention of this deposit was made in Bulletin No. 98 (1934).

Fluorspar

Fluorspar is consumed as a flux in smelters and also in the chemical industries. The domestic consumption is not large and is confined mostly to Ontario. In 1935 a total of 75 tons, worth \$900, was reported as shipped. In 1934 the output was 150 tons, valued at \$2,100.

Graphite

Only one producer of graphite was active in 1935, the Black Donald Graphite Company, Limited, at its property on lots 16, 17, and 18 in concession III, Brougham township, Renfrew county, near the village of Calabogie. This deposit is the largest amorphous graphite mine on the American continent. In 1935 production to the value of \$78,500 was reported, as against \$64,998 in 1934.

Gypsum

The output of gypsum in Ontario rose from 33,234 tons in 1934 to 38,247 in 1935, and came from two companies: Gypsum, Lime and Alabastine, Canada, Limited, with a plant at Caledonia, and the Canadian Gypsum Company at Hagersville. The increase is indicative of the general revival in the building industry in Ontario. While the improvement in 1935 was important, the output figures still remain far below those of good times:—

GYPSUM SALES, 1931-1935

Grade	1931	1932	1933	1934	1935
	tons	tons	tons	tons	tons
Crushed	10,263	5,656	2,753	5,636	5,381
Fine-ground	451	364	795	376	187
Calcined, sold	1,606	217	165	226	121
Calcined, used in products	41,038	29,418	20,747	26,996	32,558
Total sold or used	53,358	35,655	24,460	33,234	38,247

No. of workers	155	198	179	169	77
Wages paid	\$87,263	\$85,036	\$46,782	\$53,718	\$99,137

¹Exclusive of wage-earners employed in the manufacturing division of the Caledonia plant.

Iron Pyrites and Sulphuric Acid

The sulphur content of the acid manufactured at Copper Cliff by Canadian Industries, Limited, from sulphur fumes derived from the smelting operations, was 13,292 tons, worth \$132,920, as against 14,598 tons, valued at \$145,980, in 1934. No pyrite ore was shipped.

Mica

Despite a general pick-up in the mica trade of the United States, there was a decrease in the total production from Ontario mines. The position of higher grades, however, was improved, and the decline was due to the lower exports of scrap material to the United States.

In Ontario there were only five active producers during 1935, who reported shipments of 509,826 pounds, worth \$7,144, as against 1,236,302 pounds, valued at \$9,059, in the previous year. Prices have generally improved in the United States, where operations were being carried on to capacity. Scrap and by-product mica are bringing twice the price of the depression lows. Conditions in Ontario tend to reflect those in the United States.

The major portion of the provincial output is made by direct mining, in which large crystals are recovered and treated. There is little or no by-product mica such as is recovered in North Carolina from kaolin and feldspar deposits.

SHIPMENTS OF MICA, 1933, 1934, AND 1935

Grade	1933		1934		1935	
	Quantity	Value	Quantity	Value	Quantity	Value
	pounds		pounds		pounds	
Ground and rough	19,000	\$239	2,459	\$514
Thumb-trimmed	44,219	3,287	30,315	3,094	10,852	\$3,223
Splittings and knife-trimmed	11	19	303	110	2,734	1,738
Scrap	1,268,200	5,820	1,203,225	5,341	496,240	2,183
Total	1,331,430	\$9,371	1,236,302	\$9,059	509,826	\$7,144

The prices for the various sizes and grades of thumb-trimmed mica did not vary greatly from those reported by the producers in 1934:—

SIZE	Price per lb.	SIZE	Price per lb.
1 by 1 inch.....	\$0.07	2 by 4 inches.....	\$0.45
1 by 2 inches.....	.15	3 by 3 inches.....	.60
2 by 2 inches.....	.20	3 by 4 inches.....	.91
2¼ by 2½ inches.....	.40	3 by 5 inches.....	.95
2 by 3 inches.....	.30-.50	4 by 6 inches.....	1.35-1.75

Scrap mica, \$9.00 per ton (net).
Rough-cobbed, 20 cents per pound.

Mineral Waters

Only three producers reported production of mineral water from Ontario wells in 1935, which amounted to 19,900 Imperial gallons, worth \$1,477, as compared with 21,775 gallons, valued at \$1,622, in the previous year. The production has gradually declined in Ontario to a fraction of the former output.

Natural Gas and Petroleum

The Natural Gas Commissioner of Ontario has supplied the following notes:—

Natural Gas

The production of natural gas in 1935 surpassed that of the year 1934 by approximately 500,000 M cubic feet, and in value by \$150,000, the total produced being 8,158,825 M cubic feet and the value \$4,938,084. The average retail price is down somewhat owing to discounts in certain areas. The increase in production is mainly due to a more active sales campaign by the larger gas companies aided by weather conditions. Several thousand new customers have been added during the year, notably in the city of London, where manufactured gas has been used heretofore. Natural gas was turned into the mains in October, 1935. The gas comes from the Dawn field through a 10-inch pipe line 55 miles long. No new fields were discovered, but the Dover and Eden fields were considerably extended and each has promise of further development.

Petroleum

Petroleum produced in 1935 shows a considerable increase, 25,000 barrels, over the previous year. The increase was common to all our larger fields excepting Mosa township. The Dover field leads in new development, followed by the Dawn field. Both these fields show considerable promise. By renovating wells from 40 to 60 years old in the eastern end of the Bothwell field and drilling a very few new wells, the production has almost doubled since 1931. Similar treatment in Oil Springs and Petrolia has caused an increase. Bothwell production now equals that of 1912; this field, of course, cannot be expected to be as stable as a newly discovered field; its decline will no doubt be rapid.

CRUDE PETROLEUM PRODUCTION, 1931-1935¹

¹Information furnished by the Imperial Oil Refiners, Limited, of Sarnia, and others.

Peat

During the past year or two considerable interest has been exhibited in the peat bogs of Ontario. The names of operators and locations are given on page 69. The production by 4 operators during 1935 was 1,340 tons, valued at \$5,761.

Quartz, Quartzite, and Silica Products

The output of quartz, quartzite, and silica products, which gained slightly in 1934, showed a decline in 1935, falling from 89,838 to 83,034 tons. On the other hand, silica products, reflecting improved building activity, showed a slight gain in quantity. Production figures for the past five years follow:—

QUARTZ, QUARTZITE, AND SILICA BRICK, 1931-1935

Year	Rock sold or used		Silica brick sold or used		Total value
	Quantity	Value	Quantity	Value	
	tons		M		
1931	97,888	\$148,642	279	\$13,702	\$162,344
1932	66,135	93,574	93	4,303	97,877
1933	66,562	86,146	183	7,351	93,497
1934	89,838	134,572	369	14,730	149,302
1935	83,034	120,005	493	22,976	142,981

Salt

During 1935, seven companies produced salt or brine. This industry in part supplies the raw materials for two large chemical manufacturing companies: Canadian Industries, Limited, and Brunner Mond, Canada, Limited. While the quantity output rose from 276,751 to 320,003 tons in 1935, the value was slightly lower. Production figures covering a 5-year period follow:—

SALT SOLD OR USED, 1931-1935

Schedule	1931	1932	1933	1934	1935
	tons	tons	tons	tons	tons
Table and dairy	115,180	59,620	61,231	69,779	73,704

Wages	\$259,646	\$253,579	\$261,214	\$296,116	\$309,354

¹Workers at the Sandwich salt and chemical works are included.

Talc

Statistics covering a 5-year period show that the talc industry serves a fairly stable and assured market. Two companies were active at Madoc in Hastings county, where the industry is centred, both of them mining a high-grade product, which is milled and refined at the mines. The Geo. H. Gillespie Company, Limited, operates the Henderson mine, and the Canada Talc Company, Limited, the Conley mine.

TALC STATISTICS, 1931-1935

Year	Sales		Wage- earners, mine and mill	Wages paid

STRUCTURAL MATERIALS

Building Permits

In 58 Canadian cities building permits in 1935 were valued at \$46,236,702. Of this total 30 Ontario cities accounted for \$23,704,388, as noted in the following table abstracted from the *Annual Review of Building Permits in Canada in 1935*, issued by the Dominion Bureau of Statistics, Department of Trade and Commerce, Ottawa:—

BUILDING PERMITS, 1920-1935

Year	30 Ontario cities, value	Wholesale prices index ¹	Toronto metropolitan area, ² value	Wages index 1913 = 100 ³
1920.....	\$58,636,365	4144	\$30,049,413	180.9

1935.....	23,704,388	82.2	9,905,455	159.8

¹Applies to average index numbers for Canadian wholesale prices of building materials on the basis of 1926=100, as compiled by the Dominion Bureau of Statistics. In 1913 the index was 67, dropping to a low of 60.5 in 1915.

²Includes York and East York municipalities.

³Average index numbers of wages in Canadian building trades as compiled by the Federal Department of Labour on the basis of 1913=100

⁴Peak year.

Construction Contracts

The value of Canadian construction contracts awarded for 1935, reported by the *McLean Building Review*, was \$160,305,000, as compared with \$125,811,500 in 1934. Ontario contracts in 1935 amounted to \$70,872,800, or 44.2 per cent. of the total. Prices of materials were considerably below the peak of 1920, and decided drops were recorded in 1930, 1931, and 1932, but a perceptible recovery was recorded in 1934, which fell off slightly in 1935. Canadian construction contracts in 1933 were on a par with the war years, 1916-18, dropping below the \$10,000,000 mark. Figures by classes of construction for a 5-year period follow:—

VALUE OF CONSTRUCTION CONTRACTS, 1931-1935

Classification	1931	1932	1933	1934	1935
Residential.....	\$39,274,300	\$14,143,200	\$12,653,800	\$17,578,600	\$20,646,500

Industrial.....	6,836,300	1,871,000	4,699,700	4,305,200	3,645,000
Engineering.....	50,522,300	16,352,000	15,503,800	25,678,900	26,240,500
Total.....	\$125,452,300	\$49,291,800	\$42,573,400	\$63,358,300	\$70,872,800

Cement

Ontario's production of cement came from the two companies: the Canada Cement Company, with plants at Lakefield, Belleville, and Port Colborne, the first two being idle, although shipments were made from the Belleville plant; and the St. Marys Cement Company, with a plant at St. Marys, which was in operation throughout the year.

PORTLAND CEMENT STATISTICS, 1925-1935

Year	Operating plants	Sales		
		Quantity	Value	Average price per barrel
	No.	barrels ¹		
1925.....	4	3,462,358	\$5,253,911	\$1.52
1926.....	3	3,398,860	4,792,857	1.41
1927.....	4	3,751,786	5,144,326	1.34
1928.....	4	3,911,795	5,520,897	1.41
1929.....	4	4,624,712	6,608,246	1.43

1935.....	2	1,243,836	1,752,148	1.41

¹350 pounds.

Cement Products

In recent years the cement products industry in Ontario has assumed considerable importance. Since 1924 no data have been included in the tables of mineral production, as the raw materials entering into the manufacture of these products have all been accounted for. Cement products being so closely allied to the building industry, statistics are included so that complete information covering all structural materials is available under one cover. Monolithic construction is not included.

PRINCIPAL STATISTICS OF THE CEMENT PRODUCTS INDUSTRY, 1931-1935¹

Year	No. of plants	Wage-earners, average No.	Salaries and wages	Cost of fuel and electricity	Capital invested	Value of products at works
1931.....	92	562	\$599,640	\$43,429	\$2,995,610	\$1,782,400
1932.....	69	352	308,898	27,692	2,286,460	737,326
1933.....	48	245	199,056	19,008	1,642,244	550,185
1934.....	54	251	274,045	24,394	1,784,166	687,176
1935.....	57	268	299,170	21,090	1,635,243	774,589

Lime

Lime is used quite extensively for chemical purposes in addition to being an ingredient of mortar and sand-lime brick. During 1935, 17 companies and individuals, operating 20 plants, reported sales that totalled 221,852 tons, valued at \$1,705,303, as against 191,041 tons, worth \$1,536,288, in 1934. Statistics for the past five years follow:—

LIME STATISTICS, 1931-1935

Year	Lime marketed or used						Fuel costs	Wage-earners	Wages
	Hydrated			Quicklime					
	Quantity	Total value	Per ton	Quantity	Total value	Per ton			
	tons			tons				No.	
1931 . . .	34,284	\$379,996	\$11.08	113,267	\$841,194	\$7.43	\$177,310	287	\$216,337
1932 . . .	23,518	255,223	10.85	143,185	1,018,007	7.11	204,546	203	154,361
1933 . . .	19,733	220,291	11.16	126,460	1,006,905	7.96	188,317	210	111,637
1934 . . .	22,281	249,038	11.18	168,760	1,287,250	7.63	173,951	187	116,020
1935 . . .	23,514	227,197	9.66	198,338	1,478,106	7.45	324,295	210	147,397

Distribution of the quicklime and hydrated lime sold in 1935, as reported by the producing companies, was as follows:—

Industrial consumption	Quicklime		Hydrated lime	
	Quantity	Value	Quantity	Value
	tons		tons	
Building trades: finishing and masons.....	10,857	\$67,145	20,650	\$200,793
Sand-lime brick.....	5,041	30,558	583	5,404
Agriculture.....	76,166	569,402		
Chemical and metallurgical industries:				
Smelters.....	4,725	25,420	75	694
Iron and steel.....	8,512	59,735	23	216
Gold-milling.....	24,087	173,686	3	28
Pulp and paper.....	3,827	21,399	668	6,010
Glass.....	5,003	34,558		
Sugar.....	7,032	57,021		
Tanneries.....	2,891	18,639	180	1,618
Fertilizers and insecticides.....	600	4,202	291	2,691
Dealers and others.....	2,251	16,647	260	2,561
Other chemicals ¹	47,346	399,614	781	7,182
Total.....	198,338	\$1,478,106	23,514	\$227,197

¹Uses for lime under this heading include the manufacture of alkali, acetate of lime, and calcium carbide, the last-mentioned being used largely for making cyanamid.

Sand and Gravel

A marked rise in the production of sand and gravel was noted in the dredging operations during 1935. Much of this increase was due to work done in Toronto harbour. Output from the pits of private operators was about the same as in the previous year.

OUTPUT OF SAND AND GRAVEL, 1934 AND 1935

Source	1934		1935	
	Quantity	Value	Quantity	Value
	tons		tons	
Private pit operators.....	551,145	\$249,980	554,032	\$238,878

Estimate for other producers.....			100,000	50,000
Total.....	7,254,926	\$1,714,569	8,151,618	\$2,095,610

Sand-Lime Products

The past three or four years have been dull for marketing sand-lime brick. This is, in part, owing to a depressed construction industry, but competition of other products, such as cinder blocks and kindred materials has cut into this trade considerably. Four companies were active in the Toronto metropolitan area, and in addition to brick produced sand-lime building blocks, ready mixed mortar, and plaster. These items have been included in the table "Summary of Mineral Statistics, 1935," on page 2, under the title "Sand-lime products." It should be pointed out that in the table on page 3 the figures prior to 1934 refer to sand-lime brick only. The selling value in 1935 was \$138,555, as against \$146,009 in the previous year.

Stone

A new feature in the stone-production industry in 1934 was the inclusion of slate, which has been absent from the list of building materials for several decades. A slate quarry situated in the northwest corner of lot 5, concession VI, Madoc township, was worked fifty years ago and supplied roofing slates for a few buildings in various towns of Eastern Ontario. There is a potential market for roofing shingles, blackboards, granules, and slate flour. The new operator is Ontario Slate Mines, Limited, which later became Canadian Slate Products, Limited. This company carried on development work in 1935. An initial shipment of 120 tons of granules was made during 1934. The Crespay Slate Products, Limited, also commenced development work near Madoc. No shipments were reported by either company in 1935.

OUTPUT OF STONE, 1933, 1934, AND 1935

Variety	1933		1934		1935

¹Includes fire-clay blocks and shapes worth \$90.

MISCELLANEOUS STATISTICS

Mining Company Incorporations

A summary of mining companies incorporated and licensed in Ontario from 1913 to 1935, inclusive, is given hereunder:—

MINING COMPANIES INCORPORATED AND LICENSED, 1913-1935

Year	Incorporated				Extra-provincial and mortmain companies licensed	
	No.	Nominal capital	"No par" companies		No.	Capital for use in Ontario
			No.	Shares		
1913	119	\$78,000,000			12	\$21,735,000
1914	80	39,030,000			13	5,445,000
1915	59	42,005,000			2	10,200,000
1916	83	109,079,500			8	7,011,650
1917	100	117,183,000			7	7,302,000
1918	59	49,800,000			7	15,000,000
1919	149	223,600,000			10	9,554,197
1920	119	146,094,000			12	9,435,000
1921	67	105,715,000			6	1,030,500
1922	91	181,040,000			6	830,000
1923	88	179,295,500			6	1,775,000
1924	85	156,485,000			2	200,000
1925	70	107,400,000	4	9,010,000	3	162,510
1926	145	165,655,750	28	22,386,500	6	4,850,000
1927	199	344,145,000	30	40,034,000	10	3,260,000
1928	211	495,575,000	28	30,778,400	17	7,208,500
1929	97	142,390,000	27	32,557,200	13	1,540,000
1930	37	23,234,600	20	16,808,909	6	5,525,000
1931	44	60,670,000	15	5,909,000	1	400,000
1932	43	58,766,000	12	5,844,000	0	
1933	95	158,365,000	21	23,165,000	8	1,290,000
1934	212	488,335,000	82	86,183,000	9	925,000
1935	116	205,320,000	24	18,054,500	1	40,000

Of the 140 companies incorporated in 1935, 116 had specified capital only, 24 were companies having shares without nominal or par value exclusively, and 5 companies had shares of both kinds.

EXTRA-PROVINCIAL COMPANIES LICENSED BY ORDER-IN-COUNCIL IN 1935

Name of company	Place of incorporation	Date of license (O.C.)	Value of land holdings in Ontario
Parry Sound Mining and Developing Company..	Massachusetts ¹	Jan. 25	\$40,000

¹Where a company is of foreign incorporation, or is incorporated in a province of Canada other than Quebec with which a reciprocity agreement exists, it is necessary for it to take out an Extra-Provincial License to do business in Ontario and to declare the amount of capital for use in Ontario.

MINING COMPANIES INCORPORATED IN ONTARIO IN 1935 HAVING SHARES WITHOUT NOMINAL OR PAR VALUE

Mining Revenue and Expenditures

The revenue of the Department of Mines for the fiscal year ending October 31, 1934, was \$1,487,886.94, as compared with \$942,721.62 in the previous year. Expenditures were \$298,520.74. In February, 1935, the end of the fiscal year for provincial revenue accounts was changed by the Legislature from October 31 to March 31. The first table below covers a five months' period, November 1, 1934, to March 31, 1935, and the second, the fiscal year ending March 31, 1936.

REVENUE, DEPARTMENT OF MINES, NOV. 1, 1934, TO MAR. 31, 1935

ORDINARY:

Sand and gravel—		
Royalties.....	\$12,225.21	
Licenses.....	200.00	\$12,425.21

¹Joined with Timiskaming since 1911. ²Office at Parry Sound was closed in 1921, and records are now kept at the Department of Mines, Toronto

Under *The Mining Tax Act*, a graduated tax is levied on the net profits of mining companies in excess of \$10,000 per annum. The basic rate is 3 per cent. on profits up to \$1,000,000. On profits over \$1,000,000 and up to \$5,000,000, the tax is 5 per cent.; and on profits in excess of the latter amount, the rate is 6 per cent. A part of this money is returned to organized municipalities.

The following statement, prepared by the Accounts Branch of the Department, gives details of the profit tax collected under the supervision of G. R. Mickle, Mine Assessor, for the year 1935:—

DETAILS OF PROFIT TAX

GOLD:

Anglo-Huronian, Limited.....	\$662.00
Ashley Gold Mining Corporation, Limited.....	420.81
Dome Mines, Limited.....	129,237.49
Hollinger Consolidated Gold Mines, Limited.....	157,056.15
Howey Gold Mines, Limited.....	8,649.85
Kirkland Lake Gold Mining Company, Limited.....	983.35
Lake Shore Mines, Limited.....	404,738.42
Macassa Mines, Limited.....	8,289.39
McIntyre-Porcupine Mines, Limited.....	116,233.75
Minto Gold Mines, Limited.....	345.23
Parkhill Gold Mines, Limited.....	976.19
Sylvanite Gold Mines, Limited.....	11,461.13
Teck-Hughes Gold Mines, Limited.....	77,127.63
Toburn Gold Mines, Limited.....	3,995.74
Wright-Hargreaves Mines, Limited.....	128,407.25
	<u>\$1,048,584.38</u>

SILVER:

Beaver mine.....	\$47.28
Cobalt Properties, Limited.....	454.28
Nipissing Mining Company, Limited.....	1,207.35
O'Brien, M. J., Limited (O'Brien mine, \$2,798.53; Miller Lake O'Brien mine, \$5,114.42).....	7,912.95
	<u>9,621.86</u>

NICKEL-COPPER:

Falconbridge Nickel Mines, Limited.....	\$16,917.12
International Nickel Company of Canada, Limited.....	325,532.78
	<u>342,449.90</u>

Total..... \$1,400,656.14

The figures of monies derived from sales and leases, divided according to district, do not agree with corresponding items of the preceding revenue statements, which record collections of monies actually received during the periods. Details are given in the following tables, the first of which covers the five months, November 1, 1934, to March 31, 1935, and the second, the fiscal year ending March 31, 1936.

MINING LANDS SOLD AND LEASED, NOV. 1, 1934, TO MAR. 31, 1935

The following is a comparative statement of mining licenses and renewals issued, claims recorded, profit tax, and total revenue during the past ten years:—

PROSPECTING ACTIVITY, PROFIT TAX, AND TOTAL REVENUE, 1926-1935

Year	Calendar year					Fiscal year ¹
	New miner's licenses issued	Miner's licenses renewed	Total licenses and renewals	Mining claims recorded	Profit tax	Total mining revenue
1926.....	6,631	5,521	12,152	13,486	\$410,974.17	\$838,415.81
1927.....	6,923	7,221	14,144	15,564	340,890.08	839,793.43
1928.....	6,059	8,688	14,747	15,046	356,033.83	968,243.84
1929.....	3,271	8,049	11,320	8,207	397,004.41	882,026.05
1930.....	1,554	5,885	7,439	3,886	502,525.38	1,017,030.67
1931.....	2,174	4,808	6,982	5,779	480,300.69	799,240.06
1932.....	2,035	3,670	5,705	4,945	515,153.59	793,759.20
1933.....	3,365	3,911	7,276	8,077	679,731.07	942,721.62
1934.....	7,409	4,757	12,166	16,888	1,073,824.46	1,487,886.94
1935.....	3,335	5,113	8,448	9,763	1,400,656.14	*1,917,981.93

¹Up to and including 1934, the fiscal year was from November 1 of the previous year to October 31 of the year shown. The fiscal year now ends on March 31.

²Includes \$130,338.18 for the five months' period November 1, 1934, to March 31, 1935, and \$1,787,643.75 for the new fiscal year ending March 31, 1936.

Temiskaming Testing Laboratories

This plant, located at Cobalt and equipped for sampling and assaying, has been operated by the Department since July, 1921, under the management of A. A. Cole, mining engineer, of the T. & N. O. Railway Commission.

COMPARATIVE FINANCIAL STATEMENT OF THE TEMISKAMING TESTING LABORATORIES, 1922-1935

Year	Cash receipts	Earnings	Expenditures	Operating profit	Operating loss
1922.....	\$18,096.19	\$17,749.51	\$19,173.19	\$1,424.68
1923.....	18,699.22	20,117.81	19,781.25	\$336.56
1924.....	26,032.20	25,417.61	23,206.66	2,200.95
1925.....	19,922.37	20,041.08	20,043.31	2.23

1932.....	13,323.28	11,150.42	15,219.64	4,069.22
1933.....	6,206.68	6,508.49	13,318.18	6,809.69
1934.....	9,816.20	11,359.81	12,762.68	1,402.87
1935.....	15,149.00	15,405.80	15,212.83	192.97

Provincial Assay Office

W. K. McNeill, Provincial Assayer and Chemist, reports as follows:—

The Provincial Assay Office, which was established in Belleville in 1898, as an aid in the development of the mineral resources of Ontario, is now situated in the East Block, Queen's Park, Toronto.

During the year 1935, a total of 5,407 samples were received at the office and reports on them issued. Of these, 3,548 were done free, as provided by R.S.O., Chap. 45, Sec. 69.

In addition complete analyses were made of 20 rocks for the geologists employed by the Department of Mines, and 218 samples were identified and reports on them issued. Several hundred samples were brought directly to the Laboratory; of these no records are kept.

Forty samples of peat were tested for the geologists of the Department and several samples of water for the Natural Gas Commissioner.

The work of the Branch was carried on with the assistance of T. E. Rothwell and W. F. Green, assayers and chemists, and Robert Stewart and William Ley, laboratory assistants.

The schedules of charges for the Provincial Assay Office and Chemical Laboratory may be obtained on application. Minerals and rocks not requiring chemical analysis are identified free of charge. Tests for radio-activity are free.

Draughting Office, North Bay

As mining claims are recorded in each mining division, sketches and recording notices are forwarded by the recorders to the Draughting Office, North Bay, and the same practice applies when surveys are filed. Tracings are prepared from the data furnished and blue-prints supplied to the recorders and to the general public at a nominal charge. North Bay is a convenient centre, and considerable time for Northern Ontario residents is saved through the mails compared with former practice when blue-prints were prepared at Toronto. The office was established in February, 1920. It is now in charge of A. D. Williams.

MINES OF ONTARIO IN 1935

By

Chief Inspector of Mines, D. G. Sinclair, Toronto; Inspectors, E. C. Keeley, Kirkland Lake; D. F. Cooper, Sudbury; E. B. Weir, Timmins; A. R. Webster, Toronto

CHROMIUM

Chromium Mining and Smelting Corporation, Limited

The Chromium Mining and Smelting Corporation, Limited, was incorporated in 1934, succeeding the Chromium Alloy Company, Limited. It has an authorized capitalization of 3,000,000 shares of no par value, of which 1,500,000 have been issued. The officers and directors of the company are: A. R. Globe, president and managing director; R. O. Denman, secretary-treasurer; F. J. Maw, R. S. Hart, and Scott Misener, directors.

The mine property is situated 26 miles south of Collins, a station on the main line of the Canadian National Railways, Thunder Bay district. The holdings include 12 patented claims and 35 unpatented claims, making a total area of about 1,900 acres.

Development work done on the property to date includes a large amount of surface-trenching, diamond-drilling, and underground development from a shaft 350 feet in depth. From the 100-foot level of this shaft 500 feet of cross-cutting and 120 feet of drifting have been done. Stations have also been cut at the 225-foot and 325-foot levels. No underground work was done at the mine in 1935.

Several ore zones have been found on the property. The largest and most extensively developed is known as the "E" zone, in which the 350-foot shaft has been sunk. In 1934, 12 diamond-drill holes, with total footage of 3,146 feet, were drilled in this zone. Officials of the company have stated that work done in this zone has indicated 225,000 tons of ore, 17 per cent. Cr_2O_3 , in a section 770 feet in length and 300 feet in depth. The total amount of diamond-drilling done on the property is 6,150 feet in 33 holes. Ten of these holes were drilled in 1929-30; the remainder in 1934. Work at the property in 1935 consisted chiefly of surface work and the making of a tractor road between the mine and Collins, a distance of 26 miles.

In May, 1935, the refining and smelting plant of Superior Alloys, Limited, at Sault Ste. Marie, Ont., was purchased.

The following is taken from the company's first annual report:—

After alterations and repairs, silicon operations were started on June 23, and chromium on August 23. This plant was built in 1929 for the production of ferro-alloys, and a considerable amount of manganese ore was treated prior to the general slump in that year. In the fall of 1934, operations were again resumed in the production of silicon mainly for overseas markets.

The building is of the usual steel construction which is used in furnace rooms for operations of this type, floor space being 60 by 160 feet. At the time this plant was taken over, there was in operation, one 3,000 k.w. electric furnace producing ferro-silicon, and transformers and other electrical equipment for a second furnace suitable for the smelting of chromium ore. From this equipment, together with the furnace from Niagara Falls, N.Y., a furnace for the chromium smelting has been assembled. In addition to the above, there is a considerable quantity of furnace parts which can be brought together later for more capacity. The plant having been originally designed for the production of ferro-alloys, extensions and additions may be added with a minimum amount of alterations. The capacity of this plant is 350 tons of ferro-silicon per month at the present time. This is being marketed through well-established channels. Dependent upon the type of alloy processed, from 60 to 200 tons of chromium alloy is being produced monthly. A third furnace is being made ready for chromium and will add to the capacity.

In addition to the purchase of the plant of Superior Alloys, Limited, the company also secured by lease, with option to purchase, the FitzGerald laboratory, which adjoins your furnace plant. The FitzGerald Testing Laboratory is fully equipped with chemical laboratory, two electrical furnaces, and the usual allied equipment for research work. The plant also includes one of the finest libraries of its kind in Canada, the Fitzgerald Memorial and Metallurgical Library.

Ore milled in 1935 amounted to 1,200 tons. Early in 1935, 750 tons of chromium ore was hauled to Collins from the mine by tractor. This was stock-piled at Collins. Nine cars, a total of 400 tons, of this stock was drawn on during the year.

The average number of men employed during 1935 at the mine was 20. During the last seven months of the year an average of 44 men was employed at the smelter. A. R. Globe is general manager of the company's operations. The mine address is Collins.

GOLD

Algold Mines, Limited

Algold Mines, Limited, was incorporated in February, 1934, with an authorized capitalization of 2,500,000 shares of no par value. A first mortgage bond issue of \$270,000, issued by New Goudreau Mines, Limited, stands against the property. The officers and directors are: W. R. Knox, president; J. G. Merrick, secretary-treasurer; J. J. Gray, M. C. Van der Voort, and Wm. Edwards, directors. The head office is at 45 Richmond Street West, Toronto.

The property is located in township 28, range 26, district of Algoma. By road, it is about 6 miles west of Goudreau on the Algoma Central railway. The mine address is Goudreau.

Previous operators sank a 425-foot and a 200-foot shaft, both of which are 2-compartment, 70-degree shafts. They established levels at 100, 120, 140, 200, and 400 feet, and mined two small stopes on the 100-foot level.

Algold Mines, Limited, started work in July, 1934. Underground operations were carried on from August, 1934, until the end of February, 1935, suspended until July, and then carried on until December, when they were again suspended.

The development work accomplished by this company from August, 1934, to the end of 1935, and the total in the mine at the end of 1935, on the various levels, was as follows:—

Level	Drifting		Crosscutting		Raising	
	1934-35	Total	1934-35	Total	1934-35	Total
	feet	feet	feet	feet	feet	feet
100-foot.....	365	865	40	95
120-foot.....		35
140-foot.....	35	110	15	15	110	110
200-foot.....	318	1,388	40	625
400-foot.....		470	150
Total.....	718	2,868	95	885	110	110

The plant included a 1,100-cubic-foot Ingersoll-Rand electric compressor, and an 8½- by 10-inch air hoist.

An average of 12 men was employed during 1935. R. F. Mitchell was in charge, except for a short period during which Frank Williams had charge.

Anglo-Huronian, Limited

Anglo-Huronian, Limited, incorporated in 1933, has an authorized capitalization of 2,000,000 shares of no par value, of which 1,252,605 are issued. The officers and directors are: André Dorfman, president; J. H. Black, vice-president; J. Ingram, secretary-treasurer; G. C. Andrew, J. Ritchie, R. D. Stewart, F. H. Hamilton, E. Turk, and Sir A. Hamilton Grant, directors. The head office is at 80 King Street West, Toronto.

The company owns and operates the Vipond mine, which lies south of and adjacent to the Hollinger mine in Tisdale township, district of Cochrane. The following table shows the development work done on the various levels to July 31, 1934; the work accomplished during the last fiscal year, August 1, 1934, to July 31, 1935; and the total:—

DEVELOPMENT WORK BY LEVELS TO JULY 31, 1935

Levels	Previous to August 1, 1934			From August 1, 1934, to July 31, 1935			Total		
	Drifts	Cross- cuts	Raises ¹	Drifts	Cross- cuts	Raises	Drifts	Cross- cuts	Raises
	feet	feet	feet	feet	feet	feet	feet	feet	feet

1,450-foot.....	2,807	2,131	1,227	622	192	12	3,429	2,323	1,239
Total.....	55,201	38,739	5,008	2,469	1,196	1,537	57,670	39,935	6,545

¹No record available previous to August 1, 1931.

No shaft-sinking or winzing was done during the year, but for purposes of comparison with the preceding table a summary of the work on shafts and winzes to July 31, 1934, is set out below:—

SHAFT-SINKING AND WINZING TO JULY 31, 1935

	Feet
North Thompson (No. 3) shaft.....	1,200
North Thompson (No. 3) winze (an extension of No. 3 shaft)...	250
Vipond (No. 1) shaft.....	400
Vipond (No. 4) winze (from the 300- to the 500-foot level)....	200
Crown (No. 2) shaft.....	500
Crown (No. 5) winze (inclined, from the 500- to the 900-foot level)	400
Crown (No. 6) winze (from the 900- to the 1,100-foot level).....	200

Diamond-drilling done between August 1, 1934, and July 31, 1935, amounted to 17,484 feet. In the same period the mill treated 104,764 tons of ore, which yielded \$277,238.73, valuing gold at \$20.67 an ounce. Previous to August 1, 1934, the total tonnage treated from the mine was 1,342,808 tons, which yielded \$10,583,956.49.

The average number of men employed at the Vipond mine in 1935 was 149, of this number 106 worked underground, 17 in the mill, and 26 on surface. Robt. E. Dye was manager throughout the year; and was succeeded early in 1936 by W. R. Adam. The mine address is Timmins.

Arbade Gold Mines, Limited

Arbade Gold Mines, Limited, has an authorized capitalization of 3,500,000 shares of \$1 par value, of which 2,112,939 have been issued.

The officers and directors are: C. A. Floyd, president; C. C. Floyd, secretary-treasurer; D. E. Sanderson and J. F. Kilawee, directors. The head office is at 10 Adelaide Street East, Toronto. The mine address is Matachewan.

The company owns 39 claims in Argyle and Baden townships, district of Timiskaming.

During 1935 a programme of surface development and diamond-drilling was carried out on the southwest group of claims. A mining plant was erected, and camps to accommodate 50 men were completed. A shaft was sunk to a depth of 60 feet.

An average of 7 men was employed.

Ardeen Gold Mines, Limited

Ardeen Gold Mines, Limited, was incorporated in December, 1933, with an authorized capitalization of 3,000,000 shares of \$1 par value. In 1935 the capitalization was increased to 4,000,000 shares of \$1 par value. The officers and directors are: H. G. White, president; Wm. Taylor, secretary-treasurer; Dr. V. M. Pierce, A. R. Miller, Jr., J. J. McNerney, C. G. Greenshields, James Cooper, and R. E. Allan, directors. The executive office is at 132 St. James Street West, Montreal, Que.

The property is located in Moss township, district of Thunder Bay, and is 18½ miles by road from Tip Top Spur on the Fort Frances branch of the Canadian National Railways.

Underground operations, which had been suspended in January, 1935, were resumed in August. Milling was resumed in the middle of November.

The lateral work accomplished from the resumption of operations until the end of the year consisted of 581 feet of drifting and 47 feet of crosscutting on the 1,000-foot level. Stopping was done on the 875- and 1,000-foot levels. A total of 3,871 feet of diamond-drilling was also done.

During November and December the 200-ton cyanide mill treated a total of 3,970 tons of ore.

An average of 28 men was employed during 1935 under the direction of W. R. Osborne. The mine address is Tip Top Spur, via Port Arthur.

Argosy Gold Mines, Limited

Argosy Gold Mines, Limited, incorporated in May, 1935, has an authorized capital of 3,000,000 shares of \$1 par value, of which 1,489,905 shares were outstanding on December 31, 1935. The officers and directors are: F. L. Tretheway, president; J. B. Tyrrell, vice-president; V. H. Emery, managing director; A. L. Bishop and J. A. Wilson, directors. L. Appleyard is secretary-treasurer. The head office of the company is at 8 Wellington Street East, Toronto. The mine office address is Casummit Lake, via Sioux Lookout.

The property held by Argosy Gold Mines, Limited, consists of 21 claims at Casummit lake, about 100 miles north of Sioux Lookout in the Patricia portion of Kenora district. This property was purchased from Casey Summit Gold Mines, Limited, in May, 1935, along with all the other assets of that company. Argosy Gold Mines, Limited, also assumed all liabilities of its predecessor company.

Argosy Gold Mines, Limited, commenced dewatering the mine shaft on May 23. Underground development work was started on June 18. Development work on the partly explored No. 2 vein was continued on the 300-foot level, and a winze was started on the vein from this level to establish new levels at 400 feet and 500 feet. A crosscut was also started on the 300-foot level to intersect the No. 3 vein, which had not previously been developed underground.

Equipment was ordered late in the year to alter the 50-ton amalgamation mill, built and operated for a short time by Casey Summit Gold Mines, Limited, to a 75-ton cyanide mill.

Steam and Diesel engine power are used at this mine. When underground work was resumed, the new company installed a 650-cubic-foot air compressor with direct connection to a 150 h.p. Diesel engine. No other important changes were made in the mining plant.

An average of 42 men was employed at this mine from May, 1935, to the end of the year. R. Massey Williams is mine manager.

Ashley Gold Mining Corporation, Limited

The Ashley Gold Mining Corporation, Limited, has a capitalization of \$3,000,000, in shares of \$1 par value. The officers and directors are: J. H. C. Waite, president; G. C. Ames, secretary-treasurer; Charles McCrea, C. G. McCullagh, W. R. P. Parker, E. H. Rose, and C. E. Trafford, directors. M. F. Fairlie is managing engineer. The head office is at 350 Bay Street, Toronto. The mine address is Elk Lake.

The mine in Bannockburn township, district of Timiskaming, was operated continuously throughout the year.

The following is taken from the report of the president for the year ending December 31, 1935:—

Operating profits amounted to \$54,295.69, as against \$60,428.92 in the previous year. After writing off prior development costs of \$63,607.11 and transferring \$4,000.00 from contingency reserve, there was a net loss of \$5,311.42. Net liquid assets increased by \$77,513.22 during the year and amounted to \$159,683.89 at December 31.

Development of new ore did not keep pace with production, and ore reserves decreased both in tonnage and grade. Estimated reserves at the end of the year amounted to 10,760 tons, averaging slightly less than 0.3 ounces per ton. In addition, there is a considerable quantity of backfill from the initial stoping operations, which, at the current price for gold and with mining costs written off, can be handsorted and treated at a small profit.

There were 47,367 tons of ore, with an average grade of 0.2636 ounces per ton, milled during the year, as compared with 43,532 tons averaging 0.315 ounces in 1934. The value of bullion produced amounted to \$440,553.70, against \$456,831.86 in the previous year. The total value of bullion shipments to the end of 1935 was \$1,465,495.97.

The cost per ton of ore milled, including mining, development and exploration, milling, administration and head office, was \$8.26. An appreciable reduction in operating costs was attained towards the end of the year.

Development and exploration work done during the year consisted of 5,265 feet of diamond-drilling, 2,097 feet of drifting, 727 feet of crosscutting, and 2,182 feet of raising.

In September a complete geological examination of the mine was made by an independent consulting geologist, who planned an extensive exploration programme, which is being carried out under his direction. As a result of this work several vein intersections have been located by diamond-drilling, but subsequent development by drifting, raising, etc., has failed to prove any considerable quantity of new ore. Unless new discoveries are made the life of this mine will be short.

An average of 120 men was employed. J. W. Robertson is resident manager.

Bankfield Gold Mines, Limited

Bankfield Gold Mines, Limited, was incorporated in April, 1934, with an authorized capitalization of 3,000,000 shares of \$1 par value, of which 2,520,005

shares have been issued. The officers and directors are: C. D. H. MacAlpine, president; T. H. Stinson, vice-president; F. J. Bailes, secretary-treasurer; Jos. Errington, D. M. Morin, and J. H. C. Waite, directors. The head office is at 1006 Concourse Building, Toronto.

The property is located in the Magnet Lake section of the Little Long Lac area, Thunder Bay district. It is reached by a 3-mile road from Kenwell on the Long Lac-Port Arthur branch of the Canadian National Railways. The mine address is Geraldton.

Underground operations were carried on throughout 1935. The 3-compartment vertical shaft was continued to a depth of 552 feet, and levels were established at 275 and 525 feet. A station was cut at 400 feet. The work accomplished on the various levels was as follows:—

Level	Drifting	Crosscutting	Raising
	feet	feet	feet
150-foot.....	1,323	404	17
275-foot.....	901	377	51
525-foot.....	244
Total.....	2,468	781	68

In addition 2,237 feet of diamond-drilling was done from surface, and 1,416 feet from underground.

The plant included two 90 h.p. boilers, an 11- by 8-inch Ingersoll-Rand steam hoist, and a 750-cubic-foot Ingersoll-Rand steam compressor.

An average of 54 men was employed, of whom 19 were underground. J. W. MacKenzie was in charge.

Barry-Hollinger Mines, Limited

Barry-Hollinger Mines, Limited, is capitalized at 4,000,000 shares of \$1 par value. The officers and directors are: Dr. E. Herbert Greene, president; J. P. Patterson, vice-president; D. McKinnon, secretary-treasurer; E. S. Williams, director. The head office is at 57 Bloor Street West, Toronto.

The mine, in the township of Pacaud, district of Timiskaming, was operated throughout the year with an average of 48 men. Operations ceased in January, 1936.

Development for the year consisted of 72 feet of drifting. Ore hoisted amounted to 35,172 tons. The total value of the production for the year was \$143,698.26. Douglas Bryden was manager.

Bidgood Kirkland Gold Mines, Limited

Bidgood Kirkland Gold Mines, Limited, has an authorized capitalization of \$2,000,000, in shares of \$1 par value. The officers are: A. L. Herbert, president; N. W. Byrne, secretary-treasurer; W. Crawford, R. J. Neelands, H. Koza, A. E. Belcher, and O. L. Knutson, directors. O. L. Knutson is mine manager, and S. A. Pain is consulting engineer. Both the head office and mine office are at Kirkland Lake. The company owns 753 acres in Lebel township, district of Timiskaming.

During 1935 work at the mine was confined to the 500-foot level of the No. 2 shaft. The main crosscut was extended 280 feet to the south and tapped the vein system running across the north end of the Moffatt-Hall mine into Bidgood ground.

In this zone a total of 1,337 feet of crosscutting and drifting was carried out, and 1,471 feet of diamond-drilling.

The cyanide mill treated 6,960 tons of ore extracted from the Moffatt-Hall mine under lease during the first seven months of the year, but after July all production was from the Bidgood mine, from which 11,148 tons derived from stopping and drifting on the 500-foot level was treated.

The mill has been gradually stepped up and is currently treating 60 to 70 tons daily. The crusher and rolls are capable of handling 300 tons daily, and the ball mill 110 tons daily. A tube mill is being installed, and with a few additions the cyanide end of the mill can treat 150 tons a day.

The mining plant consists of a 1,000-cubic-foot Sullivan compressor driven by a 200 h.p. motor, a 720-cubic-foot compressor driven by a 125 h.p. motor, and an electrically driven hoist.

The mine water is handled by vertical triplex and horizontal duplex pumps, each handling 100 g.p.m., with a 250 g.p.m. centrifugal pump as a standby.

Production for the year amounted to 2,243 ounces of gold and 806 ounces of silver from the Moffatt-Hall lease and 1,308 ounces of gold and 855 ounces of silver from the Bidgood mine.

An average of 42 men was employed.

Bilmac Gold Mines, Limited

Bilmac Gold Mines, Limited, was incorporated in September, 1934, with an authorized capitalization of 2,000,000 shares of no par value. The officers and directors are: L. F. Hogarth, president; G. E. McVittie, vice-president; A. C. Laing, treasurer; W. R. Marchmont, secretary; A. V. Kellum and Edward Coleman, directors. The head office is at 33 Temperance Street, Toronto.

The property consists of six claims in Macmurchy township, West Shining-tree area, district of Sudbury, and comprises the former White Rock, Atlas, Harvey Kirkland, and McVittie properties.

In October, 1934, sampling and mapping were started; and in February, 1935, underground work was commenced on the old White Rock property. Previous operators had put down a 2-compartment vertical shaft to a depth of 175 feet, established levels at 65 and 175 feet, and done 290 feet of drifting and 20 feet of crosscutting on the 65-foot level and 915 feet of drifting and 125 feet of crosscutting on the 175-foot level. They had also put up an inclined raise from the 65-foot level to surface, and mined a small stope on that level.

Work was suspended by the company in June, 1935, after the shaft had been deepened to 425 feet, and about 35 feet of crosscutting on a new level at 410 feet had been accomplished.

The plant included a 104 h.p. boiler, a 560-cubic-foot steam compressor, and a 9- by 8-inch Ingersoll-Rand double-drum hoist. There was an old mill on the property consisting of a jaw-crusher, a Tremaine stamp, and amalgamation plates.

An average of 35 men was employed during the period of work in 1935, of whom 10 were underground. J. E. Grant was manager, and Sydney Brown was superintendent. The mine address is Shiningtree.

Bob Tough Gold Mines, Limited

Bob Tough Gold Mines, Limited, was incorporated in September, 1933, with an authorized capitalization of 3,000,000 shares of no par value. The officers and directors are: R. R. Tough, president; H. J. Tiedt, vice-president;

J. H. Stevens, secretary-treasurer; Albert Levan, assistant secretary; E. B. Ratcliffe, managing director; F. H. Gage, R. E. Thompson, and H. J. Simons, directors. The executive office is at 207 Turner Building, Hamilton.

The property is located in McKinnon township, district of Sudbury, and is reached by a 16-mile road from Massey station on the Canadian Pacific railway.

During 1935 the installation of the plant was completed, and the 3-compartment vertical shaft was sunk 120 feet to a total depth of 150 feet. A level was established at 150 feet, where 118 feet of crosscutting was accomplished. Underground work was suspended in August, and surface work only carried on until the end of October, when all operations ceased.

The plant included a 99 h.p. horizontal return tubular boiler; a 750-cubic-foot Ingersoll-Rand compressor, driven by a 125 h.p. steam engine; and an 8-by 10-inch Jenckes single-drum hoist.

An average of 12 men was employed during the period of operation in 1935, of whom 5 were underground. E. B. Ratcliffe was in charge.

Bousquet Gold Mines, Limited

Bousquet Gold Mines, Limited, was incorporated in November, 1920, with an authorized capitalization of 2,000,000 shares of \$1 par value. The capitalization was increased to 3,000,000 shares in 1935. The officers and directors are: Lionel Brooke, president; C. H. Hitchcock, vice-president; Globe Investment, Limited, treasurer; W. B. McPherson, secretary; H. P. Snelgrove, director. The head office is at 171 Yonge Street, Toronto. The mine address is Willisville.

The property consists of 20 mining claims located in two groups in township 11, district of Sudbury. By winter road it is 7 miles east of West River, on the Algoma Eastern railway.

During 1935 the 2-compartment vertical shaft was sunk an additional 134 feet, to a total depth of 468 feet, and a third level established at 450 feet. The lateral work accomplished in 1935, and the total to the end of 1935 on the various levels was as follows:—

Level	Drifting		Crosscutting	
	1935	Total	1935	Total
150-foot.....	feet	feet	feet	feet
300-foot.....	177	447	67
450-foot.....	526	526	136	102
Total.....	703	1,578	136	136

In addition 1,908 feet of diamond-drilling was done from underground.

Anglo-Huronian, Limited, optioned a large block of shares in the company at the beginning of the year, and was responsible for the work done from the middle of February until June, when the option was dropped. The company suspended all work for 1935 at the end of July.

The plant used included an 80 h.p. and a 60 h.p. boiler, a 500-cubic-foot steam compressor, and an 8-by 10-inch steam hoist.

An average of 29 men was employed from the first of the year until the end of July. C. W. MacDonald was in charge during the option period, and Lionel Brooke during the remaining time.

Buffalo Ankerite Gold Mines, Limited

Buffalo Ankerite Gold Mines, Limited, was incorporated in 1932 with an authorized capitalization of 1,000,000 shares of \$1 par value. The number of shares issued and outstanding at the end of 1935 was 701,679; this includes shares to be issued to Marbuan Gold Mines, Limited, in consideration of the transfer of their net assets to this company. The officers of the company at the end of 1935 were: Geo. R. Feine, president; G. R. Loesch, vice-president; Henry Kobler, treasurer; R. P. Kinkel, assistant treasurer; E. G. Kinkel, secretary and managing director. The directors were: H. J. Tiedt, J. Betz, and A. J. Baldeck. The executive office of the company is at 1728 Rand Building, Buffalo, N.Y. The head office and mine office are at South Porcupine. The property is in Deloro township, district of Cochrane.

In 1935 plans were made for the acquisition of Marbuan Gold Mines, Limited, by Buffalo Ankerite Gold Mines, Limited. These plans were not approved by the shareholders of each company until January, 1936, but at this time the approval was given as of November 30, 1935.

The following is taken from the managing director's report to the shareholders for the fiscal year ending December 31, 1935:—

The recoveries for the year are indeed gratifying, having exceeded the \$1,000,000 mark, the total recovery being \$1,023,358.51 (Ankerite mill) and including the Marbuan mill for December, \$1,056,653.85, as compared to \$712,898.29 in the year 1934, with an average daily tonnage of 345.6 tons.

The operating profit, before depreciation and deferred development write-off, was \$311,941.30. This shows considerable improvement over 1934.

During the fiscal year the company acquired by outright purchase claim H.R.951 on McDonald lake, lying about one mile northwest of the company's property, consisting of about 40 acres, for a reasonable cash consideration. This claim may prove of considerable importance to the company in the future.

The most important step taken by the company during the year was the acquiring of the properties of the Marbuan Gold Mines, Limited. This transaction was approved by the Marbuan Gold Mines, Limited, stockholders on January 22, 1936, and the transfer of its properties to this company has been completed. By the consummation of this transaction the mining area of the company has been increased from approximately 155 acres to 331 acres. The milling capacity has been increased by the acquisition of the Marbuan mill to approximately 700 tons per day, with possibilities of being able to increase tonnage in 1936.

During the year 1935 the company employed the Canadian Appraisal Company, Limited, of Montreal, to make a thorough appraisal of the buildings, machinery, and equipment. The report of the Canadian Appraisal Company shows the valuations as of June 29, 1935, as follows:—

	Buffalo Ankerite	Marbuan
Buildings, replacement value.....	\$131,990.54	\$71,222.53
Buildings, present value.....	102,785.48	50,381.85
Machinery and equipment, replacement value.....	406,940.08	192,252.46
Machinery and equipment, present value.....	296,019.54	127,055.50
Grand total, replacement value.....	538,930.62	263,474.99
Grand total, present value.....	398,805.82	177,437.35

The operation policy for 1936 includes the completion of the crosscut from the Marbuan winze to the No. 5-7 ore zone, the connecting of this crosscut with the main Ankerite shaft, crosscutting to the Nos. 1 and 2 veins from the main shaft on the 875- and 1,050-foot levels, and drifting east and west on these veins. Alterations will be made in the crusher plant and Ankerite and Marbuan mills to increase capacity, providing that the development work progresses sufficiently to warrant increased tonnage.

The broken ore reserves (Ankerite) have increased in grade and tonnage over 1934. The positive ore reserves as estimated have increased from 107,997 tons to 360,648 tons. The estimated values have, however, decreased from the per ton value shown in the 1934 report. We believe this value to be more in line with recoveries of 1935. The excellent values and widths shown in diamond-drill cores below the 875-foot level, north zone, are very encouraging indications of increasing values at depth. In the 1934 report of Marbuan the broken ore reserves were stated to be 12,375 tons of \$3.75 grade. In the 1935 report this has been increased to 15,665 tons of \$3.10 grade. In 1934 there were no positive ore reserves, and in 1935 there were 33,520 tons

of \$2.97 grade. In 1934 the possible ore was given at 11,867 tons of \$6.85 assay value. The 1935 report shows 34,740 probable and possible ore reserves with an average assay value of \$2.63, all values above being at \$20.67.

The following is taken from the report of the manager to the president for the year ending December 31, 1935:—

Production

During the period the mill treated 159,383 dry tons, yielding \$1,023,358.51. Recovery per ton milled was \$6.42.

Milling

Percentage of total possible running time.....	97.88
Tons treated per day.....	437.7
Tons treated per 24 hours' running time.....	447.3
Mill heads (at \$20.67 per ounce).....	\$3.891
Mill tailings (at \$20.67 per ounce).....	\$0.223

Mining

	Tons
Ore broken in stopes and stope preparation.....	170,170
Ore broken in development.....	33,522
Total.....	203,692

Development and Exploration

The objectives for 1935 were the development of the Nos. 5 and 7 vein structures on the 250-, 350-, 725-, and 875-foot levels, and the extensions of the Nos. 1 and 2 veins on the 475- and 600-foot levels.

	Feet
Drifts.....	6,892
Crosscuts.....	70
Raises.....	2,477
Shafts.....	466
Diamond-drilling.....	11,179.5
	cu. ft.
Stations and pockets.....	9,537.8

Lengths of ore developed on the different horizons follow:—

Level	Vein	Feet
250-foot.....	No. 91.....	180
350-foot.....	No. 91.....	43
475-foot.....	Nos. 89, 90, 91, 2.....	687
600-foot.....	Nos. 83, 1, 2.....	279
725-foot.....	Nos. 90, 91, 89.....	840
875-foot.....	Nos. 89, 90, 91, 92, 93.....	1,542

Shaft-Sinking

The main shaft was repaired, and the timbers were relined from the 475-foot level to the bottom. Shaft sets between the 600-foot level and the bottom were replaced and jacked back into position. Shaft-sinking preparations were completed late in September, and actual sinking started October 10; 466 feet of shaft was sunk and the 875-foot station partially cut by the end of the year. Serpentine entered the shaft above the 1,050-foot station location. The shaft section from this horizon to the 1,200-foot level is in serpentized peridotite and serpentine.

Shaft set intervals were reduced, and it was found necessary to spile the last 35 feet of the section. It appears that the shaft is in the main serpentine mass, and it is questionable whether it would be advisable to continue sinking in this location.

Costs

The total operating costs per ton milled (for a total of 159,383 tons), including workmen's compensation, silicosis, and fire insurance, follow:—

	Total cost	Cost per ton
OVERALL OPERATING COSTS:		
Exploration.....	\$15,341.55	\$0.096
Development.....	103,405.52	.618
Mining.....	366,362.93	2.299
Milling.....	124,862.62	.783
General expense and personnel loss.....	61,440.18	.385
Total.....	\$671,412.80	\$4.213
UNIT COSTS:		
Per ton of ore broken in stopes.....		\$1.032
Per foot of drifts.....		12.859
Per foot of crosscuts.....		10.253
Per foot of raises.....		16.518
Per foot of diamond-drilling.....		1.240
Per foot of shaft (8 by 22 feet).....		78.308

Ore Reserves

The development factor has improved over that existing at the end of 1934. It is not up to normal at present. The sinking of the main shaft with stations established at the 875- and 1,050-foot levels will expedite the development of the No. 5-7 and South zone veins on these levels. Diamond-drilling has proved the downward extension of the structures to the 1,100- and 1,000-foot horizons, respectively, with favourable results.

Broken ore reserves are estimated at 105,379 tons, with an assay value of \$4.54, and positive ore reserves at 360,648 tons, with an assay value of \$5.42 per ton, both values being based on gold at \$20.67 per ounce.

Construction

Minor buildings were erected. The Marbuan steam plant was overhauled and is being used as a central heating unit for Marbuan and Ankerite. The necessary lines were installed to Ankerite. The tailings dam was increased in height to provide additional storage.

General

A second-hand Symons cone crusher was purchased and installed in the crushing plant. Two additional discs were purchased and installed on the American filter in the mill, raising the capacity of this machine to 500 tons plus. Costs have been reduced materially.

During 1935, the average number of men employed at the Buffalo Ankerite mine was 274, and at the Marbuan mine 110. Chas. L. Hershman was manager at both properties.

MARBUAN MINE

The following memorandum of the report on the operations of the Marbuan Gold Mines, Limited, for the year 1935 is taken from the annual report of the Buffalo Ankerite Gold Mines, Limited, for the same period.

This memorandum is made for the purpose of supplying general information regarding this property to Buffalo Ankerite Gold Mines, Limited, stockholders, although the property was not acquired until after the expiration of the year ending December 31, 1935.

Production

During the period the mill treated 59,380 dry tons, yielding \$287,012.17. Recovery per ton milled was \$4.833.

Milling

Percentage of total possible running time.....	\$5
Tons treated per day.....	162.3
Tons treated per 24 hours' running time.....	191
Mill heads (at \$20.67 per ounce).....	\$2.61
Mill tailings (at \$20.67 per ounce).....	\$0.189
Extraction, per cent.....	96.02

Mining

	Tons
Ore broken in stopes and stope preparation.....	58,105
Ore broken in development.....	9,413

Development and Exploration

The objectives for 1935 were the development of the indicated Nos. 3 and 5 structures on the 8th, 9th, and 10th winze levels.

	Feet
Drifts.....	3,914
Crosscuts.....	1,270
Raises.....	667
Diamond-drilling.....	7,596.6

Costs

The total operating costs per ton milled, including workmen's compensation, silicosis, and fire insurance, follow:—

OVERALL OPERATING COSTS:	Per ton
Exploration.....	\$0.159
Development.....	1.222
Mining.....	2.112
Milling.....	1.061
General expense and personnel loss.....	.489
Total.....	\$5.043
UNIT COSTS:	
Per ton broken in stopes.....	\$1.137
Per foot drifts.....	13.143
Per foot crosscuts.....	12.094
Per foot raises.....	15.903
Per foot diamond-drilling.....	1.185

Ore Reserves

Ore reserve calculations are based on extensions within the operating areas and the indicated possibilities beyond stope sections on all horizons.

Ore reserves	Tons	Assay value ¹
Broken.....	15,665	\$3.10
Positive.....	35,520	2.97
Probable.....	18,380	2.70
Possible.....	16,360	2.55
Total.....	83,925	\$2.85

¹Gold at \$20.67 per ounce.

Construction

The steam plant was overhauled and placed in operation as a central heating unit for both the Ankerite and Marbuan. All pipe-lines, steam and water, were replaced and insulated. A new fuse-house was built. The tailings dam was increased in height to provide additional storage.

General

A set of second-hand rolls were purchased and installed in the rock-house. Operating costs were reduced.

Canusa Gold Mines, Limited

Canusa Gold Mines, Limited, was incorporated in July, 1932, with an authorized capitalization of 1,500,000 shares of \$1 par value. In December, 1935, the shareholders of the company authorized an increase in the capitalization to 4,500,000 shares of \$1 par value. The officers and directors of the company in 1935 were: D. D. Wessels, president; Geo. Neukom, vice-president; Thos. R. Deacon, secretary; Robt. Schram, treasurer; H. Kendrick and P. Du Bois, directors. The head office is at 371 Bay Street, Toronto. The mine office address is South Porcupine.

The company holds 440 acres, 80 acres in Tisdale township and 360 in Whitney township, district of Cochrane. The claims are all in one group and were formerly held by the Scottish-Ontario Syndicate.

The following development work has been reported done at this property:—

	To Dec. 31, 1934	1935
	feet	feet
Shaft-sinking	320
40-foot level:		
Drifting	140	40
Crosscutting	10
Raising	15	15
100-foot level:		
Drifting	600	225
Crosscutting	305	150
Raising	240
300-foot level:		
Drifting	225
Crosscutting	790
Raising	20

There is a 25- to 50-ton amalgamation mill on this property. Only a small tonnage was milled in 1935. No bullion sales have been reported.

Other plant equipment includes one 40 h.p. locomotive-type boiler, one 20 h.p. marine-type boiler, two air compressors, capacities 850 and 300 cubic feet, a single-drum hoist, and electric motors to drive both compressors and hoist.

Operations were suspended at the property about September 1, 1935, with the exception of pumping operations. The average number of men employed was about 14. Robt. Schram was general manager during 1935.

Casey Contact Gold Mines, Limited

In June, 1934, the charter of Brookbank Gold Mines, Limited, incorporated in March, 1929, was acquired by Casey Contact Gold Mines, Limited. The authorized capitalization was increased in November, 1934, from 3,000,000 shares to 3,500,000 shares of \$1 par value. The officers and directors are: F. W. Purdy, president; H. L. Walker, vice-president; E. M. Hand, secretary-treasurer; E. L. Cousins, A. K. Roberts, and H. F. Cassidy, directors. The head office is at 67 Yonge Street, Toronto.

The company acquired in 1934 the Brennan-Kenty east group of 12 claims, located about 8½ miles northwest of Nezhah in the Sturgeon River area, district of Thunder Bay. Surface work and diamond-drilling was carried on until June, 1935, when underground work was started. A 2-compartment vertical shaft was sunk to a depth of 228 feet. A station was cut at 100 feet, and a level established at 200 feet. All work was suspended at the end of September owing to financial difficulties. A total of 408 feet of lateral work was accomplished on the 200-foot level.

The plant included a 165 h.p. locomotive-type boiler, a 6- by 8-inch Canadian Mead single-drum hoist, and a 275-cubic-foot Sullivan steam-driven compressor.

An average of 23 men was employed in 1935 to the end of September, under the direction of H. M. Parrington. The mine address is Jellicoe. There is a winter road to the property from Nezhah.

The company also owns a group of 33 claims at Casummit lake, 100 miles north of Sioux Lookout, in Patricia portion of Kenora district.

At the beginning of 1936 arrangements were being made to change the name of the company to Brengold Mines, Limited.

Central Patricia Gold Mines, Limited

Central Patricia Gold Mines, Limited, was incorporated in 1931, succeeding Central Patricia Mines, Limited, formed in 1927. It has an authorized capitalization of 2,500,000 shares of \$1 par value.

The officers and directors are: F. M. Connell, president; W. H. Connell, vice-president; Alan Cockeram, secretary-treasurer; J. H. Rattray, L. Cohen, and G. B. Webster, directors. The head office is at 85 Richmond Street West, Toronto.

The mine is situated in the Crow River area, district of Kenora, Patricia portion. The mine camp is about 110 miles north of Savant Lake Station on the Canadian National railway. It lies about 6 miles west of the property of the Pickle Crow Gold Mines, Limited. The holdings include 85 claims, which lie in several large groups in the surrounding area.

The following is an extract from the president's report for the year ending December 31, 1935:—

Following the addition to the mill in April, increasing the capacity to 100 tons per day, production was maintained at that rate throughout the balance of the year. The total yield was 22,061.26 ounces of gold and 2,296.96 ounces of silver, valued at \$777,570.49, from 35,192 tons of ore treated.

A further addition to the mill was decided on in July to bring the milling capacity to 150 tons per day. All the necessary equipment has been purchased and it is expected to have the enlarged plant in operation by March 1, 1936.

Under the existing contract with the Hydro-Electric Power Commission of Ontario, power was delivered to the mine in April and has resulted in a considerable saving. With future requirements in mind, negotiations were opened with the commission for additional power. Your company has concluded a new contract, agreeing to purchase 800 horse-power per annum at \$65 per horse-power for a period of seven years. Power exceeding the 800 horse-power is to be supplied at a \$35 rate. After the seven-year period, all power is to be supplied at \$35 per horse-power for the life of the mine. This new contract will come into effect when the additional power is delivered following the completion of the construction of a second unit at the Rat Rapids development site.

A further reduction in transportation costs was effected on the completion of the Root River portage development last July. Freight can now be transported from Hudson on the Canadian National railway to Doghole bay at the east end of Lake St. Joseph. Doghole bay is 21 miles from the property. The government is now considering the construction of a road from this point to the mine. The road is urgently needed for the general development of this new and proved mining area.

Patents were obtained on 46 mining claims held by your company, representing 2,024.16 acres, making a total of 64 claims, or 2,624.44 acres, on which patents have been acquired. The company has in addition 40 mining claims which will be patented when the required assessment work is completed.

During the coming year it is proposed to sink the main shaft from the 500- to the 1,000-foot level and also carry on further lateral exploration. The amount of development that can be done will be governed by the power available. Delivery of the extra power contracted for is not expected until the 1st of October next.

Development at the No. 2 operation (Springer) was carried out as planned, and the results of the work are covered in the mine manager's report. Power requirements at the main mine made it impossible to carry on further work at this operation for the time being, but in view of the satisfactory results obtained it is the intention of your directors to extend the present shaft to the 500-foot level and do further lateral work when the power is available.

At the close of the year, after treating 35,192 tons, the ore reserves amounted to 95,413 tons, averaging 0.64 ounces per ton.

The development at the main mine continues to be very satisfactory, and that at the No. 2 operation has indicated a substantial length of high-grade ore; and future development of this property shows much promise.

The following is taken from the mine manager's report for the year ending December 31, 1935:—

Production

During the year, 35,192 tons of ore were treated, from which was recovered \$777,570.49. The average extraction was 97.36 per cent.

Development

Development was restricted to the opening of the known ore shoots. The "B" and "C" ore shoots were developed on the 3rd and 4th levels. This work has shown the ore to have

greater widths and lengths than previously estimated and has consequently increased the tonnage of ore available while maintaining the same grade.

Diamond-drilling has improved the outlook for increased ore reserves. Drilling was done from underground workings and at surface. A hole drilled from the station at the 500-foot level cut the "C" ore shoot at a vertical depth of 140 feet below that level. An ore intersection in this hole gave 0.55 ounces gold across a width of 9 feet. Shallow surface drilling was done 1,200 feet west of the shaft and has disclosed a new ore area. The results of this work indicate a section 233 feet long by 2.5 feet wide, with an average grade of 0.4 ounces gold. Further exploration of this showing will be undertaken by means of underground work on the 375-foot level. Preparations were made to sink the main shaft from the 500-foot to the 1,000-foot level.

ORE ESTIMATE

	Tons	Grade
		ounces
"A" ore body.....	6,395	0.59
"B" ore body.....	31,295	.60
"C" ore body.....	36,965	.68
"D" ore body.....	4,450	.52
Broken ore in stopes.....	16,308	.65
Total.....	95,413	0.64

Construction

During March and April, a complete change-over from steam to electric power was effected, and at the same time a second mill unit was installed and put into operation, raising the daily capacity from 50 to 100 tons. This change-over of the plant necessitated the construction of a new power-house and a new headframe.

The installation in the power-house of two new compressors, a double-drum hoist, and a standby unit was completed.

The following additional buildings were constructed and equipped: kitchen and dining hall (capacity 150 men), central heating plant, 5 houses, recreation building, machine shop.

No. 2 Operation (Springer)

A plant (electrically operated) was set up and a shaft sunk to 175 feet. A station was established at 150 feet and a total of 1,022.5 feet of crosscutting and drifting was done.

Four ore shoots, varying in length from 25 feet to 90 feet, were found to the west of the main crosscut, giving a total ore length of 198 feet, averaging 2.35 ounces over a width of 14 inches. It was necessary to suspend this work in order to have sufficient power available to carry on shaft-sinking operations at the main property. The results of the exploration to date are very satisfactory, and further sinking and development will be carried on as soon as hydro power is available.

Summary

The change-over from steam to electric power, together with the improved mine conditions, necessitated a complete rearrangement of the plant and camp buildings. The major expenditures have been completed, so the expense of the construction programme for the ensuing year should be moderate.

In July, it was decided to increase the daily capacity of the mill to 150 tons. Material and equipment for this purpose were purchased and the mill addition is now being erected. All work, apart from capital expenditures, has been written into the operating costs.

An average of 105 men was employed during the year. A. J. Anderson is mine manager. The mine address is Pickle Crow.

Central Porcupine Mines, Limited

Central Porcupine Mines, Limited, incorporated December, 1933, has an authorized capitalization of 5,000,000 shares of \$1 par value. The officers and directors of the company are: E. Ward Wright, president; C. D. H. MacAlpine, vice-president; Geo. G. Blackstock, secretary-treasurer; W. J. Aikens, W. J. Hume, H. C. McCloskey, and Jos. Montgomery, directors. The head office is at 25 King Street West, Toronto. The mine office is at Schumacher.

The property held by Central Porcupine Mines consists of 13 claims, 520 acres, in the township of Tisdale, district of Cochrane. It lies south of the

Coniaurum mine and east of the McIntyre and Hollinger mines, and adjoins each. Development of this property has been carried on through the Goldale shaft of the Coniaurum mines, work being done from the 1,000-foot level. In 1934 a crosscut, approximately 2,220 feet in length, was started to reach Central Porcupine ground. About 1,303 feet advance was made in this crosscut in 1934. Early in 1935 a vein was encountered on Coniaurum ground, and cross-cutting was temporarily held up while some development work was done on this vein. Work on the crosscut was later resumed and Central Porcupine ground was entered about 650 feet east of the northwest corner of the property. The crosscut was continued in a direction S.25° E., for 1,252 feet beyond the boundary. A line drive from a point 85 feet back of the face was then carried due east for 689 feet, from which point a crosscut was again started in a southerly direction. Only a few rounds had been taken from this crosscut at the end of the year. The total advance in 1935 was 2,908 feet. From the same level 3,109 feet of diamond-drilling was done in 1935.

The average number of men employed in 1935 was 32. F. G. Stevens is general manager of this property, and Chas. Workman is mine superintendent.

Churchill Mining and Milling Company, Limited

The Churchill Mining and Milling Company, Limited, was incorporated in March, 1918, and now has an authorized capitalization of 4,000,000 shares of \$1 par value. The officers and directors are: W. R. Knox, president; K. G. Merrick, secretary-treasurer; D. Lieberman, H. H. Van Wart, and F. H. Geddes, directors. The head office is at 45 Richmond Street West, Toronto.

The property held by this company includes a group of four claims in Churchill township, in the West Shiningtree area, district of Sudbury.

Operations at this property, which were suspended in October, 1934, were resumed in July, 1935, and again suspended at the end of November. During 1935 a level was established at the bottom of the 109-foot, 2-compartment shaft, sunk in 1934, and a total of 70 feet of drifting and 154 feet of crosscutting was accomplished.

The plant included a 47 h.p. locomotive-type boiler, a 270-cubic-foot Sullivan compressor driven by a steam engine, and a 6- by 8-inch Jenckes hoist.

An average of 10 men was employed during the period of operation, under the direction of A. Lantagne.

Clark Gold Mines, Limited

Clark Gold Mines, Limited, was incorporated in October, 1934, with an authorized capitalization of 2,000,000 shares of \$1 par value, 650,000 of which have been issued. The officers and directors are: R. H. Miner, president; A. J. Reece, vice-president; G. S. Andrews, secretary-treasurer; W. S. Lighthall, A. C. Dick, and M. A. Carton, directors. The executive office is at 7411 De Lanaudiere Street, Montreal, Que. The mine address is Dymont.

The property consists of a group of 15 claims located about 8 miles southwest of Dymont on the Canadian Pacific railway, district of Kenora.

Work was started in October, 1934, and carried on until November, 1935. Some open-cut mining was done, and several shipments of ore were made. Underground work was started in April, 1935, and suspended at the end of September, 1935. An old 2-compartment, 75-degree shaft, 75 feet deep, was slashed to vertical and timbered. A level was established at 68 feet, on which 20 feet of drifting was done.

The plant included a 310-cubic-foot gasoline compressor and a small air hoist. Buildings erected consisted of a power-house, blacksmith shop, and powder magazine.

An average of 21 men was employed during 1935, under the direction of R. R. Clark.

Cole Gold Mines, Limited

Cole Gold Mines, Limited, incorporated in November, 1933, has an authorized capitalization of 3,000,000 shares of \$1 par value. The officers and directors of the company are: John Y. Cole, president; Wm. Exton, Jr., vice-president; Cecily Cole, secretary-treasurer. The executive office and the mine office are both located at Cole, a recently established post office.

The holdings of the company are located along the southwestern shore of the Pipestone Bay section of Red lake, in the Patricia portion of Kenora district.

The property is being developed through a 2-compartment shaft, which was sunk to 200 feet in 1933. In 1934, a large amount of development work was done on the 200-foot level and a number of veins were partially developed. In 1935, the 300-foot level was opened. Development continued on this level until about the middle of September, when sinking was again resumed, with an objective depth of 550 feet. This work was completed about the end of the year. Two new levels at 300 feet and 400 feet are to be opened.

Work to date has been carried on with a small steam-operated plant, which includes one 70 h.p. locomotive-type boiler, a Canadian Ingersoll-Rand 250-cubic-foot air compressor, and an 8- by 10-inch Jenckes hoist. Arrangements for the supply of electric power to the mine by the Hydro-Electric Power Commission of Ontario were recently reported to have been completed.

From 45 to 55 men were employed at the mine in 1935. John Y. Cole is manager of the property.

Concordia Gold Mining Company, Limited

The Concordia Gold Mining Company, Limited, is a subsidiary company of Associated Gold Mining and Finance Company, Limited. The company was incorporated in May, 1934, with an authorized capitalization of 3,000,000 shares of no par value, of which 1,501,000 shares are reported held by the parent company. The head office of the company is at 276 St. James Street West, Montreal, Que. The officers and directors of the company are: A. E. Ladouceur, president; Walter F. Costigan, secretary-treasurer; Theo. Lanctot and Stuart Grant, directors. C. L. Laederer is mine manager, and E. E. Elliott is mine superintendent. The mine address is Timmins.

The Concordia Gold Mining Company took over the property of Jones-Porter Mines, Limited, consisting of 14 claims in Deloro township, district of Cochrane. The underground workings consist of a 3-compartment shaft, 158 feet in depth, with station at 125 feet, at which level 177.8 feet of crosscutting and 55.7 feet of drifting had been done to December 19, 1935. During 1935, 10 diamond-drill holes were drilled from underground, and 8 from surface. Total footage in all these holes combined was slightly in excess of 2,400 feet.

During the year the plant was altered, and several additions were made. Buildings and equipment are as follows: office and staff residence; cookery; 2 bunk-houses; fully equipped assay office; blacksmith shop, with Climax drill-sharpener; superintendent's residence; oil-house; magazines; auxiliary boiler-house, with two vertical-type boilers, 25 to 30 horse-power each, used for heating and to supply part of the power required in the mill; a main boiler-house, under

construction, and 2 locomotive-type boilers of 100 h.p. each; and a large combination building, in which there is a fully equipped machine shop, welding shop, dry-house, engineering office, mill, and hoist-room. In the hoist-room there is an 8- by 10-inch Jenckes hoist; a Sullivan, steam-driven, 2-stage, 1,000-cubic-foot air compressor; a second compressor with a rated capacity of 180 cubic feet; and a 20 k.w. steam-driven lighting unit.

In a building attached to the hoist-room is a 12- by 14-inch Ingersoll-Rand 480-cubic-foot air compressor belted to a Hercules TXO 110 h.p. gasoline power unit. This power plant was installed in 1935 and supplies the air for the present mining operations.

The Canadian Straub mill, also installed in 1935, has a capacity of from 5 to 9 tons. It was put into operation in October; and it is estimated that about 230 tons were treated during October, November, and December. On December 15, 1935, the first shipment, 32.9842 ounces of bullion was sent to the Royal Mint.

During 1935 the average number of men employed monthly was 24.

Russell C. Cone

In the spring of 1935, Russell C. Cone obtained a lease on No. 5 vein on the Lucky Coon property, mining claim P. 655, located about 4 miles south of Mine Centre in the Rainy River district.

There is an old 2-compartment vertical shaft on this vein, which is reported to be 115 feet deep, but no headframe or buildings were left.

Work was started in June to move equipment into the property and to construct buildings. A small mill was completed and put in operation on October 1 to test ore from the dump, but was shut down a month later. The mill equipment included a jaw-crusher, Gibson rod mill, and amalgamation plates. A 20 h.p. boiler and a 5- by 7-inch single-drum hoist were taken into the property, but no underground work had been started by the end of the year.

An average of 5 men was employed under the direction of Russell Cone. The mine address is Mine Centre.

Coniaurum Mines, Limited

Coniaurum Mines, Limited, has an authorized capitalization of 6,000,000 shares of no par value, of which 2,717,947 shares have been issued. The officers and directors of the company are: Thayer Lindsley, president; A. L. Bishop, vice-president; H. Whittingham, secretary-treasurer; Alex. Longwell, H. Lindsley, H. S. Monroe, T. H. Rea, directors. The head office is at 25 King Street West, Toronto. The mine address is Schumacher. John Redington is mine manager.

The mine property consists of about 760 acres adjoining the McIntyre-Porcupine mine on its east boundary, in Tisdale township, district of Cochrane.

The property has been developed through two shafts and several winzes. The Main, or Bishop, shaft was deepened in 1935 to 3,700 feet. A second shaft goes down to the 1,000-foot level. Some 833 feet of winze-sinking was also done in 1935, bringing the total winze footage up to 1,678 feet.

The following is taken from the mine manager's report for the year ending December 31, 1935:—

Development

Development in various parts of the mine has consisted of considerable lateral work, as well as sinking and raising. The Bishop, or Main, shaft has now reached a depth of 3,700 feet.

Two new levels have been established: the 3,250-foot and the 3,500-foot. In addition, a winze is being put down near the east boundary of the West Goldale claim. This has now reached a depth of 900 feet below the 3,000-foot level. Considerable amounts of drifting and crosscutting have been done on the 1,000-, 1,750-, 2,000-, 3,000-, and 3,500-foot levels.

Exploration

The 3,250- and 3,500-foot levels are now under vigorous exploration. No. 10 crosscut is being driven on the 3,250-foot level to intersect the No. 7 vein fracture, which is located on the south side of the Coniaurum porphyry mass. On the 3,500-foot level M2 crosscut is being driven west to connect with the winze, where a level has already been established. From this point M2 crosscut will be driven due west to the McIntyre boundary.

Veins Nos. 7, 25, and 26 have been indicated on the 3,500-foot level and are now under exploration. Vein No. 24 on the 1,000-foot level has been driven on for some distance. This vein is located in the southwest portion of the property. On the 3,000-foot level, veins Nos. 21 and 22 have been developed for some distance. Both of these provided considerable ore for mill feed.

This year has been one of large expansion both underground and on surface. The full value of this will not begin to make itself apparent until about June of 1936. At that time we expect to bring into production at least two new levels.

Diamond-drilling, as in other years, has been carried on for the purpose of obtaining geological information, as well as for the location of ore bodies.

SUMMARY OF DEVELOPMENT

	Feet
Sinking.....	1,338
Drifting.....	2,481
Crosscutting.....	4,373
Raising.....	1,857
Diamond-drilling.....	12,942

The footage driven in ore was 1,684 feet, with an average value of 5 pennyweights per ton over a width of 4.8 feet. Vein No. 15 has been developed on the 350-foot, vein No. 15A on the 1,750-foot, and veins Nos. 21 and 22 on the 3,000-foot level.

Ore Reserves

Broken ore reserves are greater than those of last year and are now 200,067 tons. Stoping supplied 199,357 tons, and development another 17,622 tons of ore. The mill drew 151,055 tons, leaving a carry-forward of 200,067 tons of ore at the end of the year. Unbroken ore reserves are estimated at 171,320 tons, having an average grade of 4.1 pennyweights.

Milling

During the year the mill treated 151,055 tons of ore with an average recovery of \$7.51 per ton, extracting 95.94 per cent. of the gold content, operating 354.73 days, or 97 per cent. of the possible running time. The mill was closed down for a period of ten days while making the change-over of crusher into the new crusher building.

New Equipment and Improvements to Buildings

A new hoisting engine, with a maximum speed of 1,800 feet per minute, was installed. A new headframe was erected, and the crushing plant rearranged to facilitate handling larger tonnage. Also some additional equipment was added to the machine shop. The new buildings consist of a fireproof hoist-house and electrical shop; an addition to the dry-house; and an addition to the main office for the use of the resident doctor, as well as a new residence to accommodate the physician.

Tailings Dam

A large tailings dam is now under construction. When complete it will have a storage capacity that will serve our requirements for many years. We are very fortunate in having this available space on our property.

The average number of men employed during the year was 296; of this number 211 were employed underground.

Consolidated Mining and Smelting Company of Canada, Limited

The Consolidated Mining and Smelting Company of Canada, Limited, is capitalized at \$20,000,000, divided into 800,000 shares of \$25. The officers and directors are: Jas. J. Warren, president; Jas. E. Riley, secretary-treasurer; Jas. J. Warren, Sir Edward Beatty, S. G. Blaylock, Henry Joseph, J. C. Hodgson,

F. G. Osler, R. S. McLaughlin, Sir Herbert Holt, W. A. Black, R. H. McMaster, Thayer Lindsley, Hon. R. R. Bruce, Sir Charles Gordon, and L. A. Campbell, directors. The head office is at 215 St. James Street, Montreal, Que. An office is maintained at 302 Bay Street, Toronto.

Afton Mine

The company started underground operations on this property in January, 1935, and carried them on throughout the year. The property is in Afton township, Timagami Forest Reserve, district of Sudbury.

Previous operators had driven a 200-foot adit, from which a 2-compartment vertical winze had been sunk to a depth of 150 feet. A level was established at that depth, on which 270 feet of crosscutting was accomplished.

During 1935 the winze was sunk an additional depth of 266 feet, to a total depth of 416 feet, and levels were established at 275 and 400 feet. The lateral work accomplished in 1935 consisted of 34 feet of drifting on the 150-foot level, 616 feet of drifting and 249 feet of crosscutting on the 275-foot level, 751 feet of drifting and 210 feet of crosscutting on the 400-foot level. During the year a total of 1,321 feet of diamond-drilling was done from underground, and 957 feet from surface.

The plant used included two 53 h.p. horizontal return tubular boilers, a 360-cubic-foot steam-driven compressor, and an 8- by 6-inch Ingersoll-Rand single-drum hoist.

New Golden Rose Mines, Limited, was incorporated in April, 1935, with an authorized capitalization of 3,000,000 shares of \$1 par value to take over this property from Afton Mines, Limited, in return for 1,000,000 shares of New Golden Rose stock. Under the terms of the option Consolidated Smelters was to receive approximately 2,000,000 shares of New Golden Rose stock on an expenditure basis. This expenditure was completed during 1935 and the option fulfilled.

An average of 54 men was employed during 1935, of whom 23 were underground. D. C. McKechnie is mine manager, and W. E. Aitchison is superintendent. The mine address is Sudbury.

Cordova Mine

The company acquired the old Cordova property on the east half of lot 20, concession I, Belmont township, Peterborough county.

In 1935 the old No. 3 shaft was dewatered, retimbered, and enlarged to the 5th, or bottom, level. An additional 160 feet of sinking was done and new hoisting equipment installed. Some 22 feet of drifting and 36 feet of crosscutting was done, and 600 tons of ore and 5,000 tons of waste were hoisted.

C. A. Seaton was manager, employing 39 men. The mine address is Cordova.

Golden Horn Mine

In May, 1935, work was started under option at the old Golden Horn mine, Rush bay, Lake of the Woods, district of Kenora. It is about 22 miles southwest of Kenora.

Previous operators put down two shafts on this property to depths of 106 and 254 feet, and established levels at 100, 166, and 235 feet. They accomplished 231 feet of drifting and 65 feet of crosscutting on the 1st level, 362 feet of drifting and 31 feet of crosscutting on the 2nd level, and 118 feet of drifting and 285 feet of crosscutting on the 3rd level. A small amount of stoping was done. They constructed a small mill containing a jaw-crusher, rolls, Huntington mill, and three concentrating tables, with which some gold was produced.

The company dewatered the workings and carried on sampling work till the end of July, when the option was dropped.

The mill and cookery were all that remained of the old equipment. A 310-cubic-foot gasoline compressor was used to dewater the workings.

An average of 7 men was employed during the period of work, under the direction of C. E. White.

McKenzie Claims

The company has under option the McKenzie group consisting of 9 claims, or about 360 acres, in Garrison township, district of Cochrane.

The following work was done in 1935: shaft-sinking, 256 feet; crosscutting, 712 feet; and drifting, 293 feet; about 7,612 tons of waste were hoisted.

The plant consists of a gasoline compressor and a single-drum air hoist. An average of 20 men was employed at the property during the year. The mine address is Matheson. A. S. Hudson was manager.

Rich Rock

The company has under option the property of Rich Rock Mines, Limited, in Kaladar township, Lennox and Addington county. The property consists of 298 acres in lots 24 and 25, concession VI.

Work was started on April 24, 1935, and to the end of the year the following work was accomplished: shaft-sinking, 125 feet; crosscutting, 57 feet; and drifting, 30 feet. About 150 tons of ore and 1,700 tons of waste were hoisted.

C. E. White was manager, employing an average of 25 men. The mine address is Flinton.

Cooper and Barry

W. D. Cooper and P. A. Barry continued operations, on a lease basis, on the Birch Lake property of McIntyre-Poreupine Mines, Limited, to the end of 1935. This property consists of 8 claims on the north side of Birch lake, two miles east of the Argosy mine, in Kenora district, Patricia portion.

In 1934, mining was carried on from an open stope. In 1935, a shaft was started from the bottom of the stope, 42 feet below surface, and sunk to 98 feet. The ore was found to be cut off in this shaft by a horizontal fault. Some exploration work was done along the fault-plane, but the downward continuation of the ore was not found. Work was then resumed at the 42-foot level. Drifting was started from each end of the stope, and about 100 feet of lateral work was done. Some ore was taken down above the drifts. In September, 1935, about 20 tons of ore was being milled daily in a small stamp and amalgamation mill.

The lease was dropped about the end of the year, and since then part of the mill equipment has been removed from the property.

The average number of men employed in 1935 was 19.

Corless Patricia Gold Mines, Limited

Corless Patricia Gold Mines, Limited, was incorporated under the laws of Ontario on January 7, 1935. It is capitalized at 3,000,000 shares of \$1 par value; 1,000,000 shares were issued for property. The officers and directors are: Edwin C. Graves, president; H. J. Carmichael, vice-president; Joseph Simpson, secretary-treasurer; Charles Buchanan and Robt. White, directors. The head office address is 25 Richmond Street West, Toronto. The mine address is Jackson Manion.

The property consists of 26 patented claims, approximately 1,000 acres, in Corless township, in the Woman Lake area, district of Kenora, Patricia

portion. It lies about $5\frac{1}{2}$ miles west of the property of J-M Consolidated Gold Mines, Limited, and may be reached from Hudson by a canoe route through Lac Seul, Pakwash lake, Trout Lake river, and Woman river, to Woman lake, but the best route is by air from Hudson or Sioux Lookout. The planes land on Corless lake about one mile from the camp.

Work to date has consisted of trenching and diamond-drilling. Active development was begun in January, 1935. During the year 26 diamond-drill holes, averaging 184 feet in depth, were drilled. Further drilling is planned for 1936.

Ten log buildings have been erected on the property, including a fully equipped assay office.

A. A. Robins was manager during 1935, and was succeeded by W. M. Rice. An average of 15 men was employed at the property during the year.

Coulson Consolidated Gold Mines, Limited

Coulson Consolidated Gold Mines, Limited, has a capitalization of 3,000,000 shares of \$1 par value, of which 1,378,980 shares have been issued. The officers and directors are: Nicholas Kinsella, president; A. Ritchie, secretary-treasurer; L. V. Sutton, Raymond Sutcliffe, G. S. Haines, and D. McKenna, directors. The head office is at 1809 Royal Bank Building, Toronto.

The property in Coulson township, district of Cochrane, operated throughout 1935. Underground work was suspended in November.

During the year the south shaft was deepened to 570 feet, and 1,000 feet of drifting and 1,500 feet of crosscutting were done on the 550-foot level.

An average of 35 men was employed. The mine address is Painkiller Lake, via Matheson.

Craig Gold Mines, Limited

Craig Gold Mines, Limited, has a capitalization of 5,000,000 shares of \$1 par value, of which 1,923,252 shares have been issued.

The officers and directors are: F. W. Clements, president; W. N. Agnew, vice-president; F. J. Slater, secretary-treasurer; Geo. W. Scobell and Gerald D. Martin, directors. The head office is at 330 Bay Street, Toronto. The mine address is Madoc. The company owns nine claims in Tudor township, Hastings county.

Two shafts have been sunk, No. 1 to a depth of 245 feet and No. 2 to a depth of 200 feet. In No. 1 shaft, stations have been cut at 50, 125, and 225 feet. About 350 feet of drifting was done on the 50-foot level, and 110 feet on the 225-foot level. The mine operated from January to October 15, when work was temporarily suspended.

An average of 30 men was employed under the management of J. G. A. Stevenson. E. B. E. de Camps is consulting engineer and acting manager.

Darwin Gold Mines, Limited

Darwin Gold Mines, Limited, was incorporated in August, 1934, with an authorized capitalization of 3,000,000 shares of \$1 par value. The officers and directors are: Geo. Royce, president; David Gross, Robert Fennell, R. E. Hore, and R. A. Darwin, directors. Corporation Management and Executives, Limited, is secretary-treasurer. The executive office is at 304 Bay Street, Toronto. The mine address is Gold Park.

The property is located in township 29, range 23, in the Michipicoten area, district of Algoma. It is about 7 miles by road from Wawa station on the Algoma Central railway.

Work was continued throughout 1935. The 2-compartment 60-degree shaft was sunk an additional 100 feet to a total depth of 543 feet, and a 5th level established at 533 feet on the incline. In July, a 3-compartment vertical shaft was started from surface, and by the end of the year it had reached a depth of 418 feet, with sinking still in progress. Stations had been cut at depths of 276 and 367 feet, connecting with the 3rd and 4th levels from the inclined shaft.

The development work accomplished on the various levels during the year, and the total to the end of 1935, was as follows:—

Level	Drifting		Crosscutting		Raising	
	1935	Total	1935	Total	1935	Total
	feet	feet	feet	feet	feet	feet
200-foot.....	640	106	50
300-foot.....	198	957	205	431	232	347
400-foot.....	328	1,632	210	591	255	373
500-foot.....	645	645	50	50	112	112
Total.....	1,171	3,874	465	1,178	599	882

The 50-ton amalgamation-flotation mill, which has been on the property since 1929, was changed to an amalgamation-cyanidation circuit and put in operation on November 5. The equipment now includes a jaw-crusher, Marcy ball mill, Hardinge mill, Dorr Duplex classifier, Dorr Simplex classifier, 4 Pachuca tanks, 2 thickeners, 2 Oliver filters, and a Merrill-Crowe precipitation unit. By the end of 1935, the mill had treated a total of 2,086 tons of ore.

Additions to the plant during 1935 included a 42-inch double-drum electric hoist, and a 770-cubic-foot Ingersoll-Rand electric compressor. A steel head-frame was erected for the new shaft. Buildings constructed included a shaft-house, blacksmith and machine shop, hoist-compressor house, dry-house, bunk-house, and additions to the original mill building.

An average of 61 men was employed during 1935, of whom 30 men were underground. M. H. Froberg was in charge of operations.

Delnite Mines, Limited

Delnite Mines, Limited, was incorporated in November, 1934, and is capitalized at 3,000,000 shares of \$1 par value. This company is a subsidiary of Sylvanite Gold Mines, Limited, and Erie Canadian Mines, Limited. The latter company, a wholly owned subsidiary of Sylvanite Gold Mines, Limited, received Delnite shares for preliminary expenditures and development done during the summer of 1934 and the option to purchase other shares, so that if fully exercised Erie Canadian will hold 1,291,500 shares of the issued capital. There were 840,000 shares issued for the property, which consists of the property of the former La Roche Mines, Limited, and the Rendix or Martin claims, three patented claims located 3 miles southeast of Timmins in the township of Deloro, district of Cochrane. The officers and directors are: E. L. Koons, president; W. L. Marcy, vice-president; Welles V. Moot, managing director; C. L. Ingham, treasurer; W. S. Walton, secretary; Harry Yates, Jas. E. Day, and Jas. Savage,

directors. The head office of the company is at 603 Royal Bank Building, Toronto. The mine address is Timmins.

During 1935, a second bunk-house, 24 by 36 feet, and other small buildings were erected. A 60- by 16-inch air receiver was added to the mining plant, and the 10- by 12-inch air hoist was improved by alterations, including a gear-driven indicator. An electric pump was placed underground after the shaft was deepened. A magneto phone system and an electric cage-call system, to connect each level with the shaft-house and hoist-room, were installed.

An average of 37 men was employed during 1935. J. F. R. Akehurst is resident manager of the mine.

The following is an extract from the general manager's report for the fiscal year ending March 31, 1936:—

During the period, in addition to continuing work on the 125-foot level, the shaft was deepened and two new levels were opened up at the 250- and 375-foot horizons. A summary of the work done during the year is shown in conjunction with all previous work.

Development

SUMMARY OF DEVELOPMENT AND EXPLORATION, MARCH 31, 1936

	Drifting	Cross-cutting	Shaft-sinking	Shaft stations	Total	Diamond-drilling
	feet	feet	feet	feet	feet	feet
To March 31, 1935,	1,233	903.5	138	25	2,299.5	7,099
April 1, 1935, to March 31, 1936,	3,015.5	1,599	253	66.5	4,934	9,179
Total to March 31, 1936	4,248.5	2,502.5	391	91.5	7,233.5	16,278

In the 3,015.5 feet of drifting done during the year, 1,121 feet of ore were developed. In the 4,248.5 feet of drifting which has been done at the property since the beginning of operations, 1,439 feet of ore have been developed, which have an estimated average grade of 0.215 ounces over an average width of 5.1 feet. The average grade was calculated from channel sampling, in which all high assays have been reduced to 1 ounce. This combined footage and grade of ore is classified by levels as follows:—

Level	No. of ore shoots	Total length	Value at \$20.67	Value at \$35.00
		feet		
125-foot,	5	445	\$5.18	\$8.75
250-foot,	3	428	3.96	6.70
375-foot,	3	566	4.24	7.17
Total,		1,439	\$4.45	\$7.53

Diamond-Drilling.—Of the 9,179 feet of drilling done during the year, 5,364 feet was done from surface and 3,815 feet from underground. As part of the surface drilling, a series of three holes were put down to cut, at 750 feet vertical depth, the zone being developed in underground operations. Results indicated vein structure similar to that found in the lateral work.

In the drilling from underground, in addition to the drilling required by current development work, a series of five holes has been put down to explore the values in the downward extensions of vein No. 301 at the 500-foot level. The holes were spaced 100 feet apart. The results secured in these holes indicate the same ore situation on this vein at the 500-foot horizon as has been found at the 375-foot level.

Structure.—The veins on which the drifting has been done are located in a basalt formation, which strikes in a general east-west direction and dips 50°–60°N. The main ore zone is a band of altered basalt, 200 feet wide, which lies between two roughly parallel bands of chlorite schist, which have resulted from intense alteration of previous basalt beds. To the north and south of the above area further basalt flows are shown by drilling. Vein indications and a quartz porphyry intrusive have been cut in this outer basalt, but the importance of the areas has not been determined.

The veins in the main ore zone follow the primary flow structure of the basalt. Where the normal strike and dip of the structure has not been disturbed, the veins of the Nos. 101 to 301 vein system have shown continuity of ore on the levels and in the drilling below the 375-foot level mentioned previously.

In the area 500 feet northeast of the shaft, a drag fold exists in the basalt beds, and the vein structure is irregular, resulting in a condition that does not permit straight-away development. The ore developed in this area has been found to be of higher grade than the average of the mine.

Plant and Equipment

The plant and equipment were maintained in good operating condition. A second lunk-house was erected. A mine ventilation fan was installed on surface to exhaust from the two bottom levels. Expenditures on new buildings and plant were kept at a minimum pending a decision on a permanent building programme.

General

The total expenditures for the year were \$118,684.35. The ore occurrences developed to date and the possible ore indicated by drilling both on and below the present workings, are encouraging.

De Santis Porcupine Mines, Limited

The name of the De Santis Gold Mining Company, Limited, was changed to De Santis Porcupine Mines, Limited, in June, 1935. The capitalization was reduced to \$2,400,000 by the cancellation of 1,600,000 issued shares, and then increased to \$3,000,000 by the creation of 600,000 additional \$1 shares. Shareholders received one new share for each two of the old.

The officers and directors are: Peter De Santis, president and mine manager; Jos. V. Friel, vice-president; Giuseppe Giustini, secretary-treasurer; Theodore Schultze, T. Pomeroy, R. T. Payton, and Frank Prest, directors. The executive office is at 24½ Second Avenue, Timmins. The mine address is Box 1299, Timmins.

The company holds nine claims in Turnbull township and nine in Ogden township, district of Cochrane. It is on this latter group, lying about 4½ miles southwest of Timmins, that development work has been conducted in late years.

The property has been partially developed to a depth of 200 feet. The first shaft sunk was 210 feet in depth. Levels were opened at 90 and 200 feet below the collar. The total amount of crosscutting and drifting done to the end of 1935 on the 90-foot level was 327 feet. On the 200-foot level, the crosscutting and drifting amounted to 3,991 feet. During 1935 a main working shaft was started. It was raised to surface from the 200-foot level, and then then timbered from the surface down. A new timber headframe was erected and enclosed, but the proposed sinking below the 200-foot level had not been begun at the end of the year.

The average number of men employed in 1935 was 26. Fred Knutson was succeeded by H. McQuarrie as mine superintendent during the year.

Dome Mines, Limited

The authorized capital stock of Dome Mines, Limited, consists of 1,000,000 shares of no nominal or par value, of which 46,666 are held under an agreement in trust for the company; the dividends on these shares are returned to the treasury of the company. The mine property lies in Tisdale and Whitney townships, district of Cochrane.

The officers of the company are: Jules S. Bache, president and treasurer; J. H. Stovel, first vice-president; G. C. Miller, second vice-president; Morton F.

Stern, third vice-president; Alex. Fasken, secretary; E. P. Goetz, assistant treasurer and assistant secretary; C. C. Calvin, assistant secretary; John B. Robinson, assistant secretary.

The directors are: Jules S. Bache and Morton F. Stern, New York; G. C. Miller, Buffalo; Dwight B. Lee, Detroit; G. H. Harris and Simon N. Stein (who fills the vacancy caused by the death of Innis P. Allen), Rochester; Alex. Fasken, Frank E. Maulson, and Frederick Burnett, Toronto.

The death took place during 1935 of H. P. De Pencier, who for many years had been first vice-president and general manager of the company. This position has been filled by J. H. Stovel, who was formerly general superintendent. Robert E. Dye joined the staff of the mine as general superintendent early in 1936.

The office of the executive and financial department is at 42 Broadway, New York. The Toronto office is at 36 Toronto Street. The mine address is South Porcupine.

During 1935 there was an average of 738 men employed at the mine; of this number about 439 were employed underground.

The following is taken from the report of the general manager for the year ending December 31, 1935:—

During the year 635,700 tons were hoisted; of this 549,100 tons was ore, which was sent to the mill and treated, and 86,600 tons was waste, which was dumped on the surface. In addition, 4,600 tons of waste was dumped into old stopes.

The 549,100 tons of ore milled yielded bullion containing 204,842.595 ounces of gold, the yield per ton being 0.3731 ounces. In addition, there was recovered from the treatment of by-product, 1,952.434 ounces.

All values of ore, etc., will be expressed in pennyweights throughout this report. One pennyweight equals one-twentieth of an ounce, troy weight.

The following statement gives particulars of revenue and expenditure for the year under review:—

OPERATING STATEMENT

for the year ended December 31, 1935

EARNINGS:

Bullion production (after deducting gold bullion tax and mint charges— \$346,202.04).....	\$6,939,988.68
--	----------------

OPERATING AND MAINTENANCE EXPENDITURE:

Development and exploration.....	\$658,460.76
Mining, including hoisting.....	731,369.56
Crushing and conveying.....	120,313.78
Milling.....	504,505.84
Bullion expense.....	10,438.84
Fire protection.....	6,673.02
Warehouse expense.....	12,135.54
Auditing expense.....	2,828.81
Administrative expense:	
Mine office.....	111,293.90
Executive office.....	70,305.19
Registrar and transfer fees and expenses.....	11,810.33
Municipal taxes.....	18,065.99
Insurance.....	15,408.32
Ontario corporation capital tax.....	1,220.20
	<hr/>
	2,274,830.08

NET OPERATING PROFIT FOR THE YEAR.....	\$4,665,158.60
--	----------------

Development

The following table gives details of the development accomplished during the year:—

SUMMARY OF DEVELOPMENT BY LEVELS FOR THE YEAR 1935

Level	Stations	Drifts	Cross-cuts	Drift and crosscut slashing	Raises	Winzes	Box-holes	Raise, winze, and box-hole slashing	Total	Diamond-drilling
	feet	feet	feet	feet	feet	feet	feet	feet	feet	feet
1st.....		81					44		125	
3rd.....					28				28

Total..	36	11,650	2,643	2,563	2,483	791	4,782	1,253	26,201	41,478.5

Approximately 26,200 feet of drifting, crosscutting, raising, winzing, and box-holing, and 41,500 feet of diamond-drilling, has been done in the course of searching for and opening up the various ore bodies.

Above the 16th level, about 13,600 feet of development work was done, mostly in connection with known ore bodies or extensions of same.

At the directors' meeting, held at the time of the annual meeting of this company in the latter part of April, 1935, permission was given your management to proceed with the sinking of a main underground shaft from the 2,050-foot or 16th level. This shaft was to be located about 4,500 feet in an east-northeasterly direction from our No. 3 main shaft. The section of this new or No. 6 shaft will be approximately the same as the present No. 3 shaft and will have similar hoisting equipment and capacity. The hoisting equipment ordered for this shaft is designed for a depth of 3,000 feet, but can be used to 4,000 feet, if it is found desirable to do so. It is planned to sink this shaft at one lift to the 31st level, or 4,250 feet below the collar of No. 3 shaft. This will give us four new levels to explore as well as enable us to do further work in that area between the 18th and 27th levels. Further sinking may be done later from this point.

Drifting to the site of No. 6 shaft was started in May, and this drift reached the general area of the shaft in late December. In all, 3,000 feet of drifting was done, and 1,400 feet of old drift was slashed out to the size of this main haulage drift, which is 9 by 12 feet. A trolley haulage has been established on this drift capable of handling the normal capacity of the mine.

Considerable work remains to be done before sinking can be started from this level. The shaft has to be raised about 160 feet above the level, excavations have to be made for hoist-rooms, ore and waste pockets, a station, and a station storage yard, and rope-way raises from hoist-rooms to sheave wheels. It involves approximately 7,000 cubic yards of excavation. All necessary equipment has been ordered and is in process of manufacture or has been received and installed.

On the 16th level, in addition to the main development, about 700 feet of drifting was done. On the 17th level, a small amount of drifting was done in connection with known ore bodies.

Between the 18th and 23rd levels, approximately 1,300 feet of drifting and sinking was done in connection with establishing a second entry into the 23rd level. This work was completed in September, giving the needed ventilation to the lower levels and permitting a start at actual mining on these levels. In further development of the ore zones below the 23rd level, approximately 6,200 feet of development work was done; also 17,700 feet of diamond-drilling.

The vein structure in drift No. 2,501 has been further drifted on at the 26th and 27th levels, where lengths of 790 feet and 470 feet, respectively, have been established. Also several small, but not yet thoroughly understood ore occurrences in the greenstone to the north and west of this vein structure have been found on the 24th and 25th levels. No development has been attempted on these on the 26th and 27th levels as yet. All the ore occurrences on these levels are characterized by the presence of much visible gold.

The work done to date indicates the probability of securing over 425,000 tons of ore from the 23rd to the 27th levels. It is felt that the grade of this ore will be considerably better than the grade of the ore in the older areas of the mine.

Of the tonnage milled, the stopes yielded 466,600 tons, averaging 7.89 pennyweights per ton, and development work yielded 82,500 tons, averaging 5.95 pennyweights per ton; a total of 549,100 tons, averaging 7.59 pennyweights per ton.

The expenditure on mining was \$731,369.56, or \$1.33 per ton milled. The expenditure on development was \$658,460.76, or \$1.20 per ton milled. Of the \$1.20 per ton, approximately 32 cents was chargeable directly to the major development work on the 16th level.

Ore Reserves

The ore reserves are estimated at 2,000,000 tons. This includes 773,700 tons of broken ore but does not include 300,000 tons indicated as probable ore between the 23rd and 25th levels.

The Mill

The following are the results of the mill operations during the year from a total of 549,100 tons treated:—

	Value per ton	Extraction per cent.
Heads.....	dwt. 7.5944
Recovery.....	7.4610	98.24

The small plant treating old iron and other scrap produced 1,952,434 ounces.

Exploration

As hitherto, we have continued to examine prospects and properties. No new properties were taken up during the year.

General

Operating costs for the year were \$4.143 per ton milled, as against \$3.877 in the year 1934. Actual mine operating costs were slightly less than last year, the increase being due to development work in connection with No. 6 shaft.

The acquisition of the Foley O'Brien Corporation, Limited, in August, 1935, has added thirteen claims to our holdings. While it may be several years before our workings will reach this property, the trend of our ore bodies is all in the direction of these claims, and it is felt that these facts fully justify their purchase.

The death of our late general manager, Mr. H. P. De Pencier, late in November, was a severe loss to the company and to his many friends and admirers on our staff. His passing from the Dome picture is genuinely regretted by all.

Duport Mining Company, Limited

The Duport Mining Company, Limited, was incorporated in January, 1929, with an authorized capitalization of 2,000,000 shares of no par value. The officers and directors are: J. G. Cross, president; Thayer Lindsley, vice-president; W. J. Matthews, secretary-treasurer; W. C. Robinson and R. V. Whiteside, directors. The head office is at 215 Public Utilities Building, Port Arthur. The mine address is Kenora.

The property held by this company includes the Cameron Island mine, located at Shoal lake, district of Kenora. It is about 28 miles southwest of Kenora by air.

Underground operations were continued at the property until November 24, when they were suspended until after Christmas. During 1935 a total of 530

feet of drifting and 137 feet of crosscutting was done on the 124-foot, or 2nd level; a 2-compartment 75-degree winze was sunk from the second level to a depth of 120 feet; and a 3rd level was established at that depth, on which 376 feet of drifting and 318 feet of crosscutting was accomplished. A small high-grade lens on the second level was stoped out.

During the year 376.16 tons of ore was shipped to Tacoma, Wash., and 98.54 tons of ore to Flin Flon, Man. The average gold content of these shipments was 4.45 ounces per ton.

The plant included an 84 h.p. boiler, 40 h.p. boiler, 300-cubic-foot steam compressor, a 500-cubic-foot Diesel compressor, a 7- by 9-inch hoist on surface, and a 6- by 8-inch hoist underground.

An average of 22 men was employed, of whom 12 were underground. J. G. Cross was in charge of operations, with C. Nelson as mine captain.

Edgelake Gold Mining Company, Limited

The Edgelake Gold Mining Company, Limited, was incorporated in September, 1934. The authorized capitalization is 3,000,000 shares of \$1 par value. The officers and directors of the company are: P. B. Cameron, president and manager; J. A. Picotte, vice-president; J. M. Forbes, secretary; K. G. Cameron, treasurer; Robert McKinnon and David Craig, directors. The executive office address is Box 128, Schumacher. The mine address is Tashota.

The property consists of ten claims, approximately 400 acres, surrounding the west end of Tashota lake, 1½ miles north of Tashota station on the transcontinental line of the Canadian National Railways, Thunder Bay district.

During 1935, with an average of 2 men per month over a 9-month period, the following construction work was done: a 34-foot headframe was erected over a shaft, sunk at an earlier date to a depth of 32 feet; a boiler- and hoist-room building, 30 by 30 feet, with a 30- by 16-foot wing, was erected; and an Ingersoll-Rand 460-cubic-foot compressor and a 50 h.p. boiler were installed. Other equipment includes a 20 h.p. portable locomotive-type boiler and a 6- by 8-inch Jenckes steam hoist. An assay office and a small cabin were also erected. The president and vice-president have done most of the work so far accomplished at the property. Activities ceased temporarily late in the fall of 1935.

Edwards Gold Mines, Limited

Edwards Gold Mines, Limited, has an authorized capitalization of 2,000,000 shares of \$1 par value. The company was formerly known as Del Sol Gold Mines, Limited; the change of name was authorized by letters patent in April, 1935. The officers and directors were: H. C. Orton, president; J. B. Kleckner, vice-president; H. H. Huevelman, secretary-treasurer; Murdock L. Martin, assistant secretary; F. E. Matthews, Neill Richards, R. G. Orton, E. B. Tilton, and H. C. Miller, directors. The head office is at 302 Sterling Tower, Toronto. A business office is maintained at 231 South La Salle Street, Chicago, Ill.

The company acquired the Edwards property, located in township 48, range 27, district of Algoma, on which the Gold Lands Syndicate of Algoma sank a 2-compartment 80-degree shaft to a depth of 97 feet, and did 60 feet of lateral work at that depth.

Underground work was started in March and continued until June, during which period about 400 feet of additional lateral work was accomplished on the 97-foot level.

The plant included a 110-cubic-foot and 310-cubic-foot Gardner Denver gasoline compressor and a gasoline hoist.

An average of 8 men was employed during 1935 under the direction of J. A. S. Roussac.

The property is reached by road from either Goudreau or Lochalsh. The mail address is Lochalsh.

Elizabeth Gold Syndicate

The Elizabeth Gold Syndicate was formed in 1935 to acquire the old Elizabeth mine in Rainy River district about 10 miles north of Atikoken on the Fort Frances branch of the Canadian National Railways. W. L. Doyle is manager of the syndicate. The head office is at 9 Adelaide Street East, Toronto.

The Elizabeth mine was discovered in 1900 and worked until 1903. It was again worked during parts of 1912, 1913, and 1914. A 10-stamp mill was installed in 1902. The old workings include a 280-foot shaft, with levels at 65, 146, and 246 feet.

The syndicate started work in May. During the balance of the year the underground workings were dewatered and examined, in addition to surface work. Buildings and part of the old mining equipment were reconditioned. Operations were practically suspended for the winter at the end of the year.

An average of 15 men was employed during the period of operation, under the direction of C. N. Thompson.

Falcon Gold Mines, Limited

Falcon Gold Mines, Limited, was incorporated in September, 1935, with an authorized capitalization of 2,500,000 shares of \$1 par value. The officers and directors are: W. G. Chapman, president; C. H. Hitchcock, vice-president; S. E. Cassan, secretary-treasurer; John Elliott and Lionel Brooke, directors. The head office is at 200 Bay Street, Toronto. The mine address is Sudbury.

The property consists of four claims in Falconbridge township, district of Sudbury, and was formerly known as the McConnell or Beckley property. It is about 7 miles northeast of Wanapitei village, to which it is connected by road.

Operations were started in March, 1935, by the parent company, South Tiblemont Gold Mines, Limited, and continued until Falcon Gold Mines, Limited, took it over in September. The latter continued work until the end of November, when operations were suspended.

Previous operators sank a 45-foot shaft and did some diamond-drilling. During 1935 the diamond-drilling was extended to a total of 3,000 feet. A power-house, blacksmith shop, office, bunk-house, and cookery were constructed, and a headframe was erected over the old shaft. A 20 h.p. boiler and a 6- by 8-inch steam hoist had been installed when operations were suspended.

An average of 5 men was employed during the period of work, under the direction of J. E. Jerome.

Foley O'Brien Corporation, Limited

The Foley O'Brien Corporation, Limited, which was incorporated in 1934, has an authorized capitalization of 2,100,000 shares of \$1 par value. The officers and directors of the company are: Wm. H. Kinch, president; Samuel J. Dark, secretary-treasurer; John G. Ullmann, A. J. McNab, and Carroll Searls, directors.

The Foley O'Brien Corporation, Limited, purchased from Foley O'Brien, Limited, 520 acres located in concessions II and III of Tisdale township, district of Cochrane. This property adjoins the holdings of Dome Mines, Limited, on the northeast, and in 1935 it was purchased by Dome Mines, Limited.

The following work was done underground at this property before it was taken over by the Foley O'Brien Corporation, Limited:—

Shaft and level	Shaft-sinking	Drifts and crosscuts	Raises
	feet	feet	feet
No. 1 SHAFT:.....	79		
39-foot.....		80	
50-foot.....		10	
79-foot.....		65	
No. 2 SHAFT.....	165		
165-foot.....		700	
WINZE (from the 160- to the 250-foot level).....	90		
250-foot.....		670	20
No. 3 SHAFT.....	235		
80-foot.....		145	
230-foot.....		130	

The Foley O'Brien Corporation, worked on this property from July, 1934, to May, 1935. In this period they did the following work: Seventeen diamond-drill holes, having an aggregate depth of 14,757 feet, were drilled; five of these holes, totalling 2,882 feet, were drilled from the underground workings from No. 2 shaft; the rest were drilled from surface. (Former operators had drilled 6 holes totalling 2,477 feet.) Eight pits or trenches were dug with mechanical shovels and scrapers on that part of the property known as Slate Hill; dirt removed from these pits totalled 13,082 cubic yards. Hand-cleaning and washing in the bottom of these pits exposed about 2,300 square yards of bed rock. Hand-dug trenches totalled 2,053 linear yards; of this, 1,733 yards reached bed rock. The average depth of these trenches was about 5 feet, with a maximum depth of 15 feet. The total sampling amounted to 1,518.5 feet. This was divided as follows: surface, 704.4 feet; No. 1 shaft, 261.9 feet; No. 2 shaft, 552.2 feet. The No. 3 shaft was not pumped out by the Foley O'Brien Corporation.

A small wooden headframe and shaft-house were erected over the No. 2 shaft, and a 20- by 40-foot compressor- and hoist-house was built.

P. C. Benedict was manager of this property for the Foley O'Brien Corporation. The mine address is South Porcupine.

Fort Hope Consolidated Gold Mines, Limited

Fort Hope Consolidated Gold Mines, Limited, was incorporated in 1934, with an authorized capitalization of 3,000,000 shares of \$1 par value, succeeding Fort Hope Gold Mines, Limited. The officers and directors are: J. C. Mackay, president; L. M. Reid, secretary-treasurer; R. D. Felton and C. Cooper, directors. The head office is at 507 Confederation Life Building, Toronto.

The property acquired consists of 16 claims at the northwest end of Eabamet lake, north of the Albany river, in the Patricia portion of Kenora district. The mine is about 115 miles northeast of Collins, a station on the Canadian National railway, from which it is most easily reached by air. Mail going to the mine is addressed to Collins.

In 1928, a 2-compartment shaft was sunk to a depth of 125 feet and about 300 feet of lateral work was done on the 100-foot level. No further work was

done underground until 1935, when the mine was pumped out and sampled. The mine had nearly refilled when it was inspected late in August, 1935. No work of consequence was being done at that time, and at the end of the month only two employees remained at the mine.

The mining plant on the property includes two 50 h.p. locomotive-type boilers, a 350-cubic-foot Canadian Ingersoll-Rand straight-line air compressor, and an 8- by 10-inch Rand sinking hoist.

About 160 cords of wood were cut early in 1935. This work and the examination work done in the spring and summer were in charge of R. Halet.

Fox Lake Gold Mines, Limited

Fox Lake Gold Mines, Limited, was incorporated in May, 1935, with an authorized capitalization of 1,000,000 shares of \$1 par value. The officers and directors are: L. W. Adams, president; P. M. A. Hare, vice-president; J. W. Westervelt, secretary-treasurer; D. A. Anderson and Thomas C. Benson, directors. The head office is at 39 New Bank of Toronto Building, London, Ont.

The property includes a group of nine claims in Mongowin township, district of Sudbury, which was taken over from the Fox Lake Gold Syndicate on incorporation. It is on the Espanola-Little Current highway, about 12 miles south of Espanola.

The 25-ton amalgamation mill, the construction of which was started in November, 1934, was completed and put in operation in February, 1935. It was operated for two weeks and then shut down for the rest of the year. Surface work was carried on throughout 1935. Diamond-drilling was started in August and continued intermittently for the balance of the year.

An average of 11 men was employed under the direction of L. W. Adams. The mine address is Espanola.

Franklin Gold Mining Company, Limited

The Franklin Gold Mining Company, Limited, was incorporated in August, 1934, with an authorized capitalization of 3,500,000 shares of \$1 par value. The officers and directors were: F. M. Sheehan, president; H. E. Martin, vice-president; M. E. Houtt, secretary-treasurer; G. A. Davis and A. T. McCabe, directors. The head office is at 330 Bay Street, Toronto.

The company took over the property of Ontario Champion Mines, Limited, situated in Haycock township, district of Kenora, 8 miles east of Kenora. Previous operators sank a 2-compartment 55-degree shaft to a depth of 230 feet and established levels at 130 and 230 feet, where 225 feet and 120 feet, respectively, of lateral work were accomplished. A 120-foot adit was also driven to intersect the shaft at a depth of 70 feet. A 70-foot section was stoped out to a height of 50 feet on the 130-foot level. In the spring of 1935 the company dewatered the underground workings and sampled them, but did not do any development work. Surface exploration and mapping was carried on until November.

The plant on the property includes two 40 h.p. locomotive-type boilers, a 10- by 12-inch Allis-Chalmers single-drum hoist, and a 400-cubic-foot Gardner compressor.

R. Adair was in charge. The mine address is Kenora.

Gillies Lake-Porcupine Gold Mines, Limited

Gillies Lake-Porcupine Gold Mines, Limited, was incorporated in January, 1933. It was formerly known as the Porcupine United Gold Mines, Limited,

which was a consolidation of Canadel Gold, Limited, Rochester Consolidated Mines Corporation, and Canadian Gold Mines, Limited, a merger which took place in 1928. The company is capitalized at 2,000,000 shares of \$1 par value. The officers and directors are: Ray M. Stanley, president; Howard Thurston, vice-president; Frederick Grotz, secretary-treasurer; F. O. Tidy, A. R. Sproule, and Dr. H. H. Moore, directors. Bernard N. Hyman is general manager. G. C. Chase is resident manager. The head office is at 9 Toronto Street, Toronto. The mine address is Box 2048, Timmins.

The property now consists of six claims adjoining the holdings of both McIntyre-Porcupine Gold Mines and Hollinger Consolidated Gold Mines. It is adjacent to the former on the west end, and to the latter on the north side. Underground work to date has been confined to one claim, the northwest quarter of the north half of lot 2, concession II, Tisdale township, district of Cochrane.

The shaft has two compartments and is 947 feet deep. Levels have been opened at 100, 300, 500, 800, and 925 feet. About 6,780 lineal feet of drifts and crosscuts were driven by previous operators. The present operators commenced underground work on April 2, 1935. Development work during the remainder of the year comprised approximately 120 feet of drifting, 260 feet of raising, and 70 feet of winze-sinking.

During 1935, 5,098 tons of ore were milled, giving a recovery of 1,595.703 ounces of gold and 248.87 ounces of silver, the total value of which amounted to \$57,276.95. Milling operations commenced April 3, 1935, at which time two recently installed Kennedy Nutt mills, with a rated capacity of from 10 to 15 tons, were put into operation. The overflow from these mills was passed over blanket tables and the concentrates were stored. Concentrates derived from a second unit, consisting of a Hardinge mill, 41½ feet by 16 inches, a classifier, and blanket tables, were also stored. Later a 6-cell flotation unit was installed to treat the tailings. In the fall of 1935, the two Kennedy Nutt mills were taken out, and a second Hardinge mill, 6 feet by 16 inches, was installed. A 12-inch by 18-foot double-rake Dorr classifier was also installed to classify the product from both ball mills. The installation of cyanide equipment to treat all the concentrates was completed at the end of the year.

No changes were made during 1935 in the mining plant, the principal items of which are: an Ingersoll-Rand single-drum, steam-operated hoist; a 150 h.p. locomotive-type boiler; and a 14- by 12-inch Chicago pneumatic single-stage air compressor, driven by a 100 h.p. General Electric motor.

The average number of men employed during the year was 30.

Gilmour Gold Mines, Limited

Gilmour Gold Mines, Limited, was incorporated in August, 1935, with an authorized capitalization of 3,000,000 shares of \$1 par value. The officers and directors are: M. F. Burrows, president; J. Summers, secretary-treasurer; A. E. Broadley and Dr. R. A. Gemmill, directors. The head office is at 21 King Street West, Toronto. The mine address is Gilmour.

The property consists of 116 acres in Grimsthorpe township, Hastings county. All the development work on the property was done by previous operators. No. 1 shaft is 85 feet deep, and during 1935 a station was cut at 75 feet. No. 4 shaft is 260 feet deep, with levels at 75, 125, and 250 feet. About 1,000 feet of drifting and 75 feet of crosscutting have been done from this shaft. About 500 tons of ore was hoisted during the period of operation in 1935.

Buildings on the property include an office, bunk-house, power-house,

hoist-house, assay office, mill, powder-house, and thaw-house. The 100-ton mill was put into operation in September.

An average of 15 men was employed. W. Hitchins was manager and was succeeded by A. A. Kenniger.

Gold Eagle Gold Mines, Limited

Gold Eagle Gold Mines, Limited, incorporated in February, 1934, is capitalized at 3,000,000 shares of \$1 par value. The officers and directors are: W. F. Stafford, president; Millard C. Dorntge, treasurer; Bruce P. Davis, secretary; Chas. E. St. Paul, managing director; W. S. Rogers and J. T. Oliver, directors. The head office of the company is at 350 Bay Street, Toronto.

The holdings of this company consist of 24 claims on Mackenzie island in Red lake, Patricia portion of Kenora district, adjoining the south and west sides of the property of McKenzie Red Lake Gold Mines. The mine address is McKenzie Island, a post office established on the island in 1935 to serve these two mines.

The mining plant was installed on the property during the late summer and fall of 1934, and shaft-sinking was commenced late that year. The first station at the 125-foot level was being cut at the end of 1934. The following figures show the total amount of underground development work done up to August 27, 1935, when work was temporarily suspended.

	Feet
Shaft, vertical, 3 compartments.....	525
125-foot level (station only).....	
250-foot level (drifting and crosscutting).....	275
375-foot level " " ".....	400
500-foot level " " ".....	755

There is a good steam-operated mining plant on the property. No new additions were made to the plant during 1935. Alex. Gillies, the first manager of the property, was succeeded by F. M. Passow during the summer of 1935. An average of 33 men was employed during the first eight months of 1935.

Golden Summit Mines, Limited

Golden Summit Mines, Limited, has a capitalization of 2,500,000 shares of \$1 par value, of which 1,650,000 have been issued. The officers and directors are: Wm. J. Simpson, president; Benjamin Kerr, Jr., vice-president; Gordon Belyea, secretary-treasurer; John M. Calder, J. G. Jarvis, Dr. J. J. Matheson, and Theodore G. Miller, directors. The head office is at 2374 Bloor Street West, Toronto. The mine office is at Seseikinika.

The company owns 460 acres in the townships of Maisonneville and Grenfell, district of Timiskaming.

The property was operated throughout 1935, with an average force of 21 men, under the management of Wm. J. Simpson.

Development work consisted of 853 feet of crosscutting and 571 feet of drifting; 4,612 tons of ore was hoisted. A 35-ton mill was installed during the year.

Gomak Mines, Limited

Gomak Mines, Limited, was incorporated in December, 1933, with an authorized capitalization of 1,000,000 shares of \$1 par value. The officers and directors are: C. N. Haldenby, president; Dr. W. H. Wright, vice-president;

F. O. Gallagher, secretary; Mrs. E. M. Clyde and R. M. West, directors. The head office is at 320 Bay Street, Toronto. The mine address is Gogama.

The property consists of a group of 17 claims in Chester township, Three Duck Lakes area, district of Sudbury. It is reached by a 21-mile winter road southwest from Gogama on the Canadian National railway.

Surface work and diamond-drilling were carried on until June, 1935, when a 2-compartment 65-degree shaft was started on claim S. 20,009. Underground development was suspended at the end of September after 75 feet of sinking and 180 feet of drifting on the 65-foot level, had been accomplished. Some diamond-drilling was done during October and November from underground.

At the end of the year a mill site had been excavated, and plans made to install a 20-ton amalgamation-flotation mill.

The plant included two 260-cubic-foot Ingersoll-Rand gasoline compressors, and a 5- by 7-inch Jenckes hoist. Buildings included a hoist-compressor house, blacksmith shop, office, bunk-house, and cookery.

An average of 10 men was employed during 1935, under the direction of R. D. Jones.

Halcrow-Swayze Mines, Limited

Halcrow-Swayze Mines, Limited, was incorporated in November, 1932, with an authorized capitalization of 2,500,000 shares of \$1 par value. The officers and directors were: Horace F. Strong, president; H. A. Butt, vice-president; J. B. Allen, secretary-treasurer; W. J. Yeocll and Martin Shunsby, directors. The executive office is at 709 Excelsior Life Building, Toronto.

The property is situated in Halcrow township, Swayze area, district of Sudbury. By air, it is about 20 miles east of Chapleau on the Canadian Pacific railway.

All work was suspended at this property on February 15, 1935. The underground work accomplished during 1935 consisted of about 35 feet of raising on the 200-foot level, and the same amount on the 354-foot level, for sampling purposes. The 25-ton test-mill treated about 220 tons of ore in 1935.

About 15 men were employed under the direction of H. F. Stroug.

Hard Rock Gold Mines, Limited

Hard Rock Gold Mines, Limited, was incorporated in January, 1934, with an authorized capitalization of 2,500,000 shares of \$1 par value. The officers and directors are: T. H. Rea, president; Jos. Errington, vice-president; W. S. Walton, secretary-treasurer; A. B. Gordon and H. R. Aird, directors. The head office is at 603 Royal Bank Building, Toronto. The mine address is Geraldton.

The company continued development of its property in Ashmore township in the Little Long Lac area, Thunder Bay district, throughout 1935. The 3-compartment vertical shaft, started in 1934, was at a depth of 463 feet at the end of 1935, and sinking was in progress with an objective of 475 feet. Levels were established at 200 and 325 feet. During 1935, a total of 1,109 feet of drifting and 494 feet of crosscutting was accomplished on the 200-foot level, and 959 feet of drifting and 474 feet of crosscutting on the 325-foot level; 1,342 feet of diamond-drilling was done from surface, and 3,020 feet from underground.

There were no changes in the plant during the year. An assay office and a directors' lodge were constructed, and an automobile road from Geraldton to the property was completed.

An average of 39 men was employed, of whom 16 were underground. J. C. Dumbrille was in charge, with E. J. Bolger as engineer.

Harkness-Hays Gold Mines, Limited

Harkness-Hays Gold Mines, Limited, was incorporated in July, 1934, with an authorized capitalization of 3,000,000 shares of \$1 par value. The officers and directors are: R. W. Lee, president; H. J. Sender, secretary-treasurer; Dr. H. L. Van Norstrand, H. L. Duncan, and W. J. Wadsworth, directors. The head office is at 310 Temple Building, Toronto.

The property consists of a group of 8 claims, situated 2 miles east of Schreiber on the main line of the Canadian Pacific railway, district of Thunder Bay.

During 1935 work was carried on from January until the middle of April, and from the middle of July until the end of the year. The underground work accomplished during the year consisted of 110 feet of drifting in No. 3B adit. A 220-cubic-foot Ingersoll-Rand gasoline compressor was used.

A 25-ton amalgamation mill was constructed and was operated intermittently during August and September, when a total of 119 tons of ore was milled. The equipment included a jaw-crusher, vibrating screen, 2 Kennedy Nutt units, 2 Wilfley tables, and two blanket tables, operated by a 20 h.p. Diesel engine.

About 500 tons of rock was mined from open cuts and the ore sorted out, some of which went to the mill.

An average of 13 men was employed during the period of operation. J. F. Anderson was in charge. The mine address is Schreiber.

Hillside Gold Mines, Limited

Hillside Gold Mines, Limited, was incorporated in August, 1934, with an authorized capitalization of 3,000,000 shares of \$1 par value. The officers and directors are: E. V. McMillan, president; G. E. MacMillan, secretary; J. J. Phillips, treasurer; M. I. McMillan, M. Kuittinen, and H. Aarnio, directors. The executive office is at 645 Queen Street East, Sault Ste. Marie.

The property consists of thirty-five claims, located in the northeastern part of township 29, range 23, in the Michipicoten area, district of Algoma.

Underground work, which had been suspended in December, 1934, was resumed in the middle of March and continued until August, when all operations ceased for the balance of 1935. During this period the adit on claim S.S.M. 4,925 was driven a further distance of 390 feet, to a total of 790 feet, and 49 feet of crosscutting done. In addition an old 52-foot adit on claim S.S.M. 7,367 was driven a further distance of 56 feet, to a total of 108 feet.

In January, 1935, the construction of a power line and 50-ton mill was commenced. The power line, 1 $\frac{1}{4}$ miles long, was extended from the property of Stanley Gold Mines, Limited, and completed in March. Mill construction was suspended after the building was erected, and a jaw-crusher, Hardinge ball mill, and Wilfley table were set up. A 310-cubic-foot Ingersoll-Rand electric compressor was used for driving the main adit.

An average of 18 men was employed from the first of the year until August. D. S. Baird, J. A. Ogilvy, and Howard Webb were successively in charge.

Hollinger Consolidated Gold Mines, Limited

The authorized capital of Hollinger Consolidated Gold Mines, Limited, is \$25,000,000, in 5,000,000 shares of \$5 par value. At December 31, 1935,

4,920,000 shares were outstanding. The head office of the company is at Timmins. The general office is at 602 Royal Bank Building, Toronto.

The officers at December 31, 1935, were: Noah A. Timmins, president; Jules R. Timmins, vice-president; John B. Holden, secretary-treasurer; A. F. Brigham, consulting engineer; and John Knox, general manager. On January 23, 1936, the company sustained the loss, by death, of its president. Jules R. Timmins has now been appointed president; John B. Holden, vice-president and treasurer; and P. C. Finlay, secretary. The directors of the company are: Jules R. Timmins, John B. Holden, W. L. McDougald, Leo. H. Timmins, Wilson Bell, James Y. Murdoch, Allen A. McMartin, John I. Rankin, and N. A. Timmins, Jr.

The following tribute to the late Mr. Timmins is taken from the new president's statement to the shareholders under date of February 21, 1936:—

Before commenting in detail on the results of the operations of your company during the past year I desire to refer, on behalf of the board and myself, to the great loss sustained by your company through the death of our late president, Mr. N. A. Timmins, on the 23rd of January of the present year.

He was the last of the original five founders of the company, and president since its incorporation. No one had the interests of the company more at heart nor was more intimately associated with its affairs. The late Mr. Timmins was a man of vision, who had in full measure the pioneer spirit and the courage to back his convictions. He will be especially missed by his fellow directors, who have been associated with him for many years, as well as by the Hollinger organization. Not only our company, but the entire mining industry of the Dominion has suffered the great loss.

The following is taken from the general manager's report for the year ending December 31, 1935:—

PROFIT AND LOSS STATEMENT for the year ending December 31, 1934

SOURCES OF 1935 INCOME:

Net value of gold and silver produced.....	\$14,704,625.19	
Less Dominion Government tax on bullion.....	577,783.55	
		\$14,126,841.64
Interest on investments and other income.....		220,372.86
		<u>\$14,347,214.50</u>

DISPOSAL OF 1935 INCOME:

Milling charges.....	\$1,189,388.67	
Mining charges.....	5,979,810.04	
Marketing bullion.....	106,306.43	
Workmen's compensation.....	141,922.93	
Silicosis assessment.....	130,779.17	
General charges.....	679,679.10	
		<u>\$8,227,886.34</u>
		\$6,119,328.16

DEDUCT:

Taxes—

Province of Ontario:		
Corporation tax.....	\$40,240.99	
Mining profits tax.....	157,056.15	
Royalties:		
Town of Timmins.....	51,398.09	
Township of Tisdale.....	12,770.18	
Municipal:		
Town of Timmins.....	68,416.15	
Township of Tisdale.....	2,980.76	
Dominion of Canada re 1933 income tax.....	1,263.79	
Miscellaneous.....	76.44	
Dominion, provincial, and municipal, reserved for....	521,886.20	
		<u>\$56,088.75</u>

Net profit from operations before depreciation..... \$5,263,239.41

Depreciation:

Plant.....	\$23,709.89	
Investments in other companies and properties written down.....	4,917.07	
Expenditures on properties abandoned.....	219,954.03	
		248,580.99

NET PROFIT FROM OPERATIONS CARRIED TO SURPLUS ACCOUNT..... \$5,014,658.42

SURPLUS ACCOUNT

BALANCE BROUGHT FORWARD, JANUARY 1, 1935.....	\$5,303,012.79
NET PROFITS FROM OPERATIONS.....	5,014,658.42
NET PROFITS FROM THE SALE OF SECURITIES AND OTHER ASSETS.....	31,843.85
	\$10,352,515.06
PAID OUT IN DIVIDENDS.....	4,428,000.00
BALANCE CARRIED FORWARD, DECEMBER 31, 1935.....	\$5,924,515.06

BULLION STATEMENT

INVENTORY, JANUARY 1, 1935:

Solutions.....	\$92,403.20
Slags, litharge, and miscellaneous.....	880.00
Precipitates held over.....	3,671.00
Gold in process to scavenger.....	4,500.00
Silver.....	3,987.94
Total.....	\$105,442.14

GROSS VALUES PRODUCED IN 1935:

Ore milled.....	\$14,700,486.52	
Tailings loss.....	573,644.88	
		14,126,841.64
		\$14,232,283.78

INVENTORY, DECEMBER 31, 1935:

Solutions.....	106,298.72
Precipitates held over.....	4,160.00
Gold in process to scavenger.....	2,000.00
	\$112,458.72
BULLION SHIPPED DURING 1935.....	14,119,825.06
	\$14,232,283.78

YEARLY AVERAGE COSTS

Account	Sundries	Labour	Stores	Total	Per ton ore milled
General miscellaneous charges and administration.....		\$321,507.06	\$124,599.16	\$446,106.22	\$0.2429
Surface services.....		61,484.09	43,627.75	105,111.84	.0572
Fire insurance.....	\$54,411.11			54,411.11	.0296
Group insurance.....		74,049.93		74,049.93	.0403

Milling charges.....		487,834.90	701,553.77	1,189,388.67	.6474
Mining charges.....		4,208,872.15	1,770,937.89	5,979,810.04	3.2549
Silicosis assessment.....		130,779.17		130,779.17	.0712
Total charges.....	\$160,717.54	\$5,426,450.23	\$2,640,718.57	\$8,227,886.34	\$4.4786

Employees

The average number of men employed during the year has been 2,889, distributed as follows:—

MINERS:		MECHANICS:		GENERAL:	
Exploration.....	32	Operation.....	119	Mill and refinery..	226
Development.....	440	Maintenance.....	211	Technical.....	90
Production.....	1,463			Clerical.....	41
				Miscellaneous.....	157
				Outside properties..	110
Total.....	1,935	Total.....	330	Total.....	624

The men employed at outside properties on December 31, 1935, were distributed as follows: Ross mine, 75; Smith-Thorne, 30; Hunter mine, 5.

The Mill

Milling results were as follows:—

Ore milled.....	tons	1,837,153
Average value per ton.....		\$8.00
Gross value.....	\$14,700,486.52	
Deduct loss in tailings.....	573,644.88	
Net value recovered.....		\$14,126,841.64
Average tons per day.....	5,075	
Per cent. of possible time run.....	87.6	
Tons per 100 per cent. running time.....	5,793	
Solution precipitated per ton ore.....	tons 0.99	
Value per ton tailings.....	\$0.31	
Cyanide consumed per ton of ore.....	lbs. 0.479	
Zinc consumed per ton of ore.....	lbs. 0.045	
Zinc consumed per ton of solution.....	lbs. 0.045	
Lime consumed per ton of ore.....	lbs. 2.110	
Lead acetate per ton of ore.....	lbs. 0.008	
Average value of pregnant solution.....	\$7.78	
Average value received per ounce of gold sold.....	\$33.77	

Ore Reserves

Our ore reserves on the 31st of December, 1935, consisted of 7,355,318 tons, of a total value of \$51,918,222.00, having an average value of \$7.06 per ton. These figures compare with 7,061,926 tons of a total value of \$51,440,260.00, having an average value of \$7.28 per ton, at the end of 1934.

In the calculations dealing with ore reserves, the statutory price of gold, namely \$20.67 per ounce, has been taken as the basis of value, and the same minimum ore grade as used in former years continued.

Hollinger Mill

During the year alterations have been made to the central shaft crushing plant, which makes its efficiency compare favourably with the most modern plants.

Hollinger Mine

Operations in the upper levels demanded a greater tonnage of backfill than formerly. During the year, 1,224,004 tons of backfill were placed.

The subshaft from the 3,950-foot level, known as No. 25 shaft, has been sunk to the 5,000-foot level and will be continued for another 150 feet before development operations are commenced. The drift west from Schumacher shaft, mentioned in the last annual report, has been extended to a point immediately under the central shaft. No. 21 shaft, which is immediately west of the central shaft, has been sunk to the 3,800-foot level and will be continued to connect with the drift above mentioned, thus given improved ventilation to the lower workings.

Intensive exploration in the upper levels has been continued with gratifying results. Approximately 37 per cent. of the ore came from above the 800-foot level. This figure indicates the importance of this work to the future life of the mine. As a result of this policy it has been unnecessary to draw on the ore reserves below the 2,750-foot level. This will ultimately result in concentration of the mining operations to more restricted areas, allowing considerable decrease in operating costs.

As mentioned in the previous report, operations are still carried on on all levels from surface to the 3,950-foot. There have been no outstanding ore discoveries of note during the year, but general developments have been up to expectations. There has been a further increase of \$500,000 in the ore reserves for the year.

Young-Davidson Mine

The operations have been satisfactory during the year. As intimated in the last report a shaft has been sunk to a depth of 475 feet and a station cut at the 262-foot level. Drifting has been extended from this station to the ore body, and crosscuts are now being driven to open up the ore body for production.

Some 229,793 tons were treated during the year. Operating profits amounted to \$234,000. The recovery for the year was \$3.12 per ton.

Hislop Property

The shaft was extended from the 150-foot level to a depth of 450 feet. Development work has been carried out on the 150-, 300-, and 450-foot levels. The results to date are in-

conclusive. A small mill has been erected on the property for test purposes and went into operation January 1.

Smith-Thorne Property

Work was started on the Smith-Thorne property at Horwood lake, district of Sudbury, in September, 1935. It is reached by a 17-mile winter road south-west from Tionaga on the Canadian National railway.

Buildings were constructed, a plant was installed, and the sinking of a 2-compartment 45-degree shaft was started on claim S. 25,339 on October 28. At the end of the year the shaft was at an inclined depth of 206 feet, and a station was being cut at 200 feet. It is planned to sink to 600 feet before starting lateral work.

The plant included a 42 h.p. boiler, an 8- by 6-inch Ingersoll-Rand steam hoist, a 315-cubic-foot and a 350-cubic-foot oil-engine compressor. Buildings erected included an office, cookery-bunkhouse, steel shop-dry house, boiler-house, and hoist-compressor house.

An average of 38 men was employed during the period of operation. G. F. Gibbs was in charge. The mine address is Tionaga.

Examinations and Explorations

The following is taken from the consulting engineer's report on outside properties for the year ending December 31, 1935:—

In all, 100 examinations on properties of varying merit were undertaken during the year, of which 82 were in Ontario, 17 in Quebec, and one in Manitoba. On some of them a limited amount of work has been done, and during the coming year several will be further investigated when favourable weather and transport conditions obtain.

Prospecting, development, and exploration work on outside properties (except the Young-Davidson and Hislop properties) involved an expenditure of \$245,000.

Horseshoe Mines, Limited

Horseshoe Mines, Limited, was incorporated in February, 1929, with an authorized capitalization of 4,500,000 shares of \$1 par value. The officers and directors are: Dr. T. B. Armstrong, president; John Aiken, vice-president; M. Abraham, secretary-treasurer; R. J. Dixon, director. The head office is at 801 Excelsior Life Building, Toronto.

The property of this company includes the old Regina mine in the Lake of the Woods area, district of Kenora. It is forty-five miles southeast of Kenora.

The mine was idle from September, 1934, until September, 1935. Work was carried on from September 10 until December 25, and then suspended. The work consisted of repairs to the buildings, a geological survey of part of the property, and repairs to the shaft.

A crew of 9 men was employed during the period of operation, under the direction of W. R. Sutton, who was succeeded by Frank Williams. The mine address is Box 811, Kenora.

Howey Gold Mines, Limited

Howey Gold Mines, Limited, was incorporated in March, 1926. The authorized capitalization of the company is 5,000,000 shares of \$1 par value, all of which are issued. The officers and directors are: R. T. Birks, president;

W. S. Cherry, vice-president; H. C. McCloskey, secretary-treasurer; B. E. Martin, assistant secretary-treasurer; J. E. Hammell and John A. Northway, directors. Fraser D. Reid is general manager, Edward Futterer is resident manager, Ralph E. Sullivan is mill superintendent, and Robert Basserman is mine superintendent. The executive office of the company is at 717 Federal Building, Toronto; the head office and mine office are at Red Lake.

The company's holdings lie along both sides of the boundary between Dome and Heyson townships, at the southeast corner of the lower part of Red lake, in the Patricia portion of Kenora district. The greater part of the town of Red Lake is built on Howey property.

During 1935, a new hoist was bought and installed at the 1,000-foot level winze. This winze was completed to the 1,500-foot level early in the year. A new 50 h.p. Westinghouse motor was also bought to drive the hoist. The average number of men employed during 1935 was 218.

The following is taken from the general manager's report for 1935:—

SUMMARY OF WORK ACCOMPLISHED

	1935	1934	1933
Drifts, crosscuts, raises, etc.....feet	5,143.8	3,955	1,879
Shafts and winzes.....feet	249	177	200
Shaft stations, slashing, etc.....cu. yds.	52	296	3,860
Diamond-drilling (underground).....feet	4,185	3,629	1,837.6
Diamond-drilling (outside exploration).....feet	1,514	851

Total.....	\$10,445.53

Ore Reserves

The broken ore reserves as of December 31, 1935, amounted to 456,958 tons, compared to 301,990 tons the previous year. The unbroken reserves amount to 1,267,500 tons of ore, as compared to 1,853,000 tons the previous year.

In addition to this there is a possible 185,000 tons of ore in place indicated in the 1,175-foot level, west block, and 100,000 tons of ore that will in all probability be recovered from the permanent pillars. The total positive ore, and ore indicated as possible, amounts to 2,009,450 tons, with a gold content of between \$3.00 and \$3.50 a ton at the current price.

Exploration

The 1,175-foot level east drift was extended to a point 1,042 feet east of the shaft, in an attempt to establish the downward extension of the narrow ore body encountered in the 1,000-foot level east drift. Diamond-drilling indicated the presence of a number of short lenses of mineralized quartz, none of which were of sufficient size to be mined at a profit.

The 1,175-foot level west drift was driven to a point 545 feet west of the shaft, and the dike systematically diamond-drilled to establish the downward extension of the 1,000-foot level west ore body. The results obtained justified our including this west block of 185,000 tons in the ore reserves as probable ore.

The winze was sunk to a point 271 feet below the 1,315-foot haulage level. A station was cut at the 1,500-foot level, and the dike explored by drifting and systematic diamond-drilling over a length on the strike of 770 feet. This work disclosed a mineralized section 6 feet wide and 300 feet long, having an approximate value of \$4.25 (gold at \$35.00 an ounce) per ton. This,

however, cannot be classified as ore. The assay results and results generally from the work done on this level were disappointing.

Surface prospecting and a limited amount of diamond-drilling from the surface was done during the year, resulting in no developments of importance.

Hudson-Patricia Gold Mines, Limited

Hudson-Patricia Gold Mines, Limited, was incorporated in April, 1934, with authorized capitalization of 2,500,000 shares of \$1 par value. The capitalization was increased in December, 1935, to 3,500,000 shares. The officers and directors of the company are: W. R. Salter, president; M. H. Lebel, vice-president; P. A. Lavallee, managing director; M. F. Blue, secretary-treasurer; J. L. A. Tetreault, A. J. H. St. Denis, C. H. Ackerman, and General B. R. Hepburn, directors. The head office of the company is at 200 Bay Street, Toronto. The mine office address is Narrow Lake, via Sioux Lookout.

The holdings of the company consist of 26 claims in the townships of Goodall and Dent in the Woman Lake area of the Patricia portion of Kenora district. This company succeeded Metals Development, Limited, the shareholders of which received one share of Hudson-Patricia Gold Mines, Limited, for each four shares of the old company held.

The following table shows the amount of work done up to April, 1934, when the property was taken over by the present operators; at December 31, 1934; and at December 31, 1935:—

	April, 1934	Dec. 31, 1934	Dec. 31, 1935
	feet	feet	feet
SHAFT No. 1 (inclined).....	100	100	100
100-foot level:			
Crosscutting.....	15	15	15
Drifting.....	312	320	320
SHAFT No. 2 (vertical).....	237	237	237
211-foot level:			
Crosscutting.....	900	1,749	1,851
Drifting.....		1,061	1,312
Raising.....		169	169
WINZE (inclined 74° from 211-foot level).....		75	144
325-foot level:			
Crosscutting.....			133
Drifting.....			579

Mining operations underground were suspended in August owing to lack of funds. Later in the year the capitalization was increased. Plans for a 50-ton cyanide mill were drawn up and approved, and the equipment for this mill was purchased early in 1936.

J. M. Thompson is manager. The average number of men employed at the mine from January 1 to October 1 was 27.

J-M Consolidated Gold Mines, Limited

J-M Consolidated Gold Mines, Limited, incorporated in February, 1932, is capitalized at 3,500,000 shares of \$1 par value, of which 2,329,341 shares have been issued. The officers and directors are: J. E. Day, president; Chas. Taylor, vice-president; T. J. Day, secretary-treasurer; Hon. J. D. Chaplin and F. L. Hutchison, directors. The head office of the company is at 1116 Federal Building, 85 Richmond Street, West, Toronto. The mine office address is Jackson Manion.

This company holds 34 claims in the Woman Lake area, Patricia portion of Kenora district. Access by water is from Hudson, through Lac Seul, Pakwash lake, Trout Lake river, and Woman river, to Woman lake. Aircraft reach the property in about an hour flying from Hudson or Sioux Lookout.

The following table shows the development work done up to December 31, 1934, the work accomplished during 1935, and the total:—

	To Dec. 31, 1934	1935	Total
	feet	feet	feet
Shaft.....	404	404
Winzes (below the 375-foot level).....	30	115	145

Raises.....	20	105	125
482-foot level:			
Drifts.....	68	68
Crosscuts.....	9	9

A cyanide mill of approximately 30 tons daily capacity was installed at this property early in 1934, and operated from May, 1934, to the end of March, 1935. Gross production from 3,448 dry tons milled during 1934 was \$34,709.32; and from 1,381 dry tons milled in 1935, gross production was \$13,464.99.

No major alterations or additions were made to the mining plant during 1935. The average number of men employed per month during 1935 was 38, divided as follows: underground, 12; mill, 11 (3 months only), and surface 23. D. M. Thomson is manager.

Kenora Prospectors and Miners, Limited

Kenora Prospectors and Miners, Limited, was incorporated in February, 1928. The company has an authorized capitalization of 1,000,000 shares of \$1 par value. The officers and directors are: Thayer Lindsley, president; I. A. Lindsley, vice-president and managing director; A. G. Fulton, secretary-treasurer; I. F. Machin and Jos. Errington, directors. The secretary's address is 25 King Street West, Toronto. The head office and mine office are at Kenora.

The property includes the Cedar Island mine, located in Shoal lake, Lake of the Woods area, district of Kenora. It is 25 miles southwest of Kenora by air.

Work was continued throughout 1935 at the Cedar Island mine. During 1935 the Cornucopia, or No. 2 shaft, which is a vertical 2-compartment shaft, was sunk an additional 208 feet to a total depth of 601 feet, and levels were established at 393 and 500 feet. A total of 927 feet of drifting, 368 feet of cross-cutting, and 40 feet of raising was accomplished on the 393-foot level; and 712 feet of drifting, 257 feet of crosscutting, and 9 feet of raising on the 500-foot level. In addition stoping was started on these two levels and on the 144-foot level at No. 1 shaft.

In June the construction of a 30-ton amalgamation-flotation mill was commenced. It was completed and put in operation on October 15. The equipment included a jaw-crusher, two ball mills, a thickener, a 6-cell flotation machine, and amalgamation equipment, operated by a 150 h.p. Diesel engine. By the end of the year a total of 3,095 tons had been milled.

The plant included a 55 h.p. boiler, a 20 h.p. boiler, an 11- by 9-inch Ingersoll-Rand steam hoist, and a 600-cubic-foot Diesel compressor.

An average of 45 men was employed during 1935, of whom 15 were underground. Hilding Johnson was superintendent.

Kirkland Consolidated Mines, Limited

Kirkland Consolidated Mines, Limited, is capitalized at 7,000,000 shares of \$1 par value. The officers and directors are: Ira Scheifley, president; Ferdinand Frohe, vice-president; C. C. Tyx, secretary-treasurer; Geo. F. Pfeiffer, Kevin Killeen, Norman R. Davis, Richard W. Langford, directors. The head office is at 702 Excelsior Life Building, Toronto.

The company owns 1,200 acres: 4 claims in McVittie township, 14 in Gauthier township, and 14 in Grenfell township, district of Timiskaming. The mine was reopened on August 10, and closed on September 30, 1935. During the operating period 100 feet of drifting was done on the 250-foot level and 1,000 feet of diamond-drilling. Ten men were employed, and Ralph Hurd was manager.

Kirkland Lake Gold Mining Company, Limited

The officers and directors of the Kirkland Lake Gold Mining Company, Limited, are: J. B. Tyrrell, president; R. G. O. Thomson, vice-president; R. Graham, secretary; V. H. Emery, managing director; A. C. Matthews, J. A. Dalton, J. C. Haight, R. V. Le Sueur, and W. S. Walton, directors. The company owns 465 acres in the township of Teck, district of Timiskaming, and is capitalized at 5,500,000 shares of \$1 par value. The head office is at 1312 Metropolitan Building, Toronto. The mine address is Kirkland Lake. P. J. Harris is superintendent. An average of 158 men was employed during the year.

The following is taken from the managing director's report for the year ending December 31, 1935:—

ANALYSIS OF OPERATING COSTS

	Total cost	Cost per ton milled
Development and exploration.....	\$109,365.34	\$1.52
Stoping.....	160,118.93	2.22
Transporting ore, hoisting, etc.....	91,747.57	1.27
Milling.....	87,890.42	1.22
Marketing bullion.....	9,715.49	.14
Taxes.....	18,495.20	.26
General and undistributed charges (rebuilding and strengthening shaft-house, addition to mill equipment, maintenance mine buildings, administration and management, insurance, workmen's compensation, portion of extension to Kirkland Lake Hospital and drainage tunnel, miscellaneous).....	97,461.47	1.36
Total.....	\$574,794.42	\$7.99

Summary of Work Done in Mine

As a means of showing the distribution of the work done, the mine has been divided into three vertical sections or hoisting lifts, and percentages are shown from each.

1st hoisting lift from the 2,400-foot level to surface.
 2nd hoisting lift from the 4,900-foot level to the 2,400-foot level.
 3rd hoisting lift from the 5,800-foot level to the 4,900-foot level.

	Quantity	1st lift	2nd lift	3rd lift
		per cent.	per cent.	per cent.
Ore broken tons	\$6,064	54.2	29.2	16.6
Drifting feet	6,020	63.3	32.4	4.3
Crosscutting feet	943	68.4	16.8	14.8
Raising feet	492	34.6	65.4
Slashing cu. ft.	40,176	74.4	21.7	3.9
Diamond-drilling feet	11,518	64.4	29	7.4
Distribution of all development		67.6	25	7.4

It will be seen from this that the majority of the development was done in the upper levels of the mine.

Practically no attempt was made to develop new ore in the lower lift. It is necessary to carry to completion the stopes already started in this section on account of the comparatively short life of the timber, which, if left for any appreciable time, would have to be replaced. If this had not been the case, for economic reasons, work for the time being would have been suspended in this lift.

Production

Although there were 6,968 tons more milled than in the year previous, there was a gain in broken ore reserves for the year of 14,134 tons, bringing the total broken ore reserves to 33,648 tons.

MILLING STATISTICS

Ore milled tons	71,920
Average value per ton	\$12.02
Gross value	\$864,477.04
Loss in tailings	\$85,921.92
Net value recovered	\$778,555.12
Recovery per ton milled	\$10.83
Average tons milled per day	197
Value in tailings per ton	\$1.19
Per cent. extraction	90.1

During the year there were alterations and additions made to the mill equipment, which resulted in a considerable increase in the milling capacity, with an improvement in the extraction.

General

The surface plant was maintained in good repair, and a number of improvements were made for convenience and efficiency of operation. During the year much of the timber in the shaft-house had to be replaced, and considerable repairing done.

Also, your company had to bear, with the other mines of the camp, its share of the cost of the new Kirkland Lake Hospital extension and the drainage tunnel under the town of Kirkland Lake. Part of the cost of the latter, however, will not be due until 1936. All of the above unusual expenditures, which amounted to \$12,950.50, have been charged and paid for out of operations.

Lafayette Long Lac Gold Mines, Limited

Lafayette Long Lac Gold Mines, Limited, has an authorized capitalization of 3,000,000 shares of \$1 par value. The name of the company was changed from Swayze-Rand Gold Mines, Limited, in 1934. The officers and directors were: H. J. Martin, president; W. G. Chapman, secretary-treasurer; P. Roche, M. S. McLaughlin, and Lloyd Woods, directors. The head office is at 200 Bay Street, Toronto.

The property includes a group of 25 claims in Huron township, Little Long Lac area, district of Thunder Bay. It is located about 14 miles south of Geraldton on the Canadian National railway.

Diamond-drilling was carried on at this property during 1935. In December a small 2-compartment shaft was started. By the end of the year it had been sunk to a depth of 30 feet by hand-steel and windlass.

J. A. Brownlee is in charge. The mine address is Geraldton.

Lake Shore Mines, Limited

Lake Shore Mines, Limited, is capitalized at \$2,000,000 in shares of \$1 par value. The executive officers and directors are: Dr. W. B. St. Charles, president and treasurer; W. H. Wright, vice-president; A. L. Blomfield, managing director; Kirkland Securities, Limited, secretary; Albert Wende and Ernest Martin, directors. The mine and works are at Kirkland Lake, Tark township, district of Timiskaming.

An average of 1,397 men was employed during the year. E. W. Todd is mine superintendent.

The following is taken from the report of the superintendent for the fiscal year ending June 30, 1936:—

During the period, 57,118 tons of commercial-grade ore were mined, valued at \$1,117,718. The bullion produced yielded 40,467 fine ounces of gold, and the tailings contained 1,000 fine ounces.

Production Report

Period	Months	Tons mined	Gross value of bullion	Dividends paid
Mar. 1, 1918, to Nov. 30, 1918	9	14,148	\$1,772,317	\$210,000
Dec. 1, 1918, to Nov. 30, 1919	12	17,847	2,124,000	250,000
Dec. 1, 1919, to Nov. 30, 1920	12	18,881	2,254,000	250,000
Dec. 1, 1920, to Nov. 30, 1921	12	20,281	2,354,000	250,000
Dec. 1, 1921, to June 30, 1923	13	22,221	2,574,000	250,000
July 1, 1923, to June 30, 1924	12	22,111	2,574,000	250,000

STATEMENT OF COSTS FOR THE YEAR

	Cost per ton
Development.....	80.457
Mining.....	3.409
Milling and refining.....	1.194
Marketing bullion.....	.243
General and administrative expense.....	.317
Operating cost.....	85.620
Depreciation.....	.295
	85.915
Provision for taxes.....	1.937
Total cost.....	87.852

Development

Exploration for new ore was limited to clean-up work in intermediate levels of No. 2 vein and to the further opening of No. 1 vein to a depth of 3,200 feet. The total drifting amounted to 6,481 feet, of which 2,489 feet were driven in ore having an average grade of 0.655 ounces per ton across an average width in the drifts of 54.7 inches. The policy of stressing development of the No. 1 or hanging-wall zone in preference to the No. 2 or footwall ore bodies has been continued in order that stoping operations in the former may be brought in advance of mining in the latter.

No. 1 vein continued to yield average results under intensive development of intermediate levels, and the amount of ore provided from this zone increased. The proportion of the total, taken from No. 1 vein, is held abnormally high at present in order to conform with the policy referred to above; in future it may be expected to decrease somewhat.

No. 5 Shaft.—Sinking of the concrete caissons to rock through the bed of Kirkland lake was completed with entirely satisfactory results. A pilot raise was driven from the 200-foot level to connect with the inside of the shaft caisson, and a routine underground programme of crosscutting, raising, slashing, and installation of equipment was begun. At the end of the year crosscut connections with mine workings were completed to the 2,450-foot level, pilot-raising to the 1,800-foot level, and shaft-slashing to a depth of 613.5 feet below the collar. Steel sets were installed to 565.2 feet below the surface, and the fireproof lining placed to a depth of 425.2 feet below the shaft collar. The No. 5 shaft is to be sunk to a depth of 4,075 feet.

Stoping.—New sections of No. 1 and No. 2 veins were prepared for stoping on levels extending from the 2,825- to the 3,200-foot levels, and mining will proceed in these working places during the coming year. A filled square-set rill method of stoping has been adopted as most suitable to the ground conditions.

The length of ore exposed in drifts and not prepared for stoping at the end of the fiscal year amounted to 13,819 feet, having an exposed average width before slashing of 61 inches and an average grade of 0.70 ounces. These figures indicate that ore available for mining continues well in excess of requirements.

The total amount of backfill placed in stopes during the year amounted to 515,844 tons.

Additions to Surface Plant

A new assay office and research laboratory was built and equipped, using fireproof materials throughout. A hoist-room was built to house the new hoists for No. 5 shaft and the steel head-frame completed. Minor additions and alterations were made to mill equipment.

Milling

Milling results have responded to improvements installed, the extraction being increased to 96 per cent. Operation of the flotation unit was discontinued with a resultant reduction in milling costs.

Supplies and Equipment Purchased, 1918-1936

An indication of the amounts spent by Lake Shore Mines, Limited, for supplies and equipment, purchased mostly in Canada, is given in the list below.

Explosives.....	\$1,682,730
Lumber and timber (\$3 per cent. local).....	2,061,156
Rock drills and parts.....	657,198
Pipe and fittings, plumbing supplies.....	576,344
Electrical supplies.....	852,812
Mill supplies.....	2,759,481
Machinery and parts.....	3,672,029
Building materials.....	612,043
Fuel.....	396,248
Steel products.....	1,513,301
Oils and lubricants.....	224,757
Groceries.....	580,247
Trucks and cars.....	63,611
Miscellaneous.....	1,378,534
Backfill.....	462,536
Power.....	3,394,332
Total.....	\$20,887,359

Freight and express included in above materials, \$1,555,750.

L. B. United Mines, Limited

L. B. United Mines, Limited, was incorporated in May, 1934, with an authorized capitalization of 3,500,000 shares of \$1 par value. The officers and directors were: Dr. W. E. Tindale, president; Allen C. McLean, secretary-treasurer; P. J. Elward, M. A. Chadwick, and Stuart Fleming, directors. The executive office is at 767 Yonge Street, Toronto.

The company optioned the property of Centennial Gold Mines, Limited, located in township 29, range 22, in the Michipicoten area, district of Algoma, and started work on April 2, 1935. The property had been idle since December 4, 1934.

The 130-foot, 2-compartment, 33-degree shaft was deepened to 262 feet, and levels were established at 100 and 250 feet. During 1935, a total of 89 feet of drifting and 51 feet of crosscutting was accomplished on the 1st level, and 478 feet of drifting and 100 feet of crosscutting on the 2nd level. Connections were made on the 1st level with two old 110-foot shafts, which are situated on either side of the main shaft, where 47 feet of drifting had been done at that horizon.

A 50-ton amalgamation-flotation mill was installed and put in operation on October 22. By the end of the year it had treated a total of 2,587 tons of ore, obtained from development work and stope preparation. Flotation concentrates, totalling 34 tons, were shipped to Sault Ste. Marie, where the company has established a refinery.

The mill equipment included a jaw-crusher, Marcy ball mill, Dorr classifier, Deister table, 4-cell Denver Sub-A flotation unit, filter, and amalgamation equipment.

The plant included a 218-cubic-foot electric compressor, a 320-cubic-foot electric compressor, and a small electric hoist. Buildings erected in 1935 included an office, mill, cookery, and two bunk-houses.

An average of 33 men was employed during the period of work. A. D. McWilliams, J. E. Ronaldson, and L. K. Lytle were successively in charge of operations. The mine address is Gold Park.

Lebel Oro Mines, Limited

Lebel Oro Mines, Limited, was incorporated in April, 1920. Early in 1936 the capitalization was increased from 3,000,000 to 3,500,000 shares of \$1 par value. The officers and directors are: L. K. Fletcher, president; A. B. Mortimer, secretary-treasurer; W. H. Englebright, E. J. Dwyer, and T. H. Rea, directors. The head office is at Room 10, 320 Bay Street, Toronto.

The property of this company includes the old Long Lake mine, located in township 69, district of Sudbury. It is 16 miles southwest of Sudbury.

Work was resumed at this property in May, 1935, after a suspension of six months. During the balance of the year the work consisted of dewatering the old workings and diamond-drilling 2,391 feet from underground and 1,458 feet from surface. At the end of the year the company was preparing to install a mining plant.

The 200-ton cyanide mill, constructed in 1934, did not operate during 1935. It had been built with the intention of milling the tailings from the original operation, and was not equipped with a grinding unit.

An average of 13 men was employed during the period of operation. The mine address is Box 156, Sudbury. Wm. D. M. Ross is mine manager.

Leitch Gold Mines, Limited

Leitch Gold Mines, Limited, was incorporated in July, 1935, with an authorized capitalization of 3,000,000 shares of \$1 par value. The officers and directors are: K. J. Springer, president; W. E. Segsworth, vice-president; H. J. Mackay, secretary-treasurer; Dr. J. H. C. McClelland, and R. Cryderman, directors. The head office is 320 Bay Street, Toronto.

The property this company acquired consists of about 400 acres in Thunder Bay district, about 4 miles northwest of Beardmore station on the Long Lac-Port Arthur branch of the Canadian National Railways. It is reached by a 6-mile road from Beardmore.

Work was started in August. Following surface work and diamond-drilling, shaft-sinking was started early in November with a gasoline compressor and carried to a depth of 30 feet. The 3-compartment vertical shaft was then collared, a headframe erected, and a mining plant installed. Sinking was resumed on December 29, and was at a depth of 46 feet at the end of 1935. A total of 3,630 feet of diamond-drilling was done in 1935.

The plant included an 8- by 6-inch Ingersoll-Rand hoist and a 530-cubic-foot compressor, driven by a 114 h.p. Diesel engine. Buildings erected included an office, power-house, blacksmith shop, bunk-house, cookery, and stable.

An average of 27 men was employed under the direction of W. J. Hacker. The mine address is Empire.

Little Long Lac Gold Mines, Limited

Little Long Lac Gold Mines, Limited, was incorporated in January, 1933, with an authorized capitalization of 2,000,000 shares of no par value. The officers and directors are: Jos. Errington, president; Thayer Lindsley, vice-president; L. A. Macdonald, secretary-treasurer; D. M. Morin, A. B. Gordon, and D. M. Hogarth, directors. The head office is at 1331 Canadian Bank of Commerce Building, Toronto. The mine address is Oklend.

The property is two miles south of Geraldton, on the Port Arthur-Long Lac branch of the Canadian National Railways, district of Thunder Bay. There is an automobile highway from Geraldton to the mine.

Work was continued throughout 1935. Shrinkage stopes were mined on the 204-, 325-, 445-, and 570-foot levels, and preparations were being made to backfill empty stopes with waste rock.

The plant includes a 125 h.p. boiler, 94 h.p. boiler, a 1,250-cubic-foot Ingersoll-Rand electric compressor, and an Ingersoll-Rand electric double-drum hoist. Electric power was obtained from Cameron falls, 95 miles away.

An average of 170 men was employed during the year, of whom 71 men were underground. A. A. Barton is manager; D. A. Duff is mine captain; and A. Rennick is mill superintendent.

The following is an extract from the manager's report for the fiscal year ending December 31, 1935, and covering further operations to March 31, 1936:—

Construction

Although the mill was completed and went into operation in November, 1934, the past year was still one of construction. The mill was enlarged and the following equipment installed: a second dewatering thickener, two dewatering filters, a 10-cell Sub-A flotation machine, with conditioner tank, thickener, and filter for the treatment of residues. A roasting plant for the treatment of concentrates has been completed and went into operation on April 1. This plant consists of a 15-spindle Edwards roaster and a complete cyanide plant for the treatment of calcines. Another thickener and filter is now being added to the cyanide plant.

The shaft headframe has been raised 15 feet higher and the capacity of the shaft ore bin increased by 125 tons.

A 2,000-cubic-foot Bellis and Morecom compressor and a 125 h.p. stoker-fired boiler has been added to the power plant. Also, an underground air hoist has been installed for shaft-sinking.

This plant enlargement entailed the following costs:—

Mill enlargement and equipment.....	\$75,510.00
Roasting plant and equipment.....	42,500.00
Power plant enlargement and the purchase and installation of a Bellis and Morecom compressor and a new boiler and stoker.....	19,329.75
Sprinkler system.....	12,827.75
Mill storage warehouse.....	422.65
Machine shop and blacksmith shop addition and equipment.....	4,652.22
Outside pipe systems.....	8,764.03
Power and light lines.....	1,383.97
Docks, sidings, and fences.....	1,544.87
Shaft-house and headframe.....	2,180.31
New barn.....	1,717.56
Powder magazine.....	882.69
Extensions to bunk-house, hospital, commissary.....	10,327.15
Employees' residences.....	19,934.81
Miscellaneous plant buildings.....	3,421.55
Total.....	\$205,399.31
Further expenditures in mine and plant equipment.....	22,135.49
Total.....	\$227,534.80

Production

The following is a report on mill operation and production for the year ending December 31, 1935:—

Dry tons milled.....	62,073
Gold production..... ounces	31,445.81
Gold lost in residues..... ounces	4,896.21
Calculated amount gold in mill heads..... ounces	36,342.02
Calculated mill head assay..... ounces	.585
Mill residue assay..... ounces	.0788
Percentage recovery.....	86.51

During 1935 the mill operated 361 days, indicating 98.9 per cent. running time. Tonnage milled was increased from 160 tons to 200 tons per day on September 1. During the year consulting metallurgists concluded that the flotation of refractory sulpho-arsenides from the cyanide plant residue, with subsequent roasting, was fully warranted. This idea was put into practice with the flotation plant operating late in December.

The following figures are typical of mill performance at the present time:—

	Per cent.
Gold recovered by blanket plant.....	65
Gold recovered by cyanidation.....	21.7
Gold contained in flotation concentrate.....	10.5
Gold contained in flotation residue.....	2.8

Roasting Plant

The results obtained from the first week's operation clearly indicate that the performance is up to expectations; a total recovery of 95 per cent. is reasonably assured and, it is expected, will be further improved during the ensuing year.

Development

During the year new ore was developed on the 4th level, 400 feet south of the main vein to date 300 feet of 0.3 grade has been drifted on. Further new ore has been developed on 2nd, 3rd, and 4th levels, a parallel mineable vein zone about 200 feet long on the 2nd level and above the 3rd level. This parallel zone is connected to the main vein by a series of folded quartz veins, making at these points a mineable zone 80 feet in length by 50 feet wide. To date, no development has been done in this area below the 4th level.

Development work accomplished for the year and to March 31st, is as follows:—

	1935	Total
Drifting..... feet	3,187.5	3,836
Crosscutting..... feet	1,024	1,120
Slashing..... cu. ft.	11,283	31,835
Raising..... feet	976.5	1,336.5
Sumps..... cu. ft.	2,004
Station-cutting..... cu. ft.	9,060
Shaft-sinking..... feet	166.5
Diamond-drilling:		
Surface..... feet	14,966	19,667
Underground		
Exploration; grouting..... feet	5,508	8,229

Ore Reserves

	Tons	Ounces gold per ton
Proven ore.....	85,910	0.565
Broken ore.....	22,435	.575
Probable ore.....	135,320	.484
Possible ore.....	77,090	.496
	320,755	0.515

Operating Costs

Operating costs have been slightly higher than anticipated, owing partly to construction, and an unusual amount of exploration development. Costs (62,073 tons) are as follows:—

	Total cost	Cost per ton
Exploration development and diamond-drilling	\$109,732.70	\$1.7678
Mining	153,195.34	2.4680
Milling	105,758.23	1.7038
Mine office and supervision	26,963.60	.4344
General expense at property	31,938.63	.5145
Administrative and general expense, Toronto office	24,238.47	.3905
Total	\$451,826.97	\$7.2790

It is expected that these costs will be lowered during the present year, due to less exploration, greater tonnage milled, and higher recovery.

Macassa Mines, Limited

The capitalization of Macassa Mines, Limited, is 3,000,000 shares of \$1 par value. The officers and directors are: Robert A. Bryce, president; L. Soliague, secretary-treasurer; John D. Perrin, Henry M. Porteous, Thomas Riggs, and Arthur G. Slaght, directors. G. A. Howes is mine manager. The head office is at 85 Richmond Street West, Toronto. The mine office is at Kirkland Lake. About 145 men were employed at the mine during the year.

The company owns 6 claims, adjoining the Kirkland Lake Gold mine on the west, in Teck township, district of Timiskaming.

The following is an extract from the report of the mine manager for the twelve months ending March 31, 1936:—

Production

During the year, 69,455 dry tons of ore were treated, from which the gross recovery was \$1,140,470.22 in bullion, or \$16.42 per ton. In addition, sundry revenue amounted to \$1,674.78. The average recovery in ounces per ton was 0.468, with a 93.81 per cent. extraction. The average daily milling rate was 189 tons at 96.62 per cent. running time.

Development

As intimated in the last annual report, the mine had reached the stage, both in hoisting facilities and working places, where a much more intensive exploration and development programme could be carried on. As a result, new ore was found on the 1,300-, 1,400-, 2,000-, 2,175-, 2,575-, 2,675-, and 3,000-foot levels. While the 3,000-foot (or bottom) level has still 1,010 feet east and 1,300 feet west to go before reaching the boundaries, the length explored has proved it to be the best level in the mine to date as regards lengths, widths, and grade of ore.

The abnormal exploration and development programme during the past year increased the costs but also increased the ore reserves. As there is still a great deal of exploration to be done both on the 3,000-foot level and all levels and sublevels above, it is deemed advisable to continue at the present rate of work, the object being to further improve the developed ore position. It was decided that opening up levels below the 3,000-foot would be done from a winze, having the hoist and storage pockets on the 3,000-foot level. It will be the same size as the present main shaft.

The cutting-out of an underground chamber on the 3,000-foot level for the hoist and head-frame is nearly complete, and this cost is absorbed in the development cost figure below. Sinking will be under way in May. General mining costs were higher than last year for two reasons: (1) In certain sections stull stoping and backfilling had to be used to prevent dilution of ore; and (2) the broken ore reserve was increased over that of last year, the costs of which were completely absorbed during the year.

The summary of development work is as follows:—

	1935-36	1934-35	1933-34
	feet	feet	feet
Drifting.....	9,094.5	5,988	3,483.5
Crosscutting.....	1,697	1,033	349
Raising.....	1,790	1,409	744
Shaft-sinking.....	101	481
Station-cutting.....	43	91	30
Total.....	12,635.5	9,002	4,606.5
Diamond-drilling.....	10,109	3,489	2,701.5

Ore Reserves

In the following estimate of ore reserves, only fully developed ore is included.

	Tons	Ounces per ton	Value per ton at \$35
Unbroken ore.....	126,130	0.45	\$15.75
Broken ore.....	13,605	.46	16.10
Surface dump.....	2,612	.43	15.05

In addition to the above-mentioned fully developed ore, there are lengths and widths of lower-grade ore throughout the mine, and also indicated ore of better grade, which as yet is not fully developed.

Mill

The mill operated efficiently throughout the year. A number of tests have been made, having as their object changes which we think would give us better extraction and lower costs per ton.

Operating Costs

No deferred development charges were set up during the year. Except for the items of capital expenditures listed below, all costs are included in the following, before provision for depreciation, pre-development, and taxes:—

	Cost per ton milled
Development and exploration.....	\$2.80
Mining (stopping, tramming, pumping, etc.).....	2.48
Milling.....	1.49
Administration, and general charges (including head office, Mint charges, and bullion-handling charge).....	.97
Total.....	\$7.74

Capital Expenditure

A total of \$38,766.98 was spent on additions during the year, as against \$72,249.79 in 1934-35. A good portion of it was on underground equipment, spare motors, and additional company dwellings. The itemized list is as follows:—

Residences (4).....	\$8,854.37
Substation.....	1,644.21
Machine shop.....	785.41
Assay office and refinery.....	1,576.78
Crusher plant and mill.....	8,000.59
Mine equipment.....	14,143.13
Office.....	404.35
Miscellaneous.....	3,358.14
Total.....	\$38,766.98

It is planned to install during the year a new mine surface hoist and to transfer the original one underground for future work below the 3,000-foot level.

Mac-Auer Gold Mines, Limited

Mac-Auer Gold Mines, Limited, was incorporated in March, 1934, with a capitalization of 50,000 shares of no par value. The officers and directors were: S. P. Myers, president; C. E. Loy, vice-president; M. Auerbach, secretary-treasurer; L. Chatelle and M. G. Greenblatt, directors. The head office is at University Tower, Montreal.

The company acquired 10 claims in Davis township, and 9 claims in Scadding township, district of Sudbury, located at the north end of Ashganing lake, and work started on May 15, 1935. The property includes claim W.R. 35, on which are located two old inclined shafts, 100 feet and 32 feet deep, respectively, and about 200 feet apart. These shafts were dewatered and sampled, and the 100-foot shaft partially retimbered. About 30 feet of drifting was accomplished with a gasoline compressor at a depth of 50 feet in No. 1 shaft. A 10-ton amalgamation mill was erected and operated for about 10 days.

All work was suspended at the end of August and the mill equipment removed. Buildings constructed included a small mill building and a compressor-house of sheet metal, a canvas cookery-bunkhouse, and two small canvas buildings.

About 10 men were employed under the direction of H. I. Huestis.

McIntyre-Porcupine Mines, Limited

McIntyre-Porcupine Mines, Limited, has an authorized capitalization of 800,000 shares of \$5 per value, of which 798,000 shares are issued.

The officers of the company are: J. P. Bickell, president; Bernard E. Smith, vice-president; E. D. Fox, secretary; Balmer Neilly, treasurer. The directors are: D. H. McDougall, Strachan Johnston, and R. S. McLaughlin. R. J. Ennis is general manager. The executive office of the company is at 15 King Street West, Toronto. The head office and mine office are at Schumacher.

The company's main property is at Schumacher, in the township of Tisdale, district of Cochrane. The company has also numerous holdings in other parts of the Dominion.

During 1935, McIntyre-Porcupine Mines employed an average of 1,209 men at their Schumacher property. Of this number, 923 were employed underground and 65 were regular mill employees.

The following is taken from the general manager's report for the fiscal year ending March 31, 1936:—

Production

Ore treated.....	tons	\$73,000
Value per ton (0.280 ounces).....		\$9.88
Gross value.....		\$8,621,410.67

Total.....	\$206,971.52

General

New ore developed during the year has been sufficient to fully maintain our ore reserve position. Development work on the upper levels has resulted in finding further extensions to previously worked ore bodies and, as anticipated, these areas continue to contribute large tonnages of good-grade ore.

On the lower levels from No. 12 internal shaft, some of the ground considered favourable for ore has been explored with fair results. Referring to the summary of mine development, it will be noted that No. 22 vein was developed for an additional 1,976 feet in ore averaging 0.360 ounces over drift width.

Outside Exploration

Fifty-seven properties were sampled and reported on during the year, and favourable recommendations were made on six. One of these was optioned, and others are under consideration.

Diamond-drilling on properties optioned in Chibougamau, mentioned in last year's report, did not confirm surface sampling, and the option was allowed to lapse.

The option on the O'Leary Malartic group of 19 claims in Guillet township, Lake Expansé district, Quebec, was completed, and we now own an 80 per cent. interest in these claims. A shaft was sunk to 375 feet, with levels at 125, 225, and 325 feet; and 1,824 feet of horizontal work developed 24,000 tons of ore, averaging 0.415 ounces per ton. Thirteen other claims adjoining this group were purchased outright, and our prospectors staked 15 claims also adjoining, bringing the total number of claims in this district to 47.

One one of the groups of claims purchased outright, commonly referred to as the Ranger group, a promising discovery was made. Trenching and diamond-drilling have indicated 41,000 tons of ore, averaging 0.31 ounces per ton from the surface to the 125-foot horizon, and established the continuity of the vein with payable values to the 300-foot horizon. A 3-compartment shaft is being sunk to a depth of 550 feet, and a 100-ton test mill is being erected.

McKenzie Red Lake Gold Mines, Limited

McKenzie Red Lake Gold Mines, Limited, incorporated February 1, 1933, has an authorized capitalization of 3,000,000 shares of \$1 par value, of which 2,900,000 shares have been issued. The officers and directors are: W. G. Armstrong, president; F. D. Reid, vice-president; H. M. Anderson, secretary-treasurer; M. F. Fairlie, managing director; G. W. Quinn, director. John W. Shaw is consulting engineer, and J. L. Ramsell is resident manager. The head office is at 507 National Building, 347 Bay Street, Toronto. The mine office address is McKenzie Island.

The mine property consists of 11 claims on the northern end of Mackenzie island, in Red lake, in the Patricia portion of Kenora district. Summer transportation to the property is by barge from Hudson. Plane service from Hudson or Sioux Lookout lands passengers, freight, and mail at the mine. McKenzie Island P.O., established in 1935, is located at the mine. Electric power is supplied to the mine over the company's own line, which taps the Hydro line from Ear Falls to the Howey mine, near the Howey mill.

Underground work was started at this property in the summer of 1933. Development work done since that time to the end of 1935, and during the year 1935, is shown in the following table:—

	To Dec. 31, 1934	1935	Total
Shaft.....	feet 272	feet 189	feet 461

Installation of machinery in the 125-ton cyanide mill, erected in the fall and early winter of 1934-35, was completed in February, and production commenced about March 1, 1935. Tonnage milled in 1935 was 36,117 tons, and production amounted to \$530,857.65, including the premium on bullion sold.

The average number of men employed in 1935 was 88, divided as follows: mine, 45; mill, 8; construction, 13; and surface, 21.

McLaren-Porcupine Gold Mines, Limited

McLaren-Porcupine Gold Mines, Limited, incorporated in August, 1934, has an authorized capitalization of 3,000,000 shares of no par value. Of this number, 1,500,000 issued for property are pooled, 800,000 have been under-written, and 700,000 remain in the treasury. The officers and directors of the company are: Dr. W. M. McLaren, president; J. M. McLaren, vice-president; J. J. Gallagher, secretary-treasurer; N. W. Kingsland and Gerard Ruel, directors. Both the head office and the mine office are at South Porcupine.

The property held by the company consists of about 300 acres in Deloro township, district of Cochrane. It is accessible by motor road from either South Porcupine or Timmins.

Buildings on the property consist of a cookery and bunk-house, 24 by 50 feet; an office, 16 by 18 feet; small log cabin, compressor-house and blacksmith house combined, magazine, and mill.

During 1935, mining was carried on from an open glory hole, which has now reached a depth of 50 feet. The material removed from this pit was sorted, and during the year approximately 300 tons was milled. One corner of the glory hole was recently slashed out and will be timbered to serve as a shaft, when proposed drifting from the bottom of the pit commences.

The mill equipment consists of a jaw-crusher, a recently added hammer mill, bin, Kennedy Nutt mill, and blankets. Power for the mill is supplied by Diesel engine. Mining equipment includes a Sullivan portable air compressor, 2-drill capacity; Climax rock drills; and a 5- by 6-inch Jenckes hoist.

During the year about 300 tons were milled with an approximate value of \$5,000, as compared with about 100 tons milled in 1934 with an approximate value of \$1,000.

The average number of men employed per month was 17. J. M. McLaren is general manager at the property.

J. Bruce McMartin

J. Bruce McMartin, 941 Dominion Square Building, Montreal, Que., is the owner of a group of 9 claims in Rickaby township, district of Thunder Bay, about 10 miles northeast of Jellicoe, on the Long Lac-Port Arthur branch of the Canadian National Railways.

During 1935 underground work was carried on at this property from January 1 to March 10, and from May 6 to November 1. When work was suspended on November 1, the underground development consisted of a 2-compartment vertical shaft, 262 feet deep, 218 feet of drifting and 40 feet of crosscutting on the 150-foot level, and 360 feet of drifting and 45 feet of crosscutting on the 250-foot level. Two small stopes had been mined on the first level, and one on the second level.

A 20-ton cyanide mill was erected early in 1935, and milling started on April 17. The mill was shut down on October 9, after treating a total of 3,295 tons of ore. A Diesel engine was used to supply power.

The mining plant included a 22 h.p. boiler operating an 8- by 10-inch hoist, and a 370-cubic-foot Ingersoll-Rand Diesel compressor.

An average of 23 men was employed under the direction of W. A. Coughlan.

McMillan Gold Mines, Limited

McMillan Gold Mines, Limited, was incorporated in December, 1926. The capitalization was increased in 1935 from 3,000,000 to 4,000,000 shares of \$1 par value. The officers and directors are: G. M. Miller, president; G. A. Foot, vice-president; F. A. Lafferty, secretary-treasurer; W. J. Hussey, J. M. R. Corbet, C. B. Goldsborough, and R. L. Patterson, directors. The head office is at Sudbury. The property is about 60 miles southwest of Sudbury, in Mon-gowin township, district of Sudbury. The mine address is Footbanks.

Work was continued throughout 1935. Underground operations and milling were suspended on December 24, and a diamond-drilling campaign was started.

During 1935 a winze was sunk from the 625-foot level to a depth of 275 feet, and levels were established at depths of 750 and 875 feet. The development work accomplished on the various levels during the year and the total to the end of 1935 were as follows:—

Level	Drifting		Crosscutting		Raising	
	1935	Total	1935	Total	1935	Total
	feet	feet	feet	feet	feet	feet
225-foot.....	64	429	13	13	260	292
325-foot.....		1,355		504	90	392
425-foot.....		333		95	100	132
525-foot.....		1,609		639	310	355
625-foot.....		768		143		
750-foot.....	177	177	14	14		
875-foot.....	118	118	45	45		
Total.....	359	4,789	72	1,453	760	1,171

Shrinkage stoping was done on all levels, except the 750- and 875-foot. The 125-ton mill treated a total of 40,213 tons during 1935, of which 33,814 tons was obtained from stoping, 633 tons from development, and the balance from surface dumps. A concentrating jig and amalgamation equipment were added to the mill circuit.

A total of 1,478 feet of diamond-drilling was done from surface, and 2,407 feet from underground.

An average of 82 men was employed during the year, of whom 49 were underground. Jas. G. MacGregor was consulting engineer; George C. Dunn was general superintendent; and W. R. Dennis was mill superintendent.

Madsen Red Lake Gold Mines, Limited

Madsen Red Lake Gold Mines, Limited, was incorporated in March, 1935, with an authorized capitalization of 3,000,000 shares of \$1 par value. The officers and directors of the company are: F. R. Marshall, president; Jos. McDonough, vice-president; W. G. Hughson, secretary-treasurer; G. A. La Bine, A. J. Doane, and M. Madsen, directors. The head office of the company is at 67 Yonge Street, Toronto. The mine office address is Red Lake.

The holdings of this company, 29 claims, are situated at Faulkenham lake, about 7½ miles southwest of the Howey mine, in the Red Lake area, district of Kenora, Patricia portion. The property was bought from Jomac Gold Syndicate and Falcon Gold Syndicate. The claims were prospected and developed by surface trenching and 12 diamond-drill holes in 1935. A vertical shaft, which was started late in the same year with an objective depth of 325 feet, was down about 175 feet at the end of the year. It is located on the hanging-wall side of the vein, which dips toward it at 60 to 65 degrees. It is estimated the vein will be intersected by crosscuts about 200, 150, and 100 feet from the shaft on the 100-, 200-, and 300-foot levels, respectively.

Madsen Red Lake Gold Mines bought the steam plant used in the early stages of development of the McKenzie Red Lake mine. This plant was moved to the Madsen property after the freeze-up in the fall of 1935.

In December, 1935, there were 31 employees at the mine. A. Honsberger is mine manager.

Manitoba and Eastern Mines, Limited

Manitoba and Eastern Mines, Limited, is capitalized at 5,000,000 shares, of which 3,100,006 were issued, 2,000,000 shares being optioned to Bobjo Mines, Limited, for \$202,500.

The property consists of 16 claims in Strathly township, district of Nipissing. The head office is at 25 King Street West, Toronto. The officers of the company are: W. E. Hurd, president; W. G. Chipp, treasurer; T. M. Mungovan, secretary; R. J. Jowsey and L. K. Fletcher, directors. The mine address is Timagami.

Underground operations were suspended in February, 1935. Surface exploration was carried on at the west end of the property during the summer and fall.

An average of 6 men was employed. Jas. G. MacGregor is general manager.

Martin Bird Syndicate

The Martin Bird Syndicate owns 9 claims in Hearst township, district of Timiskaming. The officers and directors are: S. J. Bird, president; G. O'Meara, secretary-treasurer; Dr. R. Armstrong, J. Martin, and D. Lough, directors. John Campbell is mine manager. The mine address is Larder Lake.

Buildings on the property include a log cabin, two bunk-houses, cook-house, office, compressor and hoist house, and headframe.

Operations were resumed in June, 1935, and continued to the end of the year. At the end of 1935 the shaft had been deepened to 140 feet, and a total of 700 feet of drifting and 420 feet of crosscutting had been done on the 125-foot level. Ore hoisted during the year amounted to 2,000 tons and waste to 1,500 tons. An average of 12 men was employed.

Matachewan Consolidated Mines, Limited

Matachewan Consolidated Mines, Limited, owns 21 claims, comprising 840 acres, in Powell and Cairo townships, district of Timiskaming. The authorized capital is 4,000,000 shares of no par value, of which 1,200,000 shares are issued to Matachewan Canadian Gold, Limited, shareholders. The balance of the stock is optioned to Ventures, Limited, and Sudbury Basin Mines, Limited, to be taken up as money is expended on the property. The officers and directors are: Thayer Lindsley, president; H. H. Sutherland, vice-president; H. Wittingham, secretary-treasurer; W. J. Boland and Jos. Errington, directors. Ernest Craig is general manager; and Thos. L. Wells is superintendent. The head office is at 25 King Street West, Toronto. The mine address is Elk Lake. During the year an average of 42 men was employed in the mine, 12 in the mill and 26 on surface, making a total of 81.

The following is a summary of the work done in 1935 as reported by the superintendent:—

Shaft-sinking amounted to 176 feet; raising, 99 feet; station-cutting, 86 feet; sumps, 1,878 cubic feet. Development work, by levels, was as follows:—

Level	Drifting	Crosscutting	Raising	Box-holing
	feet	feet	feet	feet
160-foot.....	151	492	67	105
260-foot.....	595			
Total.....	746	492	67	105

From surface, 204 feet of diamond-drilling was done; and from underground, 2,261 feet.

Ore hoisted amounted to 49,487 tons; waste, 9,680 tons; and ore broken in stopes, 73,296 tons.

The mill operated 365 days, treating 48,362 tons, with an average per day of 132½ tons.

The following figures show the gold and silver production, with the total gross value:—

	Fine ounces gold	Fine ounces silver	Total gross value
Bullion shipped.....	9,761.441	1,402.34	\$344,265.14
Slag shipped.....	352.127	248.09	12,558.53
Total.....	10,113.568	1,650.43	\$356,823.67

New construction completed during the year includes the following: headframe, shaft-house, ore bin, power-house and a direct-driven electric hoist and compressor, change-house with lockers and shower baths, new refinery.

Matachewan Pioneer Syndicate

The Matachewan Pioneer Syndicate, capitalized at 7,000 units of no par value, was formed to take over 9 patented claims in Cairo township, district of Timiskaming, which were staked in 1906. During 1935 the syndicate was under the management of C. G. Knott and G. W. Pinner. The head office address is 1109 Northern Ontario Building, Toronto.

During 1935 a 2-compartment shaft was sunk to a depth of 50 feet, and 42 feet of crosscutting was done. Five men were employed under the direction of H. A. Steven. The mine address is Matachewan.

At the beginning of 1936 arrangements were being made to refinance and form a company to be known as Matachewan Hub Pioneer Mines, Limited.

May-Spiers Gold Mines, Limited

May-Spiers Gold Mines, Limited, was incorporated in July, 1934, and is capitalized at 3,000,000 shares of \$1 par value, of which 1,280,000 shares are issued. The officers and directors are: Otto May, president and managing director; Nelson Spiers, vice-president; C. M. Lamb, secretary-treasurer; Geo. C. McCullagh, director. The head office of the company is at 159 Bay Street, Toronto. The mine office address is Red Lake.

The mine property consists of 8 patented claims, located at the west end of Red lake, Middle Bay section, in the township of Ball, Patricia portion of Kenora district. A large part of this group of claims lies under water. The mining plant is located on an island about a thousand feet in length.

A mining plant has been taken in to the property and is partially installed. It includes two 80 h.p. John Inglis R.T. boilers, one 840-cubic-foot Sullivan straight-line air compressor, a 7- by 11-inch Stephens-Adamson steam hoist, and all necessary blacksmith and machine shop equipment. A complete set of camp buildings to house a crew of 36 men has been erected.

A shaft has been dug down to bed rock, a distance of 8 feet, and cribbed in preparation for drilling operations.

Work at the property was reported temporarily suspended late in the summer of 1935. An average of 6 men was employed for the first nine months of the year, under the direction of Nelson Spiers.

Minto Gold Mines, Limited

Minto Gold Mines, Limited, was incorporated in July, 1930, with an authorized capitalization of 8,000 shares of no par value. The officers and directors are: John Knox, Jr., president and manager; M. E. Knox, secretary-treasurer; A. Dorfman and J. Ingram, directors. The executive and mine offices are at Wawa.

The property consists of the Minto, Jubilee, and Cooper mines, all located in township 29, range 23, in the Michipicoten area, district of Algoma.

Underground operations were continued at the Jubilee mine throughout 1935. Open stoping was done on the 2nd, 3rd, and 4th levels, and the ore transported by truck from the Jubilee mine to the 100-ton cyanide mill at the Minto mine, where it was milled.

The mill operated 340 days during 1935 and treated a total of 34,890 tons of ore, of which 2,212 tons was obtained from the 2nd level, 9,980 tons from the 3rd level, and 22,798 tons from the 4th level.

The development work accomplished during the year at the Jubilee mine consisted of a 150-foot raise from the 2nd level to surface, 30 feet of drifting on the 3rd level, and 63 feet of drifting on the 4th level.

Work was done at the Cooper property from March 15 to July 15. Previous operators put down a 45-degree shaft to a depth of 65 feet. In 1935 a power line was constructed from the Jubilee-Stanley line to the old shaft, and a compressor-house, bunk-house, and cookery were erected. A 310-cubic-foot Ingersoll-Rand electric compressor was installed, and work was then suspended.

An average of 40 men was employed during 1935, of whom 18 were underground. John Knox, Jr., was in charge of operations; Frank McLennan was mine captain; and Wm. Hosking was mill superintendent.

Moffatt-Hall Mines, Limited

Moffatt-Hall Mines, Limited, has a capitalization of \$5,000,000, in shares of \$1 par value. The officers are: L. R. Moffatt, president; and C. F. Tuer, Haileybury, secretary-treasurer. The company owns 15 claims in Lebel township, district of Timiskaming.

The property was operated under lease during the first seven months of 1935 by the Bidgood Kirkland Gold Mines, Limited. An account of this operation appears on page 82 of this report.

Morris Kirkland Gold Mines, Limited

Morris Kirkland Gold Mines, Limited, was formed in January, 1935, with an authorized capitalization of 2,500,000 shares of \$1 par value. The officers and directors are: George W. Morris, president; M. C. Smith, vice-president; Jas. E. Day, vice-president; L. H. Watts, treasurer; Roy Weldon, secretary; W. B. Robb, Dr. W. H. Bennett, C. F. Jordan, H. P. Armstrong, and L. B. Black, directors. The head office is at 902 Kent Building, Toronto. The mine address is King Kirkland.

The company took over the assets of Kirkland Gold Belt Mines, Limited, on a basis of one share of Morris Kirkland Gold Mines for three shares of Kirkland Gold Belt Mines. The property consists of 292 acres in Lebel township, district of Timiskaming.

At the beginning of the year the shaft was 768 feet deep, and 727 feet of crosscutting and 3,529 feet of drifting had been done. During 1935 the present owners did 75 feet of raising, 445 feet of crosscutting, 2,556 feet of drifting, and 740 feet of slashing. A 12,000-gallon sump was cut on the 500-foot level.

An average of 32 men was employed under the management of T. C. Fawcett.

Munro Croesus Mines, Limited

Munro Croesus Mines, Limited, owns 160 acres in Munro township, district of Cochrane, 12 miles east of Matheson. The authorized capital is 40,000 shares of \$1 par value. The officers of the company are: Robert Coffey, president; J. E. Grant, Haileybury, vice-president and general manager; L. A. Lillico, secretary-treasurer.

Operations were renewed in July, 1935, and continued to the end of the year, with an average of 14 men. During that time there were 800 tons of ore and 200 tons of waste mined and hoisted. The production was 31 ounces of crude bullion, having an approximate value of \$930, and 25 tons of concentrates, valued at \$4,500.

At the end of the year the property was leased to Tellaurum Gold Mines, Limited, of which Douglas Mutch is president. The deal was financed through an option given to Thayer Lindsley on 2,000,000 shares of Tellaurum stock.

Murray-Algoma Mining Company, Limited

The Murray-Algoma Mining Company, Limited, was incorporated in January, 1934, with an authorized capitalization of 40,000 shares of no par value. The officers and directors are: Dr. A. Sinclair, president; E. G. Archer, vice-president; G. J. Lamb, managing director; E. L. Lamb, secretary-treasurer; T. E. Carmichael, director. The executive office is at 18 Lansdowne Avenue, Sault Ste. Marie.

The property consists of a group of 18 claims in township 28, range 24, district of Algoma, a short distance west of Hawk Junction on the Algoma Central railway.

During 1935 sampling was carried on until the end of March, and work was then suspended until July. During the balance of the year a 2-mile power line was constructed from Hawk Junction to the property. Buildings erected included a compressor-house, blacksmith shop, cookery, and stable. By the end of the year a 220-cubic-foot Sullivan compressor, driven by a 50 h.p. motor, and an 1,800-gallon centrifugal pump, driven by a 5 h.p. motor, had been installed. It is planned to do open-cut mining and to install a small mill during 1936.

An average of 7 men was employed from July to the end of the year, under the direction of G. J. Lamb. The mine address is Hawk Junction.

Murwood Gold Mines, Limited

Murwood Gold Mines, Limited, was incorporated in June, 1934, with an authorized capitalization of 3,000,000 shares of \$1 par value. The officers and directors are: A. T. Gilles, president; J. A. Griffith, treasurer; R. E. Hore, Benjamin Meen, Robert Fennell, Dr. A. McD. Murray, and J. R. Gifford, directors. Corporation Management and Executives, Limited, is secretary. The head office is at 304 Bay Street, Toronto.

In October, 1935, work was started under option at the old Big Master mine, located on Upper Manitou lake, district of Kenora. It is about 20 miles south of Wabigoon on the Canadian Pacific railway.

Previous operators sank a shaft to 270 feet and established three levels, on which a total of 1,888 feet of lateral work was done. They also obtained about 5,000 tons of ore from stoping, which was treated in a 10-stamp mill.

By the end of 1935 the company had installed a mining plant, dewatered the mine, and repaired the old buildings and shaft. Sinking was started from the bottom of the 270-foot shaft on January 1, 1936.

The plant included a 45 h.p. boiler, a steam hoist, a 370-cubic-foot Ingersoll-Rand semi-Diesel compressor, and a 220-cubic-foot Ingersoll-Rand gasoline compressor.

An average of 16 men was employed during the period of operation. E. A. Boadway was in charge. The mine address is Wabigoon.

Naybob Gold Mines, Limited

Naybob Gold Mines, Limited, incorporated in January, 1934, has an authorized capitalization of 3,500,000 shares of \$1 par value. The officers and directors are: R. J. Naylor, president; Richard N. Clarke, vice-president; H. J.

Haddleton, secretary-treasurer; Geo. E. Beggs, John G. Jones, Sherman J. Le Pard, and Jos. Montgomery, directors. The executive office is at 808 Genesee Valley Trust Building, Rochester, N.Y.; the head office is at 808 Federal Building, Toronto, and the mine office address is Timmins.

The mine was formerly operated by the Hayden Gold Mines Company, Limited. The property consists of 16 claims in Ogden and Deloro townships, district of Cochrane, about 4 miles south of the town of Timmins.

The property has been developed to date from a 2-compartment vertical shaft, 719 feet in depth. Levels have been established at 100, 200, 300, 400, 550, and 700 feet. Naybob Gold Mines, Limited, has worked on only the 300- and 700-foot levels. The following table shows the work done on these two levels:—

	To Dec. 31, 1934	1935
	feet	feet
300-FOOT LEVEL:		
Crosscutting.....	325	745
Drifting.....	40	390
700-FOOT LEVEL:		
Crosscutting.....	1,030	1,180
Drifting.....	835	1,324
Raising.....	48	219

The company added a ball mill to the old Hayden mill, which consisted of a flotation unit and a cyanide unit. This addition considerably increased the capacity. Milling began March 1, 1935. A maximum capacity of slightly over 100 tons per day was reached, but average tonnage milled to the end of October, when operations ceased for the year, was only about 44 tons. The total tonnage milled was 10,681 tons. The gross value of production was \$23,338.29. A small refinery was erected in 1935.

The average number of men employed during the 10-month period of activity in 1935 was 43. Operations were suspended owing to lack of capital, and negotiations for refinancing are proceeding. Robt. J. Naylor is general manager of the mine.

Neville Canadian Gold Mines, Limited

Neville Canadian Gold Mines, Limited, was incorporated in March, 1934, with an authorized capitalization of 3,000,000 shares of no par value. The officers and directors are: E. H. Dickenson, president; P. A. Fisher, vice-president; J. H. Thomas, secretary-treasurer; T. M. Mungovan, W. H. Schneider, and L. J. Lahay, directors. The head office is at 347 Bay Street, Toronto. The mine address is Shiningtree.

The property consists of a group of 9 claims in Churchill and Macmurchy townships, in the West Shiningtree area, district of Sudbury. It is about 23 miles by road north of Westree, on the Canadian National railway.

Work was resumed at this property on March 14, 1935, after a suspension of three months. It was again suspended at the end of March, after the mine had been dewatered, and the first two levels sampled by the Reward Mining Company, of British Columbia.

The property remained idle until August 14 when Bramor Mining (Ontario), Limited, in return for stock in the company, commenced the erection of a 30-ton

mill. The mine was again dewatered while the mill building was constructed. Work was suspended on October 17 before any mill equipment was installed. G. F. Milne was in charge.

At the beginning of 1936 arrangements were being made to form a company, to be known as Ronda Gold Mines, Limited, to take over the property.

North Shores Gold Mines, Limited

North Shores Gold Mines, Limited, was incorporated in November, 1933, with an authorized capitalization of 3,000,000 shares of \$1 par value. The officers and directors are: E. E. Watts, president; P. L. Howell, vice-president; H. A. Coon, secretary; J. A. Ross and R. N. Palmer, directors. The executive office is at 1022 Federal Building, Toronto.

The property is located about $3\frac{1}{2}$ miles south of Schreiber, on the main line of the Canadian Pacific railway, district of Thunder Bay.

Work was continued throughout 1935. During the year three new adits were started, making a total of five on the property. A 130-foot 27-degree winze was put down from the 1st level adit on the strike of the vein, and a sublevel was established at the bottom. The lateral work accomplished in the various adits during 1935, and the total to the end of 1935, was as follows:—

Level	Relative elevation	Lateral work	
		1935	Total
	feet	feet	feet
1st level.....	zero	930
Sublevel.....	—50	260	260
Crosscut level.....	—95	370	370
2nd level.....	—175	40	440
No. 11 vein.....	—175	75	75
Total.....	745	2,075

Four small stopes were mined on the sublevel, and two on the 2nd level. The 25-ton amalgamation mill was operated for 192 days during 1935, and treated a total of 1,404 tons of ore.

An average of 37 men was employed during the year. D. E. Graham is in charge. The mine address is Schreiber.

In December a syndicate was formed from shareholders of the company to supply working capital in return for a mortgage on the property and buildings. The syndicate is to control operations during the life of the mortgage.

Northern Empire Mines Company, Limited

The Northern Empire Mines Company, Limited, was incorporated in July, 1932. The company has an authorized capitalization of 500,000 shares of \$1 par value. The officers and directors are: Fred Searls, Jr., president; G. B. Agnew, vice-president; H. E. Dodge, secretary-treasurer; Carroll Searls and A. Douglas, directors. The executive office is at 14 Wall Street, New York. The mine address is Empire.

The property is located at Empire, on the Port Arthur-Long Lac branch of the Canadian National Railways, district of Thunder Bay.

Work was continued at this property throughout 1935. The 2-compartment

vertical shaft was sunk to a total depth of 667 feet. The development work accomplished during the year on the various levels was as follows:—

Level	Drifting	Crosscutting	Raising
	feet	feet	feet
150-foot.....	18
300-foot.....	509	135	86
450-foot.....	187	19
600-foot.....	1,279	230	52
Total.....	1,975	402	138

The amalgamation-flotation-cyanidation mill was operated throughout the year. Additional equipment was installed in August, including two flotation units, two Dorr thickeners, and an Oliver filter, which permitted the tonnage milled to be increased from 125 tons to 150 tons per day. A total of 45,736 tons of ore was milled during 1935, which was obtained from cut-and-fill stoping on the 150-, 300-, and 450-foot levels, and from development work.

The plant included two 1,080-cubic-foot Ingersoll-Rand electric compressors and a double-drum electric hoist. Electric power was obtained from Cameron Falls, 55 miles away.

An average of 123 men was employed during 1935, of whom 82 were underground. R. J. Hendricks was in charge, with P. E. Corrin as mine captain and W. Hargraft as mill superintendent.

Northern Mines, Incorporated

Northern Mines, Incorporated, was incorporated in Delaware in 1934, with an authorized capitalization of 4,000,000 shares of \$1 par value. The officers and directors for 1935 were: I. E. Haight, president; F. Erion, vice-president; F. Dobmeier, secretary-treasurer; W. B. Woodbury and E. W. De Wilton, directors. The executive office was at 516 Walbridge Building, Buffalo, N.Y.

In March, 1935, this company started work on the property of Wabigoon-Contact Gold Mines, Limited, located at Contact bay, Wabigoon lake, about 7 miles south of Dryden, in Kenora district. Previous operators had put down two 80-degree shafts on the property, No. 1 shaft to a depth of 63 feet without lateral work, and No. 2 shaft to a depth of 100 feet with 40 feet of drifting at the bottom.

The company dewatered and sampled the shafts and carried on surface work. A mining plant was being set up at No. 2 shaft, including a 10- by 12-inch steam hoist and three boilers, totalling 104 h.p., when operations were suspended early in September.

About 15 men were employed under the direction of W. L. Haight.

Olive Gold Mines, Limited

Olive Gold Mines, Limited, was incorporated in January, 1935, with an authorized capitalization of 3,000,000 shares of \$1 par value. The officers and directors are: Dr. W. C. Ryckman, president; J. J. Hoeffle, vice-president; C. V. Jacobs, E. J. Wolfe, and H. F. Lichtenstein, directors. The head office is at 372 Bay Street, Toronto. The mine address is Mine Centre.

The property consists of the old Olive mine, located $4\frac{1}{2}$ miles west of

Mine Centre, district of Rainy River. The Fort Frances branch of the Canadian National Railways is within a short distance of the property.

Previous operators sank a 2-compartment 70-degree shaft to a depth of 251 feet, and established levels at 60, 135, and 245 feet. They did 867 feet of drifting on the 60-foot level, 290 feet on the 135-foot level, and 177 feet of drifting and 65 feet of crosscutting on the 245-foot level. A second shaft was connected with the 1st level 300 feet east of the first shaft; and a third shaft, 50 feet deep, was put down 290 feet east of the second shaft. Considerable stoping was done on all levels, and the ore milled in a 25-stamp mill.

Work was started in May, 1935. The underground workings were de-watered and sampled during June and July. In September the construction of buildings and the installation of a plant was started. By the end of the year a power-house, blacksmith shop, office, bunk-house, cookery, dwelling house, and assay office had been built. A 472-cubic-foot Ingersoll-Rand compressor, driven by a 100 h.p. semi-Diesel engine, and a 9- by 12-inch Jenckes hoist were installed, with the intention of starting underground work early in 1936.

An average of 7 men was employed during the period of work, under the direction of F. G. Huycke.

Omega Gold Mines, Limited

Omega Gold Mines, Limited, was incorporated in May, 1935, with a capitalization of \$5,000,000 in shares of \$1 par value.

The officers and directors are: J. P. Bickell, president; Balmer Neilly, assistant to the president; E. D. Fox, secretary-treasurer; Dr. A. F. Demary, A. Dorfman, and E. M. Thomson, directors. A. D. Campbell is manager. The executive office is at 15 King Street West, Toronto. The head office and mine office are at Larder Lake.

The company acquired the Costello and Crown Reserve properties in McVittie township, district of Timiskaming. Work was commenced on surface in July, 1935. The Crown, or No. 1, shaft was put into shape for mining operations, a small amount of rock work only being done. A new 75-foot headframe and hoist-house was erected at the shaft. Underground mining commenced in January, 1936.

A complete new 300-ton milling plant was constructed and brought into operation in January, 1936.

Power for the mine's operation was supplied after December 1 by the Hydro-Electric Power Commission of Ontario, which extended its 110,000-volt line from Kirkland Lake to a new substation at the mine.

The following is an extract from the manager's report, dated April 16, 1936:—

The preparation of a report that covers only the first two months' production from a new plant presents certain difficulties, and the results set forth cannot be accepted as indicative of what may be normally expected from such plant after the preliminary and necessary adjustments have been completed. Actual construction of the plant commenced August 1 last, and in the interval the mill has been completed and put in operation and there has been provided the necessary shops, office, boarding house, and other essential and complementary plant and equipment.

Shaft heads were renewed and re-equipped, and underground, on the 300- and 550-foot levels the crosscuts and drifts were enlarged to provide for production equipment. In addition, a certain amount of work in preparation for stoping and early development work was completed.

The tonnage treated during the two months' operations under review came from surface dumps and from the work done underground in slashing and preparing for regular stoping operations. At present raises are started from the 550-foot level on either side of the main hoisting shaft and when completed to surface will provide for cut-and-fill stoping operations. Shaft stations and crosscuts have been enlarged; two connections between Nos. 1 and 2 shafts have been provided and, as soon as stoping operations are well organized, an aggressive plan for further underground development will be formulated and put in effect.

The milling practice finally adopted is an adaptation of the McIntyre system of flotation followed by cyanidation. The mill went into production with few mechanical difficulties and soon demonstrated its capacity to be in excess of 300 tons per day. Indeed, with slight changes and little or no additional equipment, this capacity can be increased to approximately 500 tons per day.

During February and March the mill treated 17,352 tons of ore, from sources previously described, for a net recovery of \$60,992.30, and for a cost, as now computed, of approximately the same amount. As previously explained, these results are preliminary and will be gradually improved. Costs to date have averaged \$3.70 per ton of ore treated.

Ore reserves are estimated at 440,000 tons, averaging 0.197 ounces per ton, and in addition to the ore thus computed, a considerable low-grade tonnage, though indicated, has not been developed sufficiently to permit its inclusion in a reserve calculation.

Pamour Porcupine Mines, Limited

Pamour Porcupine Mines, Limited, was incorporated in March, 1934, under a Dominion charter. The company is capitalized at 5,000,000 shares of no par value. The officers and directors are: J. Y. Murdoch, president; G. H. Rainville, vice-president; A. Lafontaine, secretary-treasurer; Jules R. Timmins, M. Kendall, E. Hibbard, T. N. Hay, and W. Meen, directors. R. M. Macaulay is general manager. The executive office is at 804 Royal Bank Building, Toronto. The mine office address is Pamour, a post office established in 1935.

Pamour Porcupine Mines, Limited, was formed by the Quebec Gold Mining Corporation to take over three properties known as Three Nations, La Palme, and Porcupine Grande, in all about 800 acres situated in the northeast corner of Whitney township, district of Cochrane, near the east end of the Porcupine area. The Temiskaming and Northern Ontario railway (Timmins branch) passes through the property, as does also the main highway. The property is 6 miles east of South Porcupine.

The following is taken from the general manager's report for the year 1935:—

Diamond-Drilling

Diamond-drilling from surface was continued until August, during which time 55 holes were drilled, aggregating 29,105.5 feet. This drilling intersected 2,337 feet of vein material, or about 8 per cent. of the footage drilled. The record is as follows:—

	Feet
Old drilling.....	6,569.8
1934—16 holes.....	5,966.5
1935—55 holes.....	29,105.5
Total drilling to date.....	41,641.8

Most of this drilling was done to locate ore at the 200-foot horizon. A few holes were drilled to locate ore at the 400-foot horizon, with only two holes to locate ore at the 600-foot horizon. Both these two holes cut ore at the 600-foot horizon.

Mine Development

The old No. 2 shaft and steam equipment was operated continuously and only shut down at the end of the year. A new large 5-compartment main shaft, located 1,100 feet east of No. 2 shaft, was started in the fall and was sunk and timbered to 356.4 feet deep. Stations were cut at the 200- and 300-foot levels. During the year 3,458.7 feet of development work was done, and the following is the development record of the mine:—

	1935	Total to date
	feet	feet
Shafts.....	356.4	686.4
Winzes.....		33
Drifts.....	1,547.1	3,825.6
Crosscuts.....	1,304.9	2,752.4
Raises.....	250.3	490.3
Total.....	3,458.7	7,787.7

All drifting, crosscutting, and raising was done on the 200-foot level, and the muck was hoisted through the old No. 2 shaft until December, when the new main shaft was ready for use to the 200-foot level and underground work could be speeded up. The development work on the 200-foot level covers a distance of 1,600 feet along the bedding, opening up three different ore sections.

Ore Reserves

The property was diamond-drilled from the surface over the area east of No. 2 shaft, but only a restricted area was drilled sufficiently closely to allow of connecting up the ore intersections to form indicated ore. In this area, from No. 2 shaft east to diamond-drill hole No. 53, a distance of 3,000 feet, ore indicated by diamond-drilling aggregated 1,530,000 tons, averaging 0.261 ounces in gold.

Development underground on the 200-foot level so far has proved three ore sections to aggregate 726,000 tons, averaging 0.246 ounces in gold. In mining the above ore there will, of course, be dilution with waste and lower-grade ore, so the grade of ore sent to the mill will be somewhat less than given above.

Plant Construction

Construction of a mining plant was started in July and the following construction has been completed: main shaft-house, crusher building with conveyor runways and junction house, hoist- and power-house, substation, shops buildings, change-house, assay office, warehouse and office, central heating plant, elevated water tank, pumping plant, powder magazine, 3 bunk-houses, dining room and cook-house, 7 residences. Plant buildings are of permanent and substantial construction, steel frames on heavy concrete foundations, with a special copper-lined insulboard siding, covered with corrugated iron, or of brick and tile.

Power from the Ontario Hydro Commission's Abitibi development was contracted for in the summer, and a secondary transmission line was built from their substation at Timmins to the mine. Delivery of power at 26,400 volts to the mine substation began in October.

Plans have been completed for a first unit mill. The foundations are completed and erection will begin early in 1936.

Parkhill Gold Mines, Limited

Parkhill Gold Mines, Limited, was incorporated in April, 1929, with an authorized capitalization of 3,000,000 shares of \$1 par value. The officers are: Sir Thomas Tait, president; A. P. Earle, vice-president; G. F. Racine, secretary-treasurer; C. F. Elderkin, G. M. McKee, Charles Adams, and Dr. C. A. Peters, directors. The executive office is at 1835 Beaver Hall Building, Montreal. The mine address is Gold Park. The property is located 6 miles from Wawa on the Algoma Central railway, in township 29, range 23, Michipicoten area, district of Algoma.

During 1935 the 2-compartment 40-degree shaft was sunk an additional 197 feet to a total depth of 1,500 feet on the incline; and levels, the 10th and 11th, were established at 1,332 and 1,450 feet.

Development footages accomplished on the various levels during 1935 were as follows:—

Level	Drifting	Crosscutting	Raising
	feet	feet	feet
2nd.....	36	18
3rd.....	4	29
4th.....
5th.....	37
6th.....	41	18	67
7th.....	397
8th.....	373	69	177
9th.....	1,953	183	504
10th.....	1,597	92	259
11th.....	192	85	24
Total.....	4,630	476	1,049

A total of 20,714 tons of ore was obtained from the mine during 1935, of which 17,420 tons was from stoping and the balance from development. Stopping

was done by open-stopping methods on all levels from the 1st to the 10th, inclusive, although over half of the stope production was obtained from the 8th and 9th levels. A total of 1,371 feet of diamond-drilling was done from underground. An average of 97 men was employed, of whom 67 were underground. R. E. Barrett was in charge.

Paymaster Consolidated Mines, Limited

Paymaster Consolidated Mines, Limited, was incorporated in February, 1930. It has an authorized capitalization of 9,000,000 shares of \$1 par value, 7,761,000 of which have been issued. The officers and directors at December 31, 1935, were: A. S. Fuller, president; E. H. Walker, vice-president; E. L. O'Reilly, secretary-treasurer; A. W. Hodgetts, assistant secretary; Chas. E. Cook, general manager; C. J. O'Brien and H. D. Rothwell, directors. The executive office is at 804 McKinnon Building, Toronto. The head office address and mine office address are both South Porcupine.

Paymaster Consolidated Mines, Limited, holds large acreages in Tisdale township, district of Cochrane. The chief property is the block of ground between the Dome mine and the Buffalo Ankerite mine. There are 6 shafts on this property having an aggregate depth of 3,099 feet. The old Dome Lake or No. 5 shaft and the West Dome (Heinze) or No. 6 shaft are the only two which have been used by this company. No. 5 shaft is 1,097 feet in depth, and No. 6 shaft, inclined at 62 degrees, is 456 feet in depth.

The following is an extract from the president's report to the shareholders for the fiscal year ending June 30, 1936:—

During the period covered by the report your company has produced bullion having a gross value of \$782,533.48. This production is more than double the production for the preceding fiscal year. After deducting all costs of operation, including exploration and development, but before provision for depreciation on plant, buildings, and equipment, an operating profit of \$166,539.09 has resulted.

All production to June 30, 1936, amounting to \$1,111,288.63, has been taken from ore mined at our No. 5 and No. 6 shafts only. Your board now considers it advisable to open shafts No. 2 and No. 3, near the Buffalo Ankerite boundary, and these shafts have both been dewatered to the 400-foot level, and within the past few weeks our geologists and engineers and samplers have been examining the 100-, 200-, and 300-foot levels. As a result larger mining operations are contemplated.

Two 40-acre claims in Tisdale township, formerly known as the "Apex mine" and adjoining the No. 5 shaft section of our property to the northwest, have been acquired by purchase.

The following is taken from the report of the general manager for the fiscal year ending June 30, 1936:—

Mining

During the year an active development campaign was carried out, consisting of: deepening of No. 2 winze at No. 5 shaft from the 1,325-foot to the 1,575-foot level with stations and sump; excavating for winze headframe, bins, and hoist-room on the 400-foot level, No. 6 shaft, and sinking from the 400-foot level to the 1,050-foot horizon with intermediate levels at 525, 665, and 805 feet; excavating for a headframe, bins, and hoist-room at No. 3 winze in the 1,008 section at No. 5 shaft; drifting, crosscutting, and raising, which opened up new ore on the 600-, 750-, 900-, 1,050-, 1,200-, 1,325-, and 1,450-foot levels at No. 5 shaft, and on the 200-, 300-, and 400-foot levels at No. 6 shaft.

Work on the 1,575-foot level at No. 5 shaft is now under way, and a small amount of drifting has been accomplished on the new 525- and 665-foot levels at No. 6 shaft since sinking was completed. Stopping was carried out on all levels from the 400-foot to the 1,200-foot level at No. 5 shaft and from surface to the 400-foot level at No. 6 shaft.

Broken ore reserves were increased 561 per cent., from 9,500 to 62,798 tons.

Diamond-Drilling

As will be noted in the following tabulation a total of 32,178 feet of diamond-drilling was done. Three No. 10 "E" Mitchell diamond-drills were purchased, and the contracting of diamond-drilling discontinued. Costs on this work done to date show a saving of approximately 50 per cent. In addition to the above, a larger drill (Mitchell No. 20) has been ordered.

Summary of Stopping and Development

Drifting.....	feet	7,371
Crosscutting.....	feet	525
Raising.....	feet	600
Diamond-drilling.....	feet	32,178
Winzing.....	feet	927
Station- and sump-cutting.....	cu. yds.	713
Ore stoped.....	tons	151,770
Ore produced from development.....	tons	16,668
Waste hoisted.....	tons	19,756

Ore Reserves

Ore reserves, which during the year were increased 74.2 per cent., from 166,400 tons as of June 30, 1935, to 289,899 tons as of June 30, 1936, are as follows:—

	Tons	Ounces per ton
Ore blocked out, two or more sides.....	84,726	0.261
Probable ore.....	142,375	.228
Broken ore in stopes.....	62,798	.176
	289,899	0.227

Milling

During the fiscal year there were milled 113,971.7 dry tons of ore, having an assay value of 0.213 ounces per ton of ore milled. The average daily tonnage milled for July, 1935, was 201.3 dry tons per day, as compared with 401.9 dry tons per day for June, 1936, an increase of 99.65 per cent. The increased tonnage rate in the mill was due to the liner mill feed made possible by the installation of a vibrating screen and a gyratory crusher in the crusher-house.

Costs

The mining costs per ton broken for the year were as follows: No. 5 shaft, \$2.46; No. 6 shaft, \$3.07.

Following is an analysis of operating costs:—

	Total cost	Cost per ton milled
EXPLORATION AND DEVELOPMENT:		
Diamond-drilling, underground.....	\$23,094.34	\$0.20
Diamond-drilling, surface.....	320.46	
Surface exploration.....	199.56	
Outside exploration.....	229.12	
Development No. 5 shaft.....	74,815.84	.66
Development No. 6 shaft.....	34,486.09	.30
Sinking, stations and sumps, No. 5 shaft.....	20,047.23	.18
Sinking, stations and sumps, No. 6 shaft.....	2,727.82	.02
Station-cutting No. 5 shaft.....	1,759.68	.02
Total.....	\$157,680.14	\$1.38
MINING:		
No. 5 shaft.....	\$258,195.35	
No. 6 shaft.....	143,615.34	
	\$401,810.69	
Less for breaking 54,466.3 tons more than drawn from stopes.....	144,335.70	
Total.....	\$257,474.99	\$2.26
Ore transportation.....	\$21,737.83	\$0.19
Sorting and skipping.....	5,398.48	.05
Crushing and conveying.....	25,570.02	.22
Milling.....	97,140.52	.85
General expense.....	42,888.33	.38
Total operating costs.....	\$607,890.31	\$5.33

General

The saving effected by the change over to Hydro-Electric Power Commission power has been sufficient to completely pay for all the new equipment and the cost of installation. In addition there has also been paid to the Hydro-Electric \$3,170.16 on the total of the required deposit of \$15,000.00.

A 24- by 14½- by 12-inch Canadian Ingersoll-Rand N.V.H.E. 2 air compressor with a capacity of 1,586 C.F.M. actual, and driven by a 300 h.p. synchronous motor was purchased and put in operation at No. 5 shaft. Two 1½-ton storage-battery locomotives and 40 additional ore cars were purchased and put in service at No. 5 shaft.

The blacksmith and steel-sharpening shop at No. 6 shaft was destroyed by fire. The loss was fully covered by insurance. All steel sharpening, blacksmithing, and plate work has now been centralized in the newly equipped shop at No. 5 shaft.

During 1935 the average number of employees at the mine was 192, divided as follows: underground, 121; mill, 17; and surface, 53. A. Pugsley is underground superintendent, and D. Robinson is mill superintendent.

Pickle Crow Gold Mines, Limited

Pickle Crow Gold Mines, Limited, incorporated in January, 1934, is capitalized at 3,000,000 shares of \$1 par value. The officers and directors of this company are: J. E. Hammell, president; A. L. Smith, vice-president; Robt. Fennell, secretary-treasurer; G. A. Cavin, assistant secretary-treasurer; Mrs. Eola Hammell and B. H. Budgeon, directors. The executive office of the company is at 930 Canadian Bank of Commerce Building, Toronto. The head office and the mine office of the company are at Pickle Crow.

The company's property consists of 59 claims in the Pickle Lake-Crow River area, in the Patricia portion of Kenora district. The main claims of the property were originally staked in 1928, and early development work was done by Northern Aerial Minerals Exploration, Limited. The property is reached by airplane from Hudson, Sioux Lookout, or Collins, on the Canadian National railway, to Pickle lake, from which point a truck road, constructed during the summer of 1935, leads to the property, 8 miles east of the lake. Supplies are taken in by water from Hudson over Lac Seul, up the Root river, across a marine railway to Lake St. Joseph, and thence to Doghole bay, which is about 25 miles from the property. From here supplies are transported to Pickle lake by plane during the summer and by tractor during the winter. Supplies are also freighted by tractor from Savant Lake during the winter.

A mining plant was taken into this property in 1933. The sinking of a 3-compartment shaft was commenced in September, 1933. Since that date operations have been continuous. At the end of 1934, the shaft was down 380 feet; and by the end of 1935, it was 789 feet deep. The following table shows the amount of development work by levels done at this property to the end of 1934 and at the end of 1935:—

Level	Crosscutting		Drifting		Raising		Diamond l-drilling	
	To Dec. 31, 1934	To Dec. 31, 1935	To Dec. 31, 1934	To Dec. 31, 1935	To Dec. 31, 1934	To Dec. 31, 1935	To Dec. 31, 1934	To Dec. 31, 1935
125-foot.....	126½	126½	707	1,427	134	347	1,189
250-foot.....	222	222	1,135	1,135	177	177	1,268	1,337
375-foot.....	379	379	1,478	1,529	73	88½	2,180	2,180
500-foot.....	166½	226	202
625-foot.....	155½
750-foot.....	222
Surface.....	3,107	6,604
Total.....	727½	1,271½	3,320	4,317	250	399½	6,902	11,512

A mill, comprising both amalgamation and cyanide units and having a daily capacity of 150 tons, was constructed during the latter part of 1934 and the winter of 1935. The mill was first turned over on April 17, 1935, and actual milling operations were started on May 1, 1935. During the last eight months of the year the mill treated 36,200 tons, having a gross value of \$874,088.72.

During 1935 the following additions were made to the plant equipment: a 1,000-cubic-foot Ingersoll-Rand cross-compound, electrically driven compressor; the 600-cubic-foot Ingersoll-Rand steam-driven compressor was converted to an electrically driven compressor; an Ingersoll-Rand, 42- by 30-inch, class PE-I, 8,000-lb. pull, electric hoist and 60 h.p. motor; a Fairbanks-Morse horizontal split-case, double-action suction, centrifugal pump (for fire protection); and a Continental industrial type engine with automatic starter (attached to pump). An emergency power unit has also been installed. This consists of a gasoline engine and electric generator, which generates 125 horsepower, sufficient to operate all necessary mill units and to light the buildings in case of failure of the main power supply.

The following buildings were erected or completed during 1935: mine warehouse, 26 by 58 feet; machine shop, 26 by 60 feet; mine dry, 30 by 40 feet; compressor and hoist room, 31 by 78 feet; refinery, 14 by 16 feet, equipped; shaft-house and steel headframe, 60 feet in height, completed; standby power unit building, 14 by 16 feet; bunk-house, 26 by 30 feet; 2 dwellings, 22 by 25 feet and 24 by 28 feet; cookery warehouse, 16 by 40 feet; 2 warehouses at Doghole bay, 24 by 60 feet and 24 by 30 feet.

An average of 102 men was employed at the mine during 1935. Alex. G. Hattie is mine manager.

Porcupine Lake Gold Mining Company, Limited

The Porcupine Lake Gold Mining Company, Limited, was incorporated in 1927, and at that time took over the property of the old Porcupine Lake Gold Mines, Limited; it has an authorized capitalization of 3,000,000 shares of no par value. The officers and directors are: C. E. Calvert, president; H. H. Sutherland, vice-president; Geo. McKeown, secretary-treasurer; J. R. L. Starr and H. J. Batkin, directors. The head office of the company is at 112 Yonge Street, Toronto. The property, often called the Hunter mine, is located at the northeast corner of Porcupine lake, Whitney township, district of Cochrane.

The mine workings consist of a shaft, inclined at 65 degrees, and one level about 275 feet below the collar of the shaft. About 700 feet of crosscutting and drifting was done on this level by Porcupine Lake Gold Mines, Limited, before the mine was closed down in 1914. From that year until 1927 the property was idle. In 1927 it was pumped out and sampled, and some diamond-drilling was done. Work ceased again in June, 1928, and it was not until November, 1935, that the mine was again pumped out.

Work commenced in September, 1935, with the repairing of several of the old buildings and a diamond-drilling programme. About 2,000 feet of diamond-drilling was done from surface by the Porcupine Lake Gold Mining Company. The mine was pumped out early in November, and on the 23rd of the month Hollinger Consolidated Gold Mines became interested in the property, and sampled it and drilled 8 diamond-drill holes from underground, with a total footage of 1,764 feet. Hollinger completed this work in December, and no further work was done to the end of the year.

The mining equipment now on hand at the property includes an 80 h.p. boiler, which was reconditioned in October; a Jenckes straight-line air compres-

sor, steam-driven, with a steam cylinder, 10 by 12 inches, and an air cylinder, 12 and 7½ by 12 inches; and an 8- by 10-inch steam hoist, built by Ottumwa Iron Works.

Wm. Sixt was in charge of the work done by the Porcupine Lake Gold Mining Company. Geo. M. Henderson was superintendent.

Red Lake Gold Shore Mines, Limited

Red Lake Gold Shore Mines, Limited, incorporated in December, 1927, has an authorized capitalization of 5,000,000 shares of no par value, of which 4,500,000 shares are outstanding. The officers and directors are: Chas. E. St. Paul, president and managing director; Ira E. Hough, vice-president; Dr. Robt. W. Breuls, secretary-treasurer; Chas. V. Gallagher and Henry A. Newman, directors. The head office is at 244 Bay Street, Toronto. The mine office is at Red Lake.

The holdings of this company consist of 23 claims in the townships of Dome and Heyson, Red Lake area, in the Patricia portion of Kenora district. The mine shaft is about a mile west of the town of Red Lake. The present programme of work was commenced in June, 1934, although surface-trenching had been done on the property some years ago. Shaft-sinking was started late in the summer of 1934. At the end of 1934, the shaft was down 182 feet, with a level at 180 feet; at the end of 1935, it was 435 feet deep, with additional levels at 300 and 425 feet. The following table shows the development work accomplished during the past two years:—

	At Dec. 31, 1934	At Dec. 31, 1935
Crosscutting.....	feet 127	feet 220
Drifting.....	80	1,429
Raising.....		157

Equipment for a mill to be built in 1936 has been purchased. The initial capacity will be 125 tons, and provision will be made for enlarging the capacity to 250 tons if needed.

In 1935, electric power was made available at the mine. The formerly steam-driven compressor of 750-cubic-foot capacity was electrified. The mine pump was also electrified. A new Ingersoll-Rand double-drum hoist was installed in 1935. New buildings erected in 1935 included an assay office, a combined pipe- and machine-shop, and enlargements to the hoist- and compressor-building.

The average number of employees in 1935 was 34. W. P. Mackle is mine manager.

Richelieu Gold Mines, Limited

Richelieu Gold Mines, Limited, incorporated in May, 1934, is capitalized at 3,000,000 shares of \$1 par value, of which 1,614,407 shares have been issued. The officers and directors are: A. B. Stodart, president; W. R. P. Parker, vice-president; W. J. McDonough, secretary-treasurer; H. R. Drummond-Hay and R. Spreckels, directors. The head office of the company is at 330 Bay Street, Toronto. The mine office address is Savant Lake.

The property consists of 24 claims, totalling 854 acres in Thunder Bay district. Fifteen of these claims are in one group, located on a peninsula extending southward into the northeast bay of Sturgeon lake, about 10 miles

southeast of Savant Lake station on the transcontinental line of the Canadian National Railways. The sixteenth claim, 104 acres, adjoins the St. Anthony Gold mine, about 4 miles to the southwest. In addition to the above holdings, the company recently acquired 8 claims, comprising approximately 400 acres, known as the Iron Duke group, 6 miles south of the main group.

On the main group, a 2-compartment shaft was started in December, 1934. By the end of 1934 it had reached a depth of 115 feet. Sinking continued in 1935 to a depth of 278 feet. Levels were established at 125 and 250 feet, and exploration by drifting was actively carried on to September 17, 1935, when the mine was closed down.

The mining plant at this property includes two boilers, one of 70 and one of 150 horse-power; a Canadian Ingersoll-Rand 2-stage air compressor, of 614-cubic-foot capacity; and a Canadian Ingersoll-Rand, 8- by 6-inch reversible steam hoist.

The average number of men employed up to September 17, 1935, was 35. J. G. Harkness was mine manager from the commencement of operations till the mine shut down.

Rickard Ramore Gold Mines, Limited

Rickard Ramore Gold Mines, Limited, was incorporated in October, 1934, with a capitalization of 3,000,000 shares of \$1 par value. The officers and directors are: W. H. C. McEachern, president; E. Wise, secretary-treasurer; J. W. Morrison, consulting engineer; H. Hollands-Hurst, mine superintendent; and Jas. Travis, director. The head office is at 601 Concourse Building, Toronto. The mine office is at Iroquois Falls.

The company acquired claims Nos. 18,405, 18,406, 18,407, 19,629, and 19,630 in the township of Rickard, district of Cochrane. The property, which was staked in 1917, was formerly known as the Raty mine. A mining plant was installed and camps were erected.

Previous operators had sunk an inclined shaft to a depth of 100 feet and had done over 700 feet of lateral work on the 100-foot level. The present company began operations in December, 1934, and at the end of 1935 the lateral work amounted to about 1,000 feet. Some 10,000 feet of diamond-drilling and considerable surface-trenching has been done.

St. Anthony Gold Mines, Limited

St. Anthony Gold Mines, Limited, was incorporated in 1921 with an authorized capitalization of 3,000,000 shares of \$1 par value. The capitalization was increased to 3,300,000 shares in 1934. All shares are issued. The officers and directors at the end of 1935 were: H. P. Bellingham, president and general manager; R. F. Taylor, vice-president; R. F. Cairus, secretary-treasurer; R. Robertson and D. M. Bellingham, directors. The head office of the company is at 159 Bay Street, Toronto. The mine office address is Savant Lake.

The mine property, in the Sturgeon Lake area, lies 12 miles south of Savant Lake station on the main line of the Canadian National Railways, in Thunder Bay district. A $3\frac{1}{2}$ -mile wagon road from Savant Lake station leads to the north end of the North arm of Sturgeon lake. From this point transportation to the mine is by water. Large scows and power-boats are used to transport supplies over the water route.

The following is taken from the president's report for the fiscal year ending December 31, 1935:—

Continuous mining and milling operations were carried on throughout the year, and a total of 44,550 tons of ore was treated. The actual cost of mining and treating this ore was \$5.18 per ton.

The total bullion production for the year was \$303,151.80, as against \$123,263.57 in the year 1934, an increase of \$179,888.23, or 146 per cent. There was an operating profit of \$73,516.61. After charging \$37,520.73 for depreciation, \$17,269.00 for development, \$16,684.44 for the balance of rehabilitation, and sundry write-offs and provisions for Dominion and provincial taxes, the sum of \$2,042.44 was transferred to earned surplus.

The following is taken from the mine manager's report for the year ending December 31, 1935:—

Mine

A total tonnage of 34,912 tons of ore was broken and 34,538 tons delivered to the mill. This ore, with the exception of 700 tons recovered from the development work on the 500-foot level was drawn from the 250-foot and 350-foot levels. Ore was mined over widths from 5 to 15 feet as against an original width calculated at 5 feet. The balance of the tonnage was derived from the old mill tailings.

A total of 842 feet of drifting and crosscutting was accomplished during the year. The drifting accounted for 579 feet distributed as follows: 250-foot level, 191 feet; 350-foot level, 148 feet; 500-foot level, 240 feet.

The crosscutting done was in connection with the new inclined shaft and distributed as follows: 150-foot level, 114 feet; 250-foot level, 84 feet; 350-foot level, 65 feet.

SUMMARY OF WORK ACCOMPLISHED TO DATE

	Feet
New inclined shaft.....	121
Old shaft.....	150
Winzes and raises.....	500
Drifts.....	5,164
Crosscuts.....	1,693
Total.....	7,628

After the 500-foot level was dewatered, drifting was carried on and the main vein was exposed for a total length of 330 feet, with an average grade of 0.40 ounces of gold per ton. This level is much drier than the upper levels, and pumping is carried on only 4 per cent. of the time.

The management decided that economical mining required the excavation of an inclined shaft from the 500-foot level to the surface. This work was started near the end of the year, and a total footage of 121 feet had been excavated by December 31. This new shaft will improve the working conditions considerably, in comparison with the system of hoisting through a series of winzes, which is not efficient and is more costly. Operating through the new inclined shaft will permit us to save labour costs in tramping, mucking, cage-tending, and hoisting, together with power costs, and should, in the aggregate, account for the majority of the capital outlay during the year 1936.

At this time the small amount of development work that has been done north in the granodiorite does not justify my making any estimate as to ore reserves in this section of the mine, although the vein intersections are large and may be profitably mined on a large tonnage basis.

Mill

The mill operated 90 per cent. of the possible running time. The tonnage treated was as follows:—

	Tons	Ounces per ton
Old mill tailings.....	10,012	0.17
Underground ore.....	34,538	.26
Total.....	44,550	

The average tons milled per day of 24 hours' running time was 136.63 tons. The total gold bullion recovered and shipped was 8,538.6 fine ounces. The total silver bullion recovered and shipped was 1,957.7 fine ounces. The average recovery was 91 per cent. The average cost of milling was \$1.473 per ton. A new crusher, amalgam barrels, and blanket tables were added to the mill circuit during the year.

Hydro-Electric Power Plant

The power plant was damaged by fire due to lightning. It was found, however, that the undamaged generator supplied sufficient power to carry on all mining and milling operations. The cost of repairs to the plant was fully covered by insurance.

The rapids, about a mile below the power plant, were lowered during the summer, which improved the gross head approximately one and a half feet. This improvement in the gross head relieves us of any further anxiety with regard to power shortage. The plant is now operated by 3 employees where 4 were employed.

General

Building construction work throughout the year was confined to minor changes in the bunk-house and the erection of a new cabin at the power site. A new stable was erected at the mine. A steam-heating system was installed throughout the mine buildings.

Two major accidents were reported during the year. One of the employees was injured in the mill and fully recovered, the other accident occurred in the mine and proved fatal. An average of 114 men was employed throughout the year. Mine timber and cordwood are being recovered as near to the mine property as possible.

Developed Ore

While the character of the ore in the mine is difficult to sample, there is, in my opinion, one year's ore available at this time. However, the opening-up of the ore on the 500-foot level for a distance of 330 feet would indicate there is a continuity of ore to a greater depth than now opened up and as formerly indicated by diamond-drilling.

R. P. Teare was manager throughout the year, employing an average force of 108 men.

Sakoose Gold Mines, Limited

Sakoose Gold Mines, Limited, was incorporated in June, 1934, with an authorized capitalization of 3,000,000 shares of \$1 par value. The officers and directors were: A. H. Acres, president; M. J. Maloney, vice-president; D. McGrory, secretary-treasurer; M. S. Shulman, director. The head office is at 231 St. James Street, Montreal, Que. The mine address is Dymont.

The property of this company includes the old Sakoose mine, located about 6 miles south of Dymont, in Kenora district.

During 1935 the new 2-compartment vertical shaft was continued to a depth of 143 feet. All work was suspended in May.

In August, the assets of the company were taken over by Nordic Sturgeon Gold Mines, Limited, but no work was undertaken by them at this property during 1935.

An average of 31 men was employed during the period of operation in 1935 under the direction of D. H. Traynor.

Selected Canadian Golds, Limited

Selected Canadian Golds, Limited, was incorporated in March, 1932, with an authorized capitalization of 10,000 preferred shares of \$100 par value, and 15,000 common shares of no par value. The officers and directors were: D. M. Hogarth, president; G. G. Blackstock, secretary-treasurer; Halstead Lindsley, R. Livermore, W. T. McEachern, Quincey Shaw, and C. D. H. MacAlpine, directors. The head office was at the Bank of Commerce Building, Toronto.

The company continued work, until March 1, under their option, on the old Sultana mine, located about 7 miles southeast of Kenora, and then dropped the option. The work accomplished in 1935 consisted of 79 feet of drifting on the 4th level, 136 feet of drifting on the 7th level, and 1,703 feet of diamond-drilling from underground.

A crew of 23 men was employed under the direction of Cameron McDonald.

Selected International Mines, Limited

Selected International Mines, Limited, an English company, with a capitalization of £1,000, in shares of £1 par value, leased the property of Cheltonia-

Swastika Mines, Limited, in June, 1935. C. F. Davies is chairman of the board of directors. Thomas Evans and J. J. L. Helou are directors. The head office is at 33 Chancery Lane, London, W.C.2, England. C. J. Poole was manager at the property, employing 18 men. The mine address is Swastika.

The property consists of 5 claims in Eby and Otto townships, district of Timiskaming. The operating company did 105 feet of shaft-sinking and 60 feet of lateral work on the 100-foot level.

Shenango Gold Mines, Limited

Shenango Gold Mines, Limited, was incorporated in March, 1935, with an authorized capitalization of 3,000,000 shares of \$1 par value. The officers and directors are: Louis Normandin, president; Bruce Cameron, vice-president; James Hutchison, secretary-treasurer; Jack Owens and William Cromar, directors. The head office is at 1107 Bank of Hamilton Building, Toronto.

The property consists of a group of 4 claims in Hawkins township, and one of 12 claims in Walls township, district of Algoma.

During 1935 work was confined to the group in Hawkins township, where open-cut mining was done on a small scale. In November the construction of a 25-ton amalgamation mill was started. By the end of the year the mill building was completed and the installation of equipment begun, with the expectation of starting up the mill in March, 1936. The equipment will include a crusher, Morley mill, rolls, ball mill, and amalgamation equipment, to be operated by gasoline engines.

It is expected that ore for the mill will be obtained from open-cut operations. A 220-cubic-foot gasoline compressor was installed in December.

Buildings erected included the mill, blacksmith shop, office, 2 bunk-houses, and cookery. The mill is located about three-quarters of a mile east of Langdon, on the Algoma Central and Hudson Bay railway, and about 5 miles from Oba. The mine address is Oba. About 15 men were employed under the direction of Jack Owens.

Shinintree Gold Mines, Limited

Shinintree Gold Mines, Limited, was incorporated in March, 1935, with an authorized capitalization of 1,000,000 shares of \$1 par value. The officers and directors were: Lionel Brooke, president; C. H. Hitchcock, vice-president; W. B. McPherson, secretary-treasurer; Gilbert Bennett and W. J. Laforest, directors. The head office is at 171 Yonge Street, Toronto. The mine address is Shiningtree.

The property consists of claims W.D. 1,406 and T.R.S. 2,507, totalling 126 acres, in Macmurchy township, West Shiningtree area, district of Sudbury. It is 26 miles by road northeast of Westree on the Canadian National railway. Previous owners did some surface stripping and put down a vertical shaft to 36 feet.

The company started work in May. The old shaft was cleaned out and timbered into two compartments, and sinking started with hand-steel and windlass. By the end of the year the shaft had reached a depth of 100 feet, and a level had been started at that depth, on which 26 feet of drifting had been done.

Buildings erected consisted of a bunk-house, cookery, and blacksmith shop. No mining plant or headframe was installed.

An average of 9 men was employed during the last eight months of 1935, under the direction of Lionel Brooke.

S. B. Smith

Dr. S. B. Smith, Cleveland, Ohio, is the owner of claim S.S.M. 301, formerly known as the Van Sickle mine, located in township 29, range 23, in the Michipicoten area, district of Algoma. It adjoins the east boundary of the Parkhill mine. The mine address is Gold Park.

During 1935 the 2-compartment 45-degree shaft was sunk an additional 149 feet, to a total depth of 289 feet on the incline, and a second level established at 261 feet.

Stopes were started on both levels during the second half of the year, from which 6,122 tons of ore was obtained on the first level and 1,534 tons on the second level, by open-stopping methods.

The 15-ton mill installed in 1934 was replaced by a 50-ton mill, which started operating on June 1. The equipment included a Tel-smith crusher, ball mill, rake classifier, four Wilfley tables, and amalgamation equipment. By the end of the year the mill had treated a total of 7,946 tons of ore.

A 312-cubic-foot electric compressor was added to the plant. An assay office was constructed in addition to the mill.

Operations were suspended early in January, 1936. An average of 38 men was employed during 1935, of whom 20 were underground. J. C. Canfield was in charge.

Sol-D'Or Gold Mines, Limited

Sol-D'Or Gold Mines, Limited, incorporated in September, 1934, has an authorized capitalization of 3,000,000 shares of \$1 par value. The officers and directors elected at the first annual meeting are as follows: C. M. Edwards, president; E. R. Bremner, vice-president; F. W. Runge, A. B. Wright, and G. W. Mitchell, directors. A. W. Reynolds is secretary-treasurer for the company. The head office is at Room 505, 140 Wellington Street, Ottawa. The mine office address is Narrow Lake.

The company's holdings, which consist of 24 patented claims and 14 unpatented claims, lie in the northeast corner of Honeywell township, the northwest corner of McNaughton township, and in the block immediately north of these two townships. These claims take in part of the western end of Grace or Rainbow lake, a small lake south of Birch lake in the Patricia portion of Kenora district. Most of these claims were formerly held by T. W. Bathurst, Limited, and more recently by Rainbow Lake Gold Mines, Limited.

The most important discoveries made to date on this property are on claim No. 10,790. Five narrow veins carrying visible gold have been discovered within a few rods of each other. In 1932-33 a Jack Nutt mill was taken into the property, and several hundred tons were milled. The ore was taken from an open cut on the No. 3 or centre vein. The cut has a maximum length of 250 feet and a maximum depth of 40 feet. The ore was sorted before being sent to the mill. The value of production, from 400 tons milled from this cut in 1932-33, is reported as about \$10,000.

Sol-D'Or Gold Mines erected a new mill in 1935 and equipped it with a Mitchell jaw-crusher, a 10-ton Straub ball mill, amalgamation plates, and a Straub table. A new 9 h.p. Diesel engine was bought to supply power for the mill. Milling was commenced about October 1 and continued for two and a half months. In this period 119.38 tons were milled, and the value of production was \$1,390.78.

The following exploration and development work has been done on the property by Sol-D'Or Gold Mines and by former operators: 800 feet of trenching,

ranging from 5 to 40 feet in depth, including the open cut from which mill feed has been taken; 2,000 feet of stripping and a number of test pits; 3,000 feet of diamond-drilling (done in the winter of 1934-35). No shaft-sinking has been done on the property.

Buildings include a log-cabin office, log-construction bunk-house, warehouse, powder magazine, cap-house, and pump-house. The last three buildings were erected in 1935.

Milton Hersey Company, Limited, was engaged to direct the operations at the mine and to act as consulting engineers. They have placed Dr. H. S. Hicks in charge of the property as mine manager. An average of 9 men was employed at the mine during 1935.

South Vermillion Gold Mines, Limited

South Vermillion Gold Mines, Limited, was incorporated in April, 1934, with an authorized capitalization of 1,500,000 shares of \$1 par value. The officers and directors were: A. E. Broadley, president; A. Pacitto, vice-president; G. McLaughlin and F. J. McFarlane directors; M. F. Burrows, secretary-treasurer. The head office was at 21 King Street East, Toronto.

The property owned by this company consists of a group of three claims located on Bad Vermilion lake, about 3 miles southwest of Mine Centre, Rainy River district.

The 2-compartment vertical shaft was sunk an additional 5 feet by hand-steel during January, 1935, to a total depth of 45 feet. During the balance of the year a bunk-house and cookery were constructed, and surface work was carried on intermittently.

A 300-cubic-foot Ingersoll-Rand compressor and a 175 h.p. boiler were obtained but not put in use.

A. Pacitto was in charge. The mine address is Mine Centre.

Stanley Gold Mines, Limited

Stanley Gold Mines, Limited, was incorporated in November, 1933, with a capitalization of 2,000,000 shares of \$1 par value. The officers and directors are: H. E. Perry, president; J. C. MacKay, vice-president; Mrs. Stanley Siscoe, secretary-treasurer; and Armand Bastien, director. The head office was at 231 St. James Street West, Montreal, Que. The mine address is Wawa.

The property is located in township 29, range 23, in the Michipicoten area, district of Algoma. It is about 5 miles by road from Wawa on the Algoma Central railway.

Work was suspended at this property at the end of December, 1934, following the death of Stanley Siscoe, who had been privately financing the work. A 2-compartment inclined shaft had been sunk to a depth of 300 feet, and levels had been established at 123 and 256 feet. A total of 648 feet of drifting and 97 feet of crosscutting had been done on the 123-foot level, and 778 feet of drifting and 71 feet of crosscutting on the 256-foot level.

The property remained idle until December 29, 1935, when dewatering of the mine was started in preparation for the resumption of underground work.

S. MacDougall is in charge of operations.

Straw Lake Beach Gold Mines, Limited

Straw Lake Beach Gold Mines, Limited, was incorporated in August, 1934, with an authorized capitalization of 2,500,000 shares of no par value. The

officers and directors are: W. E. Segsworth, president and secretary; L. L. Steindler, vice-president and treasurer; R. J. Jowsey, J. D. Conover, and J. A. Gairdner, directors. The head office is at 67 Yonge Street, Toronto.

The property consists of a group of 9 claims at Straw lake, district of Kenora, which were taken over from Straw Lake Beach Gold Mines Syndicate, Limited. It is about 35 miles north of Fort Frances, and is reached by a 70-mile route from Emo on the Canadian National railway.

During 1935 operations were carried on until the end of October, when they were suspended for the winter. The 2-compartment vertical shaft was deepened to 320 feet, and a second level established at 300 feet. The total footage of lateral work underground when operations were suspended consisted of 558 feet of drifting and 92 feet of crosscutting on the 100-foot level and 719 feet of drifting and 77 feet of crosscutting on the 300-foot level. A total of 1,560 feet of diamond-drilling was done from surface during 1935.

The plant used included a 310-cubic-foot Ingersoll-Rand gasoline compressor and a 6- by 8-inch Ingersoll-Rand air hoist.

An average of 19 men was employed during the period of operation in 1935. Frank Carnegie was in charge, with A. J. MacDonnell as contractor. The mine address is Emo.

Sturgeon River Gold Mines, Limited

Sturgeon River Gold Mines, Limited, was incorporated in August, 1934, with an authorized capitalization of 3,000,000 shares of \$1 par value. The officers and directors were: A. L. Bishop, president; J. M. Wood, vice-president; C. S. Kennedy, secretary-treasurer; F. D. Reid, general manager; A. Longwell, W. T. Brown, and Fraser Raney, directors. The head office is at 320 Bay Street, Toronto.

The property consists of a group of 7 claims in the Sturgeon (Namewaminikan) River area, district of Thunder Bay, about 8 miles northwest of Nezhah station, on the Long Lac-Port Arthur branch of the Canadian National railway.

A 3-compartment vertical shaft was started on May 9, 1935, and completed to a depth of 523 feet. Levels were established at 125, 250, 375, and 500 feet. The work completed on these levels to the end of 1935 was as follows:—

Level	Drifting	Crosscutting	Raising
	feet	feet	feet
125-foot.....	213	29	44
250-foot.....	277	24	57
375-foot.....	426	40	87
500-foot.....	361	180
Total.....	1,277	273	188

A total of 3,200 feet of diamond-drilling was done from surface in 1935.

The plant included two 70 h.p. locomotive-type boilers, a 750-cubic-foot Babcock and Wilcox steam compressor, and a 9- by 8-inch Ingersoll-Rand double-drum hoist. Buildings erected included a hoist-compressor house, boiler-house, blacksmith-machine shop, assay office, dry-house, 2 bunk-houses, office, cook-house, and manager's residence.

An average of 46 men was employed throughout 1935. C. M. Bowyer was in charge. The mine address is Jellicoe in summer and Nezhah in winter.

Supreme Gold Mines, Limited

Supreme Gold Mines, Limited, was incorporated in February, 1934. The authorized capitalization is 2,000,000 shares of \$1 par value. Officers of the company are: Walter F. Stewart, president and manager; H. M. Richardson, vice-president; Harry J. Beck, secretary-treasurer. There is also an advisory board of three: Frank Grew, John Rennie, and Walter G. Lumbers. The head office is at 314 Metropolitan Building, Toronto. The mine office address is Savant Lake.

In September, 1935, the company held 32 claims, east of Couture lake between the North and the Northeast arms of Sturgeon lake, in Thunder Bay district.

A mining plant was freighted into this property in the spring of 1935. It includes one Case boiler of approximately 25 h.p., a 240-cubic-foot Schram portable gasoline compressor, a Ledgerwood tandem-drum hoist, and a tractor. This mining plant has not been set up. Buildings include a combined cookery and bunk-house, office, residence, and powder magazine.

Work during 1935 was confined chiefly to prospecting and trenching. There were 7 men employed at this property at the end of the summer.

Swain, Harris, and Cavano

Messrs. Swain, Harris, and Cavano hold 9 claims, Nos. 12,254-62, three miles south of the west end of Birch lake in the Patricia portion of Kenora district. On these claims they discovered a rusty zone in which fairly coarse residual gold is found. During the summer of 1935, they carried on small-scale mining operations on claim No. 12,258, digging up rusty, oxidized material out of small pits, packing it to a stream a few hundred feet distant, and there passing it over crude ripples and blankets on cradles. In this way, handling about half a ton of material per day, they recovered a heavy concentrate of arsenopyrite and gold, but the value of their concentrate is unknown. No report of a shipment of bullion or concentrate had been received up to the end of the year.

The post office address is Narrow Lake.

Sylvanite Gold Mines, Limited

Sylvanite Gold Mines, Limited, has an authorized capital of 3,300,000 shares of \$1 par value. The officers and directors of the company are: Edward L. Koons, president; William L. Marcy, vice-president; W. S. Walton, secretary; Clark L. Ingham, treasurer; Welles V. Moot, managing director; C. E. Rodgers, general manager; Alfred H. Sharpe and Harry Yates, directors. The head office is at Kirkland Lake, and the executive office is at 300 Erie County Bank Building, Buffalo, N.Y.

The property is situated in the township of Teck, district of Timiskaming. An average of 270 men was employed during the year.

The following is taken from the general manager's report for the fiscal year ending March 31, 1936:—

Ore Reserves

Comparing broken ore reserves as at March 31, 1935, with the figure for the same date in 1936, we have, respectively, 82,990 and 82,415 tons, showing a negligible change, notwithstanding the substantial increase in tons treated last year.

Operating Costs

	Total cost	Cost per ton ore milled
1932:		
Development and exploration.....	\$184,936.28	\$1.962
Mining.....	285,365.41	3.026

Mint handling charge.....	16,750.88	.109
Total.....	\$865,871.02	\$5.625

¹The item "bullion selling expense" was included with the item "general charges" in previous annual reports.

²Mint bullion handling charge, effective for the month of April, 1934, at 35 cents per ounce, amounted to \$1,007.70, which together with bullion tax was deducted from production

Production

The mill extraction, based upon Mint assays, plus tailing loss, was 95.95 per cent. for the full year; 96.27 per cent. for the last six months, and 96.40 per cent. for March. Mill heads were lowered slightly to permit inclusion of a greater amount of low-grade and marginal ore.

Fiscal year ending March 31	Tons milled	Production	Average recovery, troy ounces per ton
1931.....	83,034	\$837,013.97	0.49
1932.....	94,276	948,926.13 ¹	.49
1933.....	96,140	912,377.15 ¹	.40
1934.....	98,311	1,558,912.87 ¹	.52
1935.....	124,956	1,584,817.39 ²	.41
1936.....	153,942	1,931,891.87 ³	.36

¹Including exchange on bullion.

²Including exchange on bullion, after bullion tax is deducted.

³Including exchange on bullion, after deducting bullion tax effective for period April 1, 1935, to May 31, 1935, but before deducting Mint handling charge of 35 cents per fine ounce gold, effective for period June 1, 1935, to March 31, 1936.

1934.....	54,423	31,971	86,394	25,457	5,838	31,295	117,689
1935.....	93,883	37,161	131,044	11,812	10,623	22,435	153,479
1936.....	111,091	42,183	153,274	12,576	7,607	20,183	173,457

During last year drifting and subdrifting through ore amounted to 3,342.5 feet. This represented 36.4 per cent. of the total advance. Structural features and geological evidence encountered generally throughout the sections mined, remained favourable.

Development and Exploration

Class of work	Year ending March 31, 1934	Year ending March 31, 1935	Year ending March 31, 1936	Total from beginning of operations to March 31, 1936
	feet	feet	feet	feet
Drifting	4,399.5	8,985	8,837	57,227.5
Crosscutting.....	2,347	2,688	2,875.5	27,701
Raising.....	2,464.5	1,905.5	1,392.5	15,131
Sublevel drifting.....	1,473.5	1,268.5	349.5	9,640

Shaft stations and snmp excavations.....	19,140	840	1,420	207,278
Diamond-drilling.....	6,713	15,952	19,359	96,385

No. 2 Shaft.—A continued programme of extensive exploration on and between levels was carried out during the year. Particular attention was given to further successful development near the 875-foot level and below the 2,500-foot level, mentioned in last year's report. Approximately one-half of the footage of ore drifted on this year was in these horizons. Upper level work, also continued in volume and wide extent, was productive to an encouraging degree. In addition, ore was developed at the 1,750-foot level on the south vein system, west of the major fault, in an area where previous exploration had been disappointing.

No. 4 Shaft.—Of the ore sent to the mill, this part of the property produced 21,552 tons. Considerable exploration has yet to be completed here and this, with clean-up operations, is expected to continue to furnish a fair volume. Beginning with 1933, the tonnage of ore coming from this section of the mine was, respectively, 51,916 tons, 47,189 tons, 36,362 tons, and 21,552 tons.

Additional Buildings and Equipment.—These included an extension to the main office, which enlarged the directors' quarters, store-house, engineering office, and general office. A section and fire-wall were also added to the machine shop-steelshop building. Three-ton aluminum skips replaced the two-ton steel units previously used. One agitator and one filter were added to the mill and some additional experimental equipment was purchased for the mill laboratory.

Summary

Promising areas in both sedimentary and igneous formation responded well to development, and general conditions appear to warrant continued confidence in profitable operation. Earnings were substantial and in excess of dividend requirements.

Compared with the previous period, the year ending March 31, 1936, showed: production increased by \$347,074.48; 28,986 more tons treated; milling costs reduced by 12.6 cents per ton; and a decline in operating costs of 30.6 cents per ton. Persistent experimental work in the mill has resulted in increased extraction and tonnage, and will be continued.

Tashota Goldfields, Limited

Tashota Goldfields, Limited, incorporated November, 1932, has an authorized capitalization of 3,000,000 shares of \$1 par value, of which 2,894,598 shares have been issued. The officers and directors are: H. H. Vaughan, president and managing director; Thomas Arnold, vice-president; P. W. Ogden, secretary-treasurer; W. A. Eden, H. Preston Corsan, W. A. RuKeyser, and R. J. R. Stokes, directors. Both the head office and the mine office of the company are at Tashota. The management of this property is controlled by Minefinders, Limited, whose head office is at 100 Adelaide Street West, Toronto.

The property consists of 9 patented claims and 9 unpatented claims, in one group, with a total area of 642.24 acres, lying about 15 miles south of Tashota station on the main line of the Canadian National Railways, in Thunder Bay district. In winter, access to the property is by way of a 17-mile road; in summer it is reached by an 18-mile canoe route, starting from Paska Siding, and a 6-mile wagon road. A third route by airplane was established in the fall of 1935 from Robinson Lake Siding, 2 miles west of Tashota, to Onaman lake, 4 miles south-east of the mine, and thence by a 4-mile wagon road to the property.

Tashota Goldfields, Limited, succeeded Tashota Gold Mines, Limited. The latter company started underground operations in 1928. To the end of 1935 the following development work had been done: crosscutting, 924 feet; drifting, 2,134 feet; raising, 392 feet; diamond-drilling, 13,415 feet.

Early in 1935 a 50- to 75-ton mill was installed. From April 25 to December 31, 1935, the tonnage milled was 12,828 tons. A Denver jig and blankets catch the coarser gold, and this concentrate is treated in an amalgamation barrel. The greater part of the gold is recovered in a flotation concentrate, which is shipped to a smelter for further treatment. On account of the high cost of summer transportation of this product from the mine to the railway, only about one-third of this had been shipped and treated at the end of the year.

The average number of men employed at the mine in 1935 was 68; of this number, 22 were underground, 6 in the mill, 10 working as construction labourers, and 29 on surface. A. Robertson was acting mine superintendent at the end of the year.

Teck-Hughes Gold Mines, Limited

Teck-Hughes Gold Mines, Limited, has an authorized capital of 5,000,000 shares of \$1 par value, of which 4,807,144 shares are issued. The officers and directors are: Albert W. Johnston, chairman of the board; D. L. H. Forbes,

president and general manager; George C. Miller, vice-president; H. C. McCloskey, secretary; K. P. Emmons, treasurer; P. Nugent Tapley, assistant-treasurer; J. W. Stephenson, assistant-secretary; John F. Lash and John F. Thompson, directors. R. J. Henry is general superintendent. The head office is at Kirkland Lake, and the executive office is at 25 King Street West, Toronto. An average of 635 men was employed during 1935 at the mine in Teck township, district of Timiskaming.

The following is an extract from the general superintendent's report for the 12 months ending August 31, 1935:—

During this period the mills treated 383,958 tons of ore from the mine and 40,290 tons of tailing. The total recovery in bullion and precipitate was the equivalent of 144,384.37 Troy ounces of fine gold, and 4,610.25 ounces of this came from retreatment of tailing. After deducting the bullion tax of \$338,281.44, the realizable value of the gold and silver production was \$4,678,-875.02. With addition of income from investments, the gross revenue was \$4,810,545.03, or \$11.34 per ton.

The total operating cost amounted to \$2,194,202.93, or \$5.17 per ton milled. After making provision of \$279,453.66 for taxes other than the bullion tax, and adding \$19,027.50, a profit derived from the sale of bonds, the surplus for the twelve months was \$2,355,915.94. Following is an analysis of operating costs:—

	Total cost	Cost per ton of ore treated	Cost per ounce of gold produced
Development and exploration.....	\$332,317.78	\$0.78	\$2.30
Mining.....	1,083,287.05	2.55	7.50
Milling.....	456,809.26	1.08	3.16
General expense.....	286,502.52	.68	1.98
Examination of new properties.....	35,286.32	.08	.25
Total.....	\$2,194,202.93	\$5.17	\$15.19

During the year the sinking of the No. 3 winze was completed at the 50th level, a depth of 6,100 feet below surface. On the 49th and 48th levels, drifting in the ore zone was begun during August. Lateral development on the 47th and 46th levels had exposed on September 1 a total of 463 lineal feet of ore at an average grade of 10.41 pennyweights over 7.8 feet of width. Development of the block of levels from #1 to 45 inclusive, was practically completed during the year, and the ore found totalled 2,065 feet at an estimated average grade of 9.46 pennyweights per ton. Development footage for the year was as follows:—

	Feet
Drifting.....	7,236
Subdrifting.....	4,376
Crosscutting.....	1,903.5
Raising.....	4,989.5
Winzing.....	771.3
Total development.....	19,276.3

Diamond-drill exploration amounted to 18,449.1 feet. Ore produced from drifting and crosscutting totalled 12,655 tons.

The technical estimate of "positive ore" reserve at September 1 is as follows:—

	Tons	Gold content in troy ounces	Average grade in pennyweights per ton
Broken ore.....	243,660	86,551.7	7.10
Blocked ore.....	440,049	193,504.5	8.79
Total.....	683,709	280,056.2	8.19

Teddy Bear Valley Mines, Limited

Teddy Bear Valley Mines, Limited, has a capitalization of \$10,000,000, in shares of \$1 par value. The property consists of 1,500 acres in Holloway and Harker townships, district of Cochrane. Finances for development are furnished by the Teddy Bear Valley Syndicate, which has an office at 503 Royal Bank Building, Toronto. C. Ellwood Hoffman is president.

From April 16 to August 9 operations at the property were confined to diamond-drilling, 602 feet of drilling being done from surface and 2,310 feet underground.

Total development work at October 31 consisted of two shafts, 32 feet and 300 feet deep, 922 feet of drifting and crosscutting on the 150-foot level, and 186 feet on the 275-foot level.

Operations were suspended for the winter months. Edward H. Orser is consulting engineer. The mine address is Lightning River.

Thesaurus Gold Mines, Limited

Thesaurus Gold Mines, Limited, has an authorized capitalization of 3,000,000 shares of \$1 par value. The officers and directors are: W. L. Forrest, president; G. W. Adams, secretary-treasurer; M. Conkey and P. E. F. Smiley, directors. The head office is at 320 Bay Street, Toronto.

The property consists of 16 claims in Baden township, district of Timiskaming.

There is a 300-foot shaft on the property, and about 300 feet of lateral work had been done on the 100- and 300-foot levels prior to the end of 1924.

In July, 1935, the mine was pumped out, and a small amount of lateral work was done on the 300-foot level. Operations ceased in September. Harry Crawford was manager, employing 8 men.

Toburn Gold Mines, Limited

Toburn Gold Mines, Limited, has a capitalization of 2,000,000 shares of \$1 par value. The officers and directors are: H. A. Guess, president; R. F. Goodwin, vice-president; G. A. Brockington, secretary; Charles Earl, assistant secretary; J. C. Emison, treasurer; E. C. Corson, assistant treasurer; W. J. Boland and James Moore, directors; F. G. Hamrick, comptroller and auditor. The New York office is at 120 Broadway, and the Toronto office at 217 Bay Street, in care of W. J. Boland.

The mine is in Teck township, district of Timiskaming. During 1935 an average of 133 men was employed. M. W. Hotchkin, Kirkland Lake, is manager.

The following is an extract from the president's report for the year ending December 31, 1935:—

Your company was formed in January, 1931, to take title to an option upon the Tough-Oakes Burnside gold property in the Kirkland Lake district of Ontario and, later, purchased the property. The property, although idle for several years prior to that time, was the first producer in Kirkland Lake district and contained several miles of underground workings and several shafts, the more important being the main hoisting shaft from surface to the 1,090-foot level and an interior shaft from the 1,090-foot level to the 1,850-foot level, and it was equipped with a mining plant and a cyaniding mill of 100 tons daily capacity.

The foregoing general information is given for the enlightenment of such of the minority stockholders as may have acquired share ownership since the issuance of the last annual report, and for these there is also given the information that of the total of 1,850,000 shares issued of your company, Premier Gold Mining Company, Limited, owns 1,490,000.

Your manager's summary of the exploration and development work done upon your property for the calendar year 1935 is as follows:—

During the year a small amount of surface cross-trenching was done in deep overburden in an effort to trace the eastward continuation of the No. 7 vein, but the results of this trenching were not conclusive. Total development work done during the year 1935 amounted to 8,826 feet, all of which was above the 1,090-foot level. This development consisted of 3,939 feet of drifting, 1,293 feet of sublevel drifting, 2,351 feet of crosscutting, 1,055 feet of raising, 17 feet of winzing, and 171 feet of slashing. Of this total, approximately 2,962 feet was done on ore, breaking 8,738 tons, which was sent to the mill. Approximately 91 per cent. of the year's development was confined to the A-200, No. 3 shaft, 400-, 800-, 893-, 1,018-, and 1,090-foot levels.

The most important development results for the year 1935 were:—

1. Location of the No. 410 drift vein structure, west of the dike fault, which is considered to be the eastward continuation of the North vein system in the Kirkland Lake camp. Its vertical extensions were identified in the No. 306 drift, at the A-300-foot level, and in the Nos. 548, 678, 804, and 928 drifts.

2. The location of the downward extension of the No. 7 vein, east of the dike fault in the No. 211 drift east, at the A-200-foot level, which indicates excellent possibilities for both downward and eastward continuity.

3. Extending the ore on the nearly vertical No. 11 vein to the 800-foot level on the west side of the dike, and from the 100-foot level to the 300-foot level, east of the dike fault.

4. The location of the No. 921 drift vein east of the dike from its junction with the North branch of the South break, in the No. 1,031 stope upward to the No. 808 drift on the 800-foot level.

5. Locating ore on the North branch of the South break to the east of the dike, in the Nos. 1,031 and 1,099 drifts.

Production figures for 1935, compared with those of the year 1934, are:—

Year	Tons milled	Average ounces gold per ton	Ounces fine gold produced	Percentage mill recovery
1934.....	36,230	0.583	20,401	96.6
1935.....	35,360	.592	20,200	96.5

The estimated ore reserves broken and unbroken at December 31, 1934, were 60,550 tons, averaging 0.63 ounces gold per ton, and at December 31, 1935, were 82,650 tons, averaging 0.57 ounces gold per ton. This means that 57,460 tons of new ore, averaging 0.52 ounces gold per ton were found and opened up by the exploration and development of 1935.

Earnings for the year 1935, after deducting administration and taxes, but before deduction of \$60,894.25 depreciation and depletion, were \$280,118.32.

Tombill Gold Mines, Limited

Tombill Gold Mines, Limited, was incorporated in October, 1935, with an authorized capitalization of 1,000,000 shares of \$1 par value. The officers and directors are: P. E. Hopkins, president; Fred Searls, Jr., first vice-president; D. E. Thomas, second vice-president; A. W. Burt, secretary; Carroll Searls, assistant secretary; Henry E. Dodge, treasurer; T. A. Johnson, H. D. Smith, W. R. G. Johnson, and C. R. Ellis, directors. The head office and mine office are at Empire. The executive office is at 171 Yonge Street, Toronto.

The property consists of a group of six claims in Lindsley township, district of Thunder Bay, located immediately to the west of the property of Bankfield Gold Mines, Limited, near Magnet lake.

The Newmont Mining Company of New York has optioned a minority interest in this company, under an agreement which gives them the management of the company.

Work was started in November, and by the end of 1935 a bunk-house, cook-house, warehouse, blacksmith shop, and powder magazine had been erected. A vertical 3-compartment shaft had been sunk with hand-steel to a depth of 21 feet, and a headframe constructed. A mining plant, including a 60 h.p. locomotive-type boiler, a portable Diesel compressor, and an 8- by 6-inch Ingersoll-Rand double-drum hoist, was in transit to the property.

R. J. Hendricks was in charge.

Vimy Gold Mines, Limited

Vimy Gold Mines, Limited, owns 320 acres in Hislop township, district of Cochrane. The company is capitalized at 1,000,000 shares of \$1 par value. The officers and directors are: Douglas Jones, president and manager; Joseph Berini, vice-president; Frank N. Bowes, secretary-treasurer; Nelson A. McDougall and J. A. Mongeon, directors. The head office is at Timmins, and the secretary's office is at 906 Excelsior Life Building, Toronto. The mine address is Ramore.

A 25-ton mill was installed on the property in 1935 and operated for a short time with ore from an open cut. A 2-compartment shaft, begun late in the fall, had reached a depth of 35 feet at the end of the year.

Joseph Berini was in charge of the work, employing about 20 men.

Wells Longlac Mines, Limited

Wells Longlac Mines, Limited, was incorporated in June, 1934, with an authorized capitalization of 3,000,000 shares of \$1 par value. The officers and directors are: A. J. Felton, president; A. W. Burt, vice-president; F. E. Forster, secretary-treasurer; E. C. J. McCracken and Chas. Palmer, directors. The head office is at 347 Bay Street, Toronto.

The option which the company held on the Stagee property in the Mine Centre area was dropped at the end of February, 1935, after a total of 125 feet of drifting had been completed on the 100-foot level.

The property owned by the company consists of 15 claims in the Magnet Lake section of the Little Long Lac area, district of Thunder Bay. It is to the east of the Bankfield property.

During 1935 surface work and diamond-drilling were carried on at this property. During the year 4,062 feet of diamond-drilling was done, making a total of 24,641 feet accomplished to the end of 1935. No construction work was done, nor was any machinery installed during the year. The equipment of the company used at the Stagee property was brought to Kenwell, 3 miles from the Magnet Lake property, and stored there.

W. L. Brown was in charge of the work at the Magnet Lake property. The mine address is Geraldton.

Wendigo Gold Mines, Limited

Wendigo Gold Mines, Limited, was incorporated in October, 1933, with an authorized capitalization of 2,000,000 shares of \$1 par value. The capitalization was increased to 3,000,000 shares in July, 1935. The officers and directors were: H. D. Tudor, president; H. G. Young, vice-president; H. R. Tudhope, secretary-treasurer; A. J. Bolton and W. G. Cameron, directors. The head office is at 701 Dominion Bank Building, Toronto.

The property of this company is located at Witch bay, on the Lake of the Woods, district of Kenora, and is 22 miles southeast of Kenora.

The mining plant installed included a 100 h.p. boiler, a 375-cubic-foot Ingersoll-Rand steam compressor, two 525-cubic-foot Ingersoll-Rand steam compressors, and an 8¼- by 10-inch Ingersoll-Rand hoist.

In 1935 underground work was carried on from the first of the year until the middle of February, during which period 341 feet of drifting and 66 feet of crosscutting was accomplished on the 500-foot level, and 1,855 feet of diamond-drilling from underground. Operations were not resumed until the middle of

December, when a start was made to take down backs on the 100-foot level in preparation for stoping.

At the end of September the construction of a 50-ton amalgamation-cyanidation mill was commenced, and at the end of the year it was expected that it would be completed and in operation in February, 1936.

The mill equipment includes a Dodge crusher, Allis-Chalmers ball mill, Dorr rake classifier, two blanket tables, two Dorr agitators, two Dorr thickeners, two Oliver filters, and a Merrill-Crowe precipitation unit. It is to be operated by a 264 h.p. Ruston Diesel engine, direct-coupled to a 219 k.v. a. generator.

An average of 31 men was employed during 1935, under the direction of C. L. Spencer. The mine address is Kenora.

West Red Lake Gold Mines, Limited

West Red Lake Gold Mines, Limited, is capitalized at 3,000,000 shares of \$1 par value, of which 1,999,205 shares have been issued. The officers and directors of the company at December 31, 1935, were: F. J. Bailes, president; H. Hunter, secretary-treasurer; W. S. Hall, A. J. Doane, B. Johnston, and W. T. McEachern, directors. The head office is at 11 King Street West, Toronto.

The property consists of 27 claims in four groups located in the townships of Todd and Ball in the Pipestone Bay section of the Red Lake area, Kenora district, Patricia portion. The main group consists of 9 claims, totalling approximately 375 acres. The mining plant is on claim No. 10,057, approximately 21 miles west of the Howey gold mine.

Operations were resumed at this mine in July, 1935, after an eight months' period of idleness, during which period the company was reorganized. During July, the plant was reconditioned and the mine dewatered. Underground exploration work was carried on throughout August and most of September. During October some diamond-drilling was done from surface, but all operations were again suspended on October 27, 1935. During the four months' period when operations were carried on, an average of 16 men was employed, under the direction of C. H. E. Stewart.

The following figures show the amount of development work done at the property in the past two years:—

	1934	1935	Total
	feet	feet	feet
Shaft (vertical 2-compartment).....	200	17	217
Crosscutting.....	95	49.7	144.7
Drifting, 200-foot level.....	280	347	627
	cu. ft.	cu. ft.	cu. ft.
Station-cutting.....	1,260	724	1,984

No additions were made to the plant or equipment during 1935.

Wright-Hargreaves Mines, Limited

Wright-Hargreaves Mines, Limited, has an authorized capital of 5,500,000 shares of no par value. The officers and directors of the company are: E. L. Miller, president and managing director; W. H. Wright, vice-president; P. H. Gerhard, secretary; Gerard F. Miller, treasurer; M. W. Summerhayes, general

manager; Oliver G. Donaldson and James Y. Murdoch, directors. The head office is at Fort Erie. The mine address is Kirkland Lake.

An average of 779 men was employed during 1935 at the mine in Teck township, district of Timiskaming.

The following is taken from the general manager's report for the fiscal year ending August 31, 1935:—

During this period 350,196 tons of ore were treated, containing 211,674 ounces fine gold and 31,716 ounces fine silver. There was realized from marketing this bullion, \$6,844,539.20.

The average grade of the ore going to the mill at \$20.67 per ounce was 0.625 ounces, or \$12.919 per ton, with a recovery of 0.605 ounces, or \$12.503 per ton, an extraction of 96.78 per cent.

ANALYSIS OF OPERATING COSTS

	Total	Cost per ton milled
Development, exploration, and pumping	\$488,238.04	\$1.394
Stoping	713,853.98	2.038
Transporting ore (hoisting, etc.)	260,997.94	.745
Milling charges	462,896.59	1.322
General surface charges	35,476.49	.101
Stock transfer, dividend, and annual report expense	13,632.13	.039
Employees' group insurance, silicosis, workmen's compensation, property taxes, and insurance	69,584.97	.199
General and undistributed charges (storehouse, hospital, maintenance miscellaneous mine buildings, mine management and administration, exchange, legal expenses, miscellaneous)	141,857.96	.405
Depreciation buildings and equipment	292,287.17	.835
Marketing bullion	23,148.06	.066
Mint bullion handling charge	21,375.92	.061
	\$2,523,349.25	\$7.205
Provision for taxes (exclusive of bullion tax)	470,000.00	1.342
Amount written off, shaft No. 4	85,299.62	.244
Total	\$3,078,648.87	\$8.791

PRODUCTION RECORD, 1921-1935
(Based on gold at \$20.67 per ounce)

Year	Tons milled	Value per ton	Gross value	Recovery per ton	Bullion produced	Dividends
1921 (8 mos.)	36,081	\$13.96	\$503,302	\$13.00	\$468,665
1922	66,181	12.49	827,447	11.52	762,752	\$412,500
1923	79,242	10.48	830,992	9.52	754,978	206,250
1924	84,487	14.16	1,194,217	12.89	1,088,725	206,250
1925	147,939	14.49	2,148,554	12.93	1,913,401	550,000
1926	153,392	15.66	2,400,795	14.02	2,150,844	893,750
1927	209,164	11.77	2,455,460	10.51	2,151,916	1,237,500
1928	256,331	8.36	2,144,002	7.20	1,845,923	825,000
1929	188,238	10.29	1,938,552	9.25	1,741,872
1930	220,430	12.20	2,687,828	11.03	2,431,896	275,000
1931	266,352	11.73	3,124,533	10.93	2,912,308	825,000

Offices.....	6,465.47

Total..... \$156,551.61

Development

The policy outlined in our report of 1933, to as soon as possible complete the development and mine out a number of the upper levels, with the object of reducing the maintenance cost of having so many levels producing and, too, the need as deeper workings are opened up, to facilitate ventilation, has been rigorously followed. The results have been the finding of considerable new tonnages of ore of lower grade. At the present time we have 28 operating levels, none of which can yet be abandoned.

This programme together with the fact that the present developments are in the more easterly and westerly areas, where the ore occurrences are more scattered and of somewhat lower grade, has resulted in the percentage of ore developed and the grade of ore found being lower. There were 409,649 tons of new ore developed, and after deducting 350,196 tons milled, 59,453 tons were added to ore reserves. Of the 20,483 feet of drifting, 7,654 feet was on ore.

The preparations for sinking an interior shaft to open up the mine below the 3,900-foot level, as outlined in our last report, were completed, and the sinking of this shaft is now actively being carried out. There were 535 feet of shaft work done during the year, all in the new interior shaft, 290 feet above the 3,900-foot level and 245 feet below that level. At the present writing the depth of this shaft is 4,300 feet.

Milling

It is satisfactory to note that the per cent. extraction is considerably better than our pilot mill work indicated, and while the extraction for the whole period under review is 96.78 per cent., the extraction for the last quarter was 97.04 per cent.

General

The trouble which existed in the refining of our precipitates, and referred to in our last report, has been completely overcome and our new process is enabling us to check satisfactorily with the Mint, the difference in assays during the twelve months' period being only 0.013 per cent.

Young-Davidson Mines, Limited

The officers and directors of Young-Davidson Mines, Limited, are: Gideon Grant, president; C. G. Knott, vice-president; F. M. McKay, secretary-treasurer; Jacob A. Davidson, W. C. Young, Roy Driscoll, directors. The capitalization is \$3,000,000, in shares of \$1 par value.

The company owns a property in Powell township, district of Timiskaming, which is being operated under agreement by the Hollinger Consolidated Gold Mines, Limited. An account of the work done on the property appears on page 115 of this report. The mine address is Elk Lake.

Young-Shannon Gold Mines, Limited

Young-Shannon Gold Mines, Limited, was incorporated in 1932, with an authorized capitalization of 3,000,000 shares of no par value. The officers and directors are: C. T. Young, president; S. J. Defoe, secretary; W. C. Huff, treasurer; and A. J. Bolton, director. The head office is at 1 Toronto Street, Toronto. The mine office is at Gogama.

The property includes a group of claims at Clam lake on the west boundary of Chester township, district of Sudbury. Work was suspended at this property in February, 1935, after a 2-compartment vertical shaft had been sunk to a depth of 100 feet, and 100 feet of lateral work done at that depth.

Work was then transferred to the property of the Martin Syndicate, consisting of a group of 25 claims at the north end of Three Duck lakes in Chester township, west of and adjoining the Gomak property. During the balance of the year about 600 feet of diamond-drilling was done, as well as surface trenching and pitting. Operations were carried on under a percentage of profits agreement.

An average of 4 men was employed during 1935, under the direction of C. T. Young.

GRAPHITE

Black Donald Graphite Company, Limited

The officers of the Black Donald Graphite Company, Limited, are: R. F. Bunting, president and manager; W. B. Bunting, vice-president; R. A. Telfer, secretary-treasurer.

The mine and refinery in Brougham township, Renfrew county, operated almost continuously during 1935. Graphite to the value of \$78,500 was produced.

An average of 9 men was employed in the mine, and 25 in the refinery. The mine address is Calabogie.

GYPSUM

Canadian Gypsum Company, Limited

The Canadian Gypsum Company, Limited, has a capitalization of \$300,000, divided into 3,000 shares of \$100 par value. The officers and directors of the company are: S. L. Avery, president; R. G. Bear, secretary-treasurer; O. M. Knode, C. F. Henning, Otis Wack, and J. E. MacLeish, directors. The head office is at 1221 Bay Street, Toronto. The head office officials are: B. S. Barns, agent and comptroller, and F. B. Gibbs, manager. Otis Wack, Windsor, N.S., is director of operations.

The company operates a gypsum mine and plant near Hagersville, in Oneida township, Haldimand county. All commercial gypsum products are produced at the plant, which includes a mill, wall board and block manufacturing buildings. During 1935 some 19,569 tons of rock were hoisted. An average of 53 men was employed. W. E. Allen, Hagersville, is superintendent.

The company also operates a quarry and lime plant at Guelph; a large gypsum quarry at Windsor, N.S.; a gypsum mill at Hillsborough, N.B.; a gypsum calcining mill at Iona, Cape Breton; and a winter gypsum storage depot at Deep Brook, N.S.

Associated with the company is the Gypsum Packet Company, Limited, operating four 7,000-ton freight and passenger steamers between Nova Scotia and United States ports.

Gypsum, Lime and Alabastine, Canada, Limited

Gypsum, Lime and Alabastine, Canada, Limited, has a capitalization of 2,000,000 shares of no par value. The officers are: R. E. Haire, president and manager; S. H. J. Reid, secretary-treasurer; W. E. Armstrong, Henry Cockshutt, H. J. Haire, Jas. R. Inksater, G. H. Kranenberg, J. E. McConnell, R. S. McCurdy, N. L. Nathanson, W. C. Pitfield, and John F. Cameron, directors. The head office is at Paris, Ont.

The mine and mill at Caledonia, Seneca township, Haldimand county, was operated throughout the year. L. V. Robinson was superintendent, employing an average of 92 men.

There were hoisted 28,461 tons of rock. Of this, some 2,716 tons of crushed and fine-ground gypsum were sold, and the rest was manufactured into land-plaster, stucco, Paristone, Gyproc, dry Insulex, gypsum lath, and other building products.

In addition to the Caledonia mine, the company operates gypsum plants at Montreal, Winnipeg, Vancouver, and Calgary.

Lime plants are situated at Beachville, Elora, Hespeler, Milton, Limehouse, and Puslinch, Ont., and at St. Mark and Joliette, Que.

Quarries are operated at Mabou, N.S.; Gypsumville, Man.; and Salmon River, B.C. The alabastine plant is at Paris, Ont.

MOLYBDENITE

Phoenix Molybdenite Corporation, Limited

The Phoenix Molybdenite Corporation, Limited, has a capitalization of 1,000,000 shares of \$1 par value, of which 700,000 are issued. The property is in Bagot township, Renfrew county. The officers and directors are: F. L. Stinson, president and manager; E. A. Dempster, vice-president; W. G. Chipp, secretary-treasurer; Geo. Joynt and John Thomson, directors. The head office is at 710 Excelsior Life Building, Toronto. Work was started on May 17, 1935, and continued to the end of the year with an average force of 15 men. The mine address is Ashdad.

The following work was done during the year: drifting, 631 feet; cross-cutting, 422 feet; shaft-sinking, 65 feet; station, 12 by 12 by 12 feet; ore hoisted, 976 tons; waste hoisted, 2,974 tons.

NICKEL AND COPPER

Cuniptau Mines, Limited

Cuniptau Mines, Limited, has an authorized capital of 3,000,000 shares of \$1 par value, of which 2,500,000 shares have been issued. The property consists of 62 claims in Strathly township, district of Nipissing.

The officers of the company are: B. W. Watkins, president; A. L. Herbert, vice-president; W. G. Watkins, secretary-treasurer; Gordon McLaughlin and Ian MacLaren, directors. The Mining Research Corporation are consulting engineers. Geo. M. Lee is mine manager. The mine address is Goward. The head office is at 465 Bay Street, Toronto.

In January, 1935, a small quantity of ore was tested in the 50-ton blast furnace. During the rest of the year operations were confined to surface exploration, with an average force of 10 men.

In November funds were raised by the sale of treasury stock to enable the purchase of concentrating and converter equipment, and to carry on further underground work.

Falconbridge Nickel Mines, Limited

The officers and directors of Falconbridge Nickel Mines, Limited, are: Thayer Lindsley, president; N. F. Parkinson, secretary-treasurer; Halstead Lindsley and J. G. Hardy, vice-presidents; W. S. Morlock, director. The authorized capital is 5,000,000 shares of no par value. The head office is at 25 King Street West, Toronto.

The company operates a nickel-copper mine, concentrator, and smelter in Sudbury district, and a refinery at Kristiansand, Norway. Ernest Craig is general superintendent of operations in the Sudbury district; J. R. Gill, assistant general superintendent; E. J. Martin, mine superintendent; R. C. Mott, concentrator superintendent; and M. J. Tamplin, smelter superintendent. During

1935 an average of 567 men was employed, of whom 185 were underground. The mine address is Falconbridge.

The following is an extract from the annual report of the company for the year ending December 31, 1935:—

As heretofore, interruptions to continuous operation were due entirely to necessary periodic repair campaigns in the single-unit smelting plant.

Mine Development

Development footages attained during the year, and combined over all levels, distribute as tabulated below:—

Drifting and crosscutting (including slashing).....	feet	5,708
Raising (including slashing).....	feet	1,813
Ore passes (including slashing).....	feet	869
Fill passes (including slashing).....	feet	416
Box-holes.....		6
Diamond-drilling.....	feet	4,805
Station-cutting.....	cu. ft.	47,389
Loading station.....	cu. ft.	7,620
Shaft-sinking.....	feet	856

Practically all lateral work along the ore zone was confined to the 500- and 1,200-foot levels. On the former, an advance of 986 feet was made easterly in ore averaging 15.1 feet in width, though of slightly below mine average grade. This drive continues in ore at 1,600 feet from No. 5 shaft. On the 1,200-foot level, 153 feet and 807 feet were driven east and west, respectively, from No. 5 shaft in ore of mine average grade, with a mean width of 12.5 feet. Both these faces continue in ore.

No. 5 shaft was deepened 856 feet to a point slightly below the 1,400-foot level. Stations were established on the 200-, 325-, 1,200-, and 1,400-foot levels, and a loading station commenced at 1,350 feet. Stations for three levels between the 500- and 1,200-foot horizons are yet to be taken out. As the 1,200-foot level is a main haulageway, considerable work was carried out in anticipation of the large tonnage to be handled. A pump sump of sufficient size to accommodate a large volume of water is being excavated.

Steps were taken during the year to abandon the shrinkage method of mining and adopt the cut-and-fill system, with the conversion of active shrinkage stopes to the new practice. In preparation for this, as well as to back-fill the old stopes as they are emptied, a fill pass system was established near No. 1 shaft and two further series of passes were commenced, one located west of No. 1 shaft and the other east of No. 5 shaft. Ore passes were completed from the 350- to the 750-foot levels. At present, cut-and-fill stopes are yielding 25 per cent. of the ore hoisted, and this figure will be increased as the shrinkage reserves are drawn.

Ore Reserves

Ore reserves, computed as at December 31, 1935, are tabulated hereunder:—

	Tons
Ore reserves as at December 31, 1934.....	2,960,238
Plus new ore added 1935.....	1,436,780
Total.....	4,397,018
Less: drawn during 1935.....	337,543
Total ore reserves (averaging 1.93 per cent. nickel and 0.91 per cent. copper), December 31, 1935.....	4,059,475

Mining

The results of mining activities during the year are set out in the following table:—

BROKEN ORE IN STOPES

	Tons
Balance December 31, 1934.....	509,742
Broken during 1935.....	170,196
Total.....	679,938
Less: hoisted from stopes during 1935.....	292,301
Broken ore reserves December 31, 1935.....	387,337

ORE HOISTED

From stopes, 1935.....	292,601
From development, 1935.....	25,781
From concentrating dump, 1935.....	16,762
From development dump, 1935.....	2,399
Total ore to crushing plant, 1935.....	337,543

Crushing, Sorting, and Transportation

From 337,543 tons of ore delivered to the crushing plant, 35,206 tons, or 10.4 per cent., of waste was eliminated by sorting. The balance, amounting to 302,337 tons, was transported over the aerial tramway to the treatment plant bins.

Smelter

The reduction plant was in operation 346.93 days, or 95.3 per cent., of possible time. That the plant is being burdened beyond its limit is reflected in higher metallurgical losses as the result of slightly increased production.

Results of operation tabulate as below:—

Total ore treated.....	Short tons 302,510
Matte produced.....	10,029.50
Nickel in matte produced.....	5,651.55
Copper in matte produced.....	2,597.26
Metals per ton of ore:	Pounds
Nickel.....	40.97
Copper.....	19.71
Metallurgical losses per ton of ore:	
Nickel.....	3.43
Copper.....	2.54

Construction

An extensive construction programme at No. 5 shaft embraced the erection of a steel head-frame, power-house with hoisting and compressor equipment, change-house with office accommodation for the mine staff, carpenter shop, combined drill-steel and repair shop, central heating plant and substation. All buildings are of steel and concrete-block construction with fireproof roofing. A substation was also erected at the property by the Hydro-Electric Power Commission, and 25-cycle power at 26,400 volts was being delivered before the end of the year. Standard-gauge track to the extent of almost 1½ miles was laid during the year to tie in the future ore and backfill handling system. Additional grinding, flotation, and thickening equipment was added in the concentrator.

Housing facilities were further increased by the erection of a number of dwellings. In addition, a spacious community hall was built for the use of employees and their families.

Refinery

The refinery, which is located in Norway, operated very steadily throughout the year, keeping in step with the somewhat increased matte production. A certain amount of additions and alterations took place, which raised the total capacity of the plant, including capacity for custom matte, to 7,000 short tons of nickel annually, at which rate it occasionally operated.

Custom matte was received regularly at a rate of 1,000 long tons of nickel annually. The plant for separation of precious metals started delivery of gold, silver, platinum, and palladium. The quality was found satisfactory, and the marketing took place without difficulty. The quality of the nickel and copper was maintained to the satisfaction of the market at the high quality previously set.

For the year 1935, the amount of metals in matte received from the smelter, the refinery production, the metals in process, and metals in matte on hand at the end of the year is set out in the following table:—

	Nickel	Copper
	lbs.	lbs.
Metals in Falconbridge matte received, less refining losses.....	10,421,850	4,768,704
Produced in marketable form during the year.....	10,753,756	5,029,525
Metals in process of refining at end of year.....	2,260,586	427,043
Metals in matte on hand at end of year.....	715,864	319,041

Marketing

This key factor in our business was favourable during the year and reached a peak in the third quarter. European exchange difficulties, of course, had their effect, as did the observance lately of "sanctions." At that, sales of nickel totalled 10,829,865 pounds and of copper 5,129,483 pounds, which closely parallels our year's production, and closed the year with little change in stocks. These continue to be lower than we would like to see, but should be reinforced by the steps now taken to increase production by the end of 1936. Forward bookings for 1936 deliveries are again higher than in prior years.

International Nickel Company of Canada, Limited

The authorized capital of the International Nickel Company of Canada, Limited, consists of \$27,679,900 of preferred shares of \$100 and \$5 par value, and 15,000,000 shares of common stock of no par value.

The officers are: Charles Hayden, chairman of the board; Robert C. Stanley, president; John F. Thompson, vice-president; Paul D. Merica and John C. Nicholls, assistants to the president; James L. Ashley, secretary-treasurer.

The directors whose term expires in 1936 are: John P. Bickell, Hon. H. Cockshutt, Wm. N. Cromwell, D. Owen Evans, Sir Harry McGowan, R. H. McMaster, Wm. W. Mein, Rt. Hon. Lord Melchett, Paul D. Merica, Sir Robert Mond, Thomas Morrison, Seward Prosser, and Grant B. Shipley.

The directors whose term expires in 1937 are: James L. Ashley, John F. Dulles, Reg. Halladay, Charles Hayden, J. W. McConnell, R. S. McLaughlin, Britton Osler, J. A. Richardson, Robt. C. Stanley, Andrew V. Stout, John F. Thompson, and Rt. Hon. Lord Weir of Eastwood.

The executive office is at 67 Wall Street, New York, N.Y., and the general offices are at Copper Cliff, Ont.

This company and subsidiary companies operate hydro-electric power plants at High Falls, Big Eddy, Wabageshik, and Nairn Falls, Ont.; nickel-copper mines in Sudbury district, Ont.; smelters at Copper Cliff and Coniston, Ont.; refineries at Copper Cliff and Port Colborne, Ont., Acton, England, and Clydach, Wales; rolling mills at Birmingham, England, Huntington, W. Va., and Glasgow, Scotland; a colliery at Pontardawe, Wales; and a foundry at Bayonne, N.J.

The following information is extracted from the annual report of the company covering the year ending December 31, 1935:—

General

The progressive improvement in your company's business, which started in May, 1932, continued throughout 1935. Total sales of nickel were in excess of those recorded during 1929, which formerly was the peak year in the history of the nickel industry, and consumption was well diversified geographically and industrially. New sales records were achieved, not alone for nickel but for copper and the platinum metals as well.

During the year operations at mines and plants were conducted without interruption, and output was increased in order to meet the growing demand for your company's products. As a result of these activities pay-rolls increased in all plants, and unemployment was reduced in Sudbury district as well as in the town of Port Colborne, where your Canadian nickel refinery is located.

Attention is called to the redemption of outstanding debentures and to the acquisition of the minority interest in the Ontario Refining Company, Limited. The former transaction, by eliminating all funded debt, leaves your company and its subsidiaries in an entirely unencumbered financial position; and the latter gives your company full ownership in the copper-refining enterprise which was organized in 1929 primarily to refine your company's copper.

A net profit of \$26,086,527.47 was realized after all charges, including provision for taxes, depreciation, mine depletion, and other purposes. After payment of preferred dividends of \$1,933,898.75, there remained \$24,152,628.72, or \$1.65 per share of common stock. Cash on hand of \$30,473,311.32 indicates a strong financial position, which is now more than ever necessary to assure at all times adequate production facilities and a continuation of aggressive market development to meet the exigencies of expanding business.

There follows a classified digest of essential facts concerning your company's varied activities during the year under review.

Sales

Your company's sales of nickel in all forms, including nickel in alloys, amounted to 129,-850,207 pounds, comparable with 91,459,554 pounds in 1934, an increase of 42 per cent. Sales of nickel in products of the Port Colborne and Clydach refineries amounted to 105,620,318 pounds, comparable with 73,964,621 pounds in 1934, an increase of 43 per cent. Sales of nickel in products of the Copper Cliff smelter amounted to 4,085,570 pounds, comparable with 1,357,008 pounds. Sales of nickel in products of the rolling mills at Birmingham, Glasgow, and Huntington, and of the foundry at Bayonne, totalled 20,144,319 pounds, comparable with 16,137,925 pounds, an increase of 25 per cent.

Sales of Monel metal, a nickel alloy made direct from Creighton ore, totalled 13,411,624 pounds, comparable with 10,763,821 pounds in 1934, an increase of 25 per cent.; sales of pure rolled nickel were 9,339,595 pounds, comparable with 7,469,914 pounds, an increase of 25 per cent., and sales of Inconel increased from 428,605 pounds to 609,632 pounds, or 42 per cent.

Sales of copper increased from 194,870,682 pounds in 1934 to 233,003,392 pounds, or 20 per cent.

Gold sales were 69,944 ounces, comparable with 74,375 ounces in 1934; silver sales were 3,160,222 ounces, comparable with 1,006,808 ounces; and sales of the platinum metals were 128,874 ounces, comparable with 124,424 ounces. Sales of selenium were 72,616 pounds, comparable with 73,516 pounds in 1934; and sales of tellurium increased from 1,110 pounds to 9,987 pounds.

Mines

During 1935 a total of 3,382,409 tons of ore was mined and shipped to the smelters at Copper Cliff and Coniston. All of this ore was extracted from the Frood and Creighton properties, which were operated continuously throughout the year. The Frood mine furnished 2,875,599 tons, and the Creighton mine 506,810 tons.

Development work in the Frood was carried on at a rate to conform to ore requirements. The advance of shafts, drifts, and crosscuts, raises, winzes, and box-holes for the year was 16,012 feet, bringing the total development footage in this mine to 183,211. There are now available for production 103 stopes and 16 pillar stopes, having respectively a daily capacity of 125 tons and 55 tons each.

In the Creighton mine development work was advanced 9,200 feet. Good progress was made in shaft-sinking and surface-plant construction. It is expected that this undertaking will be completed during the current year and that ore from this development will be available in 1937. The new shaft, 16 feet by 28 feet in cross-section, is being sunk to a depth of 4,200 feet and will be served by a hoist capable of handling 4,000 tons of ore per day.

By replacing mild steel skips with lighter skips made from nickel steel, the hoisting capacity at the Frood and Creighton mines has been increased approximately 15 per cent.

Smelters

The concentrator treated 2,584,666 tons of ore, the largest tonnage handled since this plant was built. Further improvements in metallurgy were effected, and from the standpoint of efficiencies and recoveries results were the most gratifying thus far attained. Milling was increased to 8,000 tons per day, and it is planned to expand capacity to 11,000 tons per day during the current year. Results have further shown the value of research experimentation, and work of this character will be intensified when the new research laboratory is completed.

At the Copper Cliff smelter there were produced 118,016 tons of bessemer matte and 121,574 tons of blister copper. All of the reverberatory furnaces, five in number, and all twelve converters, were in use from February until the end of the year. Operating results were satisfactory in respect to tonnage of ore smelted, fuel consumption, and slag losses. The Orford process department was operated throughout the year with improvement in costs, partly due to the increased tonnage of bessemer matte consumed.

The Coniston smelter, with the exception of the month of July, ran continuously with four blast furnaces and five converters in operation. Ore to the amount of 790,351 tons was processed, and 54,248 tons of bessemer matte produced. Plant practice was efficient as reflected in the higher percentage recovery of metal from ore smelted.

Hydro-Electric Plants

Your company's hydro-electric power plants are in good condition, and the capital expenditures thereon during the year were comparatively small. All of the plants are fully equipped and were operated throughout the year to the extent of the available water supply. Power purchases from the Hydro-Electric Power Commission of Ontario, including the requirements of the Port Colborne nickel refinery, totalled \$759,906.07.

Refineries

Port Colborne Nickel Refinery.—Increased demand for nickel necessitated operating the electrolytic plant at capacity for the first time since additional units were installed in 1929. The year began with six circuits in service, to which were added during the year the three reserve circuits, this bringing the refinery to maximum output. There was produced 80,381,532 pounds

of nickel in all forms. Continuous research and experimentation have resulted in many minor process improvements through which improved quality of product and lower costs have been attained.

Ontario Refining Company, Limited.—There was a substantial increase in the tonnage of blister copper treated at this refinery, and plant output and copper shipments increased correspondingly. Refined copper production was 109,966 tons, comparable with 95,558 tons in 1934. Shipments of refined copper were 107,032 tons, comparable with 97,292 tons in 1934.

A new selenium plant was completed and put into operation in March, 1935, thus enabling your company to produce a substantially larger quantity of this metal. In order to eliminate silver losses and to further increase recovery of selenium a Cottrell electrical precipitator was installed and has shown satisfactory results. A plant to produce "single" and "double" nickel salts for the Canadian market was authorized in 1935 and is now completed and in operation.

An electric furnace installation for producing high-quality copper wire-bars and other shapes, authorized in 1935, will be put in operation during the current year. Research work was continued in all departments. Many improvements have resulted, and in consequence cost has been lowered and quality bettered.

Your company purchased for \$1,175,000 the 10 per cent. minority capital stock of the Ontario Refining Company, Limited, and the latter is now a wholly owned subsidiary.

Ore Reserves

Proved ore reserves at December 31, 1935, were 205,590,592 tons. Additional ore proved during the year amounted to 4,573,538 tons.

Outlook

International use of nickel for industrial purposes is essentially dependent upon assured source of supply, prompt deliveries, and price schedules advantageous to consumer and producer alike. Furthermore, it is necessary at all times, while avoiding undue expansion, to maintain reserve productive capacity and adequate stocks of metal. In furtherance of this policy your plants in Canada and Great Britain are being enlarged with due regard to balanced operations from mine to market.

Sales and development activities, now world-wide in scope, have been augmented as new uses for your metals have been found. The potential field of application for nickel is extensive and in a large measure still unexplored.

The trend of consumption has been upward for nearly four years and more nickel is being used currently than ever before. It is not unreasonable to assume that with a continuation of your company's established methods this upward trend will continue as world trade improves.

Employees

The total number of employees at the year end was 12,452, distributed as follows: Canada 8,117, Great Britain 2,990, United States 1,293, other countries 52. Employees on December 31, 1934, numbered 9,154. The increase, amounting to 36 per cent., was due to the increased scale of operations and to the construction work in progress in Canada and Great Britain.

During 1935 an average of 1,894 men was employed at Copper Cliff, 456 at Coniston, 2,243 at Frood, and 883 at Creighton. Of these, an average of 1,835 was employed underground at Frood, and 552 at Creighton.

Donald MacAskill is general manager; R. D. Parker, general superintendent; H. J. Mutz, superintendent of mines; S. J. Kidder, superintendent of the Creighton mine; F. J. Eager, superintendent of the Frood mine.

Van Nickel Mines, Limited

In January, 1935, the name of Delta Metals, Limited, was changed to Van Nickel Mines, Limited. It has an authorized capitalization of 4,000,000 shares of \$1 par value. Wm. Spears is president, and Dr. W. R. Naylor, vice-president. The head office is at 43 Victoria Street, Toronto.

In March work was started on the property of the Delta Mines Syndicate, located about 5 miles northwest of Worthington in Drury township, district of Sudbury.

In August a 2-compartment vertical shaft was started. Sinking was suspended at the end of September at a depth of 65 feet, and surface work done for the balance of the year.

The plant installed included a 55 h.p. boiler, an 8- by 10-inch steam hoist, and a 200-cubic-foot compressor, which was replaced by a 1,000-cubic-foot compressor after sinking was suspended. Buildings erected included a powerhouse, magazine, and cap-house. A bunk-house, cookery, office, blacksmith shop, and assay office had been erected in previous years.

An average of 12 men was employed during the year, under the direction of W. F. Taylor. The mine address is Worthington.

PEAT

Caledon Peat Company

A few miles south of Orangeville, in lot 27, concession I, Caledon township, Peel county, the Caledon Peat Company produced from 100 to 150 tons of peat fuel, which sold at approximately \$10.00 per ton. The work was done under the direction of C. H. Burbridge and J. Pollock, Brampton.

The deposit is quite small, only 3 to 4 acres. The peat ranges from 4 to 5 feet in thickness with a few inches of humus and grass covering it. The actual operation consisted in cutting the peat out in blocks and spreading it on the ground to dry.

In quality the peat fuel is fairly good, having a low ash and good heating content. The operation ceased in the fall of 1935.

H. L. Hodgkins and Son

At a peat operation near the Forks Road, 5 miles from the village of Wainfleet, Wainfleet township, Welland county, 75 tons of peat fuel was produced and sold in the neighbouring towns. The fuel sold for \$7.00 per ton at the bog, and \$8.00 per ton delivered. The operators are H. L. Hodgkins and Son, R.R. 2., St. Ann's.

The peat is about $5\frac{1}{2}$ feet thick. The upper $1\frac{1}{2}$ feet is a mossy peat, which is sold to the nurseries for packing trees and shrubs; the lower 4 feet is a fair quality peat, rather high in ash.

The raw peat is processed in a manner similar to the Leasa operation near Stratford. The raw material is fed into a rebuilt clay pug mill, mixed, caught on drying racks, and placed in the open to dry. In all, about 7 men were employed for the greater part of the summer months.

Wm. Leasa

The largest peat operation in the province for the past year is located in lot 11, concession X, Ellice township, county of Perth, some seven miles north of Stratford. The operator is Wm. Leasa, Milverton.

The deposit is 1,200 acres in size. The area is wooded around the margin with small poplar, and in the centre, grasses and small shrubs are abundant. The thickness of peat utilized for peat fuel is only one foot.

The peat fuel is prepared by passing the raw peat through a clay pug mill, in which the peat is mixed to a soft plastic pulp. By means of a force feed the soft pulped peat is extruded from shaping mouthpieces on to drying racks. When only partially dry, the peat blocks are taken off the racks and placed in a drying shed.

During the summer of 1935 between 550 and 800 tons of peat fuel was produced and sold at \$7.00 per ton, delivered. The quality of the fuel is fairly good, having a high heating content, but also high in ash.

Northern Peat Company

The Northern Peat Company, under the direction of W. B. Brewer, Timmins, produced and sold in Timmins 100 to 150 tons of machine-made peat fuel at approximately \$9.75 per ton delivered, or 18 cents per bushel.

The deposit is located $5\frac{1}{2}$ miles west of Timmins in lot 8, concession III, Mountjoy township, district of Cochrane, and is estimated to contain at least 100,000 tons of peat. The thickness varies from a few inches at the margins to over 20 feet in the central zone.

In much the same manner as the Leasa and Hodgkins peat operations, raw peat is cut and broken down by knives rotating in opposite directions. The pulped peat then passes through extruders on to racks and is dried.

During 1936 the operator will try out new methods of handling both the raw and pulped peat. Handling of the raw peat is a very important factor, since seven to nine tons of raw peat are required to make one ton of salable peat fuel.

G. Runke and Sons

G. Runke and Sons, 115 Cameron Street, Kitchener, produced and sold about 115 tons of peat fuel from a small bog, 20 acres in extent, situated in the upper part of the German tract, lot 55, Waterloo township, Waterloo county. The fuel sold readily in Kitchener, and according to the operators many times the quantity produced in 1935 can be sold in the area surrounding the deposit.

The thickness of peat that is used for peat fuel runs from $1\frac{1}{2}$ feet to 2 feet. Approximately 8 inches of moss, covered by grass and small shrubs, overlies the peat. The quality is excellent, being low in ash and high in heating value.

The processing is carried on with a rebuilt brick press, which produces a very solid peat fuel, which sells at \$7.00 per ton, delivered in Kitchener.

From 7 to 10 men were employed for the greater part of the summer.

RADIUM

Canada Radium Mines, Limited

Canada Radium Mines, Limited, has a capitalization of 2,500,000 shares of no par value, of which 1,561,037 shares have been issued. The property consists of 750 acres in Cardiff township, Haliburton county. The officers and directors are: K. W. Wright, president; I. L. Fletcher, secretary-treasurer; Frank Austin, managing director; A. Arthur, Geo. F. McCandless, E. W. Austin, and John G. Cole, directors. H. L. McClelland is consulting engineer. The head office is at 244 Bay Street, Toronto. The mine address is Cheddar.

The shaft has been sunk to a depth of 388 feet, with levels at 125, 250, and 365 feet. Approximately 1,200 feet of lateral work has been done.

About 15 men are employed at the mine.

SILVER AND COBALT

Bellorain Mines, Limited

Bellorain Mines, Limited, has an authorized capitalization of 1,000,000 shares of no par value. M. Lebovitz, Cobalt, is president; and Max Kaplan, Kirkland Lake, is secretary-treasurer. The address is Box 206, Cobalt.

The company acquired the old Bellellen property in South Lorrain township, district of Timiskaming. Previous operators had sunk a shaft to a depth of 400 feet and done considerable lateral work.

The present owners operated from July 15 to November 10, 1935, employing an average of 24 men. Some 77 feet of diamond-drilling was done; ore hoisted amounted to 39.5 tons; and shipments of ore, having a value of \$1,687 in silver and \$3,067 in cobalt, were made.

Cobalt Properties, Limited

Cobalt Properties, Limited, is capitalized at \$25,000, in shares of \$1 par value. The officers are: Ambrose Murphy, president; Arthur Brocklebank, managing director; T. Wainwright, vice-president; H. E. Tomney, secretary-treasurer; Agnes Reid, director. The head office is at Cobalt.

The company owns the following properties in the township of Coleman, district of Timiskaming: Coniagas, Mining Corporation, Right of Way, McKinley-Darragh-Savage, and Cobalt Townsite.

During the year 74 feet of drifting was done and 854 tons of ore were hoisted, from which 279,414 ounces of silver were produced. An average of 72 men was employed.

Cobnor Silver Mines, Limited

Cobnor Silver Mines, Limited, owns one claim of 40 acres in the township of Bucke, district of Timiskaming. The company is capitalized at 750,000 shares of no par value. The officers and directors are: M. King, president; Norman D. Johnston, vice-president; C. B. Munday, secretary-treasurer; Percy Luscombe, managing director; Edmund Eaves and Edward Smith, directors. H. F. Fancy is mine manager. An average of 20 men is employed.

The property was reopened on September 9, 1935, and the following work was done to the end of the year: drifting, 485 feet; crosscutting, 20 feet; ore hoisted, 900 tons; waste hoisted, 900 tons. About 20 tons of cobalt ore was shipped. The mine address is Cobalt.

Comet Leasing Company

Jas. H. Price and Bruce Williams, of Kirkland Lake, leased the Drummond mine in Coleman township, district of Timiskaming, under the name of the Comet Leasing Company.

Two men were employed throughout the year. Shipments totalling 23,010 ounces of silver, valued at \$14,862, were made.

Dean and Downey

J. C. Dean and Ralph Downey, of Cobalt, leased the surface at the Wettlaufer mine in South Lorrain township, district of Timiskaming, and employed 3 men from April 24 to September 24 in picking over the dumps.

From 135 tons of ore shipped, a recovery of 6,538 ounces of silver, valued at \$4,309.00, was obtained.

Hudson Bay Mines, Limited

The property owned by Hudson Bay Mines, Limited, in Coleman township, district of Timiskaming, was leased to several operators during 1935.

Shipments of ore yielded a total of 1,527 ounces of silver, valued at \$774. The company's address is Box 700, New Liskeard.

George Martin

The Crown Reserve mine in Coleman township, district of Timiskaming, was leased to George Martin, of Cobalt.

Three men were employed from May 1 to December 31 sorting ore from the dumps, and 4 men were employed in the mill from June to October.

Shipments amounting to 10,551 ounces of silver, valued at \$6,208, were made.

H. G. Miller

H. G. Miller, Silver Centre, leased the dumps on the Canadian Lorrain property, in South Lorrain township, district of Timiskaming, and employed three men during part of October and November picking over the rock in the dumps. A recovery of 812 ounces of silver, valued at \$357, was obtained from 16 tons of ore shipped.

Mr. Miller also leased the Keeley mine in South Lorrain township and employed four men from May to November to pick over the dumps. Shipments from this property yielded 2,412 ounces of silver, having a value of \$1,226.

A. G. Morgenthalar

A. G. Morgenthalar, 2108 South Second Street, Philadelphia, Pa., acquired the old Beaver mine in Coleman township, district of Timiskaming. The property was operated throughout the year, with an average force of 8 men.

Development work amounted to 112 feet of winze-sinking, 180 feet of drifting, and 30 feet of crosscutting. About 305 tons of ore were hoisted, which yielded 51,771 ounces of silver, valued at \$31,770.

Morrison Mines, Limited

Morrison Mines, Limited, has a capitalization of \$3,000,000, in shares of \$1 par value. The officers and directors are: Horace F. Strong, president and manager; H. D. Fripp, vice-president; Jas. F. Cunningham, secretary-treasurer; W. W. Robinson and Jos. Montgomery, directors. The head office is at 165 Sparks Street, Ottawa.

The property consists of two claims, T.C. 204 and 205, in Nicol township, district of Timiskaming.

Operations at the mine were resumed in June, 1935, after a period of idleness since December, 1930. The shaft was sunk an additional 162 feet, and new levels were established at 500 and 575 feet. The following table shows the work done on these levels:—

	500-foot level	575-foot level
	feet	feet
Drifting.....	192	44
Crosscutting.....	120	86
Raising.....	66

About 700 tons of ore and 3,800 tons of waste rock were hoisted. Production amounted to 28,526 ounces of silver.

An office and an addition to the shaft-house were built. Operations ceased at the end of the year, during which an average of 18 men was employed.

Mosher, Richardson, and Lafrange

I. E. Mosher and associates, of Cobalt, leased the Buffalo mine in Coleman township, district of Timiskaming, and made a clean-up of the mill from June 10 to October 12, 1935.

Some 46 tons of residues and precipitates, having a silver content of 5,597 ounces, valued at \$3,582, were sold to Noranda Mines, Limited.

Nipissing Mining Company, Limited

Nipissing Mines Company, Limited, has a capital of 1,200,000 shares of \$5 par value. The directors of the company are: E. P. Earle, president and treasurer; Alexander Fasken, vice-president and secretary; Richard T. Greene, Dr. F. R. Bennetto, C. W. Nichols, Halstead Lindsley, and Hugh Park, directors. The head office is at the Excelsior Life Building, Toronto, and the New York office is at 165 Broadway.

The operating company is the Nipissing Mining Company, Limited, with a capital of 2,500 shares of \$100 par value. The officers and directors of the company are: Alexander Fasken, president and secretary; E. P. Earle, vice-president and treasurer; Richard T. Greene, C. W. Nichols, Dr. F. R. Bennetto, Halstead Lindsley, and Hugh Park, directors. Hugh Park, Cobalt, is general manager.

Mining operations at the property in Coleman township, district of Timiskaming, consisted principally of the extraction of cobalt ore at No. 81 shaft. An average of 38 men was employed, some in mining work and some on surface, in connection with shipping residue and general clean-up.

The following is an extract from the general manager's report for the year ending December 31, 1935:—

Operations at the Cobalt property were of the same nature as in the previous year, consisting largely of mining cobalt ore, shipping cobalt-nickel-arsenic residues, and recovering silver clean-up from various parts of the property, all operations showing a profit. Total shipments amounted to 4,380 tons, as against 1,692 tons in 1934. There was an increased demand and higher prices for cobalt, with the result that shipments of residue were 1,000 tons greater than in 1934.

The following shipments were made during the year:—

	Tons	Ounces silver
Fine bullion.....	39.75	1,158,985.50
Clean-up.....	552.32	57,800.22
Leasers' ore.....	1,884.39	90,883.58
Residue.....	1,615.13	112,673.43
Cobalt ore.....	288.49
Total.....	4,380.08	1,420,342.73

There was considerable variation in the price of silver, the variations at times being extreme from day to day, with comparatively long periods of more or less constant quotations. The year opened at 55 cents; a low of 53½ cents was recorded on February 1; a high of 81 cents on April 26; the average for the year was 64.27 cents, closing at 49¾ cents. During most of February and March of 1936 the price has been fairly constant at 44¾ cents.

The stock of refined bullion held in storage at Cobalt was sold in December at varying prices, averaging 62 cents per ounce. This silver was held during the severe decreases during the past three or four years, including the low of 24¼ cents in 1932.

There still remains some indeterminate amounts of cobalt and silver in scattered surface workings and in dumps, which might be profitably concentrated if prices for both metals remain at their present levels.

Some ore was also obtained on the property by leasers. The recovery in given in the company's table of shipments above.

M. J. O'Brien, Limited

Cross Lake Mine

The Cross Lake mine in Coleman township, district of Timiskaming, is owned and operated by M. J. O'Brien, Limited. J. G. Dickenson is general manager, and W. A. O'Flynn is manager. About 105 men are employed. The mine address is Cobalt.

The following development work was done in 1935: drifting and cross-cutting, 4,585 feet; raising, 446 feet; sinking, 10 feet.

The following table shows the ore hoisted and milled in 1934:—

	Tons
Total tons broken.....	44,597
Ore hoisted.....	25,860
Waste hoisted.....	16,553
Ore milled.....	25,863
Custom ore milled.....	4,649

The silver recovered amounted to 1,036,643 ounces, of which 138,783 ounces was from custom ore. There were shipped:—

Cobalt.....	lbs.	60,545
Copper.....	lbs.	35,969
Lead.....	lbs.	13,136
Gold.....	ounces	6.7

Miller Lake O'Brien Mine

The Miller Lake O'Brien mine, Nicol township, district of Timiskaming, is owned and operated by M. J. O'Brien, Limited. J. G. Dickenson is general manager and H. G. Kennedy is manager. The mine address is O'Brien. The average number of men employed was 95.

The 1934 report is as follows:—

	Feet
Drifting.....	1,871
Crosscutting.....	963
Raising.....	24
Sinking.....	56
	Tons
Ore stoped.....	18,918
Ore and waste broken.....	28,375
Ore hoisted.....	20,691
Waste hoisted.....	7,559

J. C. O'Donald

In 1935, J. C. O'Donald, Cobalt, leased the old Silver Queen mine in Coleman township, district of Timiskaming, for three years.

During the year a shaft was sunk 64 feet and a shaft-house, machine shop, and dry were built.

About 60 tons of low-grade ore was hoisted, and 500 tons of waste. The production for the year amounted to \$1,269 in silver and cobalt. An average of 12 men was employed under Mr. O'Donald's supervision. The post office address is Box 286, Cobalt.

C. W. Price

The Foster mine in Coleman township, district of Timiskaming was operated under lease by C. W. Price, Cobalt, who employed 2 men. Shipments of ore yielded 1,591 ounces of silver, having a value of \$969, and cobalt to the value of \$130.

Rowe and Stuckey

Alfred Rowe and Charles Stuckey, of Cobalt, leased the surface and dumps of the Frontier mine, in South Lorrain township, district of Timiskaming, during 1935. Shipments of silver ore and mill rock yielded 14,000 ounces of silver and 13,000 pounds of cobalt.

Sandoe and Moyle

The Temiskaming mine in Coleman township, district of Timiskaming, was leased to Richard Sandoe and H. Moyle, of Cobalt.

Production amounted to 10,246 ounces of silver, valued at \$6,660, and 12,844 pounds of nickel-cobalt ore, valued at \$534.

Silver Cliff Syndicate

R. H. Lyman leased the old Silver Cliff mine in Coleman township, district of Timiskaming, in April, 1935, and operated it as lessee until August. From then until November 26 he operated as manager for the Silver Cliff Syndicate. Mr. Lyman died on November 30.

During these operations there were sent to the O'Brien mill 694 tons of ore, which yielded 19,404 ounces of silver, valued at \$11,836.

Silverado Gowganda Mines, Limited

Silverado Gowganda Mines, Limited, held under lease nine claims in the Gowganda area, Leith township, district of Timiskaming. F. E. Forster, 347 Bay Street, Toronto, is secretary of the company.

Work was started on May 15, 1935, and continued until December 1, an average force of 20 men being employed. About 337 feet of drifting and 78 feet of crosscutting were done.

Donald E. Sirola

Donald E. Sirola, Kirkland Lake, operated the Colonial mine in Coleman township, district of Timiskaming, under lease, from June to December 31, 1935. Production amounted to 11,860 fine ounces of silver and 669 pounds of cobalt.

An average of 7 men was employed.

Smith Cobalt Mines, Limited

Smith Cobalt Mines, Limited, has a capitalization of 4,000,000 shares of \$1 par value. The officers and directors are: W. H. Smith, president; A. A. Amos and E. F. Armstrong, vice-presidents; A. Kelso Roberts, secretary-treasurer; R. D. Hoffman, director. The head office and mine office are at Cobalt. The secretary's office is at 320 Bay Street, Toronto.

The property is in Coleman township, district of Timiskaming, east of Cross lake. Operations were carried on from May to December 31, 1935, an average of 21 men being employed. The following work was done:—

Level	Winze-sinking	Station-cutting	Drifting and cross-cutting	Raising	Stoping
450-foot.....	feet 17	cu. ft. 3,259	feet 931	feet 19	cu. ft. 1,508
500-foot.....	59	520	365

About 9,570 pounds of cobalt ore was shipped. The late G. S. Scott was manager until August, and was succeeded by D. G. Russell.

A. Wood

The old mill of the Dominion Reduction Company, at Cobalt, was leased to A. Wood. Two men were employed from July 5 to November 10 in making a clean-up of the plant. Screenings from the mill site yielded 10,694 ounces of silver, valued at \$4,307, and 165 ounces of gold, valued at \$5,198. This mill at one time treated high-grade gold ores from several Ontario properties.

TALC

Canada Talc Company, Limited

The mine and mill of the Canada Talc Company, Limited, at Madoc, Huntingdon township, Hastings county, were operated throughout the year with an average force of 18 men. The officers and directors of the company are: W. S. Morden, president; E. S. James, vice-president; Roy Taylor, Madoc, secretary and manager. The company owns 50 acres. The capitalization is \$50,000.

During 1935, 250 feet of shaft-sinking and 850 feet of drifting were done. Ore hoisted and milled amounted to 6,379 tons.

Geo. H. Gillespie Company, Limited

The officers and directors of the Geo. H. Gillespie Company, Limited, are: Geo. H. Gillespie, president; M. H. Ludwig, secretary-treasurer; Alexander Longwell, director. The head office and mine office are at Madoc.

The property, which is called the Henderson mine, consists of 400 acres in Huntingdon township, Hastings county.

The production for 1935 was 7,330 tons mined and milled. L. Ashley is manager. About 12 men were employed in 1935.

METALLURGICAL WORKS

Algoma Steel Corporation, Limited

During 1935 only one blast furnace was operated by the Algoma Steel Corporation, Limited, located at Sault Ste. Marie. No. 4 furnace was in blast from February 8 to December 31, and produced a total of 119,394 gross tons of iron.

Jas. H. Bell was blast furnace superintendent.

Canadian Furnace Company, Limited

The Canadian Furnace Company, Limited, at Port Colborne, operated the furnace from January 1 to February 1, and from June 20 to December 31, in 1935. The production for the year was as follows:—

	Gross tons
Pig iron.....	64,484
Spiegeleisen.....	8,937
Total.....	73,421

The officers of the company are: Frank B. Baird, Buffalo, N.Y., president; Richard C. Yates, Port Colborne, vice-president and manager; Frederick C. Slee, Buffalo, N.Y., secretary. W. J. Higgins, Port Colborne, is superintendent. The average number of men employed during 1935 was 102.

Canadian Industries, Limited

During 1935 the plant of Canadian Industries, Limited, located at Copper Cliff, was in continuous operation.

The three 50-ton-per-day sulphuric acid units were operated to capacity. These units manufacture the acid from converter gases produced at the smelter of the International Nickel Company. The oleum unit was also operated to capacity. The nitre-cake unit, in which sodium sulphate is treated with sulphuric acid to produce nitre cake, used in the Orford process of separating nickel from copper, was operated at about 70 per cent. of capacity.

An average of 46 men was employed. E. Jordon was plant manager.

Deloro Smelting and Refining Company, Limited

The blast furnace at the plant of the Deloro Smelting and Refining Company, Limited, operated for short periods during each quarter in 1935. Silver production amounted to 2,090,737 ounces. Arsenic and cobalt products, including stellite, were also produced.

The officers of the company are: M. J. O'Brien, chairman of the board; J. A. O'Brien, president; S. F. Kirkpatrick, vice-president and managing director; S. B. Wright, general manager; F. A. Bapty, secretary-treasurer; R. A. Elliott, works superintendent.

International Nickel Company of Canada, Limited

The refinery of the International Nickel Company of Canada, Limited, at Port Colborne was operated continuously throughout the year. An account of the operations appears on page 178 of this report.

Ontario Refining Company, Limited

The copper refinery of the Ontario Refining Company, Limited, situated at Copper Cliff, was operated continuously during 1935. Operations were increased from 85 per cent. of the rated capacity of the plant at the first of the year to about 95 per cent. at the end of 1935.

By-product departments were further expanded. A new selenium recovery plant was built and put in operation in March. A Cottrell unit was being installed at the end of the year to reduce the dust losses in the by-product departments.

The refinery operated chiefly on blister copper from the smelter of the International Nickel Company, although several lots of gold ores, gold-bearing slags, and mattes from various Canadian mines were treated during the year.

An average of 547 men was employed, in comparison with 462 in 1934. F. Benard was plant manager.

Steel Company of Canada, Limited

The Steel Company of Canada, Limited, operated "B" furnace for 365 days, with a production of 208,230 gross tons of pig iron. The average number of men employed was 87. R. A. Gillies is blast furnace superintendent.

The officers of the company are: Charles S. Wilcox, chairman of the board; R. H. McMaster, president; H. M. Jaquays and H. T. Diplock, vice-presidents; H. H. Champ, vice-president and treasurer; H. S. Alexander, secretary; S. E. Le Brocq, comptroller. The address is Hamilton.

MINING ACCIDENTS IN 1935

Chief Inspector of Mines, D. G. Sinclair, Toronto; Inspectors, E. B. Weir, Timmins; E. C. Keeley, Kirkland Lake; D. F. Cooper, Sudbury; A. R. Webster, Toronto.

Accidents during 1935

During the year 1935 at the mines, metallurgical works, quarries, and clay, sand, and gravel pits regulated by *The Mining Act*, there were 2,079 accidents to employees reported to the Department of Mines up to January 16, 1936. Thirty-five fatalities arising out of 31 separate accidents were reported.

These returns represent an increase of 134 in the total number of accidents and an increase of 1 in the number of fatalities recorded over the preceding year.

The report shows a fatality rate of 1.52 men killed per thousand men employed, which is a decrease of 0.13 from the rate for the preceding year and 1.09 per thousand lower than the average for the past twenty-five years.

There were 90 non-fatal accidents per thousand men employed, which is a decrease of 3 per thousand from the rate for 1934.

The percentage of non-fatal accidents followed by infection increased from 7.1 in 1934 to 7.4 in 1935.

Fatal Accidents

A comparison of fatal accidents for the past five years is given below:—

Distribution	1931	1932	1933	1934	1935
Mines, underground.....	21	17	20	23	25
Mines, surface.....	8	0	1	2	2
Metallurgical works.....	1	1	1	5	3
Quarries.....	2	1	0	1	0
Clay, sand, and gravel pits.....	4	4	2	2	1
Total.....	36	23	24	33	31

By months the fatal accidents occurred as follows:—

Month	No. accidents	No. men killed
January.....	4	4
February.....	1	1
March.....	1	2
April.....	1	1
May.....	0	0
June.....	3	5
July.....	4	4
August.....	5	5
September.....	5	5
October.....	4	5
November.....	2	2
December.....	1	1
Total.....	31	35

Classifying the fatalities according to industries gives the following:—

Gold mines.....	23
Nickel mines.....	8
Silver mines.....	0
Talc mines.....	0
Metallurgical works.....	3
Quarries.....	0
Sand, gravel, and clay pits.....	1
Total.....	35

ANALYSIS OF FATALITIES AT MINES, 1931-1935

Cause	1931	1932	1933	1934	1935
	per cent.	per cent.	per cent.	per cent.	per cent.
Fall of ground.....	31	21	23	31	45
Run of ore or rock.....	3.5	5.3	9	8	6.5
Shaft accidents.....	17.2	15.8	9	8	10
Explosives.....	6.9	31.6	9	18	16
Miscellaneous, underground.....	13.8	26.3	45	27	16
Surface.....	27.6	5	8	6.5

TABLE OF FATAL ACCIDENTS IN MINES, METALLURGICAL WORKS, QUARRIES, AND GRAVEL, SAND, AND CLAY PITS, 1911-1935

Year	Persons killed at metallurgical works and mines	Persons employed at metallurgical works and producing mines	Persons employed at non-producing mines (estimated)	Total persons employed	Fatal accidents per 1,000 employed
1911.....	49	12,543	2,000	14,543	3.37
1912.....	43	13,108	2,000	15,108	2.84
1913.....	64	14,293	2,000	16,293	3.93
1914.....	58	14,361	1,500	15,861	3.6
1915.....	22	13,114	1,500	14,614	1.51
1916.....	51	14,624	2,000	16,624	3.07
1917.....	36	16,791	1,000	17,791	2.02
1918.....	32	14,726	500	15,226	2.1
1919.....	39	11,926	1,000	12,926	3
1920.....	29	10,486	1,000	11,486	2.61
1921.....	24	8,436	1,000	9,436	2.54
1922.....	30	9,500	1,500	11,000	2.72
1923.....	30	10,500	1,500	12,000	2.5
1924.....	40	11,000	1,500	12,500	3.2
1925.....	42	11,500	1,500	13,000	3.23
1926.....	32	11,500	1,500	13,000	2.46
1927.....	33	13,311	2,000	15,311	2.1
1928.....	85	15,787	2,000	17,787	4.76
1929.....	55	17,145	1,849	18,994	2.89
1930.....	56	18,217	317	18,534	3.02
1931.....	37	17,820	447	18,267	2.03
1932.....	25	14,378	431	14,809	1.69
1933.....	25	15,080	804	15,884	1.57
1934.....	34	19,302	1,254	20,556	1.65
1935.....	35	21,444	1,528	22,972	1.52

The comparative fatality rate per thousand men employed at mines, metallurgical works, quarries, and clay, sand, and gravel pits is as follows:—

	Men employed	No. killed	Rate per thousand
Mines.....	17,193	31	1.80
Metallurgical works.....	4,479	3	.63
Quarries.....	700	0	0
Clay, sand, and gravel pits.....	600	1	1.67
Total.....	22,972	35	1.52

The ages of the men killed were as follows:—

17-20	21-25	26-30	31-35	36-40	41-45	46-50	Over 50	Total
1	6	6	7	6	5	2	2	35

The occupation and nationality of the men killed at mines, metallurgical works, and clay, sand, and gravel pits are set out in the following table:—

Occupation	British	Czecho-Slovakian	Finn	Italian	Jugo-Slav	Norwegian	Pole	Ukrainian	Total
Chute-blaster.....					1				1
Conductor.....	1								1
Driller.....	3	1		2	1		1		10
Hoistman.....	1								1
Labourer.....	1								1
Machine helper.....	1	1							2
Mucker.....				2	2		1		5
Pumpman.....	1								1
Scaler.....					1				1
Shaft leader.....	1								1
Shaftman.....			1			1			2
Shoveller.....							2		2
Slusherman.....	1								1
Stope boss.....			1						1
Switchman.....	1								1
Tableman.....	1								1
Teamster.....	1								1
Timberman.....								1	1
Unitman.....	1								1
Total.....	16	2	2	4	5	1	4	1	35

Non-fatal Accidents

The causes of non-fatal accidents at mines are shown in the following table:—

Cause	Surface	Under-ground	Total
Fall of persons.....	107	157	264
Falling objects.....	62	131	193
Rock or ore at chute.....		138	138
Flying objects, sledging, etc.....	28	105	133
Handling rock or ore.....	5	116	121
Fall of rock or ore, scaling, drilling, etc.....		120	120
Crushed between two objects.....	25	90	115
Hand tools.....	51	51	102
Tramming.....	7	92	99
Fall of rock or ore at face.....		80	80
Strain while lifting.....	28	51	79
Nails or splinters.....	24	43	67
Drilling machines.....		65	65
Machinery.....	45	9	54
Running into or striking objects.....	7	40	47
Cage, skip, or bucket.....		27	27
Burns.....	20	4	24
Fall down shaft, winze, or stope.....		16	16
Explosives.....		11	11
Air or rock blast.....		8	8
Poisoning from cyanide.....	4		4
Electricity.....	3		3
Gas.....	2	1	3
Explosions from carbide.....	1	1	2
Unclassified.....	14		14
Total.....	433	1,356	1,789

The causes of non-fatal accidents at clay, sand, and gravel pits were:—

Fall of material	5	Strain while lifting	3
Fall of persons	4	Falling objects	1
Crushed between two objects	3	Hand tools	1
Machinery	3		
Transportation	3	Total	23

The causes of non-fatal accidents at metallurgical works were:—

Falling objects	32	Transportation	4
Fall of persons	21	Hand tools	4
Machinery	10	Strain while lifting	3
Flying objects, sledging, etc.	10	Nails or splinters	2
Burns	7	Burns by acid	2
Burned by slag, matte, or scrap	5	Electricity	2
Cranes, ladles, hooks	5	Gas	1
Crushed between two objects	4		
		Total	112

The causes of non-fatal accidents at quarries were:—

Handling material	31	Machinery	5
Fall of rock	14	Crushed between two objects	5
Fall of persons	14	Derrieks, cranes, etc.	3
Flying objects, sledging, etc.	12	Explosives	3
Hand tools	10	Nails or splinters	3
Falling objects	8	Electricity	1
Transportation	8		
Strain while lifting	7	Total	124

Infection

Location	No. of accidents	Accidents followed by infection	Per cent. infection
Mines, underground	1,356	103	7.6
Mines, surface	433	38	8.8
Metallurgical works	112	2	1.8
Quarries	124	9	7.2
Clay, sand, and gravel pits	23		
Total	2,048	152	7.4

Accidents from Explosives

Cause	Non-fatal		Fatal		Total	
	No. of accidents	Men injured	No. of accidents	Men killed	No. of accidents	Men killed or injured
Delayed too long blasting	3	3	2	2	5	5
Drilled into explosive	2	3			2	3
Unexplained blast	2	2			2	2
Concussion from blast	2	2			2	2
Cap exploded while being tested	1	1			1	1
Hit by rock from blast	2	2	1	1	3	3
Walked into blast	1	1			1	1
Fumes from blasting			1	2	1	2
Total	13	14	4	5	17	19

Electric Accidents

The following table shows the fatal accidents due to the use of electricity at mines, metallurgical works, and quarries during the last ten years:—

1926	1927	1928	1929	1930	1931	1932	1933	1934	1935	Total
.....	2	1	6	9

Kirkland Lake Hospital.

The following table shows the total number of non-fatal electric accidents during the last ten years:—

1926	1927	1928	1929	1930	1931	1932	1933	1934	1935	Total
5	10	4	14	10	7	3	4	4	6	67

Classification of Non-fatal Accident Rates at Producing Mines

In the following table the producing mines are arranged in order, according to their rate of non-fatal accidents per thousand men employed:—

0-50	{	Canadian Gypsum Howey McIntyre-Porcupine
50-100	{	O'Brien (Cobalt) International Nickel (Frood and Creighton) Minto (Jubilee) Miller Lake O'Brien Nipissing Sylvanite Kirkland Lake Gold Naybob (Hayden) Hollinger Dome Darwin Tashota J-M Consolidated Lake Shore Young-Davidson Northern Empire

Mine Fires

Hollinger Consolidated Gold Mines, Limited

About 5.30 A.M., January 27, a small fire was discovered in a by-pass chute at the 975-foot station off the Central shaft at the Hollinger mine.

The discovery was made by Joseph Bell, night-shift ore-pass operator on the 675-foot level. Bell had smelled wood smoke while at his work on the 675-foot

level and, being unable to locate the source of the smoke on that level, descended first to the 800-foot level and eventually to the 975-foot level, where he located the fire in the timbers of an unused by-pass chute behind the shaft. Two 12-foot 10- by 10-inch timbers, bolted together to form the end posts of this chute, were found to be smouldering. A section of these timbers extending from the floor of the level to a height of 8 feet was charred along the contact of the two timbers to a maximum depth of 5 inches. In the centre of the burned section the 20-inch face formed by the two timbers was charred across the full width.

The fire was easily extinguished and no material damage was done, but the consequences might have been serious indeed had it not been for the persistence of Bell in tracing the origin of the slight smoke he noticed on the 675-foot level.

During the afternoon of January 26 a crew of repair men had used an oxy-acetylene torch to cut out some plates and bolts at this chute and the original ignition of the timbers is presumed to have been due to this operation. The last cutting with the torch was completed about 2 P.M. and, although this crew worked at the location for nearly an hour and three-quarters after the last use of the torch, they noticed no indication of fire up to the time they stopped work and went to surface.

While it seems that from 2 P.M. to 5.30 A.M. was an almost incredible length of time for the fire to smoulder without spreading farther, this is partly accounted for by the nature of the wood in the posts—it was dry-rotted on the outer surface—and by the fact that until the waste-pass was drawn by the night shift there was little or no circulation of air through this by-pass.

It is thought that either the flame of the oxy-acetylene torch impinged on the joint between the two timbers while the cutting operations were under way or that a splash of molten metal became lodged in the joint and caused the fire.

International Nickel Company of Canada, Limited

On April 15, at 1.15 A.M., a smouldering timber was discovered by Motor Repairman F. Anderson at the 26th level crusher station, Creighton mine. It was thoroughly wetted and all signs of fire were easily extinguished.

An acetylene torch had been used in the vicinity on the previous shift to "burn" some crusher plates overlying this timber, and it is presumed that this operation was responsible for the ignition.

Lake Shore Mines, Limited

A small fire broke out in the hoist-room of No. 1 shaft, 2,000-foot level of the Lake Shore mine, on the afternoon of April 12.

This hoist-station contains the hoist-room proper and the adjoining grid-room, which is separated from the hoist-room, by a partition of metal lath and plaster, erected on 2- by 6-inch studding. Ventilation in the station is usually supplied by a fan. At the time of the fire, however, a repair job was being carried on and the fan was temporarily shut off.

The fire was confined to one stud and is presumed to have originated from the heat generated in the grids.

No damage was done, but, in order to guard against a repetition of the occurrence, the old partition was torn out and replaced by a concrete wall.

Porcupine Lake Gold Mining Company, Limited

Fire broke out in the shaft of the Porcupine Lake mine (formerly the Hunter) on the night of November 18, completely destroying three sets of shaft timbers,

including the collar set, and damaging the three sets immediately below. The sills of the shaft-house were also damaged, and approximately 170 square feet of shaft-house flooring was burned.

After the watchman discovered the fire, between 10.30 and 10.45 p.m., its progress was retarded by good work on the part of a quickly organized bucket brigade, who worked until the arrival of the chemical truck and firemen from South Porcupine. But for the prompt action of the watchman and his hastily summoned assistants, and the timely arrival of the fire department with chemical extinguishers, the entire shaft-house and boiler-compressor-hoist-house, which stands much too near the shaft-house, would undoubtedly have been destroyed.

Until early in October, when the buildings were repaired preparatory to dewatering the mine and examining the underground workings, no work had been done at this property for a number of years. Dewatering was completed early in November, after which the pumping crew on night shift was laid off and only a watchman-fireman retained on the shift.

The cause of the fire, at the time of writing, remains unknown.

Prosecution

A charge was laid against Norman S. Blue, chute blaster at the Frood mine of the International Nickel Company of Canada, Limited, in connection with a fatal accident to K. Karjula, for blasting in No. 1 north drift on the 2,600-foot level on September 9, without first causing all entrances to be effectively guarded, contrary to Subsection 61, Section 163, of *The Mining Act*.

Blue was convicted of the charge by Magistrate J. S. McKessock at Sudbury on October 9, and a fine of \$10 and costs, or one month in jail, was imposed.

Summary of Rope Tests, 1935

The following is a summary of the tests made in the Wire Rope Testing Laboratories of the Department of Mines during 1935:—

Test for Ontario mines under Act.....	373
Special informative tests for mines.....	11
Tests for wire-rope manufacturers.....	19
Tests for mines outside Ontario.....	21

Total.....	429

Classes for Prospectors, 1935-36

By E. M. Burwash

Introduction

Classes for the instruction of prospectors in mineralogy and geology were held during the past winter as usual, this being the ninth season during which the present instructor has had charge of the classes. The places visited were ten in number, including Hamilton, in which this work had not been done before, and Schreiber, where there had been no classes for a number of years. The numbers in attendance at these two places were fairly satisfactory.

Analysis of Class Attendance

The following table gives detailed information of the last season's work. The heading "Total registration" means enrollment for the daylight classes in mineralogy and petrography. The actual attendance at these classes is given under "Mineralogy." The heading "Geology" refers to attendance at illustrated lectures given in the evening. The column marked "Student hours" contains an estimate of the total hours of study done by the classes as a whole.

TABLE OF ATTENDANCE, 1935-36

Places	Dates	Total registration	Average attendance	Total attendance		Student hours
				Mineralogy	Geology	
	1935		per cent.			
Hamilton.....	Nov. 12.....	62	60.5	300	408	708
Ottawa.....	Nov. 21.....	38	67.4	205	126	419
Sudbury.....	Dec. 2.....	22	57.1	103	60	225
Sault Ste. Marie...	Dec. 12.....	51	60.5	247	127	615
	1936					
Toronto.....	Jan. 2.....	227	70.3	1,277	820	3,135
Fort Frances.....	Jan. 14.....	13	54.8	57	37	151
Fort William.....	Jan. 23.....	62	64.7	321	123	696
Schreiber.....	Feb. 3.....	26	56.25	117	93	320
Kirkland Lake.....	Feb. 13.....	81	63.9	414	286	1,114
Kapuskasing.....	Feb. 24.....	22	64.8	114	154	365
Total.....	604	3,155	2,234	7,748
Averages.....	75.5	62.03	315.5	223.4	774.8

The total registration shows a considerable falling off as compared with the ten places visited a year ago, when the total was 1,084.

COMPARISON OF REGISTRATION BY YEARS

Year	No. of places	Total registration
1927-28.....	16	492
1928-29.....	14	353
1929-30.....	15	281
1930-31.....	15	345
1931-32.....	13	614
1932-33.....	13	1,667
1933-34.....	15	1,257
1934-35.....	10	1,084
1935-36.....	10	604

The conclusion drawn in previous reports that the attendance decreases as the prosperity of business in general advances and increases with depressed business conditions seems well sustained.

Acknowledgments

Acknowledgments are due to the following persons and public bodies who have aided in the promotion of the classes in the various centres where they were held, or who have provided rooms or otherwise assisted our work:—

Hamilton—F. P. Healey, Secretary, and the Hamilton Chamber of Commerce; and McMaster University for use of lecture room.

Ottawa—F. C. C. Lynch and the Geological Survey of Canada for the use of rooms at 227 Sparks Street.

Sudbury—L. E. R. Stephens, Principal, and the Board of the Sudbury Mining and Technical School.

Sault Ste. Marie—A. D. Hone, Principal, and the Board of the Sault Ste. Marie Technical School; W. N. Miller, Mining Recorder.

Toronto—Chester S. Walters, Deputy Minister of Public Works, and the Governors of the University of Toronto for the use of a classroom in the Economics Building, 273 Bloor Street West.

Fort Frances—The Town Council and the Town Clerk, J. W. Walker.

Fort William—H. E. Johnston, Secretary, and the Thunder Bay Chamber of Mines; the Mayor and City Council for the use of their auditorium.

Schreiber—W. A. Spicer, Clerk, and the Mayor and Town Council for use of space in the Town Hall.

Kirkland Lake—H. G. Ginn, Mining Recorder, Swastika, for arrangements for the class at Kirkland Lake.

Kapuskasing—Herbert J. Swetman, Manager, and the Community Club.

The employment of a regular travelling assistant for the classes was abandoned in favour of the securing of local assistance as far as practicable. Jas. E. Thomson, geologist of the Department of Mines, did this work at Hamilton, Schreiber, Kirkland Lake, and Kapuskasing; and D. G. Sinclair, Chief Inspector of Mines, officiated very ably at Sudbury.

Local helpers were D. J. O'Brien at Sault Ste. Marie, J. McVey at Fort Frances, and Douglas Fraser at Fort William, who were employed for this work in whole or in part and performed their respective duties quite satisfactorily.

REPORT
OF THE
INSPECTOR OF LEGAL OFFICES
ONTARIO
1936

PRINTED BY ORDER OF
THE LEGISLATIVE ASSEMBLY OF ONTARIO
SESSIONAL PAPER NO. 5, 1937

TORONTO

Printed and Published by T. E. Bowman, Printer to the King's Most Excellent Majesty
1937

TO THE HONOURABLE HERBERT ALEXANDER BRUCE,

*A Colonel in the Royal Army Medical Corps, etc.,
Lieutenant-Governor of the Province of Ontario.*

MAY IT PLEASE YOUR HONOUR:

The undersigned begs respectfully to present to Your Honour the Annual Report of the Inspector of Legal Offices for the year ending 31st December, 1936.

A. W. ROEBUCK,
Attorney General.

Toronto, March 19th, 1937.

REPORT

OF THE

Inspector of Legal Offices

Ontario, 1936

Parliament Buildings,
Toronto, Ontario.

THE HONOURABLE HERBERT ALEXANDER BRUCE,

*A Colonel in the Royal Army Medical Corps, etc., etc.,
Lieutenant-Governor of the Province of Ontario.*

Sir:—

I have the honour to present my report as Inspector of Legal Offices for the year ending December 31st, 1936.

In the year 1936 all Legal Offices in the Province of Ontario, with the exception of some of the Division Courts, were inspected by either myself, or by one of the Assistant Inspectors.

In five more offices the Government's policy of amalgamating the office of Sheriff with that of Clerk of the County or District Court was carried out. There are now only seventeen Counties or Districts in the Province where such amalgamations have not been effected.

The Magisterial system has been working satisfactorily throughout the Province. On June 1st The Magistrates Act of 1936 became effective and entirely changed the basis of Municipal contributions to the Provincial Treasury covering the expense of operating Magistrates' Courts. Under the old Act, Municipalities were required to pay Magistrates' salaries arbitrarily based on the population of the Municipality, and without regard to the work of the Court. This system was very unfair to some Municipalities, the proof of which lies in the fact that under the terms of the new Act thirty-five out of forty Municipalities now contribute from twenty to eighty per cent less than under the former Act.

The amount of fines collected in each Municipal Court is the basis upon which the contribution to the Government is computed, and the Act calls for forty per cent of the fines and Magistrates' fees to be paid to the Government. By this method the Municipality is not called upon to make any outlay, as the deduction is made by the Magistrate, and the Municipality each month is paid their sixty per cent of the total revenue. Only five Municipalities in the entire Province now contribute more than previously, and this is due to the fact that the Court Calendars in those Municipalities are extremely heavy.

Before our 1936 Report was prepared for the Press, it was with the deepest regret that we were advised of the death of Magistrate Davidson who presided

at the Mimico Court. The late Mr. Davidson was appointed as Magistrate to the Highway Traffic Court, established for the first Highway in the Province, namely, between Toronto and Hamilton, and was the presiding Magistrate from its inception.

Re Juvenile Courts. As intimated in my Report for last year, the negotiations with the County of Wentworth have been completed, and that County, including the City of Hamilton, is now under the purview of The Juvenile Delinquents Act. Some inquiries have been made in regard to the establishment of a Court for Welland County, Algoma District and other places, but nothing definite has as yet been arranged. Might I again express my regrets that the great majority of the Municipalities of the Province have not as yet seen fit to establish a Juvenile Court, and I take this means of advising all Municipal officials that my office will gladly furnish full information in regard to the establishment of these Courts.

Re Division Courts. Contrary to the general impression, the business transacted in the Division Courts is largest in so called "good times". The number of suits entered in these courts showed a continuous increase every year up to 1931, when 121,130 claims for \$5,900,690.00 were entered. During the depression years the business declined rapidly, the low point being reached in 1935, when only 55,419 actions for \$3,003,137.11 were entered.

During last year some of the larger divisions showed quite a noticeable increase, but the rural courts are still down. The number of claims entered for 1936, exclusive of transcripts of judgments and judgment summonses, being 56,267 for \$2,855,087.95.

Surplus Fees collected from Clerks and Bailiffs and paid to the Honourable the Provincial Treasurer for the fiscal year amounted to \$21,511.24.

Section 37 of The Division Courts Act provides that any sum of money paid into court, and remaining in court unclaimed for a period of six years, shall form part of the Consolidated Revenue Fund, and there was collected under this heading and paid to the Provincial Treasurer \$795.91.

There has been continuous inspection of the outside offices, and over two hundred personal visits were made during the year by my Senior Assistant Inspector, Mr. H. A. Locke. Practically all the offices in old Ontario were inspected, and with few exceptions it was found that the officials were giving good service. Although it is only in the Cities and County Towns that Clerks devote their full time to Division Court work, all Clerks and Bailiffs are bonded for the proper performance of their duties.

The revenue collected by this office for the year 1936 from the public offices under my supervision amounted to \$548,455.24, made up as follows:

Magistrates' Fines.....	\$202,095.95
Magistrates' Fees.....	66,613.05
(The above amounts represent monies for fines and fees actually received by me and do not include fines and fees paid direct to the Inspectors under the L.C.A.)	
Local Registrars, S.C.O., County Court and District Court Clerks, and Surrogate Registrars.....	136,970.99
Crown Attorneys' and Clerks of the Peace Fees.....	31,700.21
Crown Attorneys' Estreats and Fines.....	3,867.10
Sheriffs' Fees.....	25,319.40
Registrars of Deeds and Local Masters of Titles.....	57,271.45
Division Court Clerks and Bailiffs.....	22,306.61
Miscellaneous Revenue.....	1,759.53
TOTAL.....	\$547,904.29

The increase over 1935 is \$138,280.36.

Mr. H. R. Polson, the Assistant Inspector, has devoted a great deal of his time to the inspection and auditing of the Magistrates and Justices of the Peace. He also has assisted the Auditor in auditing the Land Transfer Tax in the Registry Offices. This duty has been assumed by this office at the request of the Treasury. All Registry Offices have been audited during the year.

Mr. W. A. James was superannuated on account of ill health, and his position was taken by Mr. M. C. Zimmerman, who is now the Auditor for this Branch. Between him and Mr. James all offices were audited.

I should again wish to thank the officials throughout the Province for helping me in the work of inspection and auditing. I also wish to thank the Assistant Inspectors, Auditor and staff for the manner in which they performed their duties throughout the year.

I attach hereto the schedules and statements with reference to the office, which should be of interest:

1. Statements—Osgoode Hall Offices (Surrogate Clerk, Administrative Branch, Appellate Division and Master's Office).
2. Financial Statement of judicial offices, namely, Sheriffs, Surrogate Judges, Local Masters, S.C.O., Crown Attorneys, Clerks of the Peace, Local Registrars, County and District Court Clerks, and Surrogate Registrars.
3. Statement respecting Commuted Crown Attorneys.
4. Financial Statement respecting Land Titles Offices.
5. Financial Statement respecting Division Courts.
6. Financial Statement respecting Registrars of Deeds.
7. Financial Statement respecting Magistrates.
8. List of Justices of the Peace.
9. Statistical Report of Juvenile Courts.
10. Appointments.
11. Observations by Inspector.

All of which is respectfully submitted.

I have the honour to be, Sir,

Your obedient servant,

W. W. DENISON,

Inspector of Legal Offices.

His Honour James Parker, of the City of Toronto, to be Judge of the Surrogate Court of the County of York.—*Gazette, 20th June, 1936.*

CROWN ATTORNEYS AND CLERKS OF THE PEACE

H. W. Macoomb, of the City of Welland, Barrister-at-Law, to be Crown Attorney and Clerk of the Peace, *pro tempore*, in and for the County of Welland.—*Gazette, 25th April, 1936.*

Norman Borins, of the City of Toronto, Esquire, Barrister-at-Law, to be Assistant Crown Attorney in and for the County of York and City of Toronto.—*Gazette, 20th June, 1936.*

Earle C. Popham, of the Town of Kenora, Esquire, K.C., to be Crown Attorney and Clerk of the Peace in and for the District of Kenora.—*Gazette, 11th July, 1936.*

Edward A. Tilley, Barrister-at-Law, of the City of North Bay, to be Crown Attorney and Clerk of the Peace in and for the Provisional Judicial District of Nipissing from the 1st of October, 1936.—*Gazette, 17th October, 1936.*

Henry M. Taylor, Barrister-at-Law, of Sarnia, Ontario, to be Crown Attorney and Clerk of the Peace in and for the County of Lambton, *pro tempore*, in the room and stead of Hector Cowan, deceased.—*Gazette, 7th November, 1936.*

J. A. A. Duranceau, Barrister-at-Law, Cochrane, Ontario, to be Assistant Crown Attorney in and for the District of Cochrane, effective from October 16th, 1936.—*Gazette, 7th November, 1936.*

LOCAL REGISTRARS, SURROGATE REGISTRARS AND COUNTY OR DISTRICT COURT CLERKS

Gordon H. Tennant, of the City of London, Ontario, to be Clerk of the County Court and Local Registrar of the Supreme Court in and for the County of Middlesex.—*Gazette, 21st March, 1936.*

Gordon Tennant, of the City of London, Ontario, to be Registrar of the Surrogate Court in and for the County of Middlesex.—*Gazette, 17th October, 1936.*

T. K. Slack, of the City of Orangeville, Ontario, to be Local Registrar of the Supreme Court, Clerk of the County Court and Surrogate Registrar in and for the County of Dufferin.—*Order-in-Council, 10th June, 1936.*

J. A. Harstone, of the City of Peterborough, Ontario, to be Local Registrar of the Supreme Court, Clerk of the County Court and Surrogate Registrar in and for the County of Peterborough.—*Order-in-Council, 24th September, 1936.*

R. E. Stone, of Sault Ste. Marie, to be Local Registrar of the Supreme Court, Clerk of the District Court and Surrogate Registrar in and for the District of Algoma.—*Gazette, 17th October, 1936.*

James Clarence Collieran, of the City of Port Arthur, to be Local Registrar of the Supreme Court, Clerk of the District Court and Surrogate Registrar in and for the District of Thunder Bay.—*Gazette, 17th October, 1936.*

REGISTRARS OF DEEDS AND LOCAL MASTERS OF TITLES

Fred Slade, of Fenella, to be Registrar of Deeds in and for the Registry Division of West Northumberland.—*Gazette, 20th June, 1936.*

Walter Rogers, to be Registrar of Deeds for the Registry Division of the County of Grenville as and from the 1st day of January, 1936.

J. A. R. Elliott, Port Hope, Ontario, to be Registrar of Deeds for the Registry Division of the County of Durham.—*Order-in-Council, 1st July, 1936.*

R. E. C. McDonald, Glencoe, Ontario, to be Registrar of Deeds for the Registry Division of the County of Middlesex, West, as and from the 1st day of March, 1936.

J. V. Graydon, Picton, Ontario, to be Registrar of Deeds for the Registry Division of the County of Prince Edward as and from the 11th day of March, 1936.

Christopher M. Forbes, of Perth, Ontario, to be Registrar of Deeds in and for the Registry Division of North and South Lanark.—*Gazette, 17th October, 1936.*

Miss Isabelle Wilson, of Fort William, to be Registrar of Deeds and Local Master of Titles in and for the Registry Division of Thunder Bay.—*Gazette, 17th October, 1936.*

 SURROGATE REGISTRARS

RE SEARCHES UNDER BILLS OF SALE AND CHATTEL MORTGAGES ACT

I have been asked what is the proper fee for Searches, etc., under The Bills of Sale and Chattel Mortgages Act, and I ruled as follows:

There seems to be some discrepancy regarding the proper amounts charged for Searches, etc., under The Bills of Sale and Chattel Mortgages Act. The fees, as I understand it, are as follows:

For a general Search.....	\$.50
For a Search as to any particular person.....	.10
(1927, c. 41, s. 9 (1).)	
For production and inspection of any instrument or document. . .	.10

Clauses c, d, and e of Section 4 of The Conditional Sales Act, being Chapter 165, R.S.O. 1927, provide as follows:

For a general Search.....	.25
For a Search as to any particular person.....	.10
For the production or inspection of any copy or document filed....	.10

I understand that there is a difference of opinion as to the meaning of the words "general search". Some offices have charged 50 cents for a Search as to a Chattel Mortgage irrespective of the number of names searched. Some Clerks hold that the fee should be 10 cents and that the 50 cents charge is only where the searcher is on a general fishing expedition, and more than five names are searched. In other words, when a person comes into the office to search Chattel Mortgages against John Doe, the fee should be 10 cents. If he comes in to search several names, then it becomes a general Search.

RE NOTICE OF TRIAL

I was advised by a solicitor that a Registrar had raised the objection that the solicitor be required to serve a Notice of Trial ten days before he set the action down for trial. The solicitor argued that it was no business of the Registrar when the solicitor served his Notice of Trial. My ruling was—The rule is that it is no business of the Registrar under Rule 248 as to when the solicitor serves the Notice of Trial, as long as he serves it ten days before the Sittings. The solicitor does not produce the Notice of Trial to the Registrar. He takes the responsibility himself.

RE MORTGAGORS AND PURCHASERS RELIEF ACT

In an application under Section 17 of The Mortgagors and Purchasers Relief Act of 1933 a situation arose which was brought to my attention. Section 17, speaking generally, provides for a mortgagee giving notice, Form 1, when the mortgage is in arrear. Under section 17 (1) the mortgagor may then make an application to the mortgagee, submitting some proposition. Then under subsection 11 of section 17, if the mortgagee does not accept the proposition, he must notify the mortgagor to that effect in writing. Then "such applicant (meaning the mortgagor) may then, within ten days of such service or the receipt of such notice, apply *ex parte* to the Judge for an appoint-

ment to hear the case, and shall give two days' notice in writing to the mortgagee, etc., of such application". The point that gave trouble was that section 17, subsection 11, in one breath says that the application is made by the mortgagor *ex parte* and in the next breath says that he must give two days' notice of the application to the mortgagee. I wrote the enquirer as follows:

When the Act came into effect in 1933 considerable argument arose as to the meaning of the words "such applicant may then, within ten days of such service or the receipt of such notice, apply *ex parte* to the Judge for an appointment to hear the case, and shall give two days' notice in writing to the mortgagee, etc., of such application". It was understood from enquiries then made that the provision requiring two days' notice was inserted in order that the mortgagee would know what was going on, and in order to fix a period of time after which, when no notice was received, the mortgagee could exercise any rights under his mortgage. There is no doubt but that you are correct when you state that the language is somewhat paradoxical, and I may say that it was suggested to the Attorney General in 1934 that the section be amended by either striking out the provision for the two days' notice or in the alternative by striking out the words "*ex parte*", but the Government for some reason did not see fit to make any change.

The construction of this part of Section 17 has never come before the Court, and in the absence of any judicial decision on the point, the interpretation placed on the words quoted here is that the applicant is entitled to make his application for an appointment *ex parte*, but has to notify the mortgagee that he is going to make such application. In practice the mortgagee considers such notice as notice that the applicant has complied with the provisions of the section, and does not appear on such application unless he feels that the applicant had not made out a *prima facie* case, and wishes to oppose the granting of an appointment.

RE THE WOODMAN'S LIEN FOR WAGES ACT

I have been asked as to the proper fee in connection with filings in the above Act, and I ruled that the proper fee is fifty cents upon the filing of a lien claim. When a Writ of Summons is issued, the usual fee of \$3.00 is charged, and if there is Writ of Attachment then the fee of \$1.00 is charged for that.

RE COMPANY'S SHARES — FEES ON

There has been a good deal of difficulty regarding whether or not a Surrogate Registrar should charge a fee upon the shares of a Company, held by the estate, and I accordingly obtained a ruling from the Solicitor under The Succession Duties Act. This ruling is as follows:

"As to whether or not the shares in question referred to in the solicitor's affidavit of February, 1936, are property within Manitoba, the following rules would apply:

1. If the shares are fully and effectually transferable in more than one place, even though Ontario is not one of those places, they then constitute property within the jurisdiction where the certificates themselves are found. If that is the case with respect to these particular shares, and the certificates no doubt being within Ontario, they would be property within Ontario.
2. If, however, these shares are transferable only in one place, and that one place is elsewhere than Ontario, then the shares would not be property within Ontario, as the rule is that they have a local situs under such circumstances, where they are transferable.

Notwithstanding the existence of the last above mentioned circumstances, if such shares were endorsed in blank or otherwise in bearer or street form, or transferable by delivery, then they would be property situate where the certificates themselves are found. In other words, before advising whether or not they are entitled to a refund of law stamps, it would seem some further information has to be obtained.

RE TAXATION OF COSTS

A Local Registrar wrote as follows:

"A local solicitor issued a special endorsed Writ in the District Court for an amount within the jurisdiction of the Supreme Court. No appearance has been entered, and he is now preparing to sign default judgment.

"He thinks I should tax the costs on the Supreme Court scale on the ground that the action is being 'disposed of' by the Court. I have ruled otherwise."

In this case I ruled that the Registrar was correct, and that the costs were taxable on the lower scale.

RE CHATTEL MORTGAGES — FEE FOR REGISTERING

I have again been asked as to the proper fee for the registration of a Chattel Mortgage, and I ruled as follows: "I have ruled many times that the proper fee is fifty cents on the registration of a Chattel Mortgage. If the person registering the same desires to have the number, he is entitled to this without further charge. If he wants a certificate, then the fee is twenty-five cents. As a rule, the person attends the office, pays the fifty cents, is told the number, and that is all there is to it. If there is any variation and I am advised, I will correct the same."

RE STAMP ACT

A Local Master of the Supreme Court asked me as to his duties regarding the Stamp Act, etc., and I wrote as follows: "It would appear that a Local Master should keep a working diary or blotter, in which he should put the step that has been taken quite briefly, and then insist that the proper stamps are affixed to the documents by the Registrar. Then, when my Auditor appears on the scene, all he has to do is to ask you for the diary or blotter, or whatever you care to call it, get the names of the cases, and then ask the Local Registrar for the files, and check to see if the stamps have been affixed. This would seem to be a very simple method of procedure, and I trust you will see your way clear to follow it."

RE CHATTEL MORTGAGES

A Clerk of the County Court wrote to me advising of the difficulty he was having in compelling mortgagors in Chattel Mortgages to describe their occupation in the instruments. He pointed out that there appeared to be no explicit requirement in the Act covering the point. I wrote to him as follows: There is no provision compelling mortgagors to insert their occupation in a chattel mortgage. A Clerk, therefore, is not entitled to refuse the registration on that account. More than half of the chattel mortgages registered in the office of the Clerk of the County Court of the County of York omit the occupation of the mortgagor.

It is rather dangerous for a Clerk to refuse registration of a chattel mortgage under any circumstances whatever. It is the function of a Judge to say whether a chattel mortgage is valid or invalid, and when a Clerk takes upon himself this, he is courting trouble.

RE FEES

A Local Registrar wrote in to me asking for an interpretation of Rule 252 of the Supreme Court Rules of Practice. His letter was on March 9th. I answered him as follows on March 23rd:

"I am in receipt of your favour of the 9th instant, and regret the delay in answering the same, caused by my absence from the city.

"I have gone into this matter, and I would consider that the solicitor you mention is correct. An action adjourned to a subsequent sittings is one 'not tried or disposed of' quite as much as if it were not heard because not reached on the list, and no second fee for entering it is payable. The request for an adjournment is in no sense a withdrawal."

RE MECHANIC'S LIEN

A County Court Clerk wrote in to me asking what was the fee for attending at the trial of a Mechanic's Lien action. I wrote as follows: I beg to advise you that it has been laid down by the Auditor of Criminal Justice Accounts that if the Lien action is tried in a formal way in court where the officials and the solicitors are gowned, the Registrar is entitled to \$4.00 a day, but if the trial is held in Chambers, then no fee is payable.

REGISTRARS OF DEEDS AND LOCAL MASTERS OF TITLES

RE BACHELOR'S DECLARATION OF CELIBACY

In 1919 "A" conveyed a small lot in a village to "B". The conveyancer omitted to register the Deed. Since then both "A" and "B" have died. The executor of "B" 's estate sold the property for \$35.00. "A" was a bachelor. On tendering the old Deed for registration the Registrar demanded a declaration of celibacy or a Judge's Order, and as the land was sold for so little, the solicitor asked to have the requirement waived. I ruled that I was powerless in the matter. I stated that the Statute was very clear, and prohibited the registration of the document without either a declaration of celibacy or a Judge's Order.

RE ASSIGNMENT OF MORTGAGE COVERING MORTGAGES IN
ONE MUNICIPALITY

I have been asked as to the proper fee for registering an assignment of a Mortgage which covers several different Mortgages in one municipality, and I advised as follows: The proper fee, if this document is recorded in full, is the ordinary charge for an instrument under Section 92, subsection (a), namely, the regular charge plus the extra charge for foliage. It is to be treated as an ordinary transfer or other document, only, of course, if there are extra lots, then an extra charge is payable, as provided by the section. If, on the other hand, you attempt to register the document not in full, then the other schedule applies.

RE EXECUTOR PATENTEE

The point has been raised with me as to whether or not an executor who is a patentee holds the lands upon the trusts and for the purposes to which the same is applicable by law. I ruled as follows: My view, and I believe the view held and followed in this office by my two predecessors, is that once an executor avails himself of the Land Titles provision and has applied and been entered under The Land Titles Act as such executor, he holds it as if he were the deceased owner in person, and any future dealings have to be through such

executor. Those who claim under the Will cannot deal independent of the executor in such a case. Section 12 of Chapter 148 expressly allows the Land Titles Act to govern. We have followed the practice of having the executor get the concurrence, in some cases, of those who under the Will would otherwise have been entitled to the land. This is a safe practice, and has, I believe, proved satisfactory to careful, experienced solicitors.

RE LAND TRANSFER TAX

A solicitor wrote to me as follows:

"I have a Deed ready to be registered wherein "A" conveys a farm to "B", upon which there is a mortgage of \$1,520.00, which "B" assumes, and, while there is no cash paid, "B" covenants to pay to "A", or the wife of "A", the sum of \$1,000.00 each year as long as "A", or his wife, is living. "A" is sixty-nine years of age, and his wife is sixty-seven. Upon the failure of "B" to make any of the said payments, the property automatically reverts to "A".

"There is, of course, a transfer tax on the mortgage assumed by "B", but the Registrar and I are at a loss to know what tax should be paid on the annuity, if any. The equity in the farm is at present worth about \$8,000.00."

My answer to him was: I am in receipt of your favour of the 10th instant, and would advise you that the value of these annuities is based on the Dominion Government tables. The present value of an annuity for a man aged sixty-nine, to pay him \$1,000.00 a year, would be \$9,620.00. This, of course, is a greater sum than the value of the equity in the farm. I would suggest one of the two following courses:

- (1) Payment of tax on the value of the equity plus mortgage encumbrance verified by assessment or affidavit of value;
- (2) Submission of the Deed with particulars of the transaction to the Provincial Treasurer for his determination of the tax.

I think the second course is preferable, and is the one I would recommend.

RE CELIBACY

I was asked as to whether or not a declaration was necessary regarding the celibacy of an executor of an estate, and I ruled that when an executor conveyed and released property he did so as an executor, and that, therefore, the question as to his celibacy did not arise.

RE NECESSITY OF LETTERS PROBATE

The question arose as to whether or not it was necessary to prove a Will in Ontario when the same had been proved in Alberta, in order that mining property in Ontario could be dealt with. I ruled that the safer practice when the Local Master had been advised, or had knowledge that there was a Will, was to insist upon it being proved in Ontario, to guard the Local Master against any question as to the genuineness of the Will.

RE PLANS

I received a letter from a Registrar, which runs as follows:

"I have just been asked to provide an Abstract in respect to a couple of lots in the Township of Strong. I find that upon one of these lots has been recorded a plan put on in 1885, upon which 57 lots were laid, and of course new Abstract Index entries were made, one for each lot so laid out. I find that subsequent to the registration of the plan several Deeds were

recorded upon both lots in question, whereby the grantor in each case purported to convey the whole of each lot, and yet not one of these instruments appears on the lots subdivided or any of them. I can find nothing bearing upon this particular point in the Act, and I am doubtful whether the Registrar should have taken cognizance of these subdivided lots in making the registration, or whether he should have insisted upon some qualifying words whereby the lots on the plan were eliminated."

I wrote him in answer, and gave my ruling, which was: It is quite clear to me that where any land has been subdivided and a plan of such subdivision has been registered, all instruments thereafter should conform and refer thereto. See Section 80, subsection 11.

Should it be that this requirement has not been adhered to, a Registrar, for his own protection, upon discovering a lack of conformity to the law, should enter the improperly abstracted document, in its order of registration, on the Abstract of the subdivision plan on every lot affected, with a note to the effect that the document, though not properly describing the land, does nevertheless appear to affect the lot on such subdivision plan. He would then be in a position to give an Abstract on any part of the land shown on the last registered plan.

It is sometimes argued that because an instrument has been registered having an obsolete description, further registration may be made where the same description is used. This is a wrong assumption, as the only provision along this line is that of Section 83, which provides that documents referring to an unregistered plan, having been accepted by a Registrar, subsequent registrations having the same description, must also be accepted. Therefore it would seem to be the duty of a Registrar in the case of a properly registered plan of a subdivision to enforce the use of a proper description in instruments tendered for registration, notwithstanding the use of erroneous descriptions in prior registered documents. As regards the Abstract, which the Registrar is asked to prepare, it should be made in respect to the lots shown on the subdivision plan, and not according to the original lots.

RE DISCHARGE OF MORTGAGE

"A" died in Manitoba leaving an estate, among the assets of which was a small balance due on a mortgage in Ontario. The Will was proved in Manitoba, and I was asked if the Registrar could accept a Discharge of the Mortgage with a copy of the Letters Probate issued in Manitoba, and I wrote as follows: As regards the registration of a Manitoba Probate for the purpose of discharging a mortgage registered in a Registry Office, without resealing by an Ontario Court, I think it is quite in order to do so. The Manitoba Probate may be treated in the same way as an Ontario Probate, viz. registered by way of verified copy or certified copy. Consent to registration by the Treasurer of Ontario must be had.

Mr. Justice Middleton in *Green vs. Flett* (1913) 29 Ontario Law Reports, page 103, 13 D.L.R., p. 547, 4 O.W.N. p. 1388, says a foreign probate need not be resealed to enable executors to execute a proper Discharge of Mortgage in Ontario. The power of executors, he says, is conferred by the Will and not through the Probate. He was dealing with an English Probate. The principle, I should think, would obtain respecting a Probate issued from any Court outside of the Province of Ontario.

RE DUTY OF REGISTRAR TO SEARCH

I again had the question put to me regarding the duty of a Registrar of Deeds to search before accepting a document for registration, and my ruling was that a Registrar is not bound to make a search every time a document is

brought in, to see whether or not he may register it. I think that the Statute contemplates this, because you will note that subsection 3 states that upon registration of the notice no Deed . . . shall be registered in the Registry Office . . . unless the consent in writing of the Chairman is endorsed thereon. Please note that it goes on to say that until such consent is so endorsed thereon, no land or any interest therein so conveyed or dealt with by a pensioner shall vest in any person named in such document. It would appear to me quite clear that, although the document probably does not vest, I do not think the Registrars should have any duty cast upon them to make a search every time a document is brought in.

RE DISCHARGE OF MORTGAGE

A firm of solicitors wrote to me advising me that they found in the Abstract of Title a Mortgage and a Discharge, the Discharge having been registered in February, 1922, but on enquiry at the office as to why the Mortgage and Discharge had not been ruled out, the solicitors were told that it was because the Discharge was defective. The solicitors passed the matter on to me, and my ruling was: I have very carefully gone into this matter, and it seems to me that I could not order a Registrar to strike out a mortgage unless the Registrar is satisfied that the Discharge complied with the provisions of the Act in every particular. The form of Certificate of Discharge provided by The Registry Act, being a creature of the Statute, must be strictly adhered to, if it is to operate as a release and reconveyance of the mortgaged lands to the mortgagor. There are many rulings as to this.

Frequently a certificate does not comply with Section 64 of The Registry Act, inasmuch as assignments of Mortgage, powers of attorney, Letters Probate, etc., are not properly recited, and there have been cases where only one of the mortgagees had executed the instrument, and also where assignees have purported to discharge where a part only of the lands mentioned was set out in the assignment. It was never intended that an instrument of this nature, which is not a Discharge at all, should empower the Registrar to score out the Mortgage.

RE FEE FOR REGISTERING F. O. F.

A solicitor wrote in regarding the fees chargeable for registering a Certificate of Final Order of Foreclosure, and I wrote as follows: Court Orders, including Vesting Orders, Foreclosure Orders, etc. It is the usual practice to present for registration a certificate of the Final Order which is deposited in the Registry Office, and the fees for this would be the fees set out in Section 92 (a) and (b). This would be \$2.50.

If the original order accompanies the certificate, and the Registrar is asked to certify on the original as to the registration, then he places on the original Order his certificate, and in all such cases in addition to the fees as provided in Section 92 (a) and (b), the Registrar will be entitled, in my opinion, to an additional fee of 50 cents for a certificate endorsed on the original Order.

The word "duplicate" in Section 92 (a) of The Registry Act means a "duplicate original".

RE MORTGAGE — COPYING IN FULL

A Registrar wrote in as follows:

"I have received for registration a Certificate of Vesting. The plaintiff held a Mortgage on a certain lot, and by Order of the Supreme Court of Ontario the lot has been vested in the said applicant. Must the Mortgage and assignments be recorded in full the same as in a Final Order of Foreclosure?"

My reply was: I beg to advise you that a Certificate of Vesting does not come within the four corners of the Section describing what documents require the Mortgage to be registered in full. I would, therefore, rule that in this case the Mortgage should not be recorded, as you state.

RE DISCHARGE

A solicitor wrote in to me advising me that a Registrar had refused to mark an original Mortgage discharged when it was discharged by a reconveyance. My ruling was: On turning to The Registry Act, Section 61, I find that in the case of a registered Mortgage the Registrar on receipt of a Certificate, Form 10, . . . shall register the same and record it in the Register Book. I then turn to the Amendment of 1929, where I find that when a Discharge of a Mortgage is tendered, there must be tendered with it the original document, and the Registrar shall perforate on the Mortgage the words "Discharge registered".

It would seem to me that these Sections should be interpreted strictly, so that in order to have the Mortgage marked "Discharged" there must be a Mortgage within the meaning of The Registry Act, and there must be a Certificate, Form 10, filed with the Registrar. If this Certificate, Form 10, is not filed with the Registrar, I do not see how he can mark "Discharged" on the original Mortgage or Deed of Trust.

RE PRODUCTION OF MORTGAGE

I have ruled that the statement that a Mortgage is one of several held by a Loan or Trust Company and therefore the Mortgage need not be produced, should be a good and sufficient reason for the registration, following along the provisions of Section 61 of The Registry Act.

RE FILING PLANS

A Registrar has written in to me regarding the duty of a Registrar to search as to the ownership of a plan when the same is submitted for registration. I wrote as follows: I am in receipt of your favour of the 29th instant, and would advise you that "The Investigation of Titles Act" does not cover the question of the registration of a plan.

I understand, however, that the duty of a Registrar is to see that the applicant for registration appears to have a proper title to the land, and there is no duty cast upon the Registrar to search the title, other than to ascertain if according to the Abstract the applicant has the title I have mentioned.

If I was Registrar, I would simply see that the applicant owned the property, and check up as to encumbrances, etc.

RE FARMERS' CREDITORS ARRANGEMENT ACT

A Registrar sent in an Assignment for the general benefit of creditors under The Farmers' Creditors Arrangement Act, and advised me that he had been asked to register the same. I wrote him as follows: I am in receipt of your favour of the 19th instant, and would advise you that the instrument which you have enclosed is not one that can be registered under the provisions of The Registry Act.

I have ruled several times that instruments under The Farmers' Creditors Arrangement Act are not those that can be registered unless they comply strictly with the provisions of The Registry Act. This document does not comply.

Might I point out to you that, as well as having no affidavit of execution, there is no proper description within the meaning of the Act.

RE REGISTRATION BEFORE PATENT

A Registrar wrote in and pointed out that he had been asked to register some summer resort lots on property that had not been patented, and I wrote as follows: This is one of the difficult Sections in the Act, and I think that all Registrars who happen to have any unpatented lands in their Division should make a list of these lands and refer to the list whenever the Deed comes in of any property that might by any chance be covered by the list mentioned. In other words, there is a distinct prohibition in the Act against such registration, and the Registrar must be on his guard lest he register the conveyance mentioned.

SHERIFFS

RE RELIGIOUS RETURN OF PRISONERS

Several Sheriffs have been asking me about this return, and I ruled as follows: I beg to advise you that the Government does not pay any fee for the religious return of prisoners. I understand that in some cases the Sheriffs are making this return and charging it up to the County. If the County does pay it, the County will be out of pocket, because this Government will not repay them.

RE SEIZURE ON EXECUTION

A Sheriff seized a Mortgage on an Execution. The Execution creditor did not renew the Execution. The Sheriff held the Mortgage in his hands with no Execution. He asked me as to his position, and I wrote as follows: With reference to your enquiry regarding the Mortgage you received on an Execution, it would seem to me that the creditor's solicitors should apply to the Courts under Rule 176 to have the Writ renewed as of the due date, and placed in force with the Sheriff without the necessity of an alias Writ, and then the seizure would remain in force.

RE LANDLORD AND TENANT — COSTS OF WRIT OF POSSESSION

I was asked by a Sheriff as to the costs incurred on the Writ under The Landlord and Tenant Act, and I wrote as follows: I would advise you that ordinarily a Writ under The Landlord and Tenant Act does not include costs, though there are several where costs are included, so that if the Plaintiff insists, the unexempted goods could quite properly be seized. However, as a matter of fact, there are practically no unexempted goods in such cases. The Writ, nevertheless, is indexed as against goods only.

Supreme Court Writs of Possession by mortgage carry costs as well as the debt itself, and this is what is known as a combined Writ of Possession and Fi. Fa.

It is unnecessary to index a Writ of Possession.

RE PRISONERS

A Sheriff wrote me as follows:

"A very serious question has come up which I wish you would take up with the Honourable the Attorney General.

"I took a prisoner to Kingston, sentenced to two years in the Penitentiary. The present procedure at the Penitentiary is, before they will admit the prisoner he has to be examined by the prison doctor. This particular prisoner has symptoms of tuberculosis, and the doctor told me if he was sure this man was tubercular, they would not admit him. and I would have to take him back to Haileybury.

"What could I do, if they would not accept a prisoner? The warrant of commitment says I am to convey him to Kingston Penitentiary, and they are to accept him. If they will not do so, what shall I do with the prisoner?"

"Any Sheriff may find himself in this predicament and not know what to do. Please advise."

My ruling in this case was as follows: Under The Penitentiary Act, Chapter 154, R. S. C. 1927, the prisoner, when refused by the Penitentiary on the ground that he is suffering from infectious or contagious disease, must be brought back and kept in his former custody.

However, under The Prisons and Reformatories Act, Chapter 148, Section 4, the Lieutenant-Governor can order a prisoner to be removed to any place for safe keeping or to any gaol named in his order, so that if a Sheriff from a distant place like Haileybury found himself with a prisoner so far removed as Kingston, he could get this order under Section 4, and leave the prisoner at Kingston gaol, and if necessary the prisoner could be removed, for instance if he were tubercular, to a Sanitarium.

RE FEES FOR SERVING SUBPOENAS

A Sheriff wrote me as follows:

"Under Section 20, Schedule 'A', I am allowed twenty cents per mile 'travelling in going to execute warrant or serve subpoena or returning with a prisoner per mile actually travelled'. I have interpreted this to mean that I get mileage both coming and returning, and I have been informed that this was the previous custom.

"Apparently the Auditor takes a different view, since he disallowed half of my mileage charge in the Maracle murder case, where I had to travel over a great part of the Indian Reserve, and spent a vast amount of time hunting up Indian witnesses. However, I have no doubt that you have made a ruling in this matter, and will be glad to have your finding."

My answer was: I am in receipt of your favour of the 8th instant, and beg to advise you that the mileage to Sheriffs for service of subpoenas is governed by R. S. O., Chapter 126, Section 17, subsection 4, which reads as follows: 'The distance travelled from the Court House to the place where a paper is served, etc.' It appears that you have been in error in the past if you have been receiving anything further. This is the ruling of the Auditor of Criminal Justice Accounts.

RE COST OF HOLDING PRISONERS

A Sheriff wrote to me asking as to whether the Municipality should pay in certain cases for the maintenance of a prisoner, and my answer was as follows: I beg to advise you that in unorganized districts where a municipality has no municipal lock-up and a prisoner is lodged in the Government gaol by the local Police, the town is responsible for the cost of maintenance of prisoners from the time they are arrested until they are brought before a Magistrate or a Justice and remanded to gaol.

RE FEES

A Sheriff wrote in to me as follows:

"Will you please give me a ruling on the following item: Fee under The Jurors Act, Section 101, was amended March 28th, 1929, to read as follows: 'Attending, locking up or feeding Petit Juries, or taking Grand Jurors to inspect institutions, exclusive of disbursements, for each Jury . . . \$4.00.' Does this not mean \$4.00 per day?"

"I would very much like to have, if possible, in a condensed form just what fees a Sheriff is entitled to charge to the Administration of Justice and Counties account, as these items come up for considerable discussion when passing accounts."

My ruling was: The fee for attending, locking up, or feeding Petit Jurors, or taking Grand Jurors to inspect institutions is \$4.00 for each Jury, as provided by Ontario Statutes 19 Geo. V., Chap. 31, Sections 4 and 10.

The fees to which a Sheriff is entitled are found under Schedule "A" of The Administration of Justice Expenses Act, R.S.O., page 1346, and the portion reimbursed to the County is under Schedule "C" at page 1358, the accounts being paid by the County in the first place.

In addition to the above, there are fees authorized under special Acts.

The Sheriffs Act, R.S.O., Chap. 18, Section 39, where a Sheriff is allowed for attendance at the County Court Non Jury \$5.00 per diem and the Crier \$3.00 per diem.

Under Section 65 of The Surrogate Court Rules for attendance at the Surrogate Court in contentious cases certified by the Judge, the Sheriff is entitled to a fee of \$5.00 and the Crier \$3.00 per diem.

Under The Jurors Act, R.S.O., Chap. 96, fees are allowed to Sheriffs as provided by the tariff at pages 1101-2.

RE SERVICE OF PROCESS

For some time past the Department of Justice has ruled that when it is necessary to serve process on an inmate of the Kingston or Collins Bay Penitentiaries, it is necessary that that process be accompanied by a Judge's Order permitting the service of such process.

All Sheriffs who receive documents for service at Kingston should, therefore, draw the attention of the persons bringing in these documents to this ruling of the Department of Justice.

RE PROCEDURE — SALE OF LAND UNDER EXECUTION

The following ruling was given regarding the procedure in sale of lands under Execution: Before proceeding with the advertisement there must be a return of Nulla Bona endorsed upon the Writ of Fi. Fa. for the very obvious reason that goods must first be answered for by such return. You are no doubt familiar with mode of advertising as set out in Rule 563, and I would call your attention to the fact that advertisements in Clerk of the Peace's office and door of the Court House must be continuously maintained for three months preceding sale.

Then, as to sale, we never sell without a Writ of Venditioni Exponas, which directs the Sheriff to sell for the best price obtainable, and protects the Sheriff and Plaintiff against any action owing to sacrifice sale, and besides, I believe, improves purchaser's title. In order to obtain a Writ of Ven. Ex. our practice is to arrange with plaintiff's solicitor that a nominal bid be made, take no other bids, and the Sheriff postpones the sale until a later date agreeable to your audience, giving the reason, the issue of a further mandate from the Court, *viz.*, the Writ of Ven. Ex. You will then endorse upon the Writ the return as enclosed, and issue to solicitor a certificate setting out such return, and this will be the authority of Clerk or Registrar to issue.

CROWN ATTORNEYS

RE CORONERS' INQUESTS

It was brought to the attention of the Department during the year that some Crown Attorneys appear to desire to take inquests during the usual office hours, and I pointed out that the Department considered that Crown

Attorneys should be available and co-operate with the Coroners so that inquests might be held in the evenings, etc., inasmuch as it was felt that it was a hardship to ask working men, etc., to give up a half day's pay to attend these inquests.

RE FEES

I have been asked by a Corporation as to the accounts submitted by the Crown Attorney, and my answer was: In summary trials of indictable offences a Crown Attorney for attendance at a Police Court on the written request of the Magistrate is entitled to the following fees on completion of the case:

For receiving and examining information \$ 2.00

For attendance at Police Court, per case 10.00

as provided by the tariff, R.S.O., page 1354, Item 12, as amended by Order-in-Council of 12th of June, to date from 28th of March, 1929. Three cases only allowed against one prisoner. In summary conviction cases there is no provision for the attendance of the Crown Attorney. If, however, it should be necessary for the Crown Attorney to attend in any special case, I assume his fee would be included in the costs under Sections 735 and 736 of the Criminal Code.

If the prosecution of cases under The Highway Traffic Act, if authorized by the Highways Department, a Crown Attorney is entitled to:

For all work preliminary to hearing and including examination,
if necessary, of informations, depositions, etc..... \$ 2.00

For conducting the prosecution to judgment 10.00

Where case is heard away from County Town and actual
travelling expenses not exceeding 20 cents per mile one way. 15.00

Where proceedings are taken by a local Constable, I presume the fees of the Crown Attorney, if he attends, would be included in the costs otherwise payable by the Municipality.

RE FEES

There seems to be some doubt in the minds of officials as to what fees they should account for, and what fees accrue to them personally, and in regard to this I would again quote the ruling of the Honourable the Attorney General, made in 1926. This ruling is still in force.

"It is my opinion that all public officers should include in their returns made under The Public Officers Fees Act all fees earned by them by virtue of any office held by them under the gift of the Ontario Government.

"This would include any fees earned by virtue of the sale of law stamps; any fees earned by virtue of proceedings under The Dominion Naturalization Act; any fees earned by virtue of Election proceedings, either Provincial or Dominion; and any fees earned by Crown Attorneys in matters where a duty is cast upon them by virtue of their holding the office of Crown Attorney, and likewise any fees earned by any officer where a duty is cast upon him by virtue of his holding office under the gift of the Province of Ontario."

MAGISTRATES

RE CONCURRENT SENTENCES

A Magistrate wrote in regarding his sentences. In one case he sentenced a man to six months determinate and twelve months indeterminate, and he pointed out that under Section 780 his power to impose sentences was limited to any term not exceeding six months. I pointed out to the Magistrate that

he had not made any blunder, and obtained a ruling from the Deputy Attorney General, which is as follows:

"It is quite true that Section 780 of the Code, and particularly Section 778, dealing with offences under paragraphs (a) and (b) of Section 773, provides that the Magistrate shall convict the prisoner, or the person charged, and commit him to the common gaol or other place of confinement, there to be imprisoned with or without hard labour for any term not exceeding six months. This, however, is subject to certain provisions of The Prisons and Reformatories Act, Cap. 163, Dominion Statutes. There are three Sections to which I would refer you.

"1. SECTION 30. This Section deals with imprisonment in the Reformatory, where the offender at the time of trial does not in age exceed sixteen years, and applies to any offence punishable by imprisonment, and provides for sentence for not less than two years or more than five years, and it is substituted for any other imprisonment provided.

"2. SECTION 46. It is a general Section, which gives every Court in the Province of Ontario, before which any person is convicted for an offence against the laws of Canada, punishable by imprisonment in the common gaol for the term of three months or for any longer term, power to sentence such person to a term of not less than three months and for an indeterminate period thereafter of not more than two years less one day in the Ontario Reformatory, instead of the common gaol where the offence was committed or was tried.

"3. SECTION 51. This Section deals with sentencing boys under sixteen years of age to Industrial Schools."

RE JUVENILE COURTS

The Minister of Public Welfare wrote to the Attorney General as follows:

"It has come to the attention of the officials of my Department that when Judges of the Juvenile Courts throughout the Province deal with juvenile offenders, they hesitate to commit them to Corrective Institutions, fearing that such action of theirs will constitute a criminal record against the children in the Department of Justice at Ottawa.

"As a result of this feeling, we have from time to time received children, particularly boys, who are passed the stage of delinquency, and have become hardened criminals.

"It is not our desire to criticize the Judges, as we feel that they are doing a particularly good job, but knowing their hesitation in committing children, only doing so as a last resort, we made inquiries at Ottawa and discovered that records of these commitments are not required by the Federal authorities."

As a result of this letter a memorandum was sent to all Judges of Juvenile Courts, as follows:

"The Attorney General desires to bring to your attention a letter which he has received from the Minister of Public Welfare. The letter is as follows: (As quoted above). We feel that if this information were passed on to the Juvenile Courts, their whole attitude in respect to commitments to Juvenile Institutions will be changed."

Fifty-eighth
ANNUAL REPORT
OF THE
Superintendent of Insurance
FOR THE PROVINCE OF
ONTARIO
1937
(Business of 1936)

PRINTED BY ORDER OF
THE LEGISLATIVE ASSEMBLY OF ONTARIO
SESSIONAL PAPER No. 6, 1937

TORONTO

Printed and Published by T. E. Bowman, Printer to the King's Most Excellent Majesty

1937

DEPARTMENT OF INSURANCE

TO THE HONOURABLE GORDON D. CONANT, K.C.,
Minister in Charge of the Department of Insurance.

I have the honour to submit herewith the Fifty-eighth Annual Report of the Superintendent of Insurance for the year 1937 (business for the year ended December 31st, 1936). This Report includes the Preliminary Tables respecting 1936 business as printed under date April 26th, 1937.

The Report is arranged in five divisions, in addition to an index of all insurers licensed to carry on business in Ontario and classes of insurance for which authorized, as follows:

- I. Annual Statements.
- II. Annual Statement Abstracts.
- III. Movement of Securities.
- IV. Statistical Tables.
- V. Appendices.

The first division, entitled "Annual Statements," contains extracts from the Annual Statements filed with the Department by all licensed insurers, arranged alphabetically by class of insurer. Insurers registered under *The Canadian and British Insurance Companies Act, 1932*, or *The Foreign Insurance Companies Act, 1932* (Dominion Acts), have been required to file only Modified Statements, summarizing their assets and liabilities and showing their underwriting experience within the Province only, with the Department, and this skeleton information only has been included in this Report.

Division II, entitled "Annual Statement Abstracts," contains tabulated summaries showing the financial condition of all joint stock and cash-mutual fire insurance companies and fraternal societies not registered under the above mentioned Dominion Insurance Acts. Some discrepancies will be observed between the figures shown in these tables and those shown in the statements of individual insurers in Division I, the latter containing changes made as a result of inspection reports. In such cases the figures included in Division I should be understood to prevail.

Division III, entitled "Movement of Securities," shows for Ontario companies (except purely mutual fire insurance corporations) the details of stocks, bonds and debentures purchased, sold or matured during 1936.

Division IV, entitled "Statistical Tables," shows in tabular form the premiums and losses of and other information pertaining to all licensed insurers, except mutual benefit societies.

Division V includes, as "Appendices," certain miscellaneous information and a review of insurance legislation enacted at the 1937 session of the Legislative Assembly of this Province.

LIFE INSURANCE

The number of companies licensed to write life insurance in Ontario during 1936 was the same as in 1935, namely, forty-seven. Premium income received by these companies from Ontario policyholders during 1936 showed an increase of approximately one and one-half per cent over 1935. The 1936 premium income totalled \$88,397,000, as compared to \$87,158,000 in 1935. The total increase was the result of a general increase in all types of assurances, particularly marked with respect to ordinary and group policies, while annuity premium income remained about the same as in 1935.

An amount of \$61,954,000 was paid to Ontario policyholders and their beneficiaries in 1936. This figure represents a decrease of some \$3,500,000 from that paid in 1935. Death claims, matured endowments and sundry payments showed small increases, while dividends showed a slight decrease, and surrender values a decided decrease of more than \$4,000,000. It is interesting to note the manner in which the downward trend in cash surrender values corresponds with the upward trend of business activity and improvement in economic conditions.

The following is a comparative summary of premium income and disbursements for the years 1933 to 1936:

	1936	1935	1934	1933
Net Premium Income:				
-Ordinary.....	\$61,753,727 00	\$61,011,046 68	\$62,071,018 16	\$62,891,274 02
Assurances-Industrial.....	17,075,284 57	16,903,615 01	16,765,851 64	16,444,014 88
-Group.....	3,007,055 69	2,665,359 32	2,423,034 95	2,151,290 41
Annuities.....	6,561,166 42	6,578,552 72	7,929,309 93	5,198,011 75
Totals.....	\$88,397,233 68	\$87,158,573 73	\$89,189,214 68	\$86,684,591 06
Disbursements to Policyholders:				
Death claims.....	\$17,782,990 91	\$17,025,638 30	\$17,551,727 50	\$18,019,371 55
Matured endowments.....	5,985,803 81	5,757,537 38	5,327,020 46	5,619,167 95
Surrender values.....	24,081,802 16	28,189,254 90	28,511,521 53	33,262,640 48
Dividends.....	11,476,731 18	12,120,151 94	12,691,755 13	13,329,875 70
Other payments.....	2,627,086 83	2,294,927 47	2,135,284 54	1,768,379 56
Totals.....	\$61,954,414 89	\$65,387,509 99	\$66,217,309 16	\$71,999,435 24

New business written in 1936 amounted to \$300,981,000, an increase of approximately \$9,000,000 over 1935, but about \$10,000,000 less than that written in 1934 and 1933. Despite the fact that less business was written in 1935 and 1936 as compared to 1933 and 1934, business in force at the end of each year has shown a steady increase since 1933, due, no doubt, to the declining number of policies surrendered.

A comparative summary of new business issued, amount ceased by death, and business in force as at December 31st for the years 1933 to 1936, is given below:

Policies in Ontario	1936	1935	1934	1933
New issued:				
Number.....	359,419	351,007	364,095	396,340
Amount.....	\$300,981,447	\$291,952,463	\$311,025,759	\$310,492,120
Ceased by death:				
Number.....	17,492	16,754	16,701	16,602
Amount.....	\$18,536,210	\$18,022,699	\$19,538,349	\$19,222,792
In force Dec. 31st:				
Number.....	2,768,997	2,742,484	2,708,758	2,688,200
Amount.....	\$2,895,414,565	\$2,785,947,069	\$2,717,179,201	\$2,681,329,201

FRATERNAL INSURANCE

Thirty-nine fraternal societies were licensed to operate in Ontario during 1936, an increase of two over the previous year. Included in this number are eight municipal pension fund societies.

Premium income received by these societies from Ontario members totalled \$2,580,000, as compared to \$2,739,000 in 1935. This decrease of \$160,000 represented a decrease in the premium income of the mortuary fund. Disbursements to policyholders, on the other hand, increased approximately \$117,000 to total \$3,400,000. The net increase was the result of an increase in mortuary fund of approximately \$50,000, an increase in general and other funds of approximately \$70,000, less a slight decrease in sick and funeral funds.

The total of mortuary certificates in force continued to decline in 1936, amounting to \$77,355,000 as at December 31st. The rate of decline, however, has been reduced, being only 2.1 per cent in 1936 as compared to 9.5 per cent in 1935.

FIRE INSURANCE

Three hundred and thirty-one companies had licenses to transact fire insurance in Ontario during 1936. Premiums earned and losses incurred for the various classes of insurers defined by the Act are tabulated below, together with comparable figures for 1935. The experience of each insurer is shown in Table XI.

	1935			1936		
	Net premiums earned	Net losses incurred	Ratio net losses incurred to net premiums earned	Net premiums earned	Net losses incurred	Ratio net losses incurred to net premiums earned
	\$ c.	\$ c.	%	\$ c.	\$ c.	%
Joint Stock.....	13,331,547 27	4,630,208 08	34 73	13,062,480 16	4,778,820 02	36 58
Mutuals:						
(a) Farmers' Mutuals.....	1,598,002 54	972,707 67	60 87	1,631,546 38	927,560 35	56 85
(b) Associated New England Factory Mutuals*.....		22,400 57		79,879 77
(c) Other Mutuals.....	782,630 00	266,440 20	34 04	795,948 72	193,604 09	24 32
Cash Mutuals:						
(a) Without share capital.....	1,459,804 24	642,212 20	43 99	1,579,825 87	608,200 34	38 50
(b) With share capital.....	179,265 76	70,831 04	39 51	207,348 95	52,055 95	25 11
Reciprocal Exchanges.....	262,240 05	159,423 49	60 79	217,685 32	112,590 04	51 72
Lloyds.....	127,297 97	57,648 04	45 27	278,261 03	63,422 67	22 80

*"Net premiums earned" was not calculated. The net losses incurred per \$100,000 of net amount at risk was \$27.32.

AUTOMOBILE INSURANCE

The number of companies which transacted automobile insurance in Ontario during 1936 was 154. The premiums and losses of each insurer are shown in Table XII of this Report. Net premiums written during 1936 amounted to \$7,920,609.06, an increase of 12.8 per cent over 1935. Losses incurred amounted to \$4,717,954.86, an increase of 14.4 per cent over the previous year.

A comparison of premiums written and losses incurred and loss ratios with the figures of the ten preceding years is as follows:

	Net premiums written	Net premiums earned	Net losses incurred	Ratio of net losses incurred to net premiums earned
	\$	\$	\$	%
1926.....	3,743,532	3,657,994	2,037,903	55.7
1927.....	4,643,948	4,295,003	2,835,352	66.0
1928.....	6,280,675	5,670,656	3,603,260	63.5
1929.....	8,324,146	7,520,896	4,314,383	57.4
1930.....	9,361,901	8,934,508	4,378,698	49.0
1931.....	8,830,502	8,968,620	4,601,104	51.30
1932.....	7,769,765	8,017,672	3,805,268	47.46
1933.....	6,462,809	6,904,414	3,551,142	51.43
1934.....	6,931,896	6,748,426	4,007,387	59.38
1935.....	7,017,027	6,963,890	4,123,233	59.21
1936.....	7,920,609	7,553,033	4,717,954	62.46

The figures shown in the foregoing table afford a rough indication of the underwriting experience of the companies in the aggregate from the standpoint of the shareholders or members of the several companies; they do not indicate the reasonableness of the premium rates shown in any particular manual of rates or charged by any particular company, because a substantial minority of the business is written by "unassociated companies" at "non-tariff rates" and otherwise at special rates for special risks.

Loss-Cost Experience

The automobile loss-cost experience in the Province continues to be filed by insurers monthly with the statistical agency designated pursuant to Section 69a of *The Insurance Act* (The Canadian Underwriters' Association).

On June 12th, 1937, the statistical agency was instructed to tabulate the automobile insurance data in Ontario of all insurers transacting such business for the calendar year 1936, transactions in respect of 1932, 1933, 1934, 1935 and 1936 policy years, and for the first six months of calendar year 1937 transactions in respect of policy year 1936. The tabulated results so directed to be compiled were subsequently filed with the Department. Development factors to reduce the 1936 incomplete policy year experience (valued as at June 30th, 1937) to a complete policy year basis were approved by the Department on September 1st, 1937. During November, 1937, experience exhibits were received containing automobile insurance loss-cost indications directed to be developed from the tabulated results of the complete policy years 1932, 1933, 1934 and 1935, and the incomplete policy year 1936 (valued as of June 30th, 1937). Extracts from these exhibits are published in Appendix VII to this Report.

Automobile Insurance Premium Rates

Sections 274, 275 and 275a of the Act, providing for government regulation of automobile insurance premium rates, are not in force. Insurers and rating bureaux are not required to file their schedules of premium rates with the Department. Nevertheless, by analysis of the loss-cost experience data filed pursuant to Section 69a of the Act, the Department is in a position at all

times to report to you upon the reasonableness of automobile insurance premium rates fixed or charged in the Province. Complete loss-cost experience data for the automobile insurance business of all insurers in the Province, stock and mutual, tariff, non-tariff and Lloyd's, is presently on file, commencing with policy year 1927. The Provinces of Alberta, Manitoba, Saskatchewan and Prince Edward Island have now followed Ontario and require the compilation of similar data respecting automobile insurance in their respective jurisdictions. A tabular digest of automobile insurance premium rates charged in the Province by the associated insurers since April 1st, 1928, is contained in Appendix VIII to this Report.

Standard Forms

The work of the Committee of Underwriters, which Committee makes recommendations from time to time respecting the forms of application, policy and endorsement to be used for the writing of automobile insurance in the several provinces under the "Uniform Automobile Insurance Act," has been covered in previous Reports since 1932. (For last reference see page vii of the 1936 Report.) A list of the "Standard" forms, revised to August 2nd, 1937, is given in Appendix VI to this Report.

In accordance with previous practice, the Committee was reorganized for the 1936-37 season on November 2nd, 1936. No changes in personnel have been made with respect to the current season, 1937-38. The following members now comprise the Committee:

H. L. Kearns, *Vice-Chairman* (American Automobile Insurance Company).

R. J. Bastedo (London Guarantee & Accident Company).

John Ratchford (Toronto General Insurance Company).

E. M. Hill (Dominion of Canada General Insurance Company).

Vance C. Smith (Lumbermen's Mutual Casualty Company).

R. A. Hudson (United States Fidelity & Guaranty Company).

W. C. Butler (Pearl Assurance Company, Ltd.).

R. C. Stevenson (Lloyd's of London).

David M. Dewar (Sun Insurance Office, Ltd.).

John Wilson (Western Assurance Company).

Rae Blight (Ontario Fire and Casualty Agents' Association).

Chairman: Hartley D. McNairn, Superintendent of Insurance.

Secretary: John Edwards, Casualty Actuary, Department of Insurance.

CASUALTY AND MISCELLANEOUS INSURANCE
(OTHER THAN AUTOMOBILE)

The following table shows premiums and losses in Ontario for 1936 for the various casualty lines of insurance:

Class of Insurance	Net premiums written	Net premiums earned	Net losses incurred	Ratio of net losses incurred to net premiums earned
	\$ c.	\$ c.	\$ c.	%
Accident.....	1,334,787 01	1,304,090 14	585,518 89	44.90
Accident and Sickness Combined.....	1,034,761 47	1,020,755 03	603,881 34	59.16
Aircraft.....	55,249 80	48,028 68	12,225 34	25.45
Boiler and Machinery.....	327,285 85	367,769 51	45,319 58	12.32
Credit.....	97,789 28	94,771 97	1,251 60	1.32
Employers' Liability.....	122,778 24	118,301 77	47,492 09	40.15
Guarantee.....	956,115 56	927,572 00	165,238 28	17.81
Hail.....	165,543 42	165,541 42	63,815 48	38.55
Inland Transportation.....	698,864 59	703,442 39	329,902 45	46.90

Theft.....	593,740 79	581,227 85	246,915 47	42.48
Weather Insurance.....	165,337 90	163,771 46	65,944 76	40.28
Workmen's Compensation.....	30,336 23	20,013 73	14,469 31	72.30
Totals.....	7,929,266 07	7,782,933 92	3,430,315 74	44.07

As compared with 1935, net-premiums written show an increase of \$523,878.42, or 7.07 per cent. The loss ratio on the basis of losses incurred to premiums earned was 44.07 per cent, as compared with 46.19 per cent for the previous year.

FARMERS' MUTUAL FIRE INSURANCE

For 1936 Abstract Tables of assets, liabilities, receipts and expenditures of the sixty-seven companies of this type see pages 94 to 101; for loss ratios of individual companies see pages 280 and 281; and for tables respecting aggregate resources (1904-1936), receipts and expenditures (1901-1936), and cost of insurance (1901-1936) see pages 268 to 270.

The favourable experience of the farmers' mutuals in 1934 and in 1935 continued in 1936, which, with the sole exception of 1926, proved to be in many respects the best year for these companies since 1920.

Net losses paid in 1936 amounted to \$917,834, which was a decrease of \$91,737 (9.1 per cent) from the 1935 figure. Net losses incurred in 1936 of \$927,560 showed a decrease of \$45,147 (4.6 per cent), as compared to 1935, and was less than 39 per cent of the peak 1931 figure of \$2,387,619. Cost of management was practically unchanged at \$296,616. In terms of cents per \$100 of the average net amount at risk during the year, the cost of insurance in 1936 was 23.04c. (losses, 17.46c.; management expenses, 5.58c.), as compared to 23.96c. in 1935, 24.73c. in 1934, 31.87c. in 1933, 34.42c. in 1932, and 45.51c. in 1931.

Net 1936 cash receipts from cash payments or instalments thereof, interest on investments, and other sources (except assessments) increased \$36,000 over

1935 to \$1,724,000. Interest receipts was up \$5,500 at \$85,500, and the remaining income increase of \$30,500 is a net result of new revenue from an increase of \$6,640,000 in net insurance in force to \$534,700,000, better collection of current premiums, increased miscellaneous receipts, and decreased return premiums, offset by downward rate adjustments by several companies during the year. Net earned income in 1936 increased \$41,200 to \$1,716,000. Thus, ordinary net earned income of 1936 exceeded net incurred losses and expenses of 1936 by \$491,000, as compared to excesses of \$410,000 in 1935, \$353,000 in 1934, and a deficiency of \$47,000 in 1933.

Aggregate surplus increased \$460,000 to \$1,926,000 as a result of 1936 operations of the companies. It had been \$1,466,000 in 1935, \$1,128,000 in 1934, and \$716,000 in 1933, so that during the past three years the increase has been \$1,210,000, or 169 per cent—a substantial recovery from the weakened financial position of the companies following the bad loss experience of 1930-33. Moreover, the improvement was aided by no special assessments in 1936, and there was only one special levy, amounting to \$4,400, in 1935, although there were three in 1934, totalling \$81,200. In connection with the 1936 surplus increase it should be noted that in the 1936 statements of the companies, bonds and debentures in default were written down to market values at December 31st, 1936—resulting in a total of \$95,700 of investment reserves, which is a considerable increase from investment reserves of \$74,000 at the end of 1935 and \$25,300 at the end of 1934.

The aggregate liquidity surplus at the end of 1936 reflects the above successful results of 1936 operations, with excess of bonds and cash over net outstanding losses and borrowed money increasing from \$1,309,000 in 1933, \$1,753,000 in 1934, and \$2,127,000 in 1935 to \$2,604,000 in 1936—an increase last year of \$477,000, or 22.4 per cent. This 1936 improvement consisted of an increase of \$99,000 in cash on hand and in bank (to \$754,700) and an increase of \$378,000 in bonds and debentures (to \$1,901,800, net). Net losses unpaid at the year-end increased \$9,700 to \$32,000, but this was offset by a decrease of \$9,700 in borrowed money to \$20,500.

The 1936 annual statements of these farmers' mutual fire insurance companies indicated in the aggregate that they were in a better position to meet losses than at any time since 1914 at least—probably than at any time in their history. The security behind the policy contracts of insurers of this type is twofold: the basic security afforded by the right of the directors to assess on premium note residues (totalling \$13,148,000) and the immediate security of the companies' surpluses (totalling \$1,926,000). During the years 1931 to 1933, the right of special assessment on premium notes was used by various companies, with such assessments proving to be readily collectible. And, as already indicated, aggregate surplus was at a record level at the end of 1936, equivalent to 36¼c. per \$100 of insurance in force during the year. Moreover, it should not be forgotten that since 1924 the companies have been required to set up in liabilities 80 per cent of unearned cash payments, and since 1931 80 per cent of unearned instalments of cash payments.

The 1936 ratio of losses incurred to premiums earned was 56.85 per cent, compared to 60.87 per cent in 1935, 60.86 per cent in 1934, and 81.43 per cent in 1933. Ratio of management expense to premiums earned continued almost unchanged at 18.18 per cent. With substantial interest income, these companies in the aggregate do not operate at a loss unless the loss ratio exceeds 80 per cent. It has been under that figure by one-fourth or more in each of the past three years.

Progress indicated by above aggregate figures was by no means uniformly distributed in 1936 among individual companies. Out of the sixty-seven companies, twenty-eight made substantial gains; thirty-seven showed little change; and two had set-backs. Fortunately, the latter both started 1936 with

good surpluses, and were well able to meet fairly heavy losses incurred during the year. The deficits decreased last year from twelve to ten in number, and from \$90,900 to \$59,300 in amount, while the surpluses increased from \$1,555,600 to \$1,985,600. The year-end showed thirty-six companies with substantial surpluses; twenty-six with small surpluses or deficits; and five with considerable deficits. When it is recalled that at the end of 1933 there were twenty-seven deficits, totalling \$322,500, it will be seen that many of the formerly weak companies have made real progress during the past three years.

As adequate surpluses are built up, the natural tendency is, of course, to reduce rates. There have been numerous downward rate adjustments among these companies in 1936 and at the beginning of 1937, but most of these rate adjustments have been in rates which still equal or exceed 30c. per \$100 of insurance per year, or 80c. per \$100 of insurance in advance for three years. At the end of 1935, fifteen companies had received approval of rates less than the minimum prescribed by Section 106 of *The Insurance Act*. The Caradoc Farmers' Mutual Fire Insurance Company has received approval of an annual instalment rate of 25c. per \$100, effective March 1st, 1937, but the surplus of the Westminster Mutual Fire Insurance Company was reduced to a point where it became necessary for the directors to raise the annual instalment rate from 25c. to 30c. per \$100 of insurance as of January 1st, 1937. The list of companies approved for rates less than the statutory minimum is, therefore, at the present time as follows: Blanshard, Caradoc, Culross, Downie, Dunwich, Easthope South, Hay, Hopewell Creek, Lobo, London, McGillivray, McKillop, Nissouri, Usborne and Hibbert, Walpole.

Another logical result of the improving financial condition of the farmers' mutuals is the legislation enacted at the session recently concluded, whereby provision is made for limiting surplus by way of refunds therefrom under specified safety conditions. This addition to Section 106 of *The Insurance Act* has during the past two years received careful consideration of the Department, a special committee of the Farmers' Mutual Underwriters' Association and the Board of each company concerned. It should not only provide a sound basis of limiting surplus to safety requirements by way of refunds, but should also minimize the disturbing effect of such refunds on neighbour companies not in the fortunate position of qualifying for making refunds.

LICENSING OF INSURANCE AGENTS

During the license term ending September 30th, 1937, approximately 7,800 life insurance and 6,300 other than life insurance agents were licensed under the Agents' Qualification Law. These figures represent a decrease of 1,100 when compared with those for the preceding term, published in the Report for 1936.

The Advisory Board, which functions under Section 256 (9) of the Act, held 52 meetings for the purpose of considering other than life applications. At these meetings a total of 428 applications for license and renewal of license were heard, which is an increase of 164 over the preceding term. This is accounted for by the fact that during the present term all new applications have been referred to the Advisory Board for consideration. Of these applications, 293 were granted, the majority subject to review at the close of the license term; 22 applications were withdrawn by the recommending company; 27 were withdrawn by the applicant himself; and 86 applications were declined by me upon the recommendation of the Board.

In addition to the figures quoted above, there were 35 agencies terminated by the recommending companies. As this results in the automatic suspension of an agent's license, it means that 170 persons were declined the right to enter or to continue in the other than life insurance agency business during the period under discussion.

The Advisory Board held four meetings during the same period to consider cases relating to life insurance. Only twelve cases were considered by the Board, and of these applications five were granted, subject to review at the close of the license term, and seven were declined by me upon the recommendation of the Board. As pointed out in preceding reports, doubtful applications and complaints respecting life insurance agents and their licenses are referred first of all to a Joint Committee representing the Canadian Life Insurance Officers' Association, the Life Agency Officers' Association and the Life Underwriters' Association of Canada. This Committee reviews these applications and complaints with the parties and companies interested, and in almost every case the matter is satisfactorily disposed of by it without the intervention of the Statutory Advisory Board. Only in cases where a doubtful application or a complaint cannot be settled "out of court" as it were by the Joint Committee is it referred to the Advisory Board.

During the period under discussion, the Department prosecuted four persons under Section 256 of *The Insurance Act* for having acted as insurance agents without the license required by this Section, and one under Section 266 of the said Act for having held himself out publicly as an insurance agent without the necessary license. In all cases convictions were registered. These cases were the direct result of the activities of a full-time inspector who is now attached to the agency branch.

The Department continued throughout the year ending September 30th, 1937, to call for Quarterly Returns of Agents' Balances more than ninety days overdue, and my report on the returns for the period ending on that date will be found in Appendix IX.

The revenue of the agents licensing branch has increased approximately \$75,000 since the operation of the new schedule of fees for agents' licenses which came into effect on October 1st, 1936, pursuant to an Order-in-Council dated June 3rd, 1936, which was published as Appendix X in my report for 1936.

Last year, in commenting on the administration of the Agents' Qualification Law, I stated that, after a careful review of the situation, I was convinced that the other than life insurance companies could exercise a great deal more care in the selection of agents, and, while there has been some improvement shown in this respect, there is still a tendency on the part of some companies to recommend for license persons who obviously are not suitable as agents. In signing the "Notice of Appointment of Agent" on the application forms the signatory official of the company makes the following statement: "The qualifications and record of the applicant have been investigated, and on behalf of this company I hereby recommend him as a trustworthy and competent person of sufficient insurance experience to entitle him to receive a license to act as an insurance agent for any classes of insurance other than life insurance." I would submit that the foregoing record clearly indicates that some of the signing officers of the companies have not made the investigation to which they have attested in the application. A little more care in the selection of agents would greatly facilitate the work of the Department in the administration of the Agents' Qualification Law. I must say, however, that some company managers have turned down unsuitable applicants for license and have written to the Department advising of their action. If all companies did the same we should be able to relieve the Advisory Board of a good deal of work.

VALUATION OF SECURITIES

This Report includes as Appendix II the report of the Standing Committee of the Association of Superintendents of Insurance of the Provinces of Canada on valuation of securities, dated December 30th, 1936.

CONDITIONS IN FIRE AND CASUALTY INSURANCE BUSINESS

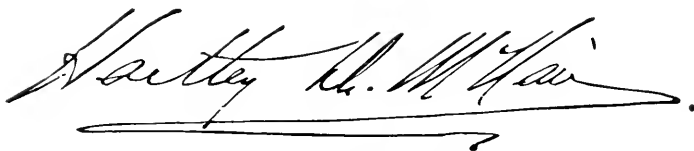

The attention of the Department has been drawn to the existence of undesirable conditions in the fire and casualty insurance business in this Province. A meeting was held with representative fire and casualty insurance executives to ascertain their views as to the existence of such conditions and to consider what action should be taken. The proceedings of this meeting, including the questions considered, are set out in Appendix X to this Report.

COMPANY CHANGES

By a reinsurance agreement between the Federal Fire Insurance Company of Canada, an Ontario company incorporated under Letters Patent of the Province of Ontario, dated the 5th day of December, 1922, and the Federal Fire Insurance Company of Canada, incorporated by a Special Act of the Parliament of Canada, 1 Geo. VI, chapter 47, the Dominion company assumed the assets and liabilities of the provincial company. The agreement was approved by Order-in-Council dated the 14th day of September, 1937.

By a reinsurance agreement between the Wellington Fire Insurance Company, incorporated under Letters Patent of the Province of Ontario, dated the 31st day of December, 1927, and the Wellington Fire Insurance Company, incorporated by a Special Act of the Parliament of Canada, 1 Geo. VI, chapter 52, the Dominion company assumed the assets and liabilities of the provincial company upon the terms and conditions set out in the agreement. The agreement was approved by Order-in-Council dated the 14th day of September, 1937.

The Provident Assurance Company, a Quebec company which has been licensed in Ontario since 1917, gave notice of withdrawal of operations in Ontario on August 11th, 1936. The liability respecting contracts in force in Ontario was reinsured or assumed by the North Star Insurance Company, the General Reinsurance Corporation, and the Switzerland General Insurance Company, Limited, as of August 31st, 1936.

A handwritten signature in dark ink, reading "Harry M. McLean". The signature is fluid and cursive, with a long horizontal flourish extending to the right.

Superintendent of Insurance.

Parliament Buildings, Toronto,

December 15th, 1937.

I ANNUAL STATEMENTS

A JOINT STOCK INSURANCE COMPANIES

N.B.—The following is the note referred to at the foot of certain pages pertaining to Joint Stock, Mutual, Cash-Mutual, Fraternal, Reciprocal and Miscellaneous Insurers, viz.:

The insurer is also registered pursuant to the *Canadian and British Insurance Companies Act, 1932*, or the *Foreign Insurance Companies Act, 1932*, as the case may be, and its affairs are reported upon in detail in the Annual Report of the Dominion Superintendent of Insurance. Accordingly it has been required to file only a modified statement with the Ontario Department as authorized by Regulations passed under Section 70 (2) of the Act.

Miscellaneous Statement

I. The calculation of the "Reserve" in the "Statement of Actuarial Liabilities."

(1) Method of valuation of policies of life insurance and annuities:

For the regular line business, the policies in force were grouped for valuation purposes according to the year of issue, plan and age nearest birthday in the year of issue. Prepared tables of mean reserves were used, taking advantage of the deductions permitted by the Ontario Insurance Act. Except in respect of the business of the former Mutual Relief Life Insurance Company reinsured by this Company during 1936, the basis of valuation was as follows: Policies issued prior to 1931 were valued on the OM (5) Table of Mortality with interest at $3\frac{1}{2}\%$ per annum and those issued in 1931 and subsequent years were valued on the AM (5) Table of Mortality with interest at $3\frac{1}{2}\%$ per annum. A limited number of special contracts were valued throughout on the OM (5) Table of Mortality with interest at $3\frac{1}{2}\%$ per annum. The business of the former Mutual Relief Life Insurance Company reinsured during 1936 and issued in 1929 and years subsequent was valued according to the AM (5) Table of Mortality with interest at the rate of $3\frac{1}{2}\%$ per annum. Contracts issued as annual premium deferred annuities not involving life contingencies during the deferred period, were valued by accumulating the net premiums with interest at the rate of $3\frac{1}{2}\%$ per annum. Through reinsurance of the Canadian Order of Oddfellows and the Mutual Relief Life Insurance Company, the Company has on its books some fraternal insurance for part of which the premiums are payable annually and for part of which the premiums are payable monthly. In respect of policies in this section on the Whole Life plan, the business was grouped according to the attained age in 1936, and the sums assured and the net premiums were valued separately. For business on other plans in this section, the policies were grouped for valuation purposes according to the year of issue, plan and age at issue and prepared tables of mean reserves were employed. All policies in force in this section were valued according to the AM (5) Table of Mortality with interest at the rate of 4% per annum.

For the valuation of life annuity contracts in force, the basis used was the Table of Mortality of Annuitants, 1900-1920, with interest at $3\frac{1}{2}\%$ per annum. Contracts for immediate annuities certain were valued with interest at $3\frac{1}{2}\%$ per annum.

Special Classes:

- (a) For policies issued on lives resident in tropical or sub-tropical countries an extra premium is charged. See T.A.S.A. Volume XXIX, page 4.
- (b) Where policies have been issued at rated-up ages, the reserves are taken as of the rated-up age used for computing the premium.
- (c) Policies issued subject to a lien were valued for the full amount of insurance.
- (d) Policies issued subject to an extra premium (1) payable in one sum, not issued; (2) payable annually, a reserve equal to 45% of the gross extra premium is provided.
- (e) The sub-standard business issued all comes under the above 4 classes and practically all is on the rated-up age plan.
- (f) For policies issued to include disability benefits (waiver of premiums only and waiver of premiums with monthly income without deduction from the sum assured) the additional liability was determined as follows:
 - (1) Before the occurrence of disability by the accumulation of 50% of the gross extra premium for disability on the policies in force from the date of issue;
 - (2) After the occurrence of disability the reserve provided was the present value of the future income payments and premiums waived on the basis of Hunter's Disability Table with interest at the rate of 3% per annum adjusted as follows, according to the year preceding the date of valuation that the claim was incurred: 50% first year, 75% second year, 85% third year, 95% fourth year and 100% in the fifth year of disability and thereafter.
- (g) There is one annuity in force issued on a sub-standard basis. This contract was valued at the rated-up age on the basis of which it was issued.
- (h) For policies issued to include the additional accidental death benefit a reserve of 50% of the gross extra premiums for this benefit was provided.

(2) Items of special reserve:

- (a) No reserve is maintained on account of loadings on single premium policies, limited payment policies or annuities.
- (b) Where the guaranteed values in certain policies exceeded the reserve according to the basis of valuation a pure endowment reserve was provided for the excess of the guaranteed value over the reserve.
- (c) For lapsed policies eligible for reinstatement and not continued in force under the automatic non-forfeiture provisions, no reserve is provided for the excess of the statutory reserve over the guaranteed value.
- (d) No reserve was held to cover the option of renewal under term policies.
- (e) No reserve was held to cover the option of conversions under term policies.
- (f) There are no items of special reserve to which reference has not already been made.

II. Modifications or limitations under special class policies referred to in I. (1), (a) to (f) above. Where a policy was issued on a rated-up age, the guarantees contained in the contract are for the same age as was used in calculating the premium. For other special class policies, the values as for the age and year of issue were used.

III. The average rate of interest earned during the year on the basis of the amount of net ledger assets was 4.53% according to the formula $\frac{2I}{A+B-I}$. In computing the denominator for this purpose, the assets were taken at the authorized values allowed by the Department rather than the book values. A special adjustment in the calculation was made on account of assuming the assets of the former Mutual Relief Life, as of May 20, 1936.

IV. The distribution of surplus:

- (a) A separation of the funds of the Company as between the policyholders and shareholders has not been made.
- (b) A nominal scale of dividends has been provided in accordance with the attached schedule of dividends. The cash dividends shown in the schedule have been converted into bonus additions (paid-up insurance), on the basis of the AM (5) $3\frac{1}{2}\%$ table, and have been converted into premium reductions on the basis of annuities certain with $3\frac{1}{2}\%$ interest. An amount of \$40,000 has been provided in the Balance Sheet towards the payment of dividends which become due during 1937, and on account of the accrued amounts for policies on the quinquennial and deferred dividend plans where dividends will become due in later years.
- (c) There is only one participating annuity in force and dividends are not yet due on this contract.

Miscellaneous

Class or classes of members entitled in event of discontinuance of premium payment to benefit thereafter.—Those joining on and after January 1, 1915.

Conditions as to membership, etc., under which such benefits are available.—If in good standing on January 1, 1924, and for a period of at least five years.

Nature of benefits so granted.—Paid-up insurance payable at death to beneficiary or beneficiaries; also cash surrender values; amounts fixed by table of rates prepared by Actuary.

Valuation Balance Sheet

MORTUARY DEPARTMENT

Assets

Ledger assets.....	\$2,669,011 36
Less values not admitted.....	337,190 76
	<u>\$2,331,820 60</u>
Non-ledger assets:	
Interest due and accrued.....	\$27,712 88
Liens re age.....	746 85
	<u>28,459 73</u>
Total Assets.....	<u>\$2,360,280 33</u>

Liabilities

Reserves.....	\$2,152,477 00
Unpaid claims.....	21,398 67
Advance premiums.....	716 12
Interest reserve.....	50,000 00
Surplus.....	135,688 54
	<u>\$2,360,280 33</u>

The basis of the above valuation was the American Men Ultimate Table with interest at 4 % per annum.

Average rate of interest earned on ledger assets was 4.29 %.

Ratio of assets to liabilities was 106.1 %.

Total amount of insurance valued was \$6,634,070.

SICK BENEFIT DEPARTMENT

Assets		
Ledger assets.....	\$244,036 21	
Less values not admitted.....	18,329 30	
Non-ledger assets:		\$225,706 91
Interest due and accrued.....		4,224 47
Total Assets.....		\$229,931 38
Liabilities		
Reserves.....		\$127,304 00
Unpaid claims.....		1,070 60
Surplus.....		101,556 78
		\$229,931 38

Basis of valuation was as follows:

1. Sickness benefits were valued as level term annuities with interest at $3\frac{1}{2}\%$.

(a) Males: \$7.50 per annum.

(b) Females: \$6.00 per annum.

2. Funeral benefits at the rate of \$50.00 per member payable at death, were valued on the basis of the AM5 Table with interest at $3\frac{1}{2}\%$.

Ratio of solvency, 179.1%.

CHILD INSURANCE DEPARTMENT

Assets		
Ledger assets.....	\$21,738 25	
Non-ledger assets.....	668 73	
Total Assets.....		\$22,406 98
Liabilities		
Reserves.....		\$8,385 00
Surplus.....		14,021 98
		\$22,406 98

The basis of valuation was the Canadian Life Table (Grant) with interest at $3\frac{1}{2}\%$.

Ratio of solvency, 267.2%.

All valuations were made by Sydney H. Pipe, Fellow of the Actuarial Society of America, and the American Institute of Actuaries, Associate of the British Institute of Actuaries.

Valuation Balance Sheet

MORTUARY DEPARTMENT

Liabilities

Whole life certificates:	
Value of sums assured.....	\$18,085,600 00
Less: value of future premiums.....	7,163,800 00
	<u>\$10,921,800 00</u>
Value of paid-up certificates.....	2,251,400 00
Twenty pay life certificates.....	227,000 00
Pay to age 65 certificates.....	42,100 00
Endowment certificates maturing at age 65.....	465,600 00
Family protection certificates.....	10,700 00
Twenty-year endowment certificates.....	84,900 00
Death claims under adjustment.....	157,700 00
Investment reserve.....	1,457,500 00
Surplus.....	891,200 00
	<u>\$16,509,900 00</u>

Assets

Book value of bonds not in default.....	\$14,007,200 00
Accrued interest thereon.....	195,800 00
Market value of bonds in default.....	2,075,000 00
Liens on certificates with interest.....	207,500 00
Cash.....	24,400 00
	<u>\$16,509,900 00</u>

Basis of the valuation was the AM (5) table with interest at 3%.

Mortality experienced during 1936 was 87.1% of the mortality expected by the table.

Average interest earned during 1936 was 4.80%.

Ratio of assets to liabilities was 105.71%.

Amount of insurance valued was \$35,505,246.00.

Miscellaneous

Class or classes of members entitled in event of discontinuance of premium payment to benefit thereafter.—Those who have retired from the Civil Service.

Conditions as to membership, etc., under which such benefits are available.—All such members may benefit.

Nature of benefits so granted.—Cash surrender value or paid-up policy.

Particulars of distribution of surplus during last three years.—Reversionary bonus addition of 1% per annum. There is included in this exhibit the bonus additions which vest January 1, 1937, subject to ratification at the annual meeting, which was duly given at such annual meeting on January 27, 1937. The reserve for these bonus additions is held in full in the actual liabilities.

Valuation Summary, 31st December, 1936

Attained Ages	Amount of Benefits	Value of Benefits	Monthly Rates Valued	Value of Monthly Rates	Net Liability	Amount of Bonus Additions	Net Liability for Bonus
20-24.....	\$10,000	\$2,351	\$9 26	\$2,167	\$184	\$50	\$12

GENERAL FUND

Balance of fund (ledger assets), December 31, 1935.....	Nil
Disbursements for the year:	
Auditors' fees.....	\$15 00
Safety deposit box rental.....	20 00
Taxes and licenses.....	55 00
Total Disbursements.....	\$90 00
Add transfers from Benefit Fund.....	90 00
Balance of Fund (Ledger Assets), December 31, 1936.....	Nil

Valuation Balance Sheet for Year Ending 31st December, 1933

Assets	
Ledger assets.....	\$277,912 81
Present value of members' contributions.....	87,272 00
Present value of contributions by City.....	87,272 00
Total Assets.....	\$452,456 81
Liabilities	
Present value of retirement benefits.....	\$365,791 00
Present value of death, disability and withdrawal benefits.....	33,291 00
Investment reserve.....	5,000 00
Surplus.....	48,374 81
	\$452,456 81

The basis of the above valuation was Am(5) Table of Mortality and Rutherford's Tables. Rate of disability was calculated as one-half that shown by the experience of the New York Police Fund, graded down after age 45 so that no disability retirement should take place after age 50.

Rates of withdrawal used were those indicated by experience of the Fund.

The rate of interest used was 4 1/4 % before retirement and 4 % after.

The above valuation was made by J. M. Campbell, Esq., Assistant Actuary, London Life Insurance Co.

Miscellaneous

Class or classes of members entitled in event of discontinuance of premium payment to benefit thereafter.—“Active” and “Juvenile” members.

Conditions as to membership, etc., under which such benefits are available.—Five full years' membership in the case of Paid-up Insurance, and twenty and ten years' full membership in the case of Cash Surrender Values. Endowment Insurance, ten years. Other insurance, twenty years.

Nature of benefits so granted.—Paid-up Insurance and Cash Surrender Values.

Particulars of distribution of surplus during last three years.—Bonus of 2% of insurance given to all “Active” and “Juvenile” members carrying Endowment Policies in 1933 and 1935, who were in good standing for two full years prior thereto.

Valuation Balance Sheet for Year Ending 31st December, 1936

MORTUARY FUND

Liabilities

Net reserve on outstanding insurance.....	\$1,141,190 00
Net reserve on bonus additions.....	148,360 00
Reserve for bonus in 1937.....	39,000 00
Death claims in course of settlement.....	9,560 00
Investment reserve.....	50,000 00
Surplus.....	226,060 00
	<u>\$1,614,170 00</u>

Assets

Total ledger assets.....	\$1,584,000 00
Non-ledger assets.....	30,170 00
	<u>\$1,614,170 00</u>

The above valuation was made on the basis of the British Offices Males' Experience (OM) with interest at $3\frac{1}{2}\%$.

The amount of insurance valued was \$3,917,355.00, with vested bonus additions of \$245,525.00.

The ratio of actual to expected claims was 67.4%.

Rate of interest earned on all funds was 4.72%.

JUVENILE FUND

Liabilities

Net reserve on outstanding certificates.....	\$1,670 00
Surplus.....	1,570 00
	<hr/> \$3,240 00

Assets

Ledger assets.....	\$3,200 00
Non-ledger assets.....	40 00
	<hr/> \$3,240 00

The net reserve was arrived at by accumulating the gross premiums (excluding those paid in year of issue) to the end of 1936, with interest at $3\frac{1}{2}\%$.

Number of certificates valued was 247.

SICKNESS FUND

Liabilities

Present value of benefits.....	\$57,600 00
Investment reserve.....	3,000 00
Surplus.....	7,990 00
	<hr/> \$68,590 00

Assets

Ledger assets.....	\$38,080 00
Non-ledger assets.....	610 00
Present value of future premiums.....	29,900 00
	<hr/> \$68,590 00

The valuation was made upon the basis of the experience of the Manchester Unity of Oddfellows, with suitable modifications, combined with the mortality deduced from the same experience.

Rate of interest used was $3\frac{1}{2}\%$.

The number of certificates valued was 299.

All the above valuations were made by Prof. M. A. Mackenzie, M.A., Fellow of the British Institute of Actuaries.

Miscellaneous

Class or classes of members entitled in event of discontinuance of premium payment to benefit thereafter—All classes of members admitted since January, 1924, and previous members with 20 years of membership.

Conditions as to membership, etc., under which such benefits are available—After three years of membership.

Nature of benefits so granted—Paid-up values, loan values and cash surrender values.

Distribution of surplus during last three years—None.

Valuation Balance Sheet for the Year Ending 31st December, 1936

MORTUARY FUND

Liabilities

Present value of benefits.....	\$7,248,063 00
Claims payable by instalments.....	8,870 20
Commuted value of disability claims.....	8,540 00
Other liabilities.....	25,516 00
	<u>\$7,290,989 20</u>

Assets

Funds applicable to benefits.....	\$3,366,073 59
Present value of future contributions.....	3,295,907 00
Paid on certificates in force.....	109,128 86
Deficit.....	519,879 75
	<u>\$7,290,989 20</u>

The basis of the above valuation was the N.F.C. Mortality Table with interest at 4 %.

The average rate of interest earned was 3.40 %.

The degree of solvency was 92.9 %.

The amount of insurance valued was \$15,953,613.50.

SICKNESS FUND

Liabilities

Present value of benefits.....	\$1,021,304 00
Surplus.....	81,451 06
	<u>\$1,102,755 06</u>

Assets

Funds applicable to benefits.....	\$330,113 06
Present value of contributions.....	754,289 00
Negative values included.....	18,353 00
	<u>\$1,102,755 06</u>

The valuation was made upon the basis of the rates of sickness established 1934, with N.F.C. Mortality with interest at 4%, 50% of the negative values have been included as assets.

JUVENILE FUND

Liabilities

Reserve.....	\$27,250 00
Other liabilities.....	60 00
Surplus.....	1,106 89
	<u>\$28,416 89</u>

Assets

Funds applicable to benefits.....	<u>\$28,416 89</u>

**Net premiums earned" was not calculated. The ratio of net losses incurred to net amount at risk was 8.42 in 1935 and 27.32 in 1936 per \$100,000.

V

APPENDICES

APPENDIX I

REVIEW OF 1937 LEGISLATION, ONTARIO

At the 1937 session of the Legislature no important amendments to *The Insurance Act* were enacted. Certain miscellaneous amendments were effected under *The Statute Law Amendment Act, 1937* (see Statutes of Ontario, 1937, c. 72, s. 29). The following is a synopsis of the amendments so enacted:

Subsection 7 of section 25 of The Insurance Act is amended by substituting the word "province" for the words "legislative jurisdiction." Under this subsection, which relates to the licensing of extra provincial corporations, it was found that certain foreign insurers which have held licenses in Ontario for a number of years were unable to strictly comply with this provision. The subsection is therefore amended to apply only to provincially incorporated companies.

Under the provisions of section 103, section 107 respecting assessments on premium notes does not apply to mutual live stock and weather insurance corporations, but under the provisions of section 201 (1) (c) and 197c it does apply to such corporations. The amendment to *subsection 1 of section 103* removes this inconsistency by striking out the figures "107" in the third line.

Subsection 2 of section 106 is amended by striking out the word "cash" in the fifth line, and inserting after the word "total" in the sixth line the word "net." Section 106 (4) defines actual surplus and not cash surplus. The word "cash" is deleted to correct the error. By basing the qualifying surplus on "total net amount" at risk in place of "total amount" the application of the surplus requirement for approval of rate reduction is made equitable between companies which cede reinsurance and those which do not.

Subsection 4 of section 106 is amended by striking out the word "cash" in the first line and by inserting after the word "payment" in the fifth line the words "and instalments thereof." The subsection defines actual surplus and not cash surplus. The word "cash" is deleted to correct the error.

Section 106 is further amended by adding thereto the following subsections:

(5) When on the 31st day of December the surplus of an insurer in terms of cents per one hundred dollars of net insurance in force is not less than the amount set out in the following table, or, in the case of an insurer with less than two million dollars of net insurance in force, such other amount as shall be approved by the Superintendent, the directors may within one month thereafter declare a refund, not exceeding in total amount the increase in surplus of such insurer during the preceding year, which shall be credited on the cash payment or instalment next due on each policy or renewal thereof then in force; provided that the refund on each policy shall be in the same ratio to the total refund as the face value of the premium note is to the total face value of all premium notes in force at said year end; and provided further that the by-laws of the insurer require that each new member shall pay at the time of application a membership fee of at least twenty cents per one hundred dollars of insurance, or that refunds shall be payable only to members insured continuously during the five years preceding the refund.

TABLE

When the total net amount at risk is greater than \$25,000,000—	\$0.60.
When the total net amount at risk is greater than 10,000,000—	.70.
When the total net amount at risk is greater than 5,000,000—	.80.
When the total net amount at risk is greater than 2,000,000—	1.00.

(6) Subsection 5 shall not apply to cash mutual fire insurance corporations, or to an insurer the surplus of which, as defined by subsection 4, exceeds ten per centum of the total amount at risk.

These subsections set out safety conditions under which purely mutual farm fire insurance companies may limit surplus by refunds of premium.

Subsection 5 of section 114 of The Insurance Act is repealed, and the following substituted therefor:

(5) This section shall not apply to an insurer which is restricted by its license to the insurance against fire and lightning of buildings, plant and stock of millers and grain dealers used in connection with the grain trade, and the dwellings, outbuildings and contents thereof owned by such millers and grain dealers or their employees when and so long as its surplus as defined by subsection 4 of section 106 exceeds ten per centum of the total amount at risk.

The Canadian Millers Mutual Fire Insurance Company is the only insurer affected by this amendment. The Company's business was previously limited to insuring the buildings, plant and stock of millers and grain dealers used in connection with the grain trade. The amendment permits the Company to extend its business to the insuring of the dwellings, outbuildings and contents thereof owned by such millers and grain dealers and their employees.

Subsection 4 of section 257 is amended by striking out the words "fee of ten dollars" in the second line and inserting in lieu thereof the words "prescribed fee."

Subsection 4 of section 259 is similarly amended by striking out the words "a fee of twenty-five dollars" in the third line.

Subsection 4 of section 263 is also similarly amended by striking out the words "a fee of ten dollars" in the second line.

Sections 257 (4), 259 (4) and 264 (4) of the Act previously provided set license fees for brokers, special brokers and adjusters. By virtue of the above amendment such fees may now be prescribed by Order-in-Council in the same manner as all other fees under the Act as provided in section 78.

APPENDIX II

REPORT OF THE STANDING COMMITTEE ON VALUATION OF SECURITIES

ASSOCIATION OF SUPERINTENDENTS OF INSURANCE
OF THE PROVINCES OF CANADA

The following resolution was adopted at the 14th Annual Conference of the Association held in Winnipeg, Manitoba, September 9th to 11th, 1931:

"Whereas it is desirable that all provinces should prescribe the same basis of valuation of securities for use by insurers in completing annual statement blanks;

"Be it resolved that the Provinces of Quebec and Ontario are hereby constituted the Association 'Standing Committee on Valuation of Securities,' with full power to determine the basis of valuation of securities and with instructions to publish through the Secretary, not later than the 15th of January in each year, a list of securities held by insurers as at the December 31st next preceding, with valuations thereof, to be used in completing annual statement blanks."

Each year since 1931 your Committee has submitted reports determining the basis of valuation of bonds, debentures and stocks in respect of annual statements for each of the past five years, and subsequently lists of securities held by insurers showing the values so determined were published and used to complete the said annual statements for all provinces.

The question of valuation of securities in respect of annual statements for the current year has been under consideration by your Committee for the past several months. Three weeks ago, a member of your Committee attended the annual meeting of the National Convention of Insurance Commissioners, when the Commissioners of Insurance of the United States agreed upon the manner in which securities should be required to be valued for the purpose of completing annual statements to the several state departments in the United States. Your Committee is pleased to report again this year that, in its opinion, the basis of valuation approved by the National Convention of Insurance Commissioners is a sound one and again recommends that, having regard to the peculiarly international character of the insurance business, with United States companies carrying on business in every province of Canada, and numerous Canadian companies doing a large and increasing business in the United States, the several provinces of Canada approve the same basis of valuation as that adopted by the several states of the United States.

The resolution unanimously adopted by the National Convention of Insurance Commissioners is appended to this report.

Your Committee has unanimously concluded to determine that the values of bonds, debentures and stocks shall be fixed, for the purposes of the provinces of Canada, upon the same basis as the value of such securities has been determined by the said resolution for the states of the United States, subject only to such minor adjustments as are necessary to adopt the said basis to Canadian statutes, practice and forms.

On or about January 16th, 1937, a list of securities held by insurers, incorporated and licensed by provincial governments, other than

- (a) securities permitted to be valued on an amortized basis, and
- (b) stocks authorized to be valued at market values as of December 31st, 1936,

will be published, showing the value of each security listed to be used in completing annual statement blanks as of December 31st, 1936, and distributed by the Secretary of the Association to all insurers, incorporated and licensed by provincial governments.

HARTLEY D. McNAIRN (Ont.),

On behalf of the Committee (Ont. and Que.).

Dated at Toronto, this 30th
day of December, A.D. 1936.

RESOLUTION ADOPTED BY THE NATIONAL CONVENTION OF INSURANCE COMMISSIONERS
AT THE ANNUAL MEETING HELD IN HOT SPRINGS, ARK.,
DECEMBER 8TH AND 9TH, 1936

RESOLVED: that the book on valuations of securities, to be published under the auspices of the National Association of Insurance Commissioners in January, 1937, shall be prepared upon the following basis:

1. Stocks and bonds (other than those described in paragraph 2 below) shall be valued at market quotations as of December 31st, 1936, except that in the case of securities not quoted on that date the latest available information shall be used. Stock valuations shall include dividends declared or accrued.

STATE AND MUNICIPAL BONDS

2. Bonds of states of the United States and of provinces of the Dominion of Canada and political subdivisions thereof shall be valued as follows:
 - (a) Such bonds which are not in default shall be valued at the mean of the values established by the National Association of Insurance Commissioners for December 31st, 1935, and the market quotations as of October 1st, 1936, but in no case at values greater than the market quotations as of October 11th, 1936. Such bonds if issued in 1936, prior to October 1st, shall be valued at October 1st, market quotations; if issued subsequent to October 1st, the original offering price (cost) shall be used.
 - (b) Such bonds which are in default shall be valued by the publishers of the association book on valuations of securities with such reasonable adjustments of market quotations as of October 1st, 1936, as are warranted by the circumstances involved in the separate issues. Such adjusted values should approximate the mean of the valuations established by the Association for December 31st, 1935, and the market quotations as of October 1st, 1936, and shall be subject to review by the committee on valuation of securities.

STOCKS AND BONDS

RESOLVED: that for the inventory of stocks and bonds in the annual statements of insurance companies and societies as of December 31st, 1936, the following basis is recommended as a fair market value:

1. All bonds amply secured and not in default shall be valued on an amortized basis wherever and in the manner permitted by law.
2. All other bonds . . . and, where amortization is not permitted by law, all bonds . . . should be valued as shown in the book on valuations of securities published under the auspices of the National Convention of Insurance Commissioners.
3. Stocks should be valued as shown in the book on valuations of securities, except as hereinafter provided.

STOCKS HELD BY LIFE COMPANIES

4. Stocks held by life insurance companies may be valued in the aggregate at the cost or book value, whichever is lower, provided the income received by such companies on such stocks in the aggregate, during each of the five years preceding the date of valuation, shall have been at a rate sufficient to meet the interest required to maintain policy reserves and other policy obligations, and provided further that the net investment income received by such companies on their ledger assets shall not have been less than required to maintain the reserve. This shall not apply to stocks of corporations in receivership or similar status. Cost as used shall be held to include stocks received as exchanges or rights received as dividends or otherwise at not to exceed the market value quoted on the date acquired.

FURTHER RESOLVED: that in cases where the condition of insurance companies may require the immediate disposition of securities, it is recommended that the discretion of the state supervisory officials of insurance should be exercised to vary the general formula herein set forth, so as to adopt prices reflected by the exchanges.

There follows some general instructions prepared for the convenience and guidance of insurers.

GENERAL INSTRUCTIONS

Schedules of bonds, debentures and stocks owned or held as security for loans by insurers as of December 31st, 1936, required to be filed with the several provincial Departments of Insurance in Canada shall be valued in accordance with the foregoing and with these instructions:

1. *Stocks and Bonds Generally.* Except as hereinafter provided, stocks and bonds shall be valued at market quotations as of December 31st, 1936.

2. *Amortization Basis for Bonds Not in Default.* All bonds with certain exclusions as follows, having a fixed term and rate of interest and not in default as to principal or interest, shall be valued on an amortized basis.

Bonds of corporations other than municipal, which have been subject of a plan of refinancing either by the issue of new bonds, income or otherwise, or upon which the whole or any part of interest payments have been deferred or payable by any consideration other than cash, should be valued at market quotations as of December 31st, 1936, and may be classified as "not in default."

3. *Bonds of Municipalities in Default.* Bonds of states of the United States and of the provinces of the Dominion of Canada and political subdivisions thereof, not eligible to amortization, shall be valued at the rates shown in this list.

Where any corporation, municipal or otherwise, *has defaulted* principal and/or interest *on any outstanding liability*, all securities of that corporation *must be classified as in default*, and the promulgated values used in all cases.

4. *Stocks of Life Companies.* Stocks held by life insurance companies may be valued in the aggregate at the cost or book value, whichever is the lower, provided the income received by such companies on such stocks, in the aggregate during each of the five years preceding the date of valuation, shall have been at a rate sufficient to meet the interest required to maintain policy reserves and other policy obligations, and provided further that the net investment income received by such companies on their ledger assets shall not have been less than required to maintain the reserve. This shall not apply to stocks of corporations in receivership or similar status. Cost as used shall be held to include stocks received as exchanges or rights received as dividends or otherwise at not to exceed the market value quoted on the date acquired.

Omissions or inaccuracies in this publication, or requests for additional information, should be drawn to the attention of or made to the Secretary.

HARTLEY D. McNAIRN,
Secretary.

Toronto, Ontario, January 16th, 1937.

INDEX TO CLASSIFICATION OF FIRE INSURANCE RISKS

CLASS NO.	NON-HAZARDOUS	CLASS NO.	HAZARDOUS
2.	Barns and Stables, Private, other than farm.	140.	Mercantile Stocks—Hardware, Iron and Steel Bars and Piping, Cutlery, Surgical Instruments, Machinery, Belting, Mill Equipment, Supplies, Stoves, Tinware, House Furnishings, Wooden, Willow and Basketware, retail.
4.	Churches and Chapels.	142.	Mercantile Stocks—Hardware, Iron and Steel Bars and Piping, Cutlery, Surgical Instruments, Machinery, Belting, Mill Equipment, Supplies, Stoves, Tinware, House Furnishings, Wooden, Willow and Basketware, wholesale.
6.	City and Town Halls, Courthouses, State Capitols, Armories, Fire Department Houses, Libraries (Public), Museums of Art, and Natural History.	146.	Household Furniture in Mercantile Buildings.
8.	Colleges, Universities, Boarding Schools, Convents, Schools and Academies, with or without dormitories.	154.	Mercantile Stocks—Liquors and Wines, wholesale.
10.	Dwellings without Barns or with Barns Attached (excluding seasonal and farm risks), Apartment and Flat Houses, Palatial Dwellings. (Apartment Houses having one general Dining-room, classify with Hotels; see 620.)	156.	Lodge and Society Rooms (Masonic, Oddfellows, etc.), Contents only.
14.	Dwellings and Outbuildings—Summer or Winter only.	160.	Mercantile Stocks — Miscellaneous, wholesale and retail.
16.	Farm Risks (buildings and contents), including Live Stock.	164.	Mercantile Stocks—Millinery, Feathers, Artificial Flowers, wholesale.
22.	Garages (private).	168.	Offices and Banks, Telephone Exchanges, Buildings and Contents.
24.	Hospitals, Sanatoriums, Asylums (Deaf, Dumb, Blind, Orphan), Homes for the Aged.	176.	Restaurants, Contents only.
MERCANTILE		180.	Saloons (Liquor), Contents only.
101.	Mercantile Buildings (including those with public hall or lodge rooms above), except 103 (see 168, 200, 184 and 186).	184.	Stores, Country (Remote or Crossroad), usually of moderate or small values, Buildings and Contents.
103.	Mercantile Buildings with Wholesale Occupancy exclusively.	186.	Stores, General (Village or City), including Department Stores, Contents only.
102.	Mercantile Stocks—Agricultural Implements, Automobile and Carriage Sales-rooms.	196.	Mercantile Stocks — Tobacco, Cigars, Smokers' Articles, wholesale.
110.	Mercantile Stocks—Boots and Shoes, retail.	197.	Wharf Risks, Ferry Houses, Contents.
112.	Mercantile Stocks—Boots and Shoes, Leather Goods (Hides, Harness and Trunks), Rubber Goods, wholesale.	200.	Mercantile Buildings, Retail Occupancy, with Dwellings only above Grade Floor.
114.	Mercantile Stocks—Clothing, Hats, Caps, Furs and Men's Furnishings, retail, Merchant Tailor, Regalia, Costumer and Dressmaking.	WAREHOUSES	
116.	Mercantile Stocks—Clothing, Hats, Caps, Furs and Men's Furnishings, wholesale.	254.	Cold Storage, Contents only.
124.	Mercantile Stocks—Drugs, Chemicals and Medicines, retail.	256.	Cotton (no compressing), Building and Contents.
126.	Mercantile Stocks—Drugs, Chemicals and Medicines, wholesale.	260.	General Storage, not specifically classed, Contents only.
128.	Mercantile Stocks—Dry Goods, Woollens, Carpets and Notions, Chinese and Japanese Goods, retail.	266.	Fibres (other than Cotton and Wool and Tobacco), Contents only.
130.	Mercantile Stocks—Dry Goods, Woollens, Carpets and Notions, Chinese and Japanese Goods, wholesale.	268.	Household Furniture, Contents only.
132.	Mercantile Stocks—Furniture, Musical Instruments, Music, Undertakers' Establishments, Photographers' Supplies, Optical and Scientific Goods, retail.	276.	Tobacco, Building and Contents.
136.	Mercantile Stocks—Groceries, Meat, Fish, Butter, Cheese, Eggs, Fruit and Produce, retail.	278.	Whiskey, Building and Contents.
138.	Mercantile Stocks—Groceries, Meat, Fish, Butter, Cheese, Eggs, Fruit and Produce, wholesale.	280.	Wool, Contents only.
		MANUFACTURING SPECIALS	
		WOODWORKERS	
		(Building and Contents)	
		300.	Agricultural Implement Factories, and other Factories having woodworking (principally hard) in conjunction with ironwork, painting, etc., such as Carriage, Bed Spring, Incubator, Refrigerator, Sewing Machine and Wringer Factories, and Car Works.

APPENDIX V—Continued

INDEX TO CLASSIFICATION OF FIRE INSURANCE RISKS—Continued

CLASS NO.	CLASS NO.
302. General Woodworking, without power, including Carpenter and Cabinet Shops, Looking Glass and Picture Frame Factories, Cooper Shops.	370. Cereal Mills—Grist and Feed Mills and Rice Mills.
304. General Woodworking, with power and without finishing, Chair, Pail, Tub, Tank, Bobbin, Ladder, Wooden Toy Factories, Match Factories, Moulding, Turning, Wheel, Hub, Spoke and Spool Factories—Carpenter Shops with power.	372. Chemical Works of the milder hazards.
306. Furniture, Organ, Piano, Graphophone, Rattan, Wooden Trunk, Casket and Billiard Table Factories—Clock Factories if with woodworking.	374. Chemical Works of hazardous nature or with explosive hazard.
308. Marine Railways, Shipyards, Boat Building, Dry Docks.	386. Clothing, Cap and Overall Factories—Tent, Awning, Sail and Rigging Lofts.
316. Planing Mills, Sash, Door, Blind and Wooden Box Factories—Dry Houses for Lumber.	388. Coal Breakers and Mining Buildings—Anthracite.
318. Saw Mills.	390. Coal Tipples and Top Works—Bituminous.
320. Shingle, Stave, Lath, Veneer and Kindling Wood Mills—Excelsior Factories.	394. Collar, Cuff, Shirt, Corset Waist and other White Goods Factories.
	396. Confectionery, Chocolate and Chewing Gum Factories.
	402. Cotton Gins.
	404. Cotton Mills (Full Process).
	406. Creameries, Powdered and Condensed Milk, Caseine and Cheese Factories.
	412. Distilleries and Rectifying Works (Steam).
	416. Electric Light and Power Plants (when separately insured), Water Works and Pumping Stations—Filtration Plants.
	418. Fertilizer and Phosphate Factories.
	420. Flour Mills.
	424. Fur Hat, Fur Cutting, Forming and Dressing Mills.
	426. Glass Works.
	430. Grain Elevators and Warehouses — Terminal.
	432. Grain Elevators and Warehouses — Country.
	438. Hemp and Jute Mills—Cordage and Bagging Factories—Waste and Shoddy Mills, Carpet Lining and Batting Factories.
	442. Ice Factories.
	446. Laundries (Hand or Power) — Cleaning Establishments.
	450. Leather Goods Factories (except Boot and Shoe), such as Harness, Saddlery, Pocketbook, Glove, Bag, Leather Trunk, Whip and Sporting Goods.
	452. Malt Houses.
	458. Mining Risks (other than Coal, including Mining Dredges).
	460. Miscellaneous Manufacturing Establishments, not otherwise classified.
	464. Oil Works—Vegetable.
	466. Oil—Vegetable—in tanks.
	468. Oil Works—Fish.
	470. Oil Works — Minerals — Refineries, Oil Derricks, Pipe Lines.
	472. Oil—Mineral—in Tanks or Sumps.
	474. Packing Houses, Slaughtering, Rendering, Oleomargarine, Lard, Candle, Crude Glycerine and Glue Works.
	476. Paint, Varnish, White Lead and Oil Colour Works — Turpentine Refineries, Printing Ink Works.
	480. Paper, Pulp, Leather Board and Straw Board Mills.
	484. Potteries, Brick, Tile, Plaster and Crucible Works—China Decorating.
	486. Printing Establishments, Lithographers, Book Binderies.

METAL WORKERS

(Building and Contents)

322. Automobile Factories.
324. Heavy Metal Workers Generally—Foundries for Iron, Brass, Type Work and Stoves—Furnaces, Rolling Mills, Machine Shops (with Foundries connected)—Boiler Shops, Nut and Bolt Works, Bicycle and Firearms Factories, Locomotive Works, Wireworking and Drawing, Machine Shops without Foundries.
326. Light Metal Workers generally—Hardware Factories for manufacturing Cutlery, Copper or Brassware, Axes, Tools, Nails, Tacks, Pins and Needles—also Clock Factories if no woodworking, Jewellery, Watch, Dental, Scientific and Surgical Instrument Factories, Miscellaneous Metal Workers, not otherwise specified, Silver, Aluminum and Tableware Factories—Electro-plating.
338. Stamping Works—Tin, Hollowware, Iron Bedstead, Gas Fixtures, Lamp and Iron Toy Factories—Japanneries.

OTHER OCCUPATIONS

(Building and Contents)

346. Bakeries and Macaroni Factories.
350. Bleacheries, Dye and Print Works.
352. Boot, Shoe, Slipper, Heel and Counter Factories.
354. Breweries.
356. Brush and Broom Factories.
358. Canneries — Canning and Preserving Works for Fruit, Vegetables and Fish.
366. Celluloid Works—Celluloid and Celluloid Goods Factories.
368. Cement Mills.

- 862. Cereal, Flour and Rice Mills and Elevators.
- 866. Textile and Cloth Workers.
- 886. Miscellaneous Manufacturing Specials not otherwise classified.
- 952. Miscellaneous Non-manufacturing Specials.
- 956. Street Railway and Traction Properties

APPENDIX VI

RE "THE AUTOMOBILE INSURANCE ACT" AND STANDARD FORMS

(Note.—The following is an extract from the "Foreword" and "Table of Contents" of the pamphlet containing the *Automobile Insurance "Standard Forms"* recommended to the Association of Superintendents of Insurance of the Provinces of Canada by the Committee of Underwriters and approved for use under the uniform automobile insurance Acts in all provinces [except Quebec]. This foreword replaces the "Letter of Transmittal and Approval" dated August 1st, 1936.)

ASSOCIATION OF SUPERINTENDENTS OF INSURANCE
OF THE PROVINCES OF CANADASTANDING COMMITTEE ON
AUTOMOBILE INSURANCE STANDARD FORMS

This pamphlet (as amended to date) contains the automobile insurance "Standard Forms" (*not printed in this Report*) which have been recommended to the Standing Committee on Automobile Insurance Standard Forms of this Association by the Committee of Underwriters for use under *The Uniform Automobile Insurance Act*. The Standing Committee has concurred in the recommendations of the Committee of Underwriters, and the "Standard Forms" and "General Instructions" which follow herein (*not printed in this Report*) have been placed on file with the Superintendent of Insurance or other supervising official in every province of Canada (except Quebec). In accordance with the agreement entered into between all provinces such approval and filing automatically carries approval under the uniform Act in all provinces.

All application, endorsement and policy forms not included herein must be filed with the Superintendent in each province for special approval in strict conformity with the Act.

Complete information as to the work of the Standing Committee of this Association and as to the proceedings, personnel, etc., of the Committee of Underwriters will be found in the "Minutes of Proceedings" of the Annual Conferences of the Association.

Additional copies of this loose-leaf booklet of "Standard Forms" and of new or reprinted pages may be obtained at cost direct from the printers, Thompson and Sons, Limited, 384 Adelaide Street West, Toronto.

All communications respecting automobile insurance Standard Forms should be addressed to Mr. John Edwards, F.C.A.S., Actuary, Ontario Insurance Department, Parliament Buildings, Toronto, who is Secretary of the Committee of Underwriters and of the Standing Committee on Automobile Insurance Standard Forms.

HARTLEY D. McNAIRN,
Chairman.

August 2nd, 1937.

STANDARD FORMS

Revised to August 2nd, 1937

I. ENDORSEMENT FORMS:

- (1) Passenger Hazard Included Endorsement.
- (1a) Restricted Passenger Hazard Endorsement.
- (2) Drive Other Automobiles Endorsement (Restricted Form).
- (2a) Drive Other Automobiles Endorsement (Broad Form).
- (3) Employer's Liability Endorsement (Named Employees).
- (3a) Employer's Liability Endorsement (Employees not Named).
- (4) Permission to Carry Explosives Endorsement.
- (5) Permission to Rent or Lease Endorsement.
- (6) Permission to Carry Passengers for Compensation or Hire Endorsement.
- (7) Inclusive Coverage Endorsement.
- (8) Automobile Plate Glass Endorsement.
- (9) Trailer Endorsement.
- (10) Farmer's Truck Endorsement.
- (11) Automobile Salesmen and Garage Employees Policy Written at Private Passenger Car Rates Endorsement.
- (12) Additional Coverage Endorsement.
- (13) Deleted Coverage Endorsement (Insured's Form).
- (13a) Deleted Coverage Endorsement (Insurer's Form).
- (14) Funeral Director's Endorsement.
- (15) Substitution or Addition of Automobile Endorsement.
- (16) Winter Cancellation Endorsement.
- (17) Reinstatement of Winter Cancellation Endorsement.
- (18) Radio Endorsement.
- (19) \$50 Deductible Property Damage Endorsement.
(Commercial and Public Automobiles.)

- (20) More Automobiles than Operators Endorsement.
- (21) Automatic Coverage Endorsement. (Fleets.)
- (22) Motorcycle Endorsement. (Theft.)
- (23) Mortgage Endorsement.
- (24) Fire Apparatus Endorsement.
- (25) Alteration Endorsement.
- (26) Additional Insured Endorsement (Garage Payroll Form).
- (27) Automobile Service Station Endorsement (Garage Payroll Form).
- (28) Excluding Named Person Endorsement.
- (29) Named Chauffeur Endorsement.
- (30) Storage Garage Endorsement.
- (31) Open Air Parking Station Endorsement.

II. APPLICATION FORMS:

- (1) Owner's Form.
- (2) Driver's Form.
- (3) Application and Agreement for Winter Cancellation.
- (4) Garage Payroll Form.

III. POLICY FORMS:

- (1) Owner's Form (revised July 1st, 1935).
- (2) Driver's Form.
- (3) Standard Automobile Renewal Certificate.
- (4) Garage Payroll Form.

APPENDIX VII

AUTOMOBILE INSURANCE LOSS-COST EXPERIENCE IN ONTARIO
FOR POLICY YEARS 1932, 1933, 1934, 1935 AND 1936.

The following statistical tables, numbered 1 to 13, inclusive, have been filed by the Canadian Underwriters' Association, the statistical agency designated to compile the Ontario Automobile Insurance Loss-Cost Experience pursuant to Section 69a of *The Insurance Act*.

Tables 1 (a) (b) (c). Private Passenger Public Liability Experience in Ontario for the complete policy years 1932, 1933, 1934 and 1935, and the incomplete policy year 1936, developed as of June 30th, 1937.

Table 1 (a) furnishes experience covering "passenger hazard" only, and Table 1 (b) public liability, excluding passenger hazard. Table 1 (c) includes both classes of coverage shown in Tables 1 (a) and 1 (b). Table 1 (a) for 1935 and 1936 shows passenger hazard experience on cars insured in Ontario where such accidents occur outside the Province (extra territorial), since the 1935 amendment to Section 41a (2) of *The Highway Traffic Act* practically removed all of the liability on owners and drivers in Ontario respecting liability for injuries to "guest" or "gratuitous" passengers. These public liability tables, particularly as to Table 1 (c), clearly indicate that public liability insurance in Ontario on the whole has been written at a loss to insurers during the past five years. (Reference: Table 3 (c), column 9.)

Table 2. Private Passenger Property Damage Liability Experience in Ontario for the complete policy years 1932, 1933, 1934 and 1935, and the incomplete policy year 1936, developed as of June 30th, 1937.

No definite trend is indicated in the private passenger property damage loss-cost experience. Column 9 of the table indicates, however, that 1936 was unprofitable to insurers for this coverage.

Tables 3 and 4. Private Passenger Collision Experience in Ontario for the complete policy years 1932, 1933, 1934 and 1935, and the incomplete policy year 1936, developed as of June 30th, 1937.

It will be seen by reference to Table 3, column 2, that collision coverage has become much more popular the last two years; in fact the number of motorists carrying some form of collision insurance coverage has doubled during the last two-year period. The most popular form of collision coverage appears to be \$50 deductible (see Table 4), and it is noted that collision insurance on private passenger cars is presently unprofitable to insurers. (See column 9, Table 3.)

Table 5. Private Passenger Automobile Fire Damage Experience in Ontario for the complete policy years 1932, 1933, 1934 and 1935, and the incomplete policy year 1936, developed as of June 30th, 1937.

By reference to Table 5, it will be seen that the experience on private passenger cars insured against fire continues to be favourable, which is reflected in columns 2 and 3 of the Table, as the average private passenger fire premium collected for 1936 was only slightly more than \$3.00 per year for each insured vehicle, compared with almost \$4.75 in 1932. At the reduced average premium in 1936 the loss-ratio (column 9) continues very favourable to insurers.

Table 6. Private Passenger Theft Experience in Ontario for the complete policy years 1932, 1933, 1934 and 1935, and the incomplete policy year 1936, developed as of June 30th, 1937.

By reference to Table 6 it will be seen that the experience on private passenger cars insured against theft also continues to be favourable, as well as the automobile fire (shown in Table 5). The average premium in 1936 collected by insurers for this coverage works out at approximately \$2.00 per insured vehicle, compared with approximately \$3.60 per car in 1932.

Tables 7-11, inclusive. Commercial Automobile Insurance Experience in Ontario for the complete policy years 1932, 1933, 1934 and 1935, and the incomplete policy year 1936, developed as of June 30th, 1937.

On account of lack of sufficient volume the experience reported for commercial vehicles is merely a guide and is not very reliable for the purpose of rate-making. These Tables show separately the coverages for commercial Public Liability, Property Damage, Collision, Fire and Theft.

Tables 12 and 13. Public Vehicles (All Classes), Fleets, Garages, Automobile Dealers and Manufacturers. Experience in Ontario for the complete policy years 1932, 1933, 1934 and 1935, and the incomplete policy year 1936, developed as of June 30th, 1937.

These Tables show the premiums earned, losses incurred, with the resultant percentage of losses incurred to such premiums earned for the five-year period, 1932 to 1936, inclusive.

*During 1928, 1929 and 1930 insurers permitted a discount from the above rates of 10 per cent when all five forms of coverage were insured under one policy, viz.: Public Liability, Property Damage, Collision, Fire and Theft. If three coverages were insured under the one policy, viz.: Public Liability, Property Damage and Collision, a discount of 5 per cent was allowed.

†Deduct from the combined 1933 Public Liability and Property Damage Rates 10 per cent for "no claims bonus" allowed for 12 months accident-free record. After April 15th, 1933, the "no claims bonus" was changed to 10 per cent discount for 12 months accident-free record, 15 per cent discount for 24 months accident-free record, and 20 per cent for 36 months accident-free record.

In 1937 the "no claims bonus" applicable to Public Liability and Property Damage was discontinued.

APPENDIX IX

REPORT OF QUARTERLY RETURNS OF AGENTS' BALANCES (OTHER THAN LIFE)
AS OF SEPTEMBER 30th, 1937

To the Members of the Special Committee of the Association of Superintendents
of Insurance of the Provinces of Canada:

In accordance with the request of your Committee, we beg to submit a further Comparative Report of the results obtained by Ontario in calling for the Quarterly Returns of Agents' Balances more than ninety days overdue for the five quarterly periods, September 30th and December 31st, 1936, March 31st, June 30th and September 30th, 1937.

The report is prepared as of November 1st, 1937, when 8 Companies and 18 General Agents had filed no return.

1. *Completeness of Data:* The following table shows the number of companies filing returns and the number which made "NIL" returns at each period.

Period Ending	No. of Companies Asked to File Returns	No. not Complying	No. of "NIL" Returns
Sept. 30th, 1936.....	255	2	84
Dec. 31st, 1936.....	257	2	80
Mar. 31st, 1937.....	259	6	79
June 30th, 1937.....	258	18	72
Sept. 30th, 1937.....	257	8	87

The following table shows the number of "General Agents" filing returns and the number which made "NIL" returns at each period.

Period Ending	No. of General Agents Asked to File Returns	No. not Complying	No. of "NIL" Returns
Sept. 30th, 1936.....	82	26	36
Dec. 31st, 1936.....	85	16	33
Mar. 31st, 1937.....	82	20	32
June 30th, 1937.....	80	25	30
Sept. 30th, 1937.....	83	18	42

2. *Number of Agents Reported in Returns:* The following table shows the number of agents reported and by how many offices for the five periods. The figures for September 30th and December 31st, 1936, March 31st, June 30th and September 30th, 1937, include the agents reported on the return of General Agents. A comparison of the figures by amounts outstanding will be found in paragraph 5.

Number Reported by	PERIODS ENDING				
	1936		1937		
	Sept. 30th	Dec. 31st	Mar. 31st	June 30th	Sept. 30th
One company.....	916	575	638	597	761
Two companies.....	239	143	204	156	187
Three ".....	122	42	66	68	84
Four ".....	58	22	30	22	45
Five ".....	33	11	14	17	18
More than 5 companies.....	68	15	29	13	28
More than 10 ".....	16	5	5	5	7
More than 20 ".....	...	2	1	1	1
Totals.....	1,452	815	987	879	1,131

3. *Aggregate Amount of Balances Overdue:* The following table shows the aggregate amount of balances reported by the *companies only*, as ninety days or more overdue for the five periods:

Period Ending	Amount Outstanding	Increase or Decrease Over Preceding Period	
Sept. 30th, 1936	\$519,359.85	\$334,676.69
Dec. 31st, 1936	242,592.46	\$276,767.39
Mar. 31st, 1937	283,462.27	40,869.81
June 30th, 1937	268,147.25	15,315.02
Sept. 30th, 1937	362,970.62	94,823.37

4. *Amount Reported by General Agents:* The amount of balances reported by General Agents as being ninety days or more overdue from sub-agents or brokers or other persons from whom they accept business and to whom they pay commission was as follows (for five periods):

Period Ending	Amount Outstanding	Increase or Decrease Over Preceding Period	
Sept. 30th, 1936	\$65,362.52	\$46,418.11
Dec. 31st, 1936	21,480.66	\$43,881.86
Mar. 31st, 1937	24,372.30	2,891.64
June 30th, 1937	21,097.76	3,274.54
Sept. 30th, 1937	50,140.17	29,042.41

5. *Comparison of Number of Agents Reported in the Five Periods:* i.e., September 30th and December 31st, 1936, March 31st, June 30th and September 30th, 1937:

Period Ending	Under \$1,000	Over \$1,000	Over \$2,000	Over \$3,000	Over \$4,000	Over \$5,000	Over \$10,000	Over \$20,000	Total
Sept. 30th, 1936	1,344	54	23	10	4	16	1	..	1,452
Dec. 31st, 1936	761	31	10	4	4	4	1	..	815
Mar. 31st, 1937	928	32	13	6	2	5	1	..	987
June 30th, 1937	820	28	13	7	4	7	879
Sept. 30th, 1937	1,051	37	22	9	5	7	1,131

6. *Analysis of Agencies by Territories and by Amounts of Balances Owed:*

The following table shows an analysis of the Quarterly Returns, wherein the Province is divided into *five* districts and the premiums reported as "Under \$1,000," "Over \$1,000," "Over \$2,000," etc.

Statement of number of agents with balances ninety days or more in arrears as of September 30th, 1937:

Location	Under \$1,000	Over \$1,000	Over \$2,000	Over \$3,000	Over \$4,000	Over \$5,000	Over \$10,000	Over \$20,000	Total
Toronto	340	18	10	2	4	5	379
Hamilton	44	1	1	46
London	27	2	2	31
Windsor	27	2	1	30
Ottawa	60	1	3	2	66
Elsewhere	553	13	6	5	1	1	579
Totals	1,051	37	22	9	5	7	1,131

7. Following the usual practice, this report covers five quarterly periods, and thus a comparison of the same period for two years is made. It will be noted that the amount outstanding more than ninety days, according to the returns of the companies, shows an *increase* when compared with the June 30th, 1937, period of \$94,823.37, and the amount reported by General Agents an *increase* of \$29,042.41, making an aggregate *increase* of \$123,865.78. Compared with the same period in 1936, there is a decrease of \$156,389.23 in the amount reported by the companies, and a decrease of \$15,222.35 in the amount reported by the General Agents.

8. Reference to paragraph 1 will show that only a very small number of companies have failed to file their returns for this period; also the number of General Agents not complying with the request has been considerably reduced. This paragraph also shows that the number of "NIL" returns has increased.

Referring to paragraph 2, an improvement will be noted in the number of companies to which agents are indebted for the same period last year. Although there is an increase in the number of outstanding accounts over the last period (June 30th), there is a considerable decrease in the number reported for the September 30th, 1936, period.

9. *NEW RETURN FORMS*: For the quarterly period ending December 31st, 1937, Return Forms have been printed and will be supplied to the companies and General Agents. This is in accordance with the recommendation of the Special Committee on Credit and Free Insurance Evils, submitted to the recent conference of Superintendents of Insurance at Toronto. It is to be hoped that the standardization of the forms will be the means of saving the companies and General Agents considerable time in the preparation of these Quarterly Returns, and will enable the dilatory few companies and General Agents to get their Returns in on time. *In this connection it is my intention to publish a list in the next report of those companies and General Agents whose Returns do not reach the Department on or before the 31st day of January, 1938.*

There are still a number of companies and General Agents not preparing their Returns *alphabetically* and according to *location* as they are listed in this report. I should be obliged if those companies and General Agents would endeavour to comply with our request in making their next Return.

HARTLEY D. MCNAIRN,
Superintendent of Insurance.

Toronto, Ont.,
November 1st, 1937.

APPENDIX X

RESUMÉ OF PROCEEDINGS OF A MEETING HELD JANUARY 28TH, 1937,
WITH OTHER THAN LIFE INSURANCE COMPANY REPRESENTATIVES
CONCERNING THE FIRE AND CASUALTY INSURANCE BUSINESS

The meeting was called to order at 10.05 a.m. by the Superintendent of Insurance, who attended the meeting as Chairman. Mr. Edwards acted as Secretary. The following representatives were present:

Hartley D. McNairn (Chairman).....	Ontario Superintendent of Insurance.
R. Forster-Smith.....	Royal-Liverpool Group.
John Holroyde.....	Commercial Union Insurance Company.
John Jenkins.....	Employers' Liability Assurance Company.
Colin E. Sword.....	Union Insurance Society of Canton.
Kenneth Thom.....	Western-British America Group.
William P. Fess.....	Toronto and Canadian General Insurance Companies.
W. Spry.....	Toronto and Canadian General Insurance Companies.
H. W. Falconer.....	Dominion of Canada General Insurance Company.
W. E. Baldwin.....	Continental Fire Insurance Company.
H. C. Mills.....	Insurance Company of North America.
John Edwards.....	Ontario Department of Insurance (Actuary).

The Chairman opened the discussion with a brief statement, explaining why the insurance executives had been called to attend a special meeting, and stated that during the period in which he had occupied the position of Superintendent of Insurance for Ontario complaints had come to his attention concerning existing conditions in the fire and casualty insurance business. These complaints, which came from the public, financial and insurance journals, insurance company executives, agents and brokers, appeared to suggest that undesirable or unhealthy conditions existed in the other than life insurance field, and the Chairman explained that he would like to have an individual expression of opinion from the company executives present concerning their views on this matter. Firstly, were the members present satisfied with existing conditions in their business? If not, would the members present describe any unsatisfactory or unhealthy conditions and the causes thereof. Secondly, the Chairman invited general comment from each member concerning the extent to which, by regulation of the business itself or through the co-operation of the Superintendent of Insurance, any undesirable conditions which might exist in the business could be eradicated.

The consensus of opinion of the members present appeared to be:

- (1) That conditions in the other than life field appeared to be very little different over the past number of years.
- (2) That during the depression period it had been difficult for insurers to carry on business, in the face of a forty per cent reduction in premium income in Canada, due to the large number of companies operating, but with better times ahead (normal construction and increasing property values) such a factor would tend to reduce these so-called depression problems.
- (3) That problems would always exist in the insurance business as with other kinds of business, but the insurance companies could and would within their own ranks find ways and means to alleviate such problems as they arise. No suggestion was made as to how the Insurance Department could usefully assist in the betterment of insurance practices.

The Chairman then requested the members present to reply to a number of questions which he proposed to put to the meeting, and the secretary of the Insurance Department reported the discussions and answers to such questions.

At the conclusion of the meeting the members present agreed to furnish the Chairman with commission schedules applicable to the writing of fire business in the City of Toronto, showing the various rates allowed, including the maximum rate. Also, the Chairman agreed to furnish the members present with (1) a memorandum outlining the nature of the complaints which had come to his attention, and (2) with a copy of the questions shown herein as Appendix I.

A short official memorandum, dated January 28th, 1937, was then read to the members and copies of same distributed. A copy of this memorandum is appended hereto and shown as Appendix II.

The Chairman expressed the opinion that it was his intention to call a further meeting at a later date, and the meeting adjourned at 1.10 p.m.

January 28th, 1937.

JOHN EDWARDS,
Secretary.

APPENDIX X—Continued

Appendix I.

QUESTIONNAIRE

- (1) Do you, gentlemen, consider that the regulation now being given the fire business in Eastern Canada is constructive in its effectiveness, and entirely satisfactory?
- (2) Do you, gentlemen, believe there are too many companies doing business in this Province?
- (3) If there are too many companies doing business, what is the effect that this excessive insurance market is having upon the general situation at large?
- (4) Are there any Canadian casualty companies with head offices in Canada operating tariff?
- (5) Are you satisfied that the casualty business is being given constructive and satisfactory regulation?
- (6) Has there been a situation existing that has necessitated the Canadian Underwriters' Association or Dominion Board of Insurance Underwriters to confer and deliberate along lines of changing present practices or dealing with what might be termed an unsatisfactory state of affairs?
- (7) Has the situation in Canada prompted the creation of a Canadian Committee composed of senior British executives in England?
- (8) Has the Canadian situation necessitated the formation of an American Committee of senior executives to deal with the general situation?
- (9) Has a report been compiled by any regulatory body, its officials or associates which would embrace new administration measures such as dealing with the agency and commission situation?
- (10) Has this report been officially or unofficially or in any manner whatsoever conveyed to British senior executives or their Committee dealing with Canadian affairs?
- (11) Has this report been conveyed to Mr. Paul Haid or to the American Committee directly or indirectly?
- (12) Was there a condition prevailing throughout Western Canada that prompted recently a Committee to investigate the situation, and did their report in any way refer to abuses in Eastern Canada?
- (13) Have there been any changes or general broad revisions with respect to rates by classes that would reflect a tendency of keeping abreast of underwriting experience or improved conditions in general construction and protection within the business in Ontario?

For example: (a) Has the basic rate in the City of Toronto been changed within the past ten years, or when was the last change made in the basic rate?

(b) Has there been any change in dwelling rates in any of the cities or unprotected centres of Ontario in a general way?

(c) I realize that there is a constant change in the publication of rates on individual risks and schedules, but my comments and interest are more directed toward basic changes that would affect all risks within a class.

- (14) What is the maximum commission on mercantile risks paid in the City of Toronto, irrespective of the location of the risk, by you gentlemen?
- (15) What is the maximum commission on dwelling business, including profit commission, paid in the City of Toronto by you gentlemen?
- (16) Is it correct that, aside from the maximum general commission paid, allowances are given in many instances for postage, telephone, free stenographic service and, in some instances, free office rent, which of course would all be in excess of the commission paid?
- (17) Is it correct that, for example, where you pay 20% or 25% to an agent on a given risk in Hamilton or London, Ontario, if the same risk comes to your companies in a schedule or individually written through a Toronto agent, that you would pay 30% to the Toronto agent or, in other words, there is no protection afforded the outside local agent?

APPENDIX X—*Continued*

- (18) What is the approximate operating disbursement of the Canadian Underwriters' Association annually?
- (19) Are you gentlemen in favour of my Department giving the force of law or some form of effective administration toward your voluntary rulings?
- (20) Would you support my making effective your rulings once acceptable to me, subject to severe penalties?
- (21) Do you believe that you are capable of enforcing effectively your commission rules in this territory?
- (22) Do you believe it would be in the interests of the public to have so-called non-tariff companies affiliated with the Canadian Underwriters' Association in the sense of pooling their experience and bringing about a form of rating procedure that would establish what might be termed a more equitable rating standard?
- (23) Do you gentlemen from United States consider that the New York State general procedure would be of assistance and benefit in this territory, and if not, why not?
- (24) Are you gentlemen showing any underwriting profit in your general casualty business in this territory? If not, why not?
- (25) Is it not correct that your agency limitation rule has been responsible for bringing in or the continuing of a large number of affiliated companies or so-called "pups"?
- (26) Do you indulge in what might be termed "flat rating"—meaning by that naming a rate without applying any definite rating schedule or formula?
- (27) Do you consider that the basic rate in the City of Toronto could be substantially reduced, giving due regard to sound underwriting practices?

*Appendix II.*MEMORANDUM FOR REPRESENTATIVE FIRE AND CASUALTY INSURANCE
EXECUTIVES INVITED TO MEET THE SUPERINTENDENT OF INSURANCE
FOR ONTARIO IN HIS OFFICE ON THE 28TH DAY OF JANUARY, 1937.

It is now upwards of one year since I assumed the office of Superintendent of Insurance for Ontario. During that period complaints touching conditions existing in the fire and casualty business have come increasingly to my attention. Financial and insurance journals, ordinarily recognized as mouthpieces of the opinions of the insurance fraternity, have been deploring conditions in the business in their editorial columns and otherwise, ever since I assumed office. Conversations I have had with senior executives and agents of many companies only serve to confirm the existence of these conditions.

The Superintendent of Insurance has the responsibility under Section 4 of *The Insurance Act* to "examine and report to the Minister from time to time upon all matters connected with insurance." Likewise he has the authority and responsibility under Section 277 of the Act "to enquire into any question which the insurer, insured or rating bureau may bring before him with regard to the insurance rates fixed by underwriting bureaux or charged by an insurer, and also with regard to any other question arising out of the relationship or proposed relationship of the parties with reference to the insurance in question." With respect to the latter provision, the Act continues, "the Superintendent shall not make any order pursuant to an enquiry under this section, but the result of such enquiry shall be reported in his Annual Report." I have in mind reporting conditions in the fire and casualty insurance business to the Minister in the manner I am directed so to do by Section 4 of the Act, but before so doing I contemplate an enquiry under Section 277, the results of which will no doubt be reported in my Annual Report.

It is not my intention to undertake an enquiry into these matters of the character undertaken by the Hon. Mr. Justice Masten pursuant to the Commission issued to him by the Government of Ontario on the 2nd day of August, 1916, or by the late Hon. Mr. Justice Hodgins pursuant to the Commission issued to him on the 8th day of February, 1929. It is sufficient for my purposes at this time to direct your attention to the fact that I have before me the reports of these Honourable Commissioners, and that it appears to me, from the information which has come

APPENDIX X—*Concluded*

to the Department, that conditions in the fire and casualty insurance business of which these Commissioners complain have grown worse during the years which have intervened since they submitted their report.

The conditions to which I refer relate specifically to the methods, rules, regulations and practices of insurers and their organizations with regard to the making, promulgating and forcing or controlling of rates, commissions, forms, clauses, contracts and the placing of insurance. They relate to the cost of fire and casualty insurance to the public as represented by the premium rates fixed, made or charged by insurance companies transacting these classes of insurance in the Province.

Before undertaking the enquiry which I have in mind, under the Act, and before submitting any report to the Attorney-General, I have concluded to tell a representative group of executives, such as is assembled here today, just what I have in mind, with the thought that ample opportunity should be afforded them to meet and plan what action can be taken, without the intervention of the Department, to cure the conditions concerning which there is such widespread dissatisfaction. While I appreciate that there has been ample opportunity during the twenty years which have intervened since the appointment of the Masten Commission for the men in the business to solve the problems then existing and which have not yet been solved, nevertheless the men responsible for the policy of the several companies and groups of companies have changed during the intervening years, and it seems only fair and reasonable to me that they should be given a special opportunity to consider and report to me what can be done today. I am satisfied that, if I can couple my report on conditions to the Minister with a report showing that prompt and effective action is being taken by the business to regulate or to cure these conditions, he will be only too content to permit these plans to be worked out with such supervision and co-operation as the Department may be required to give and privileged to offer. On the other hand, I suspect that, if my report cannot be coupled with such a prospect, the Government will feel bound to consider carefully if the public interest does not demand further intervention by this Department in the business. In formulating these plans I should like to extend the co-operation of the Department and to assure you that if any means occur to you by which you think this Department can assist to stabilize the business and improve the conditions in question, any suggestions will be sympathetically received.

HARTLEY D. MCNAIRN.

Toronto,
January 28th, 1937.

APPENDIX XI

UNDERWRITERS' AGENCIES

The following insurers have been licensed to issue policies through the underwriters' agencies noted after their respective names for the term ending June 30th, 1937:

Company	Agency
Norwich Union Fire Insurance Society, Limited	British and Canadian Underwriters' Agency.
Lumbermen's Mutual Casualty Company	Canadian Motor Underwriters' Agency.
Central Manufacturers' Mutual Fire Insurance Company	Delaware Underwriters' Agency.
Westchester Fire Insurance Company	Edinburgh Underwriters' Agency.
Scottish Union and National Insurance Company	Home Underwriters' Agency.
Home Insurance Company	London Underwriters' Agency.
London Assurance	Montreal Underwriters' Agency.
Insurance Company of North America	Nova Scotia Underwriters' Agency.
Home Insurance Company	Pearl Underwriters' Agency.
Pearl Assurance Company, Limited	Protector Underwriters' Agency.
